KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be prevented and cured. Those who doubt these assertions should read the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled, THE SCIENCE OF LIFE: OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decay of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

This edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than $25 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE: OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that be married or single can either know or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE: OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a cotton medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance. Author:

A. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is a delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

Lynn, Mass.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, according to old and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound and Kidney Complaint and Scrofula Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at 6% per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

Principal Contractor.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Gentian, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not ever take BLUE PILLS or arsenic, they are deadly. Place your trust in SULPHUR BITTERS, the purest and best medicine ever made. Your Kidneys are out of order? SULPHUR BITTERS. If you are sick, no matter what ails you, use Sulphur Bitters! Don't wait until you are unable to walk, or are flat on your back, but get some at once, it will cure you. Sulphur Bitters is The Invalid's Friend. The young, the aged and middle aged can drink well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow, but Try a Bottle To-Day! PRICE, ONE DOLLAR. A. P. Ordway & Co., Chemists, Sole Proprietors for U. S. and Canadas.

David Clark of Peterboro', sixty-two years of age, employed in the Briggs piano stool manufactory in that town, committed suicide on Sunday evening. He had been despondent for several weeks. He leaves a widow and three children.

A. N. Shedd, for twenty-three years overseer of weaving in the Jackson corporation at Nashua, was found dead in his carriage at the Edgeville tool works at a late hour one night recently. He is supposed to have died from heart difficulty while travelling, his horse following the highway to the place where found.

—Rev. Mr. Talmage felt somewhat ill while he was out of town recently, and he sought the services of a strange physician. After a long examination the physician said he ought to exercise his lungs.

—In the opinion of the Washington *Critic*, Colonel Cockerell, of the St. Louis *Post-Despatch*, "acted hastily." It seems to us that if there ever is a time when an editor should be in something of a hurry, it is when two visitors are waltzing toward him with cocked pistols. Chesterfield says that a gentleman should always assume an air of elegant leisure, but Chesterfield never edited a paper in St. Louis.

Snakes As Life Destroyers.

The loss of life in India due to the ravages of venomous snakes is almost incredible. Yet consumption, which is as wily and fatal as the deadliest Indian reptile, is winding its coils around thousands of people while the victims are unconscious of its presence. Dr. R. V. Pierce's "Golden Medical Discovery" must be used to cleanse the blood of the scrofulous impurities, for tubercular consumption is only a form of scrofulous disease. "Golden Medical Discovery" is a sovereign remedy for all forms of scrofulous disease, or king's-evil, such as tumors, white swellings, fever sores, scrofulous sore-eyes, as well as for other blood and skin diseases. By druggists. 6

"Free marriage" has been introduced in France by M. Elisee Reclus, the author of the Universal Geography. By this method he has united his two daughters to the men of their choice. Free marriage means the union of two persons in the connubial relation without either the religious or the civil ceremony. The father simply invited his friends to a banquet over which he presided, and then literally "across the walnuts and the wine," he pronounced the marriage of his two girls to their lovers. If this process "stands law," it has the advantage of being simple, expeditious and economical.

Only Two Bottles.

Messrs. Johnson, Holloway & Co., wholesale druggists of Philadelphia, Pa., report that some time ago a gentleman handed them a dollar, with a request to send a good catarrh cure to two army officers in Arizona. Recently the same gentleman told them that both the officers and the wife of Gen. John C. Fremont, Gov. of Arizona, had been cured of catarrh by the two bottles of Ely's Cream Balm.

Messrs. Ely Bros., druggists, Owego, N. Y.—A few days ago I saw a lady who had used your Cream Balm for catarrh, and had found more relief in one bottle than from all other remedies she had tried. I enclose $1 for two bottles. Yours respectfully, JAMES HITCHEN, M. D., Providence, R. I.

Apply into nostrils with little finger.

The proprietors of the Mt. Kineo house, at Moosehead lake, Me., which was recently destroyed by fire, have begun preparations for rebuilding. The frame is on the ground for a building which will serve for the business this winter; the telegraph office will be re-established this week, and as soon as the plans are completed work will be begun on the hotel. It is hoped that before the next season opens there will be ample and superior accommodations for the business of this favorite resort.

Everybody is using, and everybody is recommending to everybody's friends, Brown's Iron Bitters as a reliable iron medicine, a true tonic.

One of the worst foes of the fishermen of this coast has been the prolific dogfish, which, of no value in itself, has been an arch-destroyer of valuable species. But now, after many experiments, a fish scrap has been made from it which is said to be excellent food for fowls and from which a useful oil can be expressed, leaving a residuum of much value as a fertilizer. If the sanguine discoverer of this process succeeds in transforming the dogfish from a curse into a blessing he will deserve well of his fellow-citizens.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes, Horticulture & Fruit-Growing, Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volumes of THE COUNTRY GENTLEMAN for 1882 was GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, but the terms still continue as follows, when paid strictly in advance: ONE COPY, one year, **$2.50**; FOUR COPIES, **$10**, *and an additional copy for the year fo co the sender of the Club*; TEN COPIES, **$20**, *and an additional copy for the year free to the sender of the Club.*

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy, sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. ALL THE CONGRESSMEN

of the state

REPUBLICAN ! !

While some hitherto republican states "flopped" on the 7th inst., the old Granite State stood firm for the right, and responded to the mud campaign of the democrats by an old-time republican victory.

The latest returns on the 8th inst. indicated the election of Hale as governor by a small majority; of Haynes and Ray for Congress by about 2000 majority each; of four of the five councillors, sixteen of the twenty-four senators, and a very large majority of the members of the house. The counties of Rockingham, Strafford, Cheshire, Merrimac, Sullivan and Hillsboro' were carried by the republicans; Coos, Carroll and Grafton, by the democrats; and Belknap is in doubt.

Some of the papers—democratic and republican—in other states, badly good deal to say before the election in opposition to the ways of the New Hampshire republicans, but they generally manage to carry their own state, which is more than some of their critics have done this fall.

Election Notes.

Governor Butler of Massachusetts will feel lonesome. The lieutenant governor and other state officers, seven of the eight councillors, and a large majority of the legislators, are republicans.

Robeson was defeated for Congress in New Jersey.

Kellogg was elected to Congress from Louisiana.

New York's majority for governor is estimated by the *Times* at 174,000.

As things now look, the next national house will have from thirty to fifty democratic majority.

"Red-Headed Anderson."

One of the most widely-known men in the country, for a few months, was a witness named Anderson, who appeared before the congressional committee of which Mr. Potter was chairman, shortly after the election of President Hayes. This gentleman, from the color of his hair and the quality of his testimony, was dubbed by the papers "Red-headed Anderson, the champion liar," but he soon passed from the public view.

A few days ago the death was announced at Eureka, Nevada, of James E. Anderson, editor of the *Leader* of that place, who was shot in a street fight with a local politician. The name had a strangely familiar sound in the first account of the affray, and the statement that Anderson came to Eureka from New Orleans went far to confirm a suspicion as to his identity.

It appears that this man, who met his death in such a tragic manner, was none other than the notorious witness before the Potter committee at Washington in 1878, when the Louisiana election of 1876 was investigated. Anderson was then a custom house clerk at New Orleans, and had been appointed supervisor of elections in the parish of East Feliciana. After coming back to New Orleans with a bullet hole through his clothes and a statement that he had been driven out by violence, he was finally induced to return and hold the election. On the testimony of a good many witnesses, the returning board rejected the vote of the parish on the ground that the republicans had been intimidated and prevented from voting. This was also Anderson's statement as he finally allowed it to stand, after telling various contradictory stories.

It appeared that Anderson found himself in a position where he thought the result of the election hung upon his testimony, and was ready to testify either way for a consideration. He sought to implicate Senator Sherman and Stanley Matthews, but he proved himself such an incorrigible liar and scamp that his testimony was worthless. Among the correspondence which he produced before the Potter committee was a letter from Mr. Matthews which attracted much attention, recommending that Anderson be appointed to "a consulship in a hot climate." But he did not get his reward, if any was promised, and dropped out of sight after the investigation. The manner of his death is not an unfitting close of his life.

News and Notes.

At Nashville, Tenn., the night before election, a street car was driven through a crowd while republicans were speaking, and an old colored man named King was killed. The infuriated crowd attacked the driver of the car, and would have killed him but for the determine l courage of a colored constable named Dowdey, who though knocked down several times held the crowd at bay until the police arrived. Woodward, the car driver, was lodged in jail after being roughly handled.

The six per cent. bonds of the Topeka, Salina and Western railroad offer great security to investors. Tapping the choicest lands of Kansas the future of the road is very promising.

On the morning of election day, at Rockingham, N. C., a revenue officer named O. J. Spears led a mob of over a hundred negroes into the town, and demanded that they be registered as voters. The mob was attacked by a large party of white men, and driven from the polling places. Spears was badly beaten, and several negroes were severely injured. As this report comes from democratic sources, it is quite likely that the details will be essentially modified by further statements.

The jail at Vienna, La., was entered on the night of Nov. 6th by a posse of men supposed to be from Jackson parish, who broke their way to the prisoners they wanted. Four men who had been taken to Vienna from Jackson parish for safe keeping were carried from the jail. One escaped, and another it is supposed was released. The other two were found next morning near the town, dead and badly mutilated with bullets. They were negroes charged with robbery.

"C. B. MAHAN, AGENT."

A despatch of Nov. 3d from Montreal, Canada, says: "Charles B. Mahan, from Lebanon, N. Y., who carried on an extensive agricultural implement works here, has disappeared, leaving liabilities to banks, brokers and farmers to the extent of $100,000. Mahan is believed to have gone west." The farmers of York county will remember—some of them with great sadness—the career in their section some years ago of "C. B. Mahan, agent of the Granite Agricultural works of Lebanon, N. H.," whose operations drew a good deal of money from their pockets, with no equivalent, and finally brought the "agent" before the supreme court at Saco, the trial resulting in his getting off scot free. Wonder if the Montreal operator isn't the same fellow?

A despatch of Nov. 4th from Montreal says: "The swindle which the firm of Mahan & Co., agricultural implement manufacturers, has perpetrated upon farmers throughout Canada, is developing into huge proportions. In one township alone $8,000 is due the residents. A large number of actions have been entered against the defaulter, ten seizures being placed on the factory and three capiases issued against his person, beside criminal proceedings. Detectives are out after Mahan. Every hour brings some new feature of the extensive robbery to light."

Mahan got into the shadow of the Maine state prison by his swindling in York and Cumberland counties, but he was so shrewed and cautious in his proceedings that he could not be placed inside the institution, as he deserved. It is hoped he will have a chance to taste Canadian criminal law.

—An Olean man sent one dollar in response to an advertisement which promised, in a mysterious way, to tell "Why I became a Mason." He received an answer, "Because I didn't want to become a carpenter or shoemaker."

—An Iowa paper has supplied a long-felt want by giving to the public an obituary notice that bears upon its face the stamp of honesty. It says: "He gained his riches by loaning money and handling notes and mortgages, had a state-wide name for his litigation in various counties and in the supreme courts, was grasping and heartless in his transactions, became divorced from his wife, and died without a friend."

—A quaint old minister was once asked what he thought of his two sons, who were both preachers. "Well," he replied, "George has a better show in his shop window than John, but John has a better stock in his warehouse."

—Many amusing stories are told of the way in which Chinamen give evidence in Christian courts of justice. In England it is the custom to break a delicate China saucer over the head of the Chinese witness; and this is supposed to insure truth-telling. There was a Chinese witness in a trial which was recently held in San Francisco. The judge, evidently not being quite satisfied that the witness understood the object of the form he had just gone through, asked him, as is usual in such cases, if he understood the object of an oath. "Perfectly," replied the witness with the utmost confidence; "I know that if I tell a lie every one in the court will be damned." An equally amusing illustration of the ignorance of the Chinese in the matter of our judicial oath was furnished some time ago by the native usher in the consular court at Shanghai. He was observed to be making an anxious search for some missing object; and on being questioned by the judge, he stated that he was looking for the little book which is given to the witnesses to smell! And this man had been for eighteen years usher of the court!

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

HURRAH FOR RYE!

Let not our republican brethren be downcast over the abominable election news furnished by the associated press and other bloated monopolies; the blackest cloud has a silver lining, if one can only get to the proper point of view, and the one gleam of silver in the dismal cloud which swept o'er the land on the 7th of November is due to old Rye—not the article which a democrat thinks of when "old rye" is mentioned, but our neighboring town of that name. The republicans of that democratic stronghold made a net gain of seventeen on the governor vote at the recent election, over that of two years ago.

ROCKINGHAM COUNTY VOTE.

Returns from all the towns in Rockingham county except Sandown, and counting the vote of that town the same as last year, give Hale, for governor, 5942 votes; Edgerly 4653; Hale's majority 1289.

Kent, for sheriff, has 6141; Wendell, democrat, 4558; Kent's majority 1583.

Johnston, for county commissioner, has 6097; Noyes, democrat, 4679; Johnston's majority 1418.

For county solicitor, Wm. Russell Foster has between 1100 and 1200 majority.

Col. Kent heads the ticket, leading the gubernatorial candidate by about 200 votes; and Mr. Johnston comes next, falling only 44 votes behind Col. Kent.

POLICE COURT.

WEDNESDAY, NOV. 8; *Batchelder J.*

Joseph Hussey, Jerry Daley and James Berry, for drunkenness, were each assessed $9.90, fine and costs, and all go to the county farm.

William Goodroe and Albert Perkins, charged with assault, were adjudged guilty, and sentenced to pay fines and costs, but were allowed to depart on promising to leave town.

CIRCUIT COURT OF THE UNITED STATES.

Wednesday morning, the 8th inst., was the time fixed for hearing the motion of Norton's counsel to have his suit against the city of Dover placed in the jury list for trial at the present term. Mr. Caverly appeared for Norton, and J. L. Roberts, Wallace Hackett, McLane of Dover and Barnes of Nashua for the five cities. The hearing was postponed to Monday, the 13th inst., on account of the ill health of Judge Lowell.

WOMAN BURNED TO DEATH.

County Commissioner Johnston received information on the morning of the 8th inst. that a woman had been found dead at the house of Stephen Scammon in Stratham, under somewhat suspicious circumstances, and notifying Sheriff Kent, the two went to Stratham, and with the selectmen of the town proceeded to investigate the case.

The woman it appears had been living with Mr. Scammon for some time as housekeeper. Her name was Mary Ann Saunders, and she was sixty-three years old; she was born in Connecticut, and came to Scammon's a year or more ago from Boston, where she been working in a boarding house on Holly street; she had been married three times, and had five children, all of whom died young.

She was intemperate, and on the afternoon of election day had been drinking ale and cider. At about six o'clock Andrew Wiggin and Levi Colby, neighbors, heard an outcry at Scammon's place, and on going to ascertain the cause found him sitting on the doorstep with only a shirt on, and saying "She's up stairs, up stairs;" the house was full of smoke, and Wiggin and Colby hurried to an upper room, where they found the woman on the floor, shockingly burned, and the bed on fire. They took the woman out, but she soon died. The fire was extinguished with buckets of water, and a broken kerosene lamp was found on the floor. Besides the burns on the woman's body, she had a bad cut on the forehead, probably caused by her falling on a box that was in the room.

Mr. Scammon was badly burned, and nearly suffocated; and Dr. Odell doubts his recovery. He says he heard the woman call for help, and went up stairs (he had been in bed down stairs) to her aid, but could not get her out of the room. The sheriff thinks the affair was due to the accidental dropping or upsetting of the kerosene lamp by the woman while she was intoxicated.

This was the third time that house had been on fire in two years, a bed having caught on election day two years ago. About four years ago a barn on the same place was burned.

RYE.

The town officers chosen on the 7th inst. were as follows: Moderator, G. Harrison Jenness; supervisors, Wallace S. Goss, Joseph W. Garland and Emmons B. Clark; all democrats, of course, as is the representative-elect, Joseph J. Drake. On the state ticket the vote was: For governor—Edgerly 162, Hale 76, Woodbury (greenback) one; for member of Congress—Chandler 162, Haynes 77, Chesley one; for senator, Hall 163, Smith 76; for councillor, Sleeper 153, Chase 75. In 1880 the democratic vote for governor was 195, to 92 for the republican candidate, showing a democratic net loss of seventeen this year. Both parties expected a light vote, but neither anticipated such a net loss to the democrats.

At the democratic caucus held Saturday evening, the 4th, one informal and ten formal ballots were taken for a candidate for representative, without a choice, and the caucus was adjourned to Monday evening, when Mr. J. J. Drake was nominated on the first ballot by a small majority.

Charles E. Sleeper, candidate for councillor on the democratic ticket, ran nine behind the governor vote, notwithstanding he is a native of Rye, and it is not very often that a townsman has a place on a state ticket.

One name was added to the checklist after the voting had commenced, and the same thing was done two years ago; but the supervisors refused to put on the list the name of a young man who has recently become of age, for the reason that application was not made to them previous to ten o'clock on the Monday proceeding the election. It is acknowledged on every side that previous to this election it has been customary to add names up to the time the meeting was called to order, if no doubt existed of the right of the applicant to have his name put on.

Capt. Benjamin W. Marden, who died Oct. 27th, at the aged eighty-two years, was a pensioner of the war of 1812, he having done service at Newcastle in that war. He was postmaster during a portion of Polk's administration. Six children survive him, four living in Boston and two in California.

Horace Sawyer, A. J. Drake and Frank A. Philbrick are engaged in building quite extensively at the south end, and by the time the "season" opens in 1883 their facilities for accommodating the lovers of salt water will be much increased from what they were during the season of 1882.

We tender our thanks to Mr. William S. Hazel, clerk of ward four, Mr. James A. N. Rugg, clerk of ward one, and Mr. Fred H. Akerman, clerk of ward three, for promptly furnishing us with the election returns of their respective wards; also to Walter H. Page, Esq., of the *Times*, for the returns from ward two, which but for his courtesy we might have been put to considerable trouble to procure.

In our table of the city's election returns, as printed in the CHRONICLE of the 8th inst., Sheriff Kent's vote in ward two was put down as being 307, instead of 507 as it should have been. Owing to this error his vote appeared to be the lowest in the list, whereas he actually headed the ticket.

The *Times* displays a number of roosters over the election returns, one of them being especially big and fine-looking. The *Times* has had him shut up in the coop for a good many years, getting fat; have to put him back again by-and-bye.

Henry B. Lovering, congressman-elect from the sixth (Lynn) district of Massachusetts, is a native of this city, having been born here in 1841.

An entertainment is to be given at Grange hall, this (Thursday) evening, under the auspices of Strawberry Bank Lodge, No. 54, I. O. G. T., consisting of literary exercises, tableaux, etc. All are invited.

The Washington (D. C.) *Sunday Herald* of the 5th inst. says: "The wedding of Mr. Seymour W. Tullock and Miss Jessie S. Hildrup, of Iowa circle, daughter of W. T. Hildrup, Esq., of Harrisburg, Pa., is announced to take place at the Mission chapel, St. James', of which parish Mr. Tullock is junior warden, on Wednesday, the 22d instant. On account of the bride being in mourning the ceremony will be strictly private, and no cards will be issued." Mr. Tullock is the only surviving son of Hon. Thomas L. Tullock, assistant postmaster of Washington, and formerly a resident of this city.

While Martin V. B. Edgerly, the democratic candidate for governor, had a majority of forty-seven over Hale in the city of Manchester, Martin A. Haynes, the republican candidate for congressman from this district, had a plurality of 939 over George Byron Chandler, the democratic candidate, and a majority of 924 over all others.

Wm. Quinn—not Wm. Quinn the fish peddler, but a young man who came home from Boston to vote—had a fight on Water street, on the evening of election day, with John Hayes, in the course of which the latter had his right thumb so badly bitten that it was supposed amputation would be necessary. Hayes some time ago blew off part of one finger on his left hand with a pistol. Warrants have been issued for Quinn's arrest, on charges of assault and mayhem.

Capt. Elwell, of the schooner Commonwealth, who had his leg broken recently by the fall of a barrel of lime while discharging a cargo at the Concord railroad wharf, was on Thursday of this week accompanied to his home in Rockland, Me., by Bro. Robert King, acting in behalf of the two masonic lodges of this city, Capt. Elwell being a member of the order.

Among the residents of this vicinity who came home to help save the country on the 7th inst. were Capt. Garland, of the schooner D. K. Ham, and Capt. Coleman, of the schooner Emily A. Staples, who left their vessels in Boston and came home to vote. They returned on the 8th.

Sloop C. T. Derry, of Boston, went on the ways at Kittery this week. She belongs to the contractors who during the summer were at work removing Gangway rock.

A republican of this city—a newspaper man—made fifty dollars clear in a few minutes on election day; he offered to bet that sum with a democrat that Butler wouldn't be elected governor of Massachusetts, and the democrat wouldn't bet.

The shipwrights employed on the U. S. S. Omaha, now undergoing repairs on the ways at the navy yard, say she is one of the best constructed ships they ever saw.

There was a collison on the Maine Central railroad Wednesday forenoon, the 8th inst., the directors' train which left Bangor in the morning colliding with a regular train at Lincoln. President Phillips of the Eastern road, President Jackson and Supt. Tucker of the Maine Central, and several directors of the latter road, were in the directors' car.

It is common talk on the streets that the workmen engaged in removing the ledge off Badger's island point have been dumping a part of the rocks raised in the deep water near the ledge, instead of transporting the whole to the breakwater at Newcastle, as the contract demands.

—"Why should you celebrate Washington's birthday more than mine?" asked a teacher. "Because he never told a lie!" shouted a little boy.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, called THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the sins of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is sought ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Guaranteed sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a vastly superior medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can receive the benefit of the skill and experience of the Science of Life, or Self-Preservation, which may be consulted on all diseases requiring skill and experience. Address

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is a delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

The Halifax Horror.

Thirty-one persons—eight men and twenty-three women—were burned to death in the fire which destroyed the poor-house at Halifax, N. S., on the night of Nov. 6th.

The details of the disaster are horrible. The asylum was an immense structure, and the fire, which caught in the basement, quickly rushed up the elevator shaft to the sixth story, and burned through the roof. With a stupidity almost incredible, the hospital of the asylum was located just under the roof, and the stories next below it were occupied by the most aged and feeble of the paupers; the firemen and others worked heroically to rescue the poor creatures, and did save many of them; but the bed-ridden invalids were burned or suffocated to death as they lay, and others were seen to dash themselves against the windows and cling to the sashes till their strength was exhausted or their hands burned off, and they fell back into the flames. A woman was seen to drag herself to a corner window, and forcing her body half out till she could breathe the cool air without, she remained in that position till her head was burned off.

The poor old people and little children who were gotten out of the other parts of the building were huddled together in a barn some little distance away, and were there packed around with straw and blankets to keep them comfortable till morning.

Take little annoyances out of the way. If you are suffering with a cough or cold, use Dr. Bull's Cough Syrup at once. This old and reliable remedy will never disappoint you. All druggists sell it for 25 cents a bottle.

"American Men of Letters: George Ripley;" by Octavius Brooks Frothingham. Boston; Houghton, Mifflin & Co.; price $1.25. This memoir of Ripley gives us in a faithful manner an account of his early days, his ministry, his life at Brook farm with Hawthorn, Chas. A. Dana and others of more or less note forty years ago, his work as assistant editor of the New York *Tribune*, beginning at $5.00 per week in 1849, and increasing as his ability shew itself to Greeley's discernment, his work with Mr. Dana as one of the editors of Appletons New American Cyclopædia, and his succeeding literary work down to his death on the 4th of July, 1880. An excellent likeness on steel of this most remarkable man of letters accompanies the memoir.

If cleanliness indeed be next to Godliness, we know of no one that is doing more to promote this virtue than James Pyle, through the introduction of his Pearline.

Cornelius Shea, who was convicted of being a moonlighter and of making threats against tenants who paid their rents, near Killarney, Ireland has been sentenced to seven years' penal servitude.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Suppressed or Painful Menstruation, Inflammation and Ulceration of the Womb, Flooding, Dyspepsia, and all weaknesses caused by those irregularities which are so common to women. This is a *Potent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the fire.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. It never *fails* to give quick and *permanent relief*.

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription for a time, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Ladies and Mothers of our*, yet experience, who give advice and answer letters from ladies, *free*.

Tonic will be given for any case of Female Weakness or inability which it is claimed it will not cure. This is a *bona fide* offer, made by *responsible* ladies, who know *from experience* what "LADIES' TONIC" will do and send stamp for circular.

Lynn, Mass.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I used for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BENGUNGEN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaint and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my work. You are at perfect liberty to publish this letter. WM. E. KIMBALL,

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 36 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

Principal Contractor.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Gentian, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not ever take BLUE PILLS or arsenic, they are deadly. Place your trust in SULPHUR BITTERS, the purest and best medicine ever made.

Is Your Tongue Coated with a yellow sticky substance? Is your breath foul and offensive? Your stomach is out of order? Use SULPHUR BITTERS immediately! Is your skin dry, cloudy, or high-colored? IT IS THE Sulphur Bitters! The Invalid's Friend. The young, the aged and tottering are soon made well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow, Try a Bottle To-Day! PRICE, ONE DOLLAR. A. P. Ordway & Co., Chemists, Sole Proprietors for U. S. and Canadas.

Your Kidneys are out of order? Use SULPHUR BITTERS. If you are sick, no matter what ails you, use Sulphur Bitters! Dandelion! Dandelion!

Daily Chronicle.

Never try to raise a family without a good newspaper, provided it contains the advertisement of Dr. Bull's Cough Syrup; for this valuable medicine is necessary to keep your children in good health.

On Tuesday, Nov. 7th, a consultation of physicians was held on Mr. A. Bronson Alcott's condition, and the decision was that while Mr. Alcott might live for several weeks, it was the opinion of his medical advisers that the ultimate fatal result was not far off.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

Mr. J. C. Hueston on the 8th inst. resigned the general agency of the New York Associated press, and Hon. Erastus Brooks was chosen to fill the vacancy thus created.

We are in receipt of a letter from our old friend S. Sherson, Esq., at present a resident of the town of Rawlings, in the far-off territory of Wyoming. "Dr. Graves' Heart Regulator has helped me right along," says Mr. Sherson. Glad to hear it, old fellow. Yours was an aggravated case of heart disease. The remedy you mention does the same thing in this section too; and better still, it always cures heart disease.—*Nast's Weekly Letter-File.*

—A Boston editor bounced the cook, cuffed two children, left his wife in tears, and made a bee-line for the office, and wrote: "If you want to make the world brighter and better, begin by being kind and loving to those in the small circle of your own family, and from that as a centre work out as you are permitted to go."

Indications of consumption are allayed by Hale's Honey of Horehound and Tar. Pike's Toothache Drops cure in one minute. Chills, fever ague and weakness are cured by Colden's Liquid Beef Tonic. Ask for Colden's; of druggists.

—Queen Victoria says she is proud of her soldiers. The ladies always did love the military.

*Lydia E. Pinkham's Vegetable Compound is a positive cure for all those weaknesses so common to our best female population.

—"It was terribly oppressive at the theatre last night," said Brown; "it was so hot that the blood all rushed to my head." "Well, it found plenty of room there, didn't it?" replied the unsympathetic Fogg.

,"Skill and patience succeed where force fails." The quiet skill and patient research which brought forth Kidney-Wort illustrates the truth of the fable. Its grand success everywhere is admitted. Disease never comes to us without a cause. Ask any good physician the reason and he will tell you something interferes with the working of the great organs. Kidney-Wort enables them to overcome all obstructions, and preserves perfect health. Try a box or bottle at once.

—A missionary, who once labored in Pike county, Pa., relates that during his first visit to that benighted region he commenced a sermon by saying: "As many of you, my brethren, who know Jesus, will please stand up." He paused to observe the effect of his invitation, but nobody rose. Finally an old woman, upon whose mind it dimly dawned that an apology was necessary, got up and remarked: "I don't remember enny sich man, and I s'pose it's 'cause Pike county folks never sees no society."

How Unpleasant

it is to see a beautiful child's face disfigured with vile humors, bursting through the skin in pimples, blotches and sores, and sadder still, when the young and innocent are laughed at and twitted in all such cases, parents should give them that good and pure remedy, Sulphur Bitters, which will search and drive out of the blood every particle of humor.—*Health Gazette.*

—A new baby recently arrived in the family of a Louisville journalist, and papa was excessively proud over the event. Turning to the old black nurse, "Aunty," he said, stroking the little pate, "this boy seems to have a journalistic head." "Oh," cried the untutored old Aunty, soothingly, "never mind 'bout dat; dat'll come all right in time."

Everybody is using, and everybody is recommending to everybody's friends, Brown's Iron Bitters as a reliable iron medicine, a true tonic.

—An old general sends an orderly to announce to his young wife that he shall be home to dinner, instead of leaving town on a tour of inspection. "Well," says the general when the messenger returns from his errand, "did she say anything—send any message?" "She didn't say anything, general," replies the orderly, "but she looked whole circulating libraries."

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes, Horticulture & Fruit-Growing, Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are usually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kenneoy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy, sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more true worthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3awjm

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

In the United States district court in Philadelphia, Nov. 8th, Joseph R. Black, who was recently convicted of complicity in the star route conspiracies, was sentenced by Judge Butler to pay the costs of prosecution and a fine of $600.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Lewis Burton was arrested at Weldon, N. C., Nov. 7th, while stealing lumber from the fair grounds at that place. While being taken before a magistrate he started to run off, and was fatally shot.

Spring Medicine.

As a remedy to carry off the accumulation of thick bile from the liver and viscid secretion from the other glands of the system, the Swedish Botanic Compound is invaluable. It will arouse all the functions of the body to healthy action, purify the blood, restore the appetite, and carry off those symptoms of languor and lassitude everybody feels more or less as the warm season approaches.—*Adv.*

Portsmouth Chronicle.

FRIDAY, NOV. 10, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Another Decision by Judge Lawrence.

Judge Lawrence, first comptroller of the treasury department, has decided "that we [that is, the *ins* at Washington] will be all right in 1884." Good gracious! Is it possible that this functionary cannot see that the object of the recent heavy shower was to wash out of office just such incumbents, and let a little practical wisdom into the department of the government he now "occupies?"

The American News Exchange.

A Washington despatch says the east has been flooded with circulars of what purports to be the "American News Exchange" of Cincinnati. There are various styles of circulars, and an "amusement passport" and "transportation card" with each set. No names appear upon any of the circulars. A letter in response to an enquiry came back signed "American News Exchange, per E. R." The whole object of the scheme seems to be to induce as many persons as possible to send $3, the sum necessary to secure membership and the "amusement passports" and "transportation cards." Specimens of these are sent with all circulars, with the request to fill in the name of the applicant and return them for approval of the exchange. They are printed in a form which would seem to many people to insure admission to most places of amusement, and passage on railroad trains with little trouble to the holders.

Can it be possible that Hon. Thomas B. Swan, late of Minot, Me., or C. B. Mahan, late agent of the Granite Agricultural Works of Lebanon, N. H., or both these eminent business men, have settled in Cincinnati?

Election Notes.

CONCORD, Nov. 8th, midnight.

Revised and corrected returns of 225 towns give Hale 37,540, Edgerly 36,174, scattering 921; Hale's plurality, 2,366; majority, 445. Of the eleven remaining towns, the majorities in five have been received, which, with the governor vote of 1880 of the remaining six towns, give Edgerly 170 majority, which makes Hale's majority 275. This majority probably cannot be reduced below 250, and may reach 300.

The New York *Commercial* pertinently remarks: "The result in this state, cry out the *Times* and *Tribune*, is a rebuke to President Arthur's policy." The great feature of his administration, which received the endorsement of every honest man in the nation, was his veto of the river and harbor steal. Have the people rebuked the president for this courageous act?"

News and Notes.

The United States revenue steamer Thomas Corwin, arrived on the 9th inst. at Nanaimo, British Columbia, from Sitka, reports that the Hootsnoo Indians in Alaska are troublesome and aggressive. They seized the boats and whaling gear of the whaling company at Killienoo, and took two white prisoners and threatened to kill them. Sixty-six sailors and marines from the United States steamer Adams, under Lieut. Barrett, were dispatched to the scene of the trouble. Commander E. C. Merriam proceeded thither in the Corwin. The prisoners were released, and a fine of 400 blankets was imposed as penalty. The Indians refused to pay and remained defiant, rendering it necessary for the vessel to shell and destroy a portion of the village.

A Washington despatch of the 8th inst. says: "Chief Engineer Melville's testimony will occupy the Jeannette court of inquiry all this week, and probably longer. His testimony will then be discussed and revised, which will consume several days more. After Mr. Melville, the two sailors, Noros and Ninderman, will be called and asked for their narratives of the cruise. After the sailors have told their stories, the court will take a recess until the return of those sent to Siberia to bring the remains of Lieut. DeLong and his companions to this country. The members of this second expedition will then be examined to see if they can give any information which sheds light upon the calamities of the DeLong party, after which the court will make up its report. It is said that the members of the court are not disposed to hurry matters, as they get sea pay for light duty so long as the investigation lasts."

At the town meeting in Stow, Mass., Nov. 7th, it was voted to procure two tablets to be placed in the town hall to commemorate the services of deceased soldiers. The tablets are not to cost over $350. Twenty-five names of deceased soldiers are to be placed on the tablets.

Mr. Packenham, a grandson of the British general who lost his life in the fight at New Orleans with Gen. Jackson, has been visiting the Crescent City.

An explosion occurred at the Girard colliery, Girardville, Pa., Nov. 8th, caused by the spontaneous ignition of gas in an exhausted working. The detonation was heard and felt at a distance of three miles. Earth and rocks were thrown hundreds of feet in the air, and scattered to a great distance. Windows and doors were blown in, houses shattered and people thrown to the ground, but nobody was seriously injured, although many miners were working in adjacent breasts.

Francis George Shaw died at West New Brighton, Staten island, N. Y., Nov. 7th. He was an active philanthropist, and one of the earliest and most prominent contributors to and ardent workers in the "underground railroad," by which slaves were forwarded from the south into Canada. Mr. Shaw was the father-in-law of George William Curtis, Robert B. Minturn and Gen. Francis Barlow. His son was the first colonel of a colored regiment, and died at the head of his command at Hilton Head. The deceased was a gentleman of warm sympathies, and was foremost in all beneficent works; as a republican politician he was always prominent, though of late years withdrawn from an active part in politics. His literary attainments were considerable.

Prof. Narcisse Duval, leader of the French Baptists of Worcester, Mass., who was arrested Nov. 8th for bigamy, was next day discharged, the woman who made the complaint refusing to testify after having sworn out the complaint. She was subsequently arrested for fornication and sentenced to the house of correction for three months, from which she appealed. The charge was evidently a trumped-up affair.

The wife of Dr. Kimball of Andover, Mass., attempted to get off a train at South Lawrence on Tuesday evening, Nov. 7th, before it had stopped, and falling under the cars both her feet were cut off. Her recovery is very doubtful.

In New Orleans, on the 8th inst., the gas company turned off the gas in all public buildings controlled by the city, including police stations, the parish prison, the city hall, etc. The city owes the company over $200,000 on an old debt, and on a new "cash contract" have not been paid the company the monthly instalments since July. The company offered to light the city if the city would supply lamplighters for four months, but the offer was not accepted. Street lamps are also out, and except in the vicinity of electric lights, the city is in darkness.

At the Windsor powder mills, Quebec, the building where powder is grained and polished exploded Nov. 8th. The first concussion caused by this, exploded the mill containing the press and cylinders, at a distance of eight hundred feet. Both buildings were completed demolished. About six tons of powder exploded. Ten acres of ground are covered with debris. Only one man, named Rundell, was in the mill. He was blown to pieces. The rest of the workmen were at dinner.

A. F. Bailey, of Lempster, recently ploughed up an ancient French coin bearing the date of 1757. It is larger than our silver dollar, and on the obverse bears the image and title in Latin of Louis XV, while the reverse contains the national coat of arms and various inscriptions.

"American Statesmen—John Randolph: by Henry Adams." Boston; Houghton, Mifflin & Co.; 16-mo; price 1.25.

This is the fifth number of this valuable set of biographies of the illustrious men in the earlier days of the republic. The author gives a truthful account of this celebrated man, who in his day and generation was acknowledged to possess and exercise more eccentricities than any other public man of our country. He was arrogant, intemperate, passionate and selfish, with ideas upon political subjects peculiar to himself, and often times at variance with those of the leaders of the party with which he affiliated. He died in Philadelphia in June, 1833. The question of his sanity has greatly troubled his biographer. In the work before us justice appears to be done to all his prominent traits, and the lapse of a half century since his death permits him to have his appropriate place in the history of the times in which he dwelt. A well arranged index presents a ready reference to events and personages in the book mentioned.

"The Jolly Rover: by J. T. Trowbridge;" illustrated. Boston; Lee & Shepard; price $1.25.

This is the sixth number of the Silver Medal Stories written by Mr. Trowbridge, who is a successful author of books for young readers. The book aims to portray the false ideas and misconduct that are promoted in youth by the reading of the pernicious literature of our time. His hero is a boy, well-born and carefully reared, who has got the notion that he must see the world and do something heroic; indeed, he aims to become a sort of "Dime Novel" hero, and with this intention runs away from home. His adventures away from home are varied and exciting, full of interest, and just enough thrilling to whet the reader's curiosity. The lesson is wholesome, for no one would care to follow "The Jolly Rover's" example. A number of illustrations lend attraction to the story. Every boy will wish to reader the "J. R.," and will expect to see it at Christmas.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

FRENCH AND GERMAN.

PROF. OSCAR FAULHABER, of Phillips Academy, Exeter, by special request will organize in the Portsmouth High School building two classes, one in **FRENCH** and one in **GERMAN**, the course to consist of twenty lessons for each class, to begin on Wednesday evening, Oct. 25th, at 7 o'clock.

The "natural method," as interpreted by Prof. Henera and Dr. Sauveur will be employed, no *English* being spoken in this system, which is remarkably fascinating to students of all ages, and yields the most gratifying results.

Terms, $10 for the course *in one language*, one-half payable in advance.

The public are invited to witness the work, there being no charge for visitors.

Luke Quinlan and Peter McNally, for an assault on Gilbert Patterson, were fined $4.04 each.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Nov. 9th, Mayor Treat in the chair:

Present the full board.

Records of last meeting were read and approved.

Bills amounting to $1762.26 were ordered to be paid.

Bill of James M. Carr, $5.50, for a pair of boots supplied to a city employe, was referred.

Petition of Marcellus Eldredge for relaying of sidewalk at No. 24 Bow street, was referred to the committee on streets, with power.

The city solicitor appeared, and made a verbal report regarding suits in which the city is a party. There are now three cases in which the city is concerned, in the several courts, viz.: Mary White, claim for damages for injuries received from a fall on the ice on Vaughan street, near the Eastern railroad; the suit of the city, to compel the railroads to put up gates at the crossing, which has been continued from time to time; and the patent-valve case, in which every city in the country is interested.

A communication was received from counsel for Marian L. Odiorne of Rye, relative to the payment by the city to Mrs. Odiorne of $967.39, being the award of $925 made her by a jury at the October term of the supreme court, with the costs of suit. The joint committee on finance were instructed to report an ordinance to provide for raising this sum, and also the $200 to settle the Mason suits.

On motion of Ald. Martin, the person who rings the North church bell at nine o'clock at night was ordered not to ring it again until further notice, on account of sickness.

Adjourned.

SUPREME COURT.

In the case Lenigan vs. Eastern railroad, suit to recover for damages alleged to have been caused to plaintiff's team through his horse having been frightened by a stationary steam engine negligently left by defendants on a public highway, Judge Blodgett has rendered a decision giving the plaintiff damages to the amount of two hundred dollars.

In case David Flynn vs. Eastern railroad, suit to recover the value of a chest of tea alleged by plaintiff to have been lost by defendants while in transit from Boston to this city, the finding of the court is in favor of the defendants.

THE CHASE HOME FOR CHILDREN.

The Children's Home, now known as the Chase Home for Children, was opened January 22d, 1877, with four inmates. The success of the experiment, for such it seemed to nearly all those to whom its founder, Rev. Mr. Holbrook, confided his plans, has more than proved the wisdom which suggested this charity. For without endowment, but dependent upon the constant thoughtfulness of its friends, it has not only proved a happy home for children who, without its seasonable care, might have grown up to become burdens to society, but financially it has been so well supported that at the time of Mr. Holbrook's relinquishing his personal superintendence of the Home it was practically without indebtedness. That this result was obtained by the persistent energy of the late rector of St. John's is admitted by all who were familiar with his diligent efforts to gain for the Home the interest of the charitably inclined among us, so as to place it on a permanent footing. At present nineteen children are cared for by the faithful matron, Miss Hannaford, and thoroughly trained in the practical duties of life, and impressed with the necessity of habits of industry and integrity. And it is to be hoped that the interest of all those who have so generously contributed to its support in the past will not now slacken, but that they will continue to show their appreciation of the good work going on at the Home, by renewed efforts for its maintenance. The present trustees of the Home are T. Salter Tredick, Commo. C. W. Pickering, Hon. Daniel Marcy, John Hatch, and Joseph H. Foster, who is also treasurer.

RAILROAD NOTES.

Richard O'Hare of Boston, aged fifty-six years, employed as a switchman at the station of the Eastern railroad in Boston, was struck by the engine of a passenger train about seven o'clock in the evening on Wednesday, Nov. 8th, and instantly killed.

The collision of the directors' train with a regular train at Lincoln, Me., on the Maine Central railroad, Nov. 7th, was a quite serious affair.

The special train with the railroad party left Bangor at 7:50 o'clock A. M., half an hour after the regular train east, and ran into the latter train just as it was leaving Lincoln, forty-eight miles from Bangor. The locomotive of the special, and the two rear cars of the regular train, were badly smashed.

The railroad party was bound to St. John, N. B., and there were two cars in the train. The first car was occupied by Civil Engineer W. A. Allen, Bridge Builder Booker, Road Master Wagg, and train men of the Maine Central. Allen received a cut on the head, and several of the party were cut and bruised. The directors' car contained President George E. B. Jackson, Supt. Payson Tucker, and Directors W. G. Davis, W. B. Bacon and W. W. Phillips. [The latter named gentleman belongs in Salem, Mass., and was incorrectly reported in the first despatches as President E. B. Phillips of the Eastern railroad.] Supt. Tucker received a bad wound in the head, and others of the railroad party were cut and bruised. Mr. Tucker was taken back to Bangor on a special train sent out from that city, and carried to his home in Portland in the evening; his injuries, though painful, are not dangerous.

The passengers injured on the regular train were generally occupants of the second-class car, and most of them live in British provinces. One man had a leg broken in two places; another had more or less serious injuries, while a number were bruised. The man most injured refused to give his name, not wanting his folks to hear that he was hurt. The injured men all stopped at Lincoln and had their wounds treated. None of the lady passengers received any injuries.

The cause of the accident is somewhat mysterious. It seems the regular train had been delayed by the night train from St. John, which was several hours late. Shortly before reaching Lincoln, from the Bangor way, the road passes through a cut, and makes a sharp curve; and there being a strong down grade, the special train, which was going quite rapidly, was not stopped in season to prevent the collision. No blame is attached to the train despatcher or conductors. The engineer of the special train was the most experienced one on the eastern division, and had seen fourteen years of service.

Wednesday night of this week was the coldest of the season up to that time, and the lower end of the south pond was skimmed with ice on Thursday morning.

The "True Religion," a Unitarian paper published at North Conway, gives in its recent number the occasional sermon delivered at the late Unitarian conference at Peterboro' by Rev. James DeNormandie of this city, entitled "Triumph of the moral forces."

A scow with 18,000 feet of lumber for the department of yards and docks at the navy yard was towed across the river from Broughton's lumber yard on Thursday last, by the steamer Mystic.

The schooner yacht Una, belonging to Mr. Eckstein of Cincinnati, has been hauled up at Noble's island, alongside the ruins of the old fish-wharf near the short bridge, and housed in for the winter.

The contractors' sloop C. T. Derry came off the marine railway at Kittery on Thursday, the 9th inst., and the sloop yacht Wayward, of New York, badly damaged by running ashore on Sea point, Gerrish's island, several months ago, was taken up. The C. T. Derry commenced loading the drilling gear, platforms, etc., used on the Gangway rock excavation during the summer, for transportation to Boston.

George C. Ireland, of Eliot, was thrown from his wagon on Tuesday of this week through his horse running away, the animal having been frightened by the breaking of a whiffletree. Mr Ireland was insensible when picked up, and was badly bruised, but no bones were broken.

Benjamin A. Parker, of North Berwick, Me., was taken into custody at Contoocook, N. H., Nov. 8th, as an alleged fugitive from justice. He is suspected of several incendiary fires in Maine. Parker is twenty-four years old, and is now sick at the house of his father, Rev. B. P. Parker of Contoocook. The accused is a soap manufacturer, and is reported to have had a number of fires on his own premises.

Ears for the Million

Poo Choo's Balsam of Shark's Oil

Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.

This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON RONDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and **many so seemingly miraculous**, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 500 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.

Hear What the Deaf Say!

It has performed a miracle in my case.

I have no unearthly noises in my head, and hear much better.

I have been greatly benefited.

My deafness helped a great deal—think another bottle will cure me.

"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally** testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like any body else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

KNOW THYSELF.

THE untold miseries that result from Indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.00; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

BALTIMORE, MD., Nov. 7th.

As per promise I give you a brief account of my short voyage. We had a very pleasant trip to Boston by the Acushnet. I found business brisk there, but for all that the market appeared overstocked with hands.

Although I landed in Boston early on the 1st, it was about five P. M. before the steamer "D. H. Miller" left her berth at the Central wharf for Baltimore, via Norfork, Va. The weather was heavy all the time out, but the D. H. Miller, a craft of over 2000 tons, almost new and splendidly appointed, with every accommodation, and a very agreeable company of ladies and gentlemen, made the passage a very pleasant one. What astonished me the most about the vessel was that she steered by steam; she has a small engine at each hatch for hoisting and stowing cargo, and is heated by steam. She has two very large metallic long-boats, with very large quarter-boats, and boats on the bow davits, besides a catamaran raft on the house on deck. She has state rooms to accommodate seventy-five passengers; the saloon, into which the state rooms debouch, is handsomely furnished with superb furniture, and her architecture and joiner work disply superior skill and workmanship. Her discipline is first-class; they signal to all parts of her in two seconds, and her officers answer for gentlemen in every sense of the word,—and I was sorry to leave her, but here I am in the second story of a house on Pratt street, with a sash door leading from my room to a balcony that overlooks Jones' Falls in front; and, Micawber like I am, waiting for something to turn up.

The sky is overcast, and we are favored with an occasional sprinkle of rain; it is election day here, and the drinking saloons are closed by a city law. I had some trouble to get a breakfast on account of it; but for all that, there are quite a number of weak-kneed people that steer so wild the pavement is not wide enough for them, and "sun-struck" is not an excuse for them to-day.

The atmosphere here is impregnated with an odor arising from a fertilizer manufactured here, that will discount Portsmouth north mill-pond fifty per cent. I was going to wind up with the old and approved way of wishing you "may enjoy the same great blessing," but I really believe any reasonable person would be more satisfied with ninety-nine per cent reduced, and then they would be anything else but balmy zephyrs.

Yours truly, N. J. COFFIN,
Prof. of Physics of the Globe.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

While plowing near Montgomery, Ala., a negro unearthed a pot containing several hundred dollars in gold and silver coin.

Messrs. F. W. Kinsman & Co.,—Gents.: I have sold your Adamson's Botanic Cough Balsam over my counter for nine years, and I must say that during an experience of twenty-six years in the retail drug business I have never sold anything for coughs, colds, etc., that has given such universal satisfaction as your Adamson's Botanic Balsam. I recommend it above all others. Yours truly, S. CHICHESTER, 357 Myrtle Ave., Brooklyn, N. Y.

A Republican Opinion of "Old Ben."

The Boston *Traveller*, which is (and always has been ever since we can remember) one of the most unflinching supporters of "stalwart" republicanism, pays Benjamin F. Butler the following high compliment:

Meantime Governor Butler will have our candid and charitable consideration of his official course. He is certainly as able a man as has ever sat in the executive chair, he is certainly as well equipped to perform all its duties as any of the men who have preceded him as its occupant, and being personally a man of just instincts and chivalrous impulses, kindly, genial, and generous, we have no doubt that he will rise to the full dignity of the office, and leave it as he leaves it, political opinions aside, without blame and without reproach.

The man who, as the military governor of a hostile city during the turbulent days of the rebellion, could fill the difficult position with such excellent results as Butler succeeded in effecting at New Orleans, should certainly be able to make a creditable record as governor of a state in which much more than half of the people are in his favor—and included in that "larger half" are nearly all his bitter maligners of the past twenty years—in the present piping times of peace.

Murder in Walpole.

A despatch of Thursday, the ninth inst., from Bellows Falls, Vt., says: "A mysterious affair has come to light, in which William Conland of North Walpole, N. H., was brutally assaulted on Tuesday night last by some unknown party while coming home from Walpole, where he had been to attend election. The facts, as far as known, are these: He was found on Tuesday evening a short distance above Walpole village beside the road in an unconscious condition, with a large hole in his head, near his eye, which destroys his eye entirely. His physicians say this was done by some sharp instrument. His nose was broken and his head badly bruised, as if struck with a club. To-night his condition is such that there is no hope of his recovery. He has been unconscious from the time of his finding up to the present time, with the exception of about a minute this afternoon, when he was asked who hurt him, and he replied that he did know at one time, but could not tell now. Since then he has been unconscious, and is likely to die any minute. He is a young man, and has a family. No steps have been taken by Walpole people to find out the perpetrator of the foul deed."

News and Notes.

The Universalist society of South Framingham, Mass., over which Rev. A. Hammond is pastor, has built a new chapel the past season, at a cost of about $6,000, and last Thursday evening they dedicated the chapel before an audience that completely filled the house.

Among the best investments in the market are the six per cent. gold bonds of the Topeka, Salina and Western railroad.

Daniel Murphy, the largest land owner in the world, has just died at San Jose, Cal. He went to California in 1844 and engaged in cattle raising. He owned about 200,000 acres of land in Nevada, 6,000,000 acres in Durango, Mexico, and large tracts of land in Arizona. California long ago became too contracted for him, and he had to drive his herds to Nevada and elsewhere.

Two American flags were carried in the lord mayor's procession in London last Thursday, but they were comparatively unnoticed by the spectators as they passed along the route.

Mr. Bourke, conservative, has given notice in the English house of commons that he will move that the house regrets that, after the unconditional surrender of Arabi Pasha to the British, he was delivered to an Egyptian tribunal. This was received with loud cheers.

A despatch from New Orleans announces the capture in Texas of Ex-Mayor Nevin of Adrian, Mich., who absconded some time since, with the proceeds of Adrian city bonds which he had unlawfully sold in New York.

The boys of Leicester (Mass.) academy are very much interested over a mock trial soon to take place in that institution. One of their number has been arrested by the sheriff of the school on the charge of stealing cats for dissection by the class in zoology and anatomy. The citizens of the village are interested as well, since this method of study is endangering every feline pet in town.

The gentleman must give way in rank to the honest man, who, the poet says, is the noblest work of God. There is no doubt or dispute as to the fact that the honest man must pay his debts when he is by any means able to. There is doubt of the matter in the case of the gentleman, and it is now being considered by the war department, the precise question being whether an army officer can be subjected to trial by court martial for conduct unbecoming an officer and a gentleman, on the ground that he refuses to pay his debts. There ought to be no question, but as there is, it shows that the army standard of a gentleman is below the ordinary standard of an honest man.

George Murray died in the Rhode Island hospital, Nov. 8th, from injuries received from the burning of his butcher's apron some days ago. It is said the apron was set afire for fun by his comrades in the market.

At Providence, R. I., Nov. 7th, Mr. Robert Chorlton was boarding a train when he leaned back to greet a friend, and was struck by a corner of the railway station as the cars moved out, and was thrown to the ground, his left arm being run over near the wrist, his hand completely cut off, and the flesh and bones frightfully mangled. He displayed good grit, and arose from his dangerous position and walked into the station himself. He was subsequently conveyed to the Rhode Island hospital.

Political Matters.

The election of Gen. Butler to the governorship of Massachusetts by the democrats of the state, assisted by the votes of over 30,000 republicans, shows how little permanent effect the most persistent abuse and reckless slander of a public man may have upon his political fortunes, provided the abuse is numerited and the man is plucky. Who now calls Butler a "beast" or a "spoon-thief?"

The federal "machine" was emphatically out of politics in this state this year, and we trust "the best sentiment of Massachusetts" is thoroughly satisfied with the results. There have been no republican "assessments" here, no republican "corruption fund," no republican "bosses," and no republican "machine." Thank heaven, we have at least been pure, though we have lost the election! We left "assessment" business to the democrats this time, and they have attended to it in great shape. They took up, alike from the loftiest statesman and the lowest saloon-keeper, the stiffest kind of a collection. And as for a "machine," they had a perfect one. Let us be thankful that if we are without success we are also without sin in this campaign. We were very good and pure this year—almost too good to live, the people seem to have thought. The wicked democrats have had a monopoly of the vice in this campaign—"corruption funds," "assessments," "machines" and all the rest of it. Alas, that vice and victory should go together. Verily, in politics, "Virtue is its own reward"—the other thing appears to pay dividends.—*Boston Traveller.*

THE BEST OF THE
AGRICULTURAL WEEKLIES,

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are usually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volume of THE COUNTRY GENTLEMAN for 1882 was GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, but the terms still continue as follows, when paid strictly in advance: ONE COPY, one year, **$2.50**; FOUR COPIES, **$10**, *and an additional copy for the year for to the ac der of the Cl b*; TEN COPIES, **$20**, *and an additional copy for the year free to the sender of the Club.*

NAVY YARD ITEMS.

The masts were taken out of the old sailing ship Constitution at the navy yard on Friday. The lumber taken to the yard from this city on the previous day was for housing her deck over. The historic old ship is to be jury-rigged, for exercising the seamen on board. The fore and main masts were found to be very rotten, but the mizzen mast was in good condition; the latter will be stepped as a main mast, and smaller ones will be stepped for fore and mizzen masts.

It is said that the present force on the navy yard will be retained until about the end of the month.

The "Milliner's Eight" had a very enjoyable social dance in the hall over Tebbetts' store, corner of Ladd and Market streets, last Thursday evening, about a dozen couples participating.

We are informed that there was a pigeon shooting match at Bartlett's farm, Eliot, on Thursday last, by some of the local sportsmen, who also conducted a similar affair at the same place two weeks previously.

The *Eastern Star*, of Kennebunk, says: "Capt. D. A. Maxwell of Ogunquit, lately master of schooner Ocean Eagle, which has this season been carrying bricks from Dover to Boston, has given up the business. Capt. Maxwell has been following the sea for many years, and retires after honorable service. He has succeeded as master of the above schooner by Capt. C. L. Perkins of Ogunquit. The latter has a fine gold watch, presented to him for jumping from the deck of his schooner into the water in the winter season, to save a little child who had fallen from a passing steamer from being drowned."

It Will Do It.

Food will lodge in the interstices between the teeth, and it becomes a source of their decay. SOZODONT will dislodge such deposits, and prevent the mischief. All parents should provide SOZODONT, and thus secure the health of their children's teeth.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption 'Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Vegetable Balsamic

ELIXIR

For the cure of
Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Pleurisy, Hoarseness, Influenza, Spitting Blood, Bronchitis, and all diseases of the *Throat, Chest,* and *Lungs.* In all cases where this Elixir is used its efficacy is at once manifested, continuing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—At its commencement it is but a slight irritation of the membrane which covers the Lungs; then an inflamation, when the cough is rather dry, local fever and the pulse more frequent, the cheeks flushed and chills more common. The Elixir in curing the above complaints, operates so as to remove all **morbid irritations and inflamation** from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

It heals the ulcerated surfaces

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions, free.

Price 35 cts., 50 cts., and $1.00 per bottle.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

POLICE COURT.

FRIDAY, Nov. 10; *Batchelder J.*

Edwin H. Goodwin, for drunkenness, was fined $10, costs being taxed at $6.13. Jail in default of payment.

James Davison, before the court on two charges of breaking and entering the house of Mrs. Maria L. Roberts, with intent to steal therefrom, was dismissed on both charges, the evidence of the complainant showing that there was no intent to steal.

James Davison, for malicious mischief, two complaints, was found guilty on both, and sentenced to thirty days in jail on each; also to pay $5.76 costs on one complaint, and $7.67 on the other. The offences complained of consisted in kicking in the door, etc., of Mrs. Roberts' establishment in the vicinity of the new church.

THE CURFEW BELL.

Mr. Editor: I see by your report of the last aldermen's meeting that the ringing of the North church bell at nine o'clock in the evening is ordered to be discontinued until further notice, "on account of sickness." If any sick person is annoyed by the ringing of the bell, its temporary discontinuance is perfectly proper; but it seems incongruous to stop the cheerful, lively clanging of the nine o'clock bell for two or three minutes each night, in order to spare the nerves of a sick person or persons, and at the same time permit the doleful, lugubrious tolling of bells for fifteen minutes at a time, whenever a funeral is taking place. There is nothing dismal, either in sound or association, connected with the "nine o'clock bell;" while every stroke of a tolling bell, heard by a sick person, is a reminder of death and sorrow, and must have a seriously depressing effect when heard by a person nearing the dark valley. I hope the action of the aldermen was just what it professed to be, and not an underhand scheme to get rid of the nine o'clock bell without rousing the indignation of hundreds of citizens, male and female, who would strongly remonstrate against the abolition of the old custom. Yours truly, 1811.

"ON ACCOUNT OF SICKNESS."

Mr. Editor: The aldermen have ordered the ringing of the nine o'clock bell to be discontinued, "on account of sickness" it is said. Who is it, within the immediate vicinity of the Parade, that is so sick as to be disturbed by the ringing of the North church bell at nine o'clock in the evening? I have made what enquiries I could, and can learn of no such person. And if the nine o'clock bell is so objectionable, how is it about the ringing of the same bell at one o'clock in the afternoon? Are our city fathers *quite sure* that their action was a work of mercy, and not a cowardly attempt to do surreptitiously what they would hesitate to essay openly—the final abolition of our good old New England custom of "ringing the nine o'clock bell?" OLD WELL PERSON.

EASTERN RAILROAD REPORT.

In the annual report of the directors of the Eastern railroad company to the railroad commissioners of Massachusetts, in addition to the general summary it is stated that the operating expenses of the year include many extraordinary repairs and renewals, some of the principal items being repairs and renewals of buildings, $118,000, or $30,000 in excess of the previous year; repairs of water stations, and new stations, $31,000, being $20,000 in excess of the previous year.

One thousand five hundred and thirty tons of new steel and 430 tons of new iron have been laid, and 123,000 ties laid against 84,000 the previous year.

The expenses include the cost of three new locomotives, replacing old ones, of nineteen passenger cars replacing old cars, and the value of 155 new freight cars additional to former equipment. The interest account includes interest for the month of September at the rate of six per cent per annum on the funded debt. The general summary is as follows:

Capital stock	$4,207,600 00
Funded debt	13,624,005 50
Unfunded debt	1,412,909 95

Elder J. Couch will preach in the Advent church on Sunday.

Rev. Mr. Duffield, of Boston, will preach in the Episcopal church.

In the Pearl street church, Rev. Mr. Yeoman will deliver a temperance lecture in the afternoon, and in the evening an illustrated lecture on the subject, "Is it well?"

Clara A. Field of Boston will speak for the spiritualists on Sunday afternoon and evening, in Good Templars' hall, over Morse & Ilsley's; tests at the evening service.

The International Convention of the American Young Men's Christian associations at Cleveland, Ohio, appointed the second Sabbath in November of each year, with the week following, as a season of special prayer for young men and Young Men's Christian associations. In conformity with this it has been thought best to have a union service on Sabbath evening, to be held at the North church by invitation. Rev. J. E. Robins is to deliver a lecture on Intemperance, in lieu of giving the discourse at the Methodist church on that evening by invitation of the Reform club, as was at one time proposed.

RAILROAD NOTES.

William Berry, of Limerick, Me., lost $60 at three-card monte in an Eastern railroad train between Boston and Lynn on Thursday, Nov. 9th.

The Newburyport *Herald* says: "It is understood that the late Arthur C. Pike of this city, who was killed by the cars on the Eastern railroad a few days ago, had so won his way into the confidence and esteem of the Eastern railroad company by his faithful services as a brakeman, that inside of a month longer he would have been promoted as conductor. He would, in that case, have been the youngest conductor on the road. It showed efficiency on his part."

Mr. James F. Jenness, who has for some months been missed off our streets, is hopelessly ill with softening of the brain, his death being only a question of time.

Miss Alice Pickering, who has for some time had charge of the telephone office in this city, goes to the office in Lawrence, Mass., and Miss Emma F. Manent of this city succeeds her in charge of the office here.

The *Journal* says "the contents of the tin box containing watch material belonging to the absconding Charles A. Barth, and now in the possession of the sheriff, is of about as much value as so much old silver and brass."

About twenty north end democrats had an oyster supper in a down town saloon last Thursday evening, as the result of a republican having bet ten dollars that Butler would not be elected governor of Massachusetts. The "singing" of the party, as they went homeward along Market street about half-past ten o'clock, indicated that the tea they washed the oysters down with was unusually strong.

One of the navy yard bosses goes to the yard each morning from one of the north end wharves, and returns in the evening, in a large boat, accompanied by ten or a dozen of the workmen, the steamers being used to cross the river at noon by such as return to dinner. One morning this week the boat hit a sharp rock near Pumpkin island, and had a plank sixteen feet long torn clean out. Of course there was no use in trying to keep afloat a boat with half the bottom gone, and the party landed on Pumpkin island with wet feet. After powerful shouting and vigorous waving of hats, a boat put off from the yard and conveyed the castaways to their work.

A musical entertainment differing from anything yet given here will be presented in Music hall on Friday evening next, when Farini's Chamber Opera & Concert Co. will give a grand concert, followed by the garden and duel scene from the first act of Il Trovatore, and the entire last act of that standard opera. See advertisement.

It is alleged that the reason Newcastle went democratic this year was because Hon. F. Jones went down there and told them that if it went republican he would buy the whole island, roof it in, and turn all the opposition out. We don't believe a word of it.

Hair work of all kinds is done in the best manner at M. E. Johnson's, No. 65 Congress street; combings made into switches; switches and wigs kept in stock, made to order, or altered; and hair goods of all kinds sold at low prices. Ears for the Million
Foo Choo's Balsam of Shark's Oil
Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.
This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON RONDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1110. Its cures were so numerous and **many so seemingly miraculous**, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 300 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.
Hear What the Deaf Say!
It has performed a miracle in my case.
I have no unearthly noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.
"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally testify**, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

83rd edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained. Address as above.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every respect than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE AGED MEN can now make the suffering and expensive journey to the Science of Life, or consult with the author, who may be consulted on all diseases requiring skill and experience. Address

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is a delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

Naval Affairs.

The U. S. S. Lancaster arrived at Tripoli, Nov. 7th, and exchanged salutes with the forts there.

In a quarrel between J. Belmo and D. B. Allen on board the training ship Portsmouth, at Newport, R. I., on the 5th inst., Belmo was so badly hurt that he died on the 8th.

The Boston papers say the inspection of the marine barracks and quarters at the Boston yard by Maj. A. S. Nicholson, United States marine barracks adjutant and inspector at Washington, was very unsatisfactory, it being found that many parts of the quarters were in a filthy condition, owing to the absence of a police sergeant. The marines are loudly complaining about the uncleanly condition of their different guard rooms, etc. Complaint is also made about food, it not being satisfactory and not enough of it furnished.

The depositors in the Carroll County Five Cents Savings bank at the time of suspension of business in 1877 have just brought suits to the amount of $250,000 against its stockholders, trustees, et al., upon the charges and complaints made by the plaintiffs against said defendants in their bill in equity now on file in the office of the clerk of the supreme court for the county of Carroll.

Dr George E. Norcross died on Monday, Nov. 6th, at the residence of his parents, Jamaica Plain, Mass. Dr. Norcross was a graduate of Phillips academy at Andover, class of 77; pursued his medical studies in Boston university school of medicine, graduating in the class of '80; and from then to within a short time previous to his death, was engaged in the practice of his profession in Great Falls.

Mrs. Kimball, wife of Dr. Kimball of Andover, Mass., whose feet were cut off in that place by a railway train from which she alighted before it stopped, Nov. 7th, died the next day after terrible suffering. She was a daughter of Uriah Wiggin of Dover, and graduated at the Dover high school with high honors some years ago.

Winthrop A. Stearns of Hill died on the 6th inst. from the effects of being struck by a falling tree on the 4th.

The house of Frank Grimes, at Billsboro Bridge, was burned on the evening of Nov. 8th, through a defective chimney.

It cleanliness indeed be next to Godliness, we know of no one that is doing more to promote this virtue than James Fyle, through the introduction of his Pearline.

On Tuesday night, Nov. 7th, some one broke into the Baptist church at West Gardiner, Me., and stole the communion service, which has long been in possession of the church, and also the money in the Sunday school boxes.

Woman's Tact enables her to distinguish articles of merit from worthless nonsensicals. This feminine faculty has made Electro-Silicon a household name, and gives it the reputation of being the best silver polish extant. Avoid imitations. Grocers.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Scanty and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are uncommon to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to many broken down, worn out over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. It *never fails* to give *quick* and *permanent relief*.

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription for one month, and try "Ladies' Tonic." Such a guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is the Association of Women and Mothers of years' experience, who give advice and answer letters from ladies only.

Blood will be given for any case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by *responsible ladies*. To know *from experience* what "LADIES' TONIC" can do send stamp for circular.

Lynn, Mass.

Edward Barnes of Lynn, Mass., states that for over two years he was troubled with frequent spitting of blood, severe cold and cough, night sweats, and general debility, so that I was given up by my friends and my doctor to die. Finally I was advised to try your Remedies, which I did for three months, the Swedish Lung Balsam for my lungs, the Swedish Botanic Compound to build up my constitution and restore my appetite, and the Swedish Pepsin Pills to regulate the bowels. The result is that to-day I am entirely cured, and feel as well as ever in my life.

LYNN, March 8, 1882.

DR. F. W. A. BERGENGREN: Dear Sir—I have been using your Swedish Botanic Compound for Kidney Complaints and Scrofulous Humor, and have derived great benefit from it. This is saying a good deal, as before I commenced to use the Compound I was the greatest part of the time unable to work, and I have tried medical advice and all kinds of medicine, but without avail until I used your Remedy. Since taking it I have been feeling like a new man, and been able to attend to my business. You are at perfect liberty to publish this letter.

WM. E. KIMBALL,
Conductor L. & B. R. R.

I consider Swedish Botanic Compound the best Blood Purifier and Spring Medicine in use.

W. B. WATSON, Lynn, Mass.

6 Per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, at the discretion of the contractor.

Full particulars will be furnished by mail to those who may call at the office, or will be carefully given to mail will be promptly answered by letter or inquiry by

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 173 Prestmans.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why suffer with that terrible Humor? Why have your flesh crawl with Eruptions? Why suffer with pain, with Dyspepsia? Why let your nerves and all your system tremble and be shaken by the effects of your excesses? Why suffer from the effects of your excesses in any form, when **Sulphur Bitters** will give you health? Why let your blood run to waste, when **Sulphur Bitters** will make it pure and healthy? Why let your system be racked with Rheumatism, when **Sulphur Bitters** will cure you? Why let your liver become torpid, your bowels costive, your stomach out of order, when **Sulphur Bitters** will give you a healthy appetite? Why let your blood become impure

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are valid in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps.] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

The iron bridge of the Georgia railroad over the O'Connell river at Athens, Ga., fell last Friday, killing one workman and seriously wounding six others.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Burglars went through the safe of the Cortland hotel at Cortland, Wyoming, last Thursday night, and secured $4,000 in cash and $1,500 worth of diamonds and valuable papers.

Messrs. F. W. Kinsman & Co.,—Gents.: I have sold your Adamson's Botanic Cough Balsam over my counter for nine years, and I must say that during an experience of twenty-six years in the retail drug business I have never sold anything for coughs, colds, etc., that has given such universal satisfaction as your Adamson's Botanic Balsam. I recommend it above all others. Yours truly, S. CHICHESTER, 357 Myrtle Ave., Brooklyn, N. Y.

Our New York Fashion Letter.

WEDDING DRESSES.

Satin in theory is going out; in practice it does not go. Some handsome wedding dresses have been entirely made of it, and in combination it appears beside gros grain, reps and brocades, all of which are employed for the bridal costume, separately or altogether, for it is a peculiar freak of Fashion that while in ordinary material combinations are scarcely seen, in rich goods they are in especial favor, three and four kinds being often united. Reps so large as to be called ribs are however the leading idea just now. Old time velours looks up again, gros grain silk takes precedence of satin, because of its rep, while the ribbons of the day are seamed and furrowed in fashion most approved. Nothing I have said however but what holds good of evening as well as bridal toilettes.

ORANGE BLOSSOMS

Are about the sole distinctive feature. If we except the long tulle veil which every bride arranges to suit herself. But even orange blossoms show sparingly among richer clusters of lilacs, clematis, spiræa or white roses, while orange buds are too stiff and waxy to find approval. The prettiest of all are roses of lace,—fine machine-made lace and therefore not very expensive,—the attendant leaves being of white velvet traced with veins of gold or silver. On very rich costumes separate figures of velvet (chiefly floral) are put on with admirable result, yet these are not more elegant than the superb brocades, which are veritable poems,—pure white for the bride, of course; but where color comes in, embodying all that is beautiful in hue. Delicate on the one hand and gorgeous on the other are evening colors, while for daytime most notable are the

PECULIAR ÆSTHETIC

Blendings. Leading here we see olive bronze, terra cotta, venetian bronze, electric blue, and crushed strawberry, and wine. Bonnets, trimmings, buttons, handkerchiefs, ribbons, each detail in keeping. Even your little spool of Clark's Mile End cotton dyed in harmony. To modistes innumerable this brand is a necessity, owing to its superior strength, elasticity and smoothness, but doubtless the great demand is also partly due to care that it shall harmonize with prevailing colors. I presume you are familiar with it: you certainly ought to be.

THE JERSEY LILY.

Red as a rose is she, but her complexion is so delicate that the high color is a superadded charm. Large, beautiful blue eyes, soft brown hair, caught in a low knot, and showing a perfectly shaped, exquisitely poised head; an elegant presence, and a fascinating manner by which she captivates the newspaper reporters. These heroes are prostrate; prostrate also the papers. Peans to the Jersey Lily are sung daily, and up go the prices for a seat from whence to gaze upon her. As a result of that gaze a right-minded person sees a far from perfectly formed nose, and a mouth too large for absolute perfection. All this as a preliminary to saying that in walking abroad she did not distain a plain blue cloth suit. Neither then should we. These plain wool suits are indeed quite a popular rage; of green, brown, garnet, etc., we see them everywhere. Many are of simple tailor finish, but others are finished by

THE RUCHINGS OF THE DAY.

Given a strip of goods from three to six inches wide, pink the edges, box plait in the centre. Behold your ruching; wide for skirts, narrow on neck and waist; no rule but that of good taste. Redingotes on redingotes of plain wool are thus ornamented. Too many, in truth, for everybody can get one; what anybody and everybody has, nobody ere long will have. Result. The redingotes beruched must go. Perhaps a sharp Yankee might sell them to the Chinese. Many a dress is now trimmed with a ruching round the bottom, neck, and up the front and sleeves. The chances are here for longer duration, because not so conspicuous and crowded together as on the street. Moreover, too, in smaller places where perpetual repetition does not tire the eye as here, a ruching would be a good choice, especially for slender figures. In themselves they are both novel and pretty, but a stout person had best remain content with the tailor finish, or an edging of flat side plaits. A wool redingote so trimmed has just gone by, the forerunner doubtless of many another.

LUCY CARTER.

Political Matters.

The free traders of England are already counting chickens on the democratic victory in this country. As a well known cemetery tablet in Nashua remarks, "We expected this, but not so soon."

Minnesota and New Hampshire are the two states that came out of the late election with their republican banners high advanced. Neither state has a boss.

The republicans of North Carolina elected the congressman-at-large, and the entire state ticket; republican congressmen were elected in two districts, and a liberal in one; and in two others the democratic leaders concede that the election of their men is very doubtful.

News and Notes.

A horrible case of suicide took place on the railroad track in Derby, Conn., Friday. Henry Hageman, a German tailor, threw himself in front of the locomotive of a passenger train, and was literally torn to pieces. Four cars passed over him. He leaves a wife and four children.

Thursday night when the Housatonic milk train reached Bridgeport, Conn., Miles E. Dean, a brakeman residing in that city, was found lying dead on top of one of the cars, with the back of his skull crushed. He was probably struck when going through the tunnel at Hawleyville. He was about forty-three years of age, and leaves a widow and six small children in destitute circumstances.

Chauncey C. Dean, the Boston customs clerk lately reported as missing, was seen, so it is said, in a town in the western part of Massachusetts on the 4th inst., bound west.

—The servant girl of the period is described as a young woman to whom some lady is giving board and wages while she endeavors to teach her the art of housekeeping.

—A rosy-cheeked German girl, speaking very little English, traveled up and down the elevated railroads in New York for three hours before she was enabled to get off at the nearest station to her destination.

—"Mary Jane," said Dickey, "why would Lot have been a better captain for the ark than Noah?" "Why?" said Mary Jane. "Because," said Dickey, "Mrs. Lot was an old salt." "Dickey," said Mary Jane, "you are a very fresh young woman."

—White satin and lace bonnets now bring $100 apiece, but so many people have them that they are getting awfully common. The only way to dress differently from the vulgar crowd is to get a bonnet worth about $2.50.

—A visitor at the Percy Yerger mansion remarked, as he caressed little Mollie Yerger: "She takes after her papa, and has got his hair." "No," said the little cherub, "it's not me that takes after papa and gets his hair. It's mamma who does that when he comes home tight."

—This slang does raise the very mischief. When a handsome young wife went to a hardware store to get one of those wooden contrivances to mash potatoes, and said, "I want a masher," every man in the shop, from the boss to the office-boy, started to wait on her.

—It is now stated upon the best astronomical authority that the comet has thrown off an envelope. Of course if the envelope is gone the comet will get lost in the mails. It never could travel through a "star route" without an envelope, properly stamped and addressed, with an if-not-called-for-in-ten-days printed in one corner. It looks hard for the comet.

—Sitting Bull is a lover of dime novels, and when he strikes the chapter where Dare Devil Dan surrounds seventeen redskins, kills eleven of them and takes the others prisoners, the smile that covers his swarthy countenance couldn't be measured with a twenty foot tape-line. The scene is so graphic and real that it makes him think of times agone, when he lifted scalps for a living.

—An obliging landlady: A guest at the table of a boarding-house on the Catskill mountains, who was about to tackle a dried apple pie, addressing the landlady, said, "Do you think you could furnish me with a bit of cheese?" "I don't know whether there is any," she answered in a cast-iron tone of voice, "but if you will have a little patience I'll send a waiter to look through the mouse-traps and see."

—The young man who "went off like a shot" probably found too much powder on his girl's cheek.

—There is a disgusting amount of crime in the newspapers, but the man who has a pimple on his nose can't blame the looking-glass for showing it.

—A Pittsburg firm has employed a Chinaman as book-keeper, and any one who receives a statement from that concern will undoubtedly be thoroughly scared.

—"A fellow must sow his wild oats, you know," exclaimed the adolescent John. "Yes," replied Annie, "but one shouldn't begin sowing so soon after cradling."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Handbook about patents mailed free.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

Circulars, giving full particulars, may be obtained of

THE NINE O'CLOCK BELL.

Mr. Editor: I see that some of your correspondents feel aggrieved over the action of the board of aldermen in ordering the ringing of the North church bell at nine o'clock at night to be discontinued "on account of sickness," the said correspondents evidently having little faith in the "sickness" pretence, and believing the ostensibly temporary order to be intended as a permanent abolition of the old custom—I had very nearly written "nuisance"—of ringing the nine o'clock bell.

For one, I hope their suspicions are well founded, and that the bell will never sound again at that hour. Attempts have before been made to do away with the nuisance, but the opposition of a lot of old fogies prevented the reform from being carried out; and if the obstructives can be circumvented only by "underhand" and "surreptitious" (I quote from your sentimental correspondents) measures, then I say the board of aldermen deserve credit for employing such measures.

It is all very well to hold to the old customs, provided they are harmless in themselves, or better than the modern ones; but the many persons who have at different times been annoyed by the clangor of the North church bell breaking in at the worst possible moment during a concert or opera at Music hall, or at the most pathetic passage of an emotional play, will rejoice that it is to sound no more. "Old Well Person" is anxious to know who is sick; I am, and hundreds of others—heartily sick of hearing the ringing of the North church bell at nine o'clock at night. PROGRESS.

POLICE COURT.

SATURDAY, Nov. 11; *Batchelder J.*

William Quinn, aggravated assault on John Hayes, (continued case,) was held in $200 for trial before the supreme court. He was commited to jail to await the appearance of sureties.

Georgie Moody was before the court on a charge of stealing between seven and eight dollars from Franklin C. Hoyt. She was adjudged probably guilty, and held in $200 for trial at a higher court; she will probably remain in jail until the meeting of the grand jury. The larceny is alleged to have taken place on the premises of the late Samuel Wilson, on Vaughan street—or rather, *in* that street.

The schooner Commonwealth, Williams master, bound for Rockland, Me., light, touched on Seavey's island, opposite Goat island ledge, when leaving this port on Thursday last, but came off next tide unharmed, and proceeded on her voyage.

The schooner William Todd, of Calais, Me., in coming up the river Sunday forenoon got foul of the "band-stand" at Badger's island point, and knocked it over. The schooner proceeded to the Concord railroad wharf, to discharge a cargo of coal.

Mr. Robert O. Dennett, who died in Somerville, Mass., Thursday of last week, at the age of fifty-three years, was a veteran of the rebellion, having entered the navy early in the war as an assistant engineer. He served three years, mostly on the coast of North Carolina. During the past six years he has been connected with the Somerville water works. He was a member of St. Andrews Lodge, No. 56, Free and Accepted Masons, Washington Chapter of Royal Arch Masons, and De Witt Clinton Commandry of Knights Templar, of this city, from which place he moved to Somerville about six years ago.

The Indians who gave entertainments in Franklin theatre every evening last week, and sold large quantities of Indian medicines to an eager public, were photographed on Thursday in a group on Vaughan street, in front of the Gibson house. They were rigged after the custom of their tribe, with feather dusters on their heads, etc.

Capt. Coleman, of the schooner Emily A. Staples, received seventeen votes, most of them from republicans, for representative in the general court from Newington. He could have had the democratic nomination if he had been willing to serve, but it would have too seriously interfered with his business to have done so.

The National Ins. Co. of Hartford, Conn., through the general agent, C. B. Fowler, last week settled to the entire satisfaction of the insured the loss on the personal property of Mr. Jefferson Butler, burned at the recent fire on Lafayette road.

An officer started from this city for Brentwood one day last week, to convey to the county institution there two prisoners, to wit, Luella Thompson and a man named Goodwin, farmiliarly called Eppy Doodah. As the officer was purchasing the required tickets at the Concord railroad station, the woman suddenly withdrew from the company, and as she passed on the outside of a window she addressed the disgusted officer with the query "Are you there, Moriarty?" The officer was in a quandary; if he tried to catch Luella he would give Eppy a chance to scoot, so he kept on to Brentwood with the latter, and let the woman go for the time being. He was hunting for her next day, but we do not know whether he found her or not; it would be small harm to the city were she never found.

Will the *Journal* (or the *Chronicle*) please inform us what there is on the navy yard to show for the money expended and timber used up during the past three months?—*Times.*

We don't know whether the *Journal* will or not; the CHRONICLE won't.

Hague's British Operatic Minstrels, from St. James' hall, Liverpool, England, will appear at Music hall on Saturday evening, Nov. 18th. The company is heralded by strong praise from Boston and the larger cities.

Michael Fisher, formerly of the firm of Fisher & Co., brewers, of this city, and previously a dealer in dry goods, died recently in New York.

Two of the chime bells it is said are to be taken from the bell tower of Christ church, and sent back to the McShane bell foundry at Baltimore, where they were cast, to be brought in tune with the others. There is need enough of it.

James Hehir on Friday last stole a horse from Patrick Quill at Greenland. The horse was recovered, and the police were on Saturday looking for the thief.

Mr. William H. Preston, formerly clerk at the Portsmouth Shoe Factory, is now running a stitching room in Lynn, Mass., employing twenty young women. Mr. Joseph G. Knights, formerly superintendent of the factory, and known to all who met him at that time as a most estimable gentleman, and a man thoroughly expert in his line of business, we were on Saturday informed was lying dangerously ill at his house in Lynn, with heart disease.

Mr. D. J. Lynch, at No. 44 Market street, has just received a large quantity of goods especially suited for Thanksgiving cookery,—though just as good at any other time. He has always a large and varied stock of groceries on hand, and invites inspection of goods and prices by all in want of anything in his line.

It is said that twenty-four voters in ward four lost a day's work on the 7th inst., and hung around the polls all day waiting for purchasers, finally losing their votes, as no buyers of either party appeared.

Alderman Caswell is intending to take a trip to Eastport in a short time, to arrange for an abundant supply of frozen herring during the winter.

A salute of minute guns was fired on the navy yard, Saturday at noon, in memory of the late Rear Admiral C. H. Poor on the retired list.

Trains on the Eastern railroad were considerably delayed on Saturday by a dense fog.

The gondola Sturgeon, Capt. Nason, came down from Eliot on Saturday, bringing a lot of boat-knees, a dozen barrels of apples, and a quantity of lumber to be planed at Mason's steam mill; she loaded at the mill with plank for Eliot. Capt. Nason has a lot of lumber to take up for Wm. Rose's new house in Eliot, and also for Augustus Shapleigh and F. J. Morrill.

DOWNS' ELIXIR.
N. H. DOWNS'
Vegetable Balsamic
ELIXIR
For the cure of
Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Pleurisy, Hoarseness, Influenza, Spitting Blood, Bronchitis, and all diseases of the *Throat, Chest,* and *Lungs.* In all cases where this Elixir is used its efficacy is at once manifested, convincing the most incredulous that
CONSUMPTION
is not incurable, if properly attended to.—At its commencement it is but a slight irritation of the membrane which covers the Lungs; then an inflamation, when the cough is rather dry, local fever, and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all **morbid irritations** and **inflamation** from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.
It heals the ulcerated surfaces
and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions, free.
Price 35 cts., 50 cts., and $1.00 per bottle.
SOLD EVERYWHERE.

Ears for the Million
Foo Choo's Balsam of Shark's Oil
Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.
This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON RONDEREETH. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and **many so seemingly miraculous**, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 500 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.

Hear What the Deaf Say!

It has performed a miracle in my case.
I have no uncomfortable noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.

"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally** testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street, New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like any body else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, called **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Cloth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—(London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabaunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unprovided by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road bede will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 188-.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR,
173 Prestman st.

Kidney Disease Cured.

Christiansburg, Va., 188-.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa.
Dec. 1, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clear and smooth. *These Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why have Scrofula? Why let your blood get so bad that Scrofula, Rheumatism, Joint Swelling, Salt Rheum, and all kindred diseases will appear? Why let your system become so full of poison that every pimple, blotch, boil, tetter, salt rheum, and eruption will appear on your face? Why let your liver become torpid, your bowels costive, your kidneys inactive, your skin sallow, your tongue foul, your breath fetid, your spirits low, and you feel generally miserable? Why not take Sulphur Bitters and be happy? Why not be free from all these troubles? Why not be healthy? Why not be happy? Why not be free from pain? Why not be free from Rheumatism? Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

News and Notes.

Thomas Larner, aged sixty years, was found dead in the street at Newburyport, Saturday. He leaves a wife and four children. The cause of his death is unknown, but an investigation is to be made.

In Williamstown, Mass., Saturday, the house of William A. Bulkley was entered by burglars, who were frightened away by Bulkley with a revolver; they secured a gold watch and some money. Mrs. Henry Penniman's house was entered about the same time, but the burglars were frightened away. There have been a dozen burglaries in Williamstown within a year, including the depot safe robbery, when the safe was blown to pieces, a robbery in Richmond's coal office, and several in private residences.

Ezekiel Peabody put $300 into a Marblehead (Mass.) savings bank when he was twenty-one years of age. He is now aged ninety-five, and has never drawn a cent of principal or interest.

The "Old Farmer's Almanack" for 1883, the 91st annual edition, is already issued by William Ware & Co. of Boston, and can be procured from any bookseller or newsdealer.

The territory through which the Topeka, Salina and Western railroad will run is the most fertile in the state of Kansas. Careful investors will find their six per cent. gold bonds a good investment.

Charles S. Lawrence of Auburn, Mass., has been sent to state prison for fifteen years, for wrecking a railroad train.

The annual reunion of the family of the late Benjamin Durgin, of Limerick, will occur on Thanksgiving day, at the old homestead in that town, now the residence of Ephraim Durgin. It has long been the practice of this family to meet on the return of this annual feast day. There are now living seven brothers and two sisters. James, the elder, lives in Arlington, Mass. He is a pioneer in the ice business, having been in it for forty years. Asa, formerly in the same business, is living in Somerville, Mass., as a farmer; last year he raised 700 barrels of apples, and forty tons of squashes. Horace, the youngest, though last is not the least of the family; his weight is 325 pounds. The average weight of the seven brothers is 235 pounds. Six of the family live in Massachusetts, one in Saco and two in Limerick.

Leonard Perkins, a young single man of Ogunquit, has eloped with the wife of Warren Brooks of that place. The two men had for some time been fishing together, but one day not long ago Perkins refused to go out; Brooks went, and as soon as he was gone Perkins took a boat, put in his trunk, fishing gear, and all the jointly-owned stock of fish the boat would carry, and came to this city, where he sold the lot. He then proceeded to Salmon Falls, N. H., where he was joined by the woman, who a few days previous had gone on a visit to friends in South Berwick. The bereaved husband says the loss of his fish is a terrible affliction.

A young democrat of this city was on Monday heard to remark that unless the recently-elected Congress takes measures to establish a life-saving station, fog whistle, electric light, and house of refuge for castaways by sea or land, at Bra' Boat Harbor, Kittery, he will never vote the democratic ticket again. It is supposed that he has been tumbling over the kelp-covered rocks of that vicinity during some one of the recent dark and foggy nights, in a futile endeavor to find his way somewhere.

The photographers, L. V. Newell & Co., have arrived in this city and will take views of any situations to order. Those desiring photographs of their residences will address a postal to L. V. Newell & Co., Dover. These artists have all the apparatus specially adapted to this part of the business, and can show the most splendid samples we ever saw anywhere.—*Dover Democrat.*

RAILROAD NOTES.

The Eastern railroad advertises another cheap excursion to Boston, on Thursday, Nov. 16th, when tickets from this city, Greenland and North Hampton to Boston and return will be sold at $1.50 each, good for a passage to Boston by any regular train that day, and for a return trip, by any regular train either that day or the 17th.

A new locomotive, No. 106, John Page engineer, went through this city to the eastward on Monday afternoon at three o'clock, drawing the train for Portland.

The Eastern railroad will run an excursion train from Portland to Boston today; it will probably pass through this city about ten o'clock.

Since the discontinuance of the Sunday excursion trains on the Eastern railroad, a large number of extra freight trains have been run both ways on Sundays.

The body of Willis Wood, nineteen years old, was found near the Maine Central railroad track in Lewiston, Sunday morning, with the right leg and arm cut off, the skull crushed and the abdomen ripped open. He worked in the Lewiston machine shop, and evidently fell under the wheels while trying to board a slow-moving train as it passed him while he was walking toward his home in Leeds, Saturday evening.

Capt. Andrew Carter, of Brooklyn, Me., master of a Gloucester fishing schooner, was found behind the Eastern railroad fence near Scarborough, Me., last Saturday afternoon, with his head badly bruised and cut, his throat cut, and a bad gash in his abdomen. Investigation showed that the man was insane, and had jumped from a train under the impression that officers from Saco were after him, travelling by telegraph; in falling he struck his head on a stone, and he had then crawled behind the fence and attempted to kill himself with a knife. He appeared very cool and said he had thrown away the knife with which he had inflicted the wounds upon himself, and also his watch and pocket-book. Part of his money he had burned, and the black ashes laid by him. The rest of the money (about $120) was collected in a torn condition where he had flung it after tearing it in pieces. He was taken to the Greeley hospital in Portland, and on Sunday was comparatively comfortable. He is said not to have been a drinking man.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to suit, in a continually increasing degree, and in the best sense of the term, a

BENJAMIN CANNEY.

Mr. Benjamin Canney, whose death is announced in another place in this paper, was born in Ossipee, and came to this city from Salem, Mass., many years ago. When a young man he was in the employ of the Eastern Stage Co., at their stables in Salem; and like many other of the employees of that company he entered the service of the Eastern railroad when it was opened, and was a brakeman on the first regular train which entered this city. He for many years carried on the teaming business here, though age and physical infirmities incapacitated him for active life for some time past. He was ever an industrious, hard working man and good citizen, aiming to do faithfully whatever he undertook.

THE CONCERT AND OPERA.

The entertainment to be given in Music hall on Friday evening by Farini's Chamber Opera and Concert Co. is different from anything hitherto presented here, the first part being a grand vocal concert, and the second part a portion of the first and the whole of the last act of "Il Trovatore," given in full costume and with proper scenic effects. Aside from the reputation of Sig. Farini as a singer and operatic artiste, the fact that H. M. Dow is pianist and conductor is ample guaranty that the company is one of the highest merit, and that the lover of music who fails to attend the concert will miss a rare opportunity for enjoyment.

Sig. Farini, the basso, and Mr. Dow, are widely known. Mr. W. H. Steadman, the tenor robusto, is a Boston gentleman whose voice is vouched for by the *Folio* as being one of great richness, power and compass, and whose singing has been highly complimented by the *Times* and *Tribune* of New York, the *Advertiser* and *Folio* of Boston, and other acknowledged authorities in musical matters. Miss Marie C. Strong, the contralto, and Miss Addie C. Reed, the soprano, though recent candidates for popular favor, have already won it wherever the company has appeared. Of the former the Boston *Post* said: "The character of Azucena, presented by Miss Marie C. Strong, was a regular surprise to all. Her delineation and graphic stage presence will make a future for her which few contraltos can boast of;" and the Portland *Argus* remarks of Miss Reed that "her voice is a soprano of excellent quality, and she manages it with skill and entire confidence. She sings true, strong and courageously, and with that witching abandon so notable in our most distinguished artists." Of Miss Cora E. Wyse, mezzo-soprano, the New York *Tribune* says "her rich voice compares fairly with the finest, and it only has to be heard to be appreciated."

Tickets for this entertainment can now be procured at Myers' bookstore.

THE NINE O'CLOCK BELL.

The following is from the *Times* of Monday evening, the 13th inst.:

Mr. Editor:—I was somewhat astonished at reading the communication of "Progress" in the *Chronicle* Monday morning. What a strange reason he gives for discontinuing this time-honored, useful custom. That reason is, that "Progress" is disturbed during the plays at Music Hall, by the ringing of the bell for a moment. How long does the season at Music Hall last? How many times is Music Hall open for plays during the year? The season lasts from about Sept. 1st to May 20th. There are about 25 or 30 plays at the hall in the season. Perhaps not one-quarter of the people of this city attend them at all. What an awful "nuisance" the bell must be! Not only the "old fogies" "Progress" scoffs at, but almost everybody is desirous that the bell be rung. The Aldermen think so anyway, else why go about abolishing the custom in such a scared way? The custom is useful, harmless, honored, and I trust may be continued.

YOUNG FOGY.

POLICE COURT.

MONDAY, Nov. 13; *Batchelder J.*

Jennie Hoyt, charged with keeping a disorderly house, was held in $200 to answer at the April term of the supreme court. The establishment complained of is on the corner of Water and Charles streets.

THE BRITISH MINSTRELS.

The minstrel entertainment which is to be given in Music hall on Saturday evening next will be, it is claimed, something entirely new in that line, so far as this city is concerned. Of the company and performance the Providence (R. I.) *Star* of Nov. 6th said:

Without question the finest company of minstrels which ever appeared in this city occupied the Providence opera house last evening, and gave a fine entertainment. This noted company was Sam Hague's British Operatic Minstrels, comprising about forty performers and musicians, who all work in unison and harmony to give an unusually excellent show. The opening chorus "Drain the cup of pleasure," was especially fine, the voices and instruments being in perfect chord, and it was therefore a delight to musical ears. In the long selection of solos for bass, tenor, soprano, etc., which followed, all were so good that discrimination would seem almost unjust; and yet the song of "Teresa," as rendered by Mr. Walter C. Hawkins in a soprano voice of remarkable clearness and compass, the sweet and expressive manner in which Mr. Vernon Reed sang "We never speak as we pass by," and the beautiful solo of "Close to the threshold," which was given with superb effect by Mr. Casteel Brydges, were worthy of an extra amount of commendation. Interspersed between the songs was a surprisingly pleasing variety of new, bright, crisp and sparkling jokes and witticisms. The second part consisted of some rarely good female character impersonations, dancing and singing; grotesque and acrobatic dancing and eccentricities by "The World's Five;" a queerly comic and strangely worded discourse by Billy Richardson; an original absurdity, introducing choice music on a variety of instruments, called "The rival tenants;" and a grand reproduction of the voices of nature in imitating the songs of birds and the calls of animals, given by Prof. Charles Wallace. The closing feature of the entertainment was a laughable farce entitled "A Little Misunderstanding."

ANTIQUARIAN SUPPER.

The ladies of the Universalist society will have an Antiquarian Supper and Musicale in their vestry, Wednesday evening, Nov. 15th. Supper served from 7 to 9 o'clock. Musicale to begin at 9:15. Admission 15 cents, supper tickets 25 cents. The usual refreshments will be for sale, also aprons.

The schooner G. W. Raitt, Coleman master, was lying at Portsmouth bridge on Monday with a load of bricks on board, bound for Manchester-by-the-Sea, Mass. This is her 29th trip this season, and she expects to make two more before the close of up-river navigation.

Washburn's Last Sensation, the minstrel company which gave an entertainment in Music hall not long ago, has since gone to pieces somewhere down east.

The Indians who had been such an attraction to the small boys at Franklin hall for over a week, gave their last show here on Monday evening.

No coal vessels had arrived at this port for a week until last Sunday. On Monday evening there were five schooners lying at the Concord railroad wharf and two at Sise's wharf, with coal. A coal schooner for Exeter, and one for Dover, also arrived Sunday.

The schooner Annie F. Conlon, Seaward master, arrived at Boston on the 13th inst. from Georgetown, D. C., with 355 tons of coal.

The remains of the late Robert O. Dennett were brought to this city on Monday forenoon, and interred in Union cemetery.

At the close of the term of the 3d district school in Greenland, last week, the teacher, Miss Sarah P. Howard, was presented with souvenirs by her scholars. Miss Howard has proved herself an efficient teacher, and has the best wishes of both the scholars and their parents, who hope to greet her as teacher once more at the opening of the spring term. It is expected that Mr. Manning Hodgdon will be the teacher for the winter term.

Ship Gov. Goodwin, Lester master, arrived at New York on the 13th inst. from Liverpool. She had on board the captain and crew, eight in all, of the brig Highflyer of St. Johns, Newfoundland, abandoned at sea Oct. 26th, leaking badly, and with spars carried away and rudder gone.

It was not Eppy Doodah, but George W. T. Brown, who was going to Brentwood in company with Luella Thompson and an officer, at the time the woman skipped away and hailed the officer with "Are you there, Moriarty?"

The sloop yacht Wayward, of New York, which ran on Sea point, Gerrish's island, several months ago, went on the marine railway at Kittery on Monday last; she has been placed by her owner in charge of Mr. George T. Vaughan, and will be put in thorough repair under his supervision. The carpenter work will be done under the direction of Mr. Daniel Littlefield.

Schooners Paul Seavey, Young master, and Hattie, Lowe master, from Philadelphia with coal, and the Golden Gate, Amee master, from Boston with salt in sacks and boxes, arrived at this port on Monday, all to E. F. Sise & Co.

Ears for the Million

Foo Choo's Balsam of Shark's Oil

Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.

This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON ROONDELEH. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and **marvelously astonishing** that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 500 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.

Hear What the Deaf Say!

It has performed a miracle in my case.
I have no unearthly noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.

"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally** testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street, New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or diseases imparted by the errors of youth, or too close application to business, may be removed and manhood restored.

63th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

It beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

A mine of art and beauty, warranted to be a better medical book for every sexist than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Augusta.

N.B.—YOUNG and MIDDLE AGED MEN can ever much time, suffering and expense by reading the Science of Life. The Author, and the Author who may be consulted on all diseases requiring skill and experience. Address

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is a delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

It will restore the drooping spirits, invigorate and harmonize the organic functions, gives elasticity and firmness to the step, restores the natural hues to the eye, and plants on the pale cheek of woman the freshness of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of humors from the blood, gives tone and strength to the system, of man, woman or child. Infinitely the best blood purifier.

HEART DISEASE

IS YOUR HEART SOUND?

Now people think they have Heart Disease when it is only a weak condition of the Nerves, or Indigestion, or Dyspepsia, caused by Kidney or liver troubles, or dyspepsia, which if not cured will lead to Heart Disease. The Nervous Heart Disease, and its relation to the Heart. The renowned Dr. Cronkhaite, startlingly says "one-third of all sudden deaths are caused by Heart Disease."

The heart speaks about nine-tenths, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, running not day or night! Surely, this organ should be strong! It should!

Dr. Cramer, a celebrated physician has produced a specific for all heart troubles and kindred disorders. He has known as Dr. Cramer's Heart Regulator and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Cramer's thorough and exhaustive treatise. F. E. Charles A. Bond was arrested in Concord for buying the vote of Charles A. Chase on election day. The case was tried Monday forenoon, and after the evidence was all in Mr. Bond was promptly discharged by the court.

Father Duddy, pastor of the Catholic society at Winterport, Me., has been appointed pastor of the church at Great Falls, vice Rev. Clement Mutsaers, deceased. Father Phelan, assistant priest at Manchester, is appointed to the Winterport pastorate.

An active democrat of East Canaan, after working all day Tuesday, the 7th inst., and doing as much or more than any other man in his town toward the success of the ticket, suddenly remembered, Wednesday morning, that he forgot to vote.

The boarding house connected with the glass works at South Lyndeborough was damaged by fire to the extent of $1,500 on Wednesday night, the 8th inst.

The democrats elected their county candidates in Sullivan and Merrimack counties by circulating bogus republican ballots, many of which got into the boxes before the trick was discovered.

Political Matters.

While the democrats carried about everything in the north at the late election, the gains in the south were made by the republicans; but then the democrats were not able to make any gains there, having before had everything. In the southern states where the red-shirt clubs and tissue ballots were least numerous, the republicans made decided gains.

William H. Kennedy was elected by the democrats to the office of coroner, one of the most lucrative in New York city, on the 7th inst., and now two men of that name claim the place. One of them is an undertaker, and argues that he must be the man because his business has a natural connection with that of a coroner; to which the other replies that he keeps a rum saloon, which is much more intimately related to a coroner's jury than a coffin shop is.

The free-rum issue defeated the republicans in Kansas. The party there was squarely devoted to prohibition, and the democratic party was as squarely devoted to absolute free-trade in rum selling, by the several campaign platforms,—and rum did it.

A log cabin on the farm of a Mrs. Marshall, in Lunenburg county, Va., was burned a few nights ago, an entire family of colored persons perishing. It is supposed they were murdered and the cabin then set on fire.

A young man named Fulton was about two months ago set to sleep in a loft of the Hotel Huntington at Boston, to guard the trunks stored there by the patrons of the hotel. Fulton disappeared last week and so did jewelry and property valued at $4000, taken from the trunks.

The managers of the Allan line of steamers between England and the British provinces have brought suit against the Montreal *Witness* for libel, claiming $50,000 damages.

Fifty-eight million dollars is the estimated value of fingers rings of this country actually worn, and still there are people somewhere enough to go hacking and coughing because they do not want to invest twenty-five cents for a bottle of Dr. Bull's Cough Syrup.

A twelve-year-old Mexican boy is under arrest at Staten Island, N. Y., for shooting another boy named Charles O'Neil. O'Neil died Saturday morning.

Dr. Pierce's "Favorite Prescription" is not extolled as a "cure-all," but admirably fulfills a singleness of purpose, being a most potent specific in those chronic weaknesses peculiar to women. MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute, Providence, R. I., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Hot and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are peculiarly to womankind. This is a *Tonic Medicine*, but is prepared, after years of experience, and recommended, having the taste, flavor, smell and appearance, when out of every worthless member of the tribe.

If you have tried other medicines without success, do not be discouraged, but give "LADIES' TONIC" a single trial. It never fails to give good and *permanent relief*.

If you are troubled with any weakness or complaint peculiar to our sex, lay aside the doctor's nauseous mixtures, and try a bottle of this, which is pleasant and will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of Women and Mothers of years' experience, who give advice and assistance free from fashion, prejudice or selfishness.

Men will be given but by case of Female Weakness or Complaint. "Lady Tonic" will not cure. This is a fact, for other, made by *regular* medical writers "Lady Tonic" and stamp for circular.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad; notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 173 Freeman st.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa.
Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JUNIA HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

SULPHUR BITTERS. It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with Boils? Why suffer with the terrible Headaches? Why look so pale and feel so miserable? Why have the Blues? What makes you so nervous? Your system is all run down. Use Sulphur Bitters and be happy. Sulphur Bitters will cure Dyspepsia, Indigestion, Constipation, Costiveness, Piles, Nervous Diseases, Female Complaints, Rheumatism, Gout, Erysipelas, Salt Rheum, Fever and Ague, Diseases of the Blood, Liver and Kidneys, and Nervous Debility. Sulphur Bitters is a positive specific for all those diseases arising from a disordered state of the Stomach, Liver, Bowels, Blood and Nerves. It is composed of the celebrated Sulphur Springs of Virginia, combined with the best tonic vegetable preparations known to the Medical Profession. Sulphur Bitters is the only preparation which contains the entire virtues of Sulphur in such proportions as to make it NATURE'S GREAT NERVE TONIC.

SULPHUR BITTERS. The Dose is small—only a Teaspoonful. It is the best and cheapest medicine. Try it and you will be satisfied. Get it of your druggist. DON'T WAIT. GET IT AT ONCE.

Daily Chronicle.

Political Matters.

A Washington despatch of Nov. 13th says the returns from North Carolina and Virginia are much better than at first. In Virginia the readjusters have not only elected all the congressmen they counted on electing, but have slaughtered the republican sorehead candidates who played into the hands of the Bourbons; they have also secured the repeal of the capitation-tax, which in future will add at least 25,000 to the liberal strength. The readjuster congressmen certainly elected are Wise, at large, and five others. In North Carolina the republicans have elected three congressmen and the democrats five, by districts; and the republican candidate for congressman-at-large, it is believed, and also the entire republican judicial ticket, are elected. In Mississippi, in spite of the democratic hard counting, Chalmers, the associate of Butcher Forrest in the massacre of surrendered soldiers at Fort Pillow, is elected by 1300 majority; he is now an anti-Bourbon.

The solid south has a large congressional hole in it just now. There are at least seventeen (probably more) regular republicans elected from the southern states, and eight more anti-bourbons—twenty-five members in all. How much this will do toward a permanent break in the line in 1884 remains to be seen. It is a good beginning, and if a well-defined party contest comes, on any decent issue, the republican presidential candidate can look south for some electoral votes, and probably find them.

The avidity displayed by the democracy in claiming everything that floated in the late freshet recalls the story of a man who found an army blanket on the plains with the letters "U. S." woven in it. "'U' for Patrick and 'S' for McCarthy," said Pat. "Troth it's a foine thing, is larnin'; widout it I moight niver have known me own blanket." There is a good deal of independent timber claimed by the democrats on about the same basis.—*Philadelphia Record, dem.*

A true iron medicine, beneficial to the young as well as the old who suffer from dyspepsia, etc., is Brown's Iron Bitters.

Col. Fielding Lowrey, late postmaster at Dayton, Ohio, committed suicide Nov. 13th by cutting the carotid artery. The cause of his action was inability to meet a deficiency of $4,324 in his accounts with the post-office department. The deficit is amply secured.

Laconia has voted to raise $1,500 toward constructing a water-works at Weirs. The Boston, Concord & Montreal railroad company and the Winnepesaukee Camp Meeting association are to contribute $1,000 each additional for the same purpose.

We are in receipt of a letter from our old friend S. Sherson, Esq., at present a resident of the town of Rawlings, in the far-off territory of Wyoming. "Dr. Graves' Heart Regulator has helped me right along," says Mr. Sherson. Glad to hear it, old fellow. Yours was an aggravated case of heart disease. The remedy you mention does the same thing in this section too; and better still, it always cures heart disease.—*Nast's Weekly Letter-File.*

The farm house of George R. Downing, of New Hampton, was burned Nov. 9th, with its contents; loss $1500; insurance $800; cause, defective flue.

"Middle measures are often but middling measures." There are no "middlings" about Kidney-Wort. It is the most thoroughly refined "flower" of medicine. It knows no half-way measures, but radically uproots all diseases of the kidneys, liver and bowels. It overthrows piles, abolishes constipation and treats the system so gently and soothingly as to prove its true kinship to nature in all its phases. It is prepared in both liquid and dry form.

The towns of Laconia and Gilford have voted to rebuild Weirs bridge, replacing it with an iron suspension structure 100 feet long, at an expense not exceeding $8,000.

All ladies who may be troubled with nervous prostration; who suffer from organic displacement; who have a sense of weariness and a feeling of lassitude; who are languid in the morning; in whom the appetite for food is capricious and sleep at proper hours uncertain, should have recourse to Mrs. Pinkham's Vegetable Compound.

Monday morning about ten o'clock, as the baggage men at the depot in Concord were changing the baggage from the up trains to those for Boston, they threw a sportsman's gun-case into the Lawrence baggage car, when the piece exploded, seriously wounding Baggage Master W. D. Hodgdon on the left hip and groin; his face and hands were also wounded, and filled with powder. Depot Master Jones and several others had narrow escapes from receiving a portion of the charge. The owner of the piece is Mr. Charles Morgan, a locomotive engineer on the Boston, Concord & Montreal railroad, who says that he loaded the gun to shoot a hawk, and forgot to unload it when he put the gun in the case.

Ellery Allbee, the defaulting cashier of the Ashuelot savings bank, was taken into court at Manchester on the 14th inst., and plead guilty to three indictments of making false entries on the books of the bank with intent to deceive the bank commissioner, J. D. Lyman. Attorney-General Tappan moved for sentence on two indictments, and Judge Stanley imposed a sentence of five years in the state prison on each. The prisoner was removed to Concord by the two o'clock train, immediately after sentence was pronounced.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

The night of the 12th inst. was a cold one in the southwest, freezing weather and ice being reported from Memphis, Tenn., Shreveport, La., Austin and Dallas, Texas, and other places. The people down there had better come up to New Hampshire, where it's warm.

Side by side with the old family clock on the mantle shelf place a bottle of Adamson's Botanic Cough Balsam. You will need it in the coming months. New trial size 10 cts.

"A Book for Nothing" is advertised in our paper, but it is *everything* for those who desire pure wines and liquors for medical, table or general use, at the lowest prices for high-grade goods.

Portsmouth Chronicle.

WEDNESDAY, NOV. 15, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Democratic Flood.

Just how the next Congress will be divided, politically, cannot yet be told; but it is certain that the democrats will have a very large majority in the house. And not only have the democrats elected a majority of the members, but they have secured control of the delegations from a majority of the states, which would be a very important matter were the next election of a President to fall on the popular vote, as the house would then elect, and each state in that case counts but one vote. And in several states in which the republicans elected the legislatures, the democratic candidates for governor were elected.

Very naturally, the republicans are not greatly elated over the general result, while the democrats are full of joy, not a few papers and politicians of the latter persuasion declaring that the republican party was annihilated and democratic success in 1884 assured, by the election of Nov. 7th. A little exercise of memory would convince despondent republicans and over-confident democrats alike, that the election of 1884 was by no means decided on the 7th of November, 1882.

The reaction of this year, though great, is not nearly equal to that of 1874, the noted "tidal wave" year, when an overwhelming republican majority in Congress was changed to an equally overwhelming majority on the other side, and the majority of states (including the same great northern states that this year broke away from the republican column) and of state delegations in Congress were carried by the democrats; the disappointment of the republicans, and the joyous confidence of the democrats, were much greater then than now; democratic orators shouted themselves hoarse over the great "tidal wave of democracy" which had swept and was sweeping over the land,—but it did not sweep a democratic president into the White House after all.

And 1882 and 1874 are not the only "off years," midway between two presidential elections, in which the republican party has met with apparent disaster at the polls. In 1870, when Grant was half through his first administration, there was a democratic reaction and a democratic Congress; the democrats exultingly shouted that "Grantism" had destroyed the republican party; but Grant was triumphantly re-elected, — to see another democratic Congress chosen in the "tidal wave" year, when he was half through his second term. In 1878, when Hayes was half through his term of office, there was another democratic success; but in spite of the "solid south," made so by fraud and violence, the republicans elected the president in 1880.

Whether democratic success the present year will be followed by democratic disaster two years later, as has been the rule, will depend largely on the conduct of the next "democratic house." If the majority should attend more to the business of the country than to the making of political capital for their party, the republicans will have not only to be united but to fight hard to succeed at the next national election; if the majority should do as previous democratic majorities have done, make the public interests subservient to what the democratic managers may consider the interests of their party, they will again throw victory into the hands of the republicans, as they have so many times done already.

News and Notes.

Messrs. Charles L. Knapp & Co., of Lowell, Mass., offer for sale in another column the National Bell Telephone stock of several states and cities. This firm deals exclusively in telephone securities, and may be relied upon as one of the best houses in the country.

Judge Nelson of the United States supreme court has decided, in a case brought against the Providence Steamboat Co. by a survivor of the Narragansett disaster, that Long Island sound is a part of the Atlantic ocean, and its navigation is not governed by the laws relating to inland waters. Should this decision be sustained, the states of New York and Connecticut, which have hitherto claimed and exercised proprietary rights in the fisheries on the sound, will have to give up their claims.

A fierce dog belonging to Mr. Wolff, superintendent of the sardine factory at Millbridge, Me., recently broke loose and attacked an unprotected child two years of age, and killed and partially devoured it before it was discovered. It is to be hoped the child was Wolff's own.

At Bigbee Valley, Miss., Nov. 6th, Miss Pare, a white woman, was outraged and murdered by a negro, who was captured and lodged in jail. On the 9th he was hanged by a mob.

At Des Moines, Iowa, on the 12th inst., the foreman of the International distillery was warned by an anonymous note to examine the boiler, and search revealed a large quantity of dynamite in the tubes; and next day nine packages of the explosive were found in different parts of the building. The affair is shrouded in mystery, but the attempt to destroy the property is claimed by one of the partners to be the work of another partner, who had a dispute with the first as to his share of the profits.

The steamship Westphalia, New York for Hamburg, put into Portsmouth, Eng., Nov. 13th, with her bow stove in by collision with another steamship, whose name she did not learn, off Beachy Head. An officer and six men of the Westphalia went in a boat to look for the other vessel, and are supposed to have been drowned. It is feared the other steamer went down with all hands.

Charles Hall has been arrested for stealing $1300 from the house of Silas Miller at Herman, Me., some time ago, and about $1000 of the stolen money found on him. He is a young man, and formerly worked for Miller, but at the time of the robbery was supposed to be in Massachusetts.

Dudley Wakefield, of Sullivan, Me., accidentally shot himself in the bowels while gunning on the 10th inst., and died next day.

In the case of Charles Jackson Dixon of New York, an alleged lunatic, confined on Ward's island, who sought his release by a writ of habeas corpus, the referee appointed to hear the evidence reports him to be sane. This makes about a dozen alleged lunatics confined in that "asylum," and some of them held there for years, who within a few months have been decided to be sane; the methods of commitment to that institution evidently need a radical overhauling.

AROUND HOME.

Messrs. Jones, Winchester and Walker have closed a contract for the erection of a large building in Dover, on land purchased by them some time ago. Part of the building will be three stories high, and part two stories; and it will contain thirteen stores. It is to be completed next year.

The schooner Annie S. Conant arrived from Baltimore on Tuesday, with 741 tons of coal for J Albert Walker. The William Todd, from Perth Amboy with 248 tons, and the James Warren, from Elizabethport with 200 tons, were to the same.

It is reported that President E. B. Phillips of the Eastern railroad has received a very advantageous offer from a road in the west, and is likely to resign his present position.

Supt. Tucker of the Maine Central railroad, who was severely hurt in the recent collision at Lincoln on that road, is rapidly recovering from his injuries.

There was a dance in Trefethen's hall, Kittery, Tuesday evening—the second of a series intended to be kept up all winter.

William Stover, a prominent Odd Fellow of Kennebunk, was struck by a board thrown from a machine in Ferguson's planing mill in that town on the 13th inst., and died that night.

Mr. Benjamin S. Grace, formerly a driver of the stage coach between Kittery Point and this city for Mr. Keen, died at his home in Kittery on Tuesday, it is said from the effects of a felon which came on one of his fingers about two months ago, and which gradually affected his arm and body.

William Bickford and James Gardiner, each about seventeen years old, were arrested in Boston on the 13th inst. for burglary and theft. They are well known thieves, Bickford having in August last stolen a $500 bond and $90 in money from his uncle, Joseph G. Allen of Saco, while stopping in the latter's house.

Charles E. Hill, who hung himself in Forest avenue woods, Cohasset, Mass., recently, was formerly a Biddeford jeweller.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtJan82

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

Circulars, giving full particulars, may be obtained of

AND

Country Gentleman.

THE BEST OF THE

AGRICULTURAL WEEKLIES,

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the **FIRST RANK.** It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,

Horticulture & Fruit-Growing,

Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Repiles, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are usually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volume of THE COUNTRY GENTLEMAN for 1882 was GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, but the terms still continue as follows, when paid strictly in advance: ONE COPY, one year, **$2.50;** FOUR COPIES, **$10,** *and an additional copy for the year for each order of the Club;* TEN COPIES, **$20,** *and an additional copy for the year free to the sender of the Club.*

☞ *All* NEW *Subscribers for* **1883,** *paying in advance now,* WILL RECEIVE THE PAPER WEEKLY *from receipt of remittance to January 1st,* 1883, WITHOUT CHARGE.

CIRCUIT COURT OF THE UNITED STATES.

In the cases of Norton against the city of Dover and other cities, the motion to have the cases put on the jury list and the time for trial fixed for the 15th inst. was to have been heard on Monday, the 13th; but the clerk received a letter from Judge Lowell, stating that he was unable to be present on that day. Perhaps the connsel for the plaintiff, having discovered that in consequence of the coming in of the circuit court in Rhode Island on the 15th, requiring the presence of Judge Lowell in Providence on that day, these cases would have to be heard before the district judge, who being a citizen of Manchester and an officer of the Amoskeag company would not be likely to sit on their trial, regarded this as a reason for abandoning the motion without a hearing. At all events, the proposed hearing was adjourned without day.

MECHANICS' ASSOCIATION.

The eighty-first annual meeting of this society was held by adjournment on Tuesday evening of this week at the rooms in Mechanics' block, the president, William A. Hodgdon, in the chair.

The reports of the secretary and treasurer were presented, from which it appears that the association is in a good financial condition.

At the close of the routine business, John Pender was chosen moderator, and the annual election of officers took place, with the following result:

President, William G. Billings;
Vice President, Joseph Pettigrew;
Treasurer, Lewis G. Davis;
Trustees, Marcellus Bufford, Albert A. Fernald, Franklin N. Paul;
Secretary, Benjamin M. Parker;
Deputy Secretary, J. Warren Davis;
Marshal, Andrew J. Beck;
Deputy Marshal, James M. Locke;
Standard Bearer, Josiah F. Adams;
Auditors, John Knowlton, O. M. Knight, W. A. Hodgdon.

THE NINE O'CLOCK BELL.

The Portsmouth correspondent of the Manchester *Union* writes that paper as follows: "The daily ringing of the North church at nine P. M. has been discontinued since last Thursday by vote of the aldermen 'till further orders, on account of sickness.' Investigation shows that the city is exceptionally free from acute disease, and not a single case exists within sound of the bell which would be unfavorably affected thereby. It looks as if the action of the aldermen was a device of those who wish to secure absolute peace and quietness throughout the town at any cost, even to fencing it in and roofing it over. From comments already expressed, it appears that the curfew has a strong hold on the affections of at least three-quarters of the people, and if the 'further orders' are not issued till a strong expression of public sentiment demands them, those who like to hear the old-fashioned reminder of bed time will not have long to wait."

Attention is called to the advertisement in another column of sheriff's sale of millinery and fancy goods at the store corner of Pleasant and State streets, at eleven o'clock this forenoon.

On board the schooner William Todd, now lying at Noble's island, is a henhawk of the largest kind, which flew on board that vessel about three weeks since, when sixty miles off the coast of Maine. The bird has become thoroughly tame, is a good sailor and a voracious eater, and is allowed the freedom, of the deck.

Master Horace Dennett was knocked overboard by the recoil of a rusty gun, while engaged in duck shooting down river on Monday last. The gun is lying on the bottom of the river a short distance southeast of the Fishing islands, but Horace was fished on board by his companion, not much the worse for the wetting.

J. Albert Walker left for New York on business, Monday. Arthur W. Walker, who has been seriously ill at the Rockingham house, having so far recovered as to be able to resume his duties in the office.

We regret to learn that on Tuesday there was received in this city authentic intelligence of the death at Halifax, N. S., about two weeks ago, of Rev. Canon Walsh, formerly of this city and pastor of St. Mary's parish. It was mainly through his efforts and influence that the present fine structure—the Church of the Immaculate Conception—in which the Catholics worship was erected.

It is currently reported that the subject of a change in the time of holding our municipal election is to be agitated, the change suggested being to have it held in November, either annually as heretofore, or biennially.

Mr. John Langley, a skillful machinist, for many years employed in the department of steam engineering at the navy yard, has been appointed engineer in charge of the machinery at the Portsmouth Shoe factory.

Several coots were seen in the North millpond on Tuesday morning last. They must have awfully vitiated tastes.

Clarence O. Walker, formerly of this city but now of Malden, Mass., is employed by the Reading Railroad Co. selling coal on their account through Canada, principally at Montreal. Anthracite is coming into use in the Dominion to a much greater extent than formerly. The Canadian duty on coal is fifty cents a ton, and the freight from Philadelphia to Montreal the same as to this city; and the coal is sold there at the same prices as here, the Canadian dealers apparently being satisfied with small profits.

Thirty-four men were discharged from the department of steam engineering at the navy yard on Monday last.

The ocean weirs at the mouth of the harbor were taken up last week, having been down a month later than last year.

Spurling are reported as being in the lower harbor in vast quantities; and a large haul of them would have been made on Monday had not the net used by the fishermen burst, and let the fish all out. A number of boats went down to the lower harbor on Tuesday night, to endeavor to secure bait.

The frame of the new Farragut house at Rye beach was all up on Monday, and boarding it in was commenced.

The schooners Storm King and E. A. Williams received bait on Monday from Lane's cove, and will enter on winter fishing at once.

It is reported that Mr. Michael Cunningham has either sold or leased the Jefferson house on Water street, and that it will be used as a grocery store, eating saloon and barber shop.

The Portsmouth correspondent of the Boston *Traveller* states, on the authority of a gentleman connected with the enterprise, that parties are now negotiating in New York for a large side-wheel steamer to run between Boston and this city next summer, making a round trip every day.

Ears for the Million

Foo Choo's Balsam of Shark's Oil

Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.

This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON ROMDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and **many so seemingly miraculous**, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 300 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.

Hear What the Deaf Say!

It has performed a miracle in my case.
I have no unearthly noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.

"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally** testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street, New York, inclosing $1.00, and you will receive by return a remedy that will enable you to hear like any body else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should read the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decay of the man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Revised, enlarged and improved, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in elegant French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Unbiased all comparison the most extraordinary work on Physiology ever published. There is nothing which ever that the wanted or whole can desire require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

A marvel of art and beauty, warranted to be a worthy medical book in every sense than can be purchased elsewhere for double the price, or the money will be refunded in every instance.—[Argus.

A. R.—YOUNG and MIDDLE-AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author. You may be completely cured of all diseases resulting from skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

The Fall Returns.

Complete returns of the state have been received, which give Hale 38,398; Edgerly, 36,900; scattering, 939. Hale's plurality over Edgerly, 1,498; Hale's majority, 559. Total vote, 76,237. At the last previous election the vote was: Bell, republican, 44,482; Jones, democrat, 40,813; scattering, 919.

In the first congressional district Haynes has a plurality of 3796 over his democratic competitor, George Byron Chandler. In the second district, Ray, republican, has a plurality of 2214.

Four men were killed and a dozen injured at Cleveland, Ohio, Nov. 13th, by the explosion of a boiler in the Forest City iron works.

A boiler exploded in a mill near Washingtonville, N. Y., Nov. 13th, injuring the engineer, and fatally wounding two Italian laborers.

Clophas Dupuis, a wealthy merchant of Joliette, Can., got on a spree about ten days ago, and was accompanied from one drinking place to another by three bad characters, whom he was treating. In the afternoon he was seen running toward a covered bridge, with the three ruffians chasing him; he was not seen again until Nov. 11th, when his dead body was found in the river. The three men left the place the day after Dupuis disappeared.

"I move," said a delegate in a Virginia convention, "that our chairman take a dose of Dr. Bull's Cough Syrup, he is so hoarse that I cannot understand him." That gentleman had no doubt tried this wonderful medicine.

An unknown man and woman were found dead in their room at the Astor Place hotel, New York, on the morning of the 13th inst., suffocated by gas.

Dr. Pierce's "Pellets"—little liver pills (sugar-coated)—purify the blood, speedily correct all disorders of the liver, stomach, bowels. By druggists. c

---

At Hempstead, L. I., on the night of Nov. 11th, there was a fight between two farm hands employed by a Mrs. Barnum. They were both found dead next morning, one having been shot and the other stabbed to death.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents.

George W. Burgess, the first manufacturer of friction matches in America, died at Norristown, Pa., Nov. 12th, aged seventy-eight years.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

Lewis Olsen, fatally shot his wife in the Vanderbilt hotel at New York, Nov. 12th, and is now a raving maniac in Bellevue hospital. Mrs. Olsen leaves five children.

How I Felt.

Why two years ago I was just about crazy and no wonder that my wife and children were afraid of me. You just want to suffer with neuralgia with no relief as I did until I used Sulphur Bitters. They cured me and now my wife says I am as meek as a lamb.—*Robert Davis, American House, Boston.*

Josiah R. Smith, a fisherman of Los Angeles county, Cal., has murdered his fourteen-years-old son by cutting his throat. He and his wife are insane on religious subjects, and claim that the Lord commanded the sacrifice.

Avoid cheap goods. The *Hop Plaster* cures pains and aches where other plasters simply relieve; 25 cts. at all drug stores.

Mrs. Edith Childs, wife of T. Lucius Childs, late of Worcester, Mass., and daughter of Justice Harlan of the United States supreme court, died in Chicago on the 13th inst. As Edith Harlan she was one of the noted belles of Washington.

All iron preparations blacken the teeth, constipate the bowels, and give headache with one exception, that is Brown's Iron Bitters.

HEART DISEASE

IS YOUR HEART SOUND?

Many people think they have Heart Disease when it is not, and doctor for Liver or Stomach troubles, or dyspepsia, when it is simply one of the results of the Heart.

The renowned Dr. Cook-Martin, in Philadelphia, says "one third of my patients have some form of heart disease."

The heart weighs about six ounces, and yet in a few seconds of time it sends eight pounds of blood poison through it when it is healthy and active, resting not day or night!

Surely this should show how important it is to cure it.

Dr. Greene, a celebrated physician, has prepared a specific for all heart troubles and kindred disorders. It is known as **Dr. Greene's Heart Regulator** *and may be obtained of your druggist, $1.50 per bottle, six bottles for $5 by express. Send for pamphlet for Dr. Greene thoroughly and extensively treats on this disease.*

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $30,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR,
173 Pratt st.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa.
Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clear and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why have that terrible Headache? Why have that terrible Headache? Why have that terrible Headache

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

"A Book for Nothing" is advertised in our paper, but it is *everything* for those who desire pure wines and liquors for medical, table or general use, at the lowest prices for high-grade goods.

A fatal disease among cows, said to be milk fever, is causing considerable excitement among farmers in the western part of Massachusetts. One man has lost imported stock valued at $1500.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

It is estimated when the Topeka, Salina and Western railroad is completed between Council Grove and Salina, six thousand car loads of freight will be ready for shipment. Their six per cent. bonds are worthy the examination of those desiring a safe investment.

The Merrimac Hat factory at Newburyport has declared a dividend of three per cent. A great number of hats changed hands in Massachusetts just after the election, with perhaps a good result to the manufacturers.

The Geneva Award.

The Geneva award court met in Washington on the 15th inst. to hear arguments on some very important test cases, the decision of which is awaited with the greatest interest by persons having claims upon the Geneva award. By commercial usage generally it has been the custom for agents of ships, or the "ship's husband," to represent all the owners of fractional parts of a ship in all matters relating to the adjustment of losses. It happens that many of the vessels belonging in New England, which were destroyed by confederate cruisers, were owned in 8ths and 16ths, and it is urged that the ship's agent has no rights except in his own interest, and that the government, if a full award should be made to him, would have no guarantee that the amount belonging to other joint owners would reach its rightful destination. Several test cases have been prepared on which the various questions involved in the objections of the government will be urged.

News and Notes.

Burnham Wardwell has been convicted in the superior court at Worcester, Mass., of criminal libel on Sheriff Sprague's. The case goes to the supreme court on exceptions.

Edward Young of Worcester, Mass., a carpenter, walking on the railroad track to his work, Nov. 14th, was run over by a Providence & Worcester engine, and killed. He leaves a wife and four children.

In Marblehead, Mass., on the evening of the 14th inst., Mrs. Martha Chapman, on an election wager, wheeled Mrs. Hannah Perry in a wheelbarrow from her residence on Front street through State street to the square, around the town hall, and returned. The vehicle was tastefully decorated with Chinese lanterns. Mrs. Moses Sweet carried a large banner, with the picture of a fighting cock and the inscription "13,000, clean sweep." Fully 1,000 men were in the procession, and cheered the women lustily.

Arthur Chapman, nineteen years old, was killed at Easthampton, Mass., Nov. 13th. He was a brakeman on the local freight train running from Williamsburg to New Haven, and had not long been on the road. At Easthampton he had turned a switch, and endeavored to jump on the cars as they moved rapidly by him. Missing his hold, he fell upon the track directly under the wheels, which passed over his breast, literally cutting him in two.

AROUND HOME.

The schooner Albert Woodbury, Downs master, arrived on Wednesday of this week after a very successful season at mackereling, to fit for winter fishing out of this port; since she started out on the 25th of May last she has it is said stocked nearly $11,000, having on several occasions run into Boston with good fares, and found a bare market. Capt. Downs' family came in by the Albert Woodbury from the Shoals, to spend the winter; Mr. John B. Downs, the only native Star islander now residing on the island, also came in to pass a few days.

The Boston Theatre Co., in "the World," will again appear in Music hall Wednesday evening, Nov. 22d.

At a meeting of the Boston school committee, on the evening of the 14th inst., Mr. Edward C. Stimson of this city was unanimously elected master of the Mixed evening school of Boston.

Dr. John B. Wood, formerly of Great Falls but more recently engaged at journalism in New York, has gone to St. Louis, Mo., to assume editorial control of the *Chronicle*, the cheap evening daily of that city, of which paper Mr. Edwin Fernald, formerly of the Great Falls *Journal*, is proprietor, and on which Mr. Albert E. Wood of this city, and formerly of this paper, is employed.

The schooners D. K. Ham and Emily A. Staples, loaded with bricks from the up-river yards and bound for Boston, were towed out by the tug Ann on Wednesday.

Capt. Edward Jameson has bought the Jefferson house, corner of Water and Court streets, formerly owned by Mr. Michael Cunningham.

The graduating exercises of the medical department of Dartmouth college were held in the college church on the evening of the 14th inst., and included an address by Dr. D. W. Jones of this city, who was also chairman of the committee of examination for the award of prizes.

Mr. M. C. Foye invites ladies who propose to purchase furs for the cold season now approaching, to examine the goods in his store on Market street.

A new boiler, with new piping for the heating of the Rockingham house, has been put in; the interior of the house is being repainted, and other improvements and renewals are going forward, all of which will tend to make the Rockingham maintain its deservedly high estimate as one of the finest hotels in New England. Mr. Thompson's administration of the hotels Wentworth and Rockingham has fully realized the highest anticipations of his friends.

Alderman deRochemont, of Newburyport, holds the prize of the Tremont Gun club of Boston as being the champion marksman of Massachusetts. By the terms under which he won the prize he is obliged to remain open to challenge for its possession for six months, one challenge per month; he has already held it two months without being challenged. Mr. deRochemont belongs to the Newington family of that name, and bagged many a water fowl on the Piscataqua and Great Bay when a youth.

At the auction sale of the choice of pews in the renewed Congregational church at York on the 14th inst., Mr. Joseph Bragdon being the auctioneer, the premiums amounted to about six hundred dollars, Messrs. Samuel Sedgley and J. P. Simpson paying $50 each for first choice. The appraised value of the pews was $5,500; all but fifteen were sold, and these will be readily disposed of at the church appraisal.

An elopement is reported from Kittery Point, the circumstances being related as follows: A young man named Walter Patch has for some time been paying attention to a young woman, whose father strongly disapproved the suitor. On the 11th inst. the young man came down from Boston, where he has been employed, and the first of this week started back alone, but was followed to this city by the girl, who in turn was followed by the father, who however missed her, and she took the cars for the westward to join her lover.

MECHANICAL ORGUINETTE.

The most wonderful musical instrument ever made. Plays automatically any tune that was ever written. The Orguinette is a *reed instrument* on the principle of the Cabinet Organ, but with this difference, that no previous knowledge of music is required to play the most difficult piece. A child who has no knowledge of music can execute the most difficult airs with all the skill of the most accomplished musician. Plays religious, sentimental and dancing music with equal skill. Suitable for the Parlor, Chapel, Lodge, or Ball Room. The sweetest toned instrument ever heard, the wonder and admiration of all. The Orguinette is simple in principle, strong in construction and durable in every part. Will not get out of tune or require repairs even if used constantly. The music is produced by sheets of perforated paper. This paper is of great strength and durability and will not wear out. The number of tunes being unlimited any person can play the latest compositions of the day without the trouble of learning them. The price of the Orguinette is $5.00, but during this month in order to increase our holiday trade we will send the Orguinette complete, with choice selections of tunes, on receipt of Six Dollars ($6.00.) The Orguinette has a very handsome black walnut case, high polished and elegantly ornamented with gold. It is the perfection of mechanism and will last a life time. Every instrument shipped without delay, and *warranted perfect in every respect.* Extra tunes (several hundred in number) supplied at 4 cents per foot. Send for Catalogue of extra tunes. Remit by Post-office order, or registered letter. *The firm is reliable.*—Boston Globe. *Can and will do all they promise.*—Chicago Herald. *A rare bargain.*—Philadelphia Press.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

POLICE COURT--BATCHELDER J.

WEDNESDAY, Nov. 15th.

William McCarthy and Robert Mack were charged with stealing a watch from John Grover, the alleged theft having taking place in the police station the night before. Mack was dismissed on this complaint but was held in $100 to answer at the next term of the supreme court for being a tramp. McCarthy was held in $500 to answer at the same court for the larceny.

Reuben Rand, Jr., charged with the larceny of a pipe, pipe case, cigar holder and knife from Charles O. Barron, was held in $400 for the higher court.

All three of the defendants went to jail in default of sureties.

SHERIFF'S SALE.

The sheriff's sale of the stock of millinery and fancy goods in the store on the corner of Pleasant and State streets will take place at eleven o'clock this (Thursday) forenoon. The stock has been appraised by an expert, and will be sold on a percentage of the valuation, for *cash*. See advertisement.

HIGH SCHOOL ASSOCIATION.

The seventh annual reunion of the members of the High School association will be held in Franklin hall on Thanksgiving evening, Thursday, Nov. 30th. A promenade concert will be given by Harlow's orchestra at 7:45 o'clock, to be followed at 8:30 by dancing. The officers have given six entertainments from the income from membership fees, with private subscriptions added; the first assessment, fifty cents, was voted at the annual meeting last year, and will be payable to and collected by the treasurer, George E. Hodgdon, Esq., on delivery of the tickets a few days previous to the 30th inst.

A TRAMP REVIVALIST.

It is probable that the last has been heard of the "Reverend" Arthur A. Waite as a preacher of the gospel; the Bethel church of Lynn, Mass., which, even after the partial exposure of his trickery from the time he absconded from Lynn a year ago, still placed faith in his protestations of repentance, and sent money to pay for his return from the west to Lynn, has at last become convinced that the fellow is thoroughly bad, and formally repudiated him, having secured "conclusive evidence of his being a scoundrel of the blackest type." A detective, some time ago employed to investigate the charges against him, reports that he is a liar and swindler, and though married has been guilty of gross immorality with various women, notably with a young girl named Lena Capron, a niece of his wife, who travelled with him as a "medium" for a year or so, under the names of "Nellie Everett" and "Nellie Leslie," and confesses to improper intimacy with him throughout that time—a confession that is sustained by numerous gushing love-letters written to her by Waite before and since his last return to Lynn. It was this Nellie Everett who assisted Waite at an "exposure of spiritualism" in this city last fall, when only about a dozen persons assembled to greet him.

After Waite was brought back to Lynn by his former parishioners he made the strongest professions of regret for the past and the most fervent promises for the future, and published a letter in which he placed on his aged mother all the blame of his fall from grace! Soon came a report that he had been arrested and fined in North Adams, Mass., for assaulting his father-in-law, Rev. H. K. Flagg; and the reporters quickly found out that the assault was committed because Mr. Flagg objected to allowing his grand-daughter, the Capron girl, going to Lynn to again live in impurity with Waite. Returning to Lynn, in an interview with a reporter Waite proclaimed himself an excellent but persecuted man, and laid all the blame for his troubles on his father-in-law, though he had previously charged them to his mother. He said among other things that Elder Flagg, the complainant against him in the assault case, was by the court ordered to pay the costs, and that he (Waite) lent him the money—is very stupid lie for so consummate a scoundrel to tell, as no costs can come upon the complainant in a criminal case, the state assuming such costs. He also said that Mr. Flagg sold the tent "Glad Tidings," which cost him (Waite) $275, to parties in Connecticut for $75—this being the tent purchased for him by his admirers in this city, the place which he seems to have first "struck" heavily in his career as a chalk-talk revivalist. All this shows that while professing the deepest contrition he was as base a scamp as ever, and apparently much less shrewd than formerly.

A Lynn paper, speaking of his career in that city, says: "He came to Lynn bringing highly favorable credentials from the Boston Young Men's Christian Association, also from President Seelye of Amherst college, and other prominent religious men in Massachusetts." Our impression is that the Boston association repudiated him and his works, before the close of his performances in their city; but whether he succeeded in deceiving the Boston folks or not, he certainly did succeed in drawing after him in Portsmouth many hundreds of honest, earnest, well-meaning Christian people, who regarded him as a sincere and devout worker in the Master's vineyard. We remember this all the more vividly from the fact that we were several times publicly rebuked by one of the local papers, and quite indignantly remonstrated with by personal friends, at the time Waite was creating such a furore here, because we did not and would not lend the aid of our columns to the great religious and gospel temperance revival, as it was called, which he was conducting. Possibly some people still think he was then sincere; we at that time thought him a scheming hypocrite, though fairly well masked. In this opinion we were confirmed when at the close of his temperance crusade he asked the loan of a brewer's team to take the "Glad Tidings" tent to Dover! And when, at a later date, a young man from this city who had been with Waite for some months, aiding around the tent, returned without any of the wages he had been promised, we became certain that we had not unjustly judged the religious fraud.

The great harm done by such a man is not to be found in the fact that he receives money which could be much better applied, "jumps" his hotel bills, or even ruins the reputations and lives of one or more other persons; the worst feature of such a career is that it throws a smirch—undeserved but none the less harmful—upon true religion, and places in the hands of its enemies a weapon they are not slow to use. Years from now the local scoffers at inspired revelation will sneeringly allude to the doings and temporary success of Arthur A. Waite, as an argument to prove that the entire church is insincere and dishonest.

FUNERAL NOTICE.

Members of New Hampshire Lodge, No. 17, I. O. O. F., are requested to meet at Odd Fellows' hall, Friday, Nov. 17th, at 12:30 P. M., to attend the funeral of our late Bro. Benjamin S. Grace. Per Order.

THORNTON BETTON, Secretary.

The last cheap excursion to Boston over the Eastern railroad takes place to-day; see advertisement.

To-morrow evening, in Music hall, Sig. A. Farini's concert and opera company will give an entertainment such as has never before been presented in this city—a grand vocal concert by artistes of superior eminence, followed by the choicest portions of Il Trovatore.

The Bent brothers, cornet players, late of Gilmore's band, are now with Hague's British Minstrels. One of them was the solo cornetist at the concert given by Gilmore's band in Music hall some weeks ago, and is a close rival of Arbuckle and Levy.

The Newburyport *Herald* of Nov. 15th says: "The dredging machine and scows at Boardman's wharf are being repaired prior to searching for treasure at Newcastle." The scows should be well calked, and fitted with washboards, to enable them to carry the treasure they will find.

Rev. Wm. H. Alden, D. D., of this city, has been commissioned by Governor Plaisted of Maine to solemnize marriages in that state, and has already entered upon his duties under the appointment.

Mr. Will H. Anderson, the well known and popular messenger on the navy yard, was on Wednesday of this week united in marriage to Miss Ida E. Pickering of this city, Rev. Dr. Alden crossing the river to tie the nuptial knot. A large number of the nearer per-onal friends of the high contracting parties assembled to do honor to the occasion, and many others will join in wishing happiness to the groom and his youthful bride. The presents were very numerous and beautiful.

Mr. George W. Ham, the newsdealer, while walking along the street on the 15th inst. was bitten by a dog said to belong to Mr. Tobias E. Burke, the animal seizing him by the back of the leg, just above the ankle. Mr. Ham went to Preston's drug store and had the wounds cauterized.

Ears for the Million

Foo Choo's Balsam of Shark's Oil

Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.

This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON RONDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1110. Its cures were so numerous and **many so seemingly miraculous**, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 300 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.

Hear What the Deaf Say!

It has performed a miracle in my case.
I have no uncarthly noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.

"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally** testify, both from experience and observation. Write at once to Haylock & Jenney, 1 Dey Street New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Meremith Review.*

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Extensively, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price ONLY $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think "shortness of breath" and dropsy are not due to heart trouble, or dyspepsia, while if the truth were known, the real cause is in the heart.

The renowned Dr. Cornelius, medically says "one third of my patients suffer from heart disease."

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves established pills that have proved a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained of your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

The American Nobility.

The "Aryan Order of Americans" has once more assembled in Baltimore, and General A. P. Stewart, president of the University of Mississippi, has been elected provost-general. This aristocratic body decrees that no one can claim "really gentle lineage," and be entitled to join the order, unless he belongs to one of the following classes:

1. Male descendants from the colonial Governors, Generals, and Chief Justices.
2. Male descendants from the signers of the Declaration of Independence.
3. Male descendants of the Knights of the Cincinnati (Revolutionary field officers.)
4. Resident European nobility.

William Little, a lawyer of Manchester, D. O. Clement of Warren, and others, have located a new road from Woodstock to the summit of Mt. Moosilauke. The route is from the old Kimball place on Moosilauke river; passes up Walker brook, over a portion of Mounts Waternomee, Jim and Blue, by Deerlake meadow, the source of Baker's river, to the summit, a distance of about five miles.

William Conland of North Walpole, who was found in an unconscious condition on the evening of election day, having been terribly beaten by unknown persons, died Sunday night, the 12th inst. He remained unconscious up to the time of his death. The authorities of the town of Walpole, and the selectmen of Langdon, in which town the family is dependent, met on the 13th to act in the matter.

Frank Fulford, aged thirty-three years, an employe in the Lancaster paper mills, was fatally injured Nov. 14th, by being drawn into the gearing connecting the water-wheel shaft with the main shaft of the mill, while oiling the machinery. His arm and side were terribly mangled. He leaves a widow and four children.

The burglars who have for some time infested Newton, Brookline, West Roxbury and neighboring towns in Massachusetts, are in custody, and many stolen articles have been recovered. Two men named Dority, one named McCarthy, Charles G. Doyle and Samuel Taylor, are locked up as being the thieves; one Hayes, keeper of a den in Boston, and his housekeeper, are under arrest for receiving the stolen goods.

When Hiester Clymer was defeated for governor of Pennsylvania in 1866, D. T. H. Scheetz of Pottstown registered a vow to buy or use no more tobacco until a democrat was elected governor of that state. For sixteen years he and the weed were strangers, but on the morning after the late election he nearly bought out an entire tobacco shop, flinging the stock promiscuously among his friends.

John Jackson, a lad who has been an inmate of the almshouse at Easton, Mass., for several years, confesses that he set a fire which destroyed the barn attached to the institution on Nov. 13th.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

John Jones, a Welchman, working in a rolling mill at Cape Elizabeth, Me., was killed on Monday night, Nov. 13th, by being drawn into cogwheels.

How I Felt.

Why two years ago I was just about crazy and no wonder that my wife and children were afraid of me. You just want to suffer with neuralgia with no relief as I did until I used Sulphur Bitters. They cured me and now my wife says I am as meek as a lamb.—*Robert Davis, American House, Boston.*

Thomas Burt, aged twelve years, was caught in a reel at the Lewiston (Me.) bleachery Nov. 14th, and had both thighs fractured and his skull crushed.

All iron preparations blacken the teeth, constipate the bowels, and give headache with one exception, that is Brown's Iron Bitters.

Samuel E. Bartlow, aged sixty years, of Brandon, Vt., en route to New York on an excursion, was drowned at Troy, N. Y., Nov. 14th.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, (twelve shares of stock (par value $50 each) and a $1000 bond, will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 173 Prestmanst.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

SULPHUR BITTERS. Why suffer with Boils? Why have with that terrible Headache? Why lay and toss on that box of pain, with Rheumatism? Why endure those distressing sensations so well known to dyspeptics? Why let your blood become impure, when a few bottles of SULPHUR BITTERS will remove the cause and restore you to perfect health? Why suffer with Pimples and Blotches, which may be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS. It will drive the Humor from your system, and make your skin clean and smooth. Those Pimples and Blotches are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS.

The Dose is small—only a Teaspoonful. It is the *best and cheapest* medicine. Try it, and you will be satisfied. Get it of your druggist.

Gazette Correspondence.

PIKE CREEK, MORRISON COUNTY, MINNESOTA, Nov. 10th.

Mr. Editor: There was published in a late number of your paper a letter which was evidently written by a recent visitor to our place, and whose impressions of our beloved western home were not very flattering.

We have had many deprivations and hardships incident to the settlement of a new country, and have not yet reached a point, which we hope is in the near future, when we shall have all the comforts of an eastern home. What we have had to contend with is nothing when compared with that which the first settlers of New England had to endure. Our "stumps, mudholes and broken corduroy" are but trifles which can be easily remedied, and any young man who has not spirit enough to encounter these had better stay in the old Granite State and pick up rocks and dig clams all his natural life. If one look into our humble homes would cure him of any desire to make a home for himself in this glorious western world, among this happy, contented people, I advise him by all means to stay where he is. We have no place for those with the evident nature of your correspondent.

What we want is more men of spirit and enterprise, who will come among us and help build up our schools and churches, and will delight in being one of us and in helping develop the vast resources of this region. New England has enough of such to spare, and Minnesota has plenty of room for them to build homes equal to any to be found on the eastern coast.

Yours truly, MINNESOTA.

—Sitting Bull is a lover of dime novels, and when he strikes the chapter where Dare Devil Dan surrounds seventeen redskins, kills eleven of them and takes the others prisoners, the smile that covers his swarthy countenance couldn't be measured with a twenty foot tape-line. The scene is so graphic and real that it makes him think of times agone, when he lifted scalps for a living.

Do'st thou love life? Then do not squander valuable time,—for that is the stuff life is made of;—but procure at once a bottle of Dr. Bull's Cough Syrup for your cough and be cured. Your druggist keeps it.

Walter Bailey, freight conductor on the Southeastern railway of Vermont, fell from a car Wednesday night, Nov. 15th, the whole train passing over him, cutting one leg off.

Dr. Pierce's "Favorite Prescription" is not extolled as a "cure-all," but admirably fulfills a singleness of purpose, being a most potent specific in those chronic weaknesses peculiar to women. Particulars in Dr. Pierce's pamphlet treatise on diseases peculiar to women, 96 pages, sent for three stamps. Address World's Dispensary Medical Association, Buffalo, New York. 5

We are in receipt of a letter from our old friend S. Sherson, Esq., at present a resident of the town of Rawlings, in the far-off territory of Wyoming. "Dr. Graves' Heart Regulator has helped me right along," says Mr. Sherson. Glad to hear it, old fellow. Yours was an aggravated case of heart disease. The remedy you mention does the same thing in this section too; and better still, it always cures heart disease.—*Nast's Weekly Letter-File.*

A western man who has invested $750,000 in cars and plant for carrying on the business of shipping meat from Chicago to New York, suspects that those who are interested in the plant for the transportation and marketing of live stock are putting up a large sum to break up the meat movement. The live stock weigh twice as much, hence it is claimed to be for the interest of the railroads to carry them in that shape. The men who are said to be interested in this scheme are Vanderbilt, J. B. Eastman, John B. Dutcher, and Allerton of Chicago. The meat shippers claim that all schemes for making a rival meat-moving business are intended to kill off the present one, and to preserve the hoof-moving business.

***Middle measures are often but middling measures." There are no "middlings" about Kidney-Wort. It is the most thoroughly refined "flower" of medicine. It knows no half-way measures, but radically uproots all diseases of the kidneys, liver and bowels. It overthrows piles, abolishes constipation and treats the system so gently and soothingly as to prove its true kinship to nature in all its phases. It is prepared in both liquid and dry form.

It is reported by the secret service division of the treasury department that a good counterfeit of the standed silver dollar is being extensively circulated throughout the country. Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted, at different times seven physicians, but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding by the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result; "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Portsmouth Chronicle.

FRIDAY, NOV. 17, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Disaster off Beachy Head.

The third officer, two quartermasters and two seamen of the steamship Westphalia, comprising the crew of the boat sent from that steamer to look for the vessel she collided with, were picked up by a pilot boat and have been safely landed. The officer reports that after pulling about for nearly two hours he saw the vessel go down about two hundred yards distant, but was unable to ascertain her name and nationality. He saw flames burst forth from the steamer before she sank.

A despatch of the 15th inst. from Portsmouth, England., says: "The Westphalia was surveyed in the dock to-day. The damage on the starboard side extends from the stem forty feet aft, and on the port side extends fifteen feet aft. The hole on the port side is nine feet across. A large piece of the steamer with which she collided, including some frames, is sticking in the hole. The Westphalia's stem appears to be sound. The vessels seem to have met stem to stem. After striking the Westphalia on the port side it is probable the other steamer swung around and scraped along the Westphalia's starboard side. The latter vessel, despite the extensive damage she sustained, according to the latest account waited six hours before making for a port of refuge."

Some apprehension has been felt lest the ill-fated vessel which came into collision with the Westphalia should prove to be the Red Star steamer Nederland, which sailed from Antwerp for New York at one o'clock Nov. 11th, and passed Flushing four hours later. The agents of the line in New York are confident that the Nederland must have passed Beachy Head on Sunday some hours before the Westphalia came into collision with the unknown steamship there.

Benjamin A. Parker of North Berwick, aged twenty four years, a son of Rev. B. F. Parker of Contoocook, N. H., where the young man was arrested on the 8th inst., has been held in the sum of $2500 for setting fire to his own dwelling with intent to defraud an insurance company, and in $5000 on a charge of setting fire to another dwelling in 1881. It is said there is good ground for believing that Parker has feloniously burned a school house, two stables and two houses within two years.

Our democratic exchanges and their candidate for governor are still scolding about the Portsmouth navy yard, to which they ascribe their defeat in this state. In our judgment a navy yard is a curse to any place, and this particular one has done more to paralyze, debauch, pauperize, and depopulate our sister city of Portsmouth, than all other agencies combined. Furthermore, it is a burden upon and a source of weakness to the republican party of this state, and if it had been abolished years ago, we should have been better off. But for that sore upon its side, Portsmouth, would to-day be alive with a population of 20,000, and a republican majority of 500.—*Manchester Mirror.*

MECHANICAL ORGUINETTE.

The most wonderful musical instrument ever made. Plays automatically any tune that was ever written. The Orguinette is a reed instrument on the principle of the Cabinet Organ, but with this difference, that no previous knowledge of music is required to play the most difficult pieces. A child who has no knowledge of music can execute the most difficult airs with all the skill of the most accomplished musician. Plays religious, sentimental and dancing music with equal skill. Suitable for the Parlor, Chapel, Lodge, or Ball-Room. The sweetest toned instrument ever heard, the wonder and admiration of all. The Orguinette is simple in principle, strong in construction and durable in every part. Will not get out of tune or require repairs even if used constantly. The music is produced by sheets of perforated paper. The music is of great variety and durability and will not wear out. The number of tunes being unlimited any person can play the latest compositions of the day without the trouble of learning them. The price of the Orguinette is $50, but during this month in order to increase our holiday trade we will send the Orguinette complete, with choice selections of tunes, on receipt of Six Dollars ($36.) The Orguinette has a very handsome black walnut case, highly oiled and elegantly ornamented with gold. It is the perfection of mechanism and will last a lifetime. CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and that terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, that strikes at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case,) to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *wonderful cures, as a* curse, *Ayer's, etc.,* and spending nearly a hundred dollars *without benefit,* I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly more acid, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so great y improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE BEST OF THE
AGRICULTURAL WEEKLIES,

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture, in amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are usually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volume of THE COUNTRY GENTLEMAN for 1882 was GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, but the terms still continue as follows, when paid strictly in advance: ONE COPY, one year, **$2.50;** FOUR COPIES, **$10;** *and one additional copy for the year free to the sender of the Club;* TEN COPIES, **$20,** *and an additional copy for the year free to the sender of the Club.*

Union meeting this evening at the vestry of the Middle street church, on State street.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Nov. 16th, Mayor Treat in the chair:

Present the full board, except Ald. Stavers.

Records of last meeting were read and approved.

There was discussion regarding the asked-for extension of Rogers street, but no action was taken.

Daniel D. Waldron was granted leave to open Dennett street to repair a drain.

J. W. Parsons in a communication asked the extension of the sidewalk on the west side of Chestnut street for fifty feet, and called attention to the bad condition of the walk on the east side of said street, suggesting that the walks be made wider, etc. Referred.

Rev. Abner Hall was granted leave to withdraw his request for permission to use the south ward-room on Sundays for religious purposes.

The Common Council announced the passage of an ordinance appropriating money for payment of the judgment in case Ordiorne vs. the city, and for the settlement of the Mason suits; and authorizing the mayor to hire the money at not exceeding six per cent interest, and for a term not exceeding one year. Passed by the board, under suspension of the rules.

The council sent up an ordinance relative to accidents on the streets, providing for the investigation of claims as they may arise by the mayor and a committee, and giving them certain powers as to settlement of such claims as are just. Referred.

Ald. Hackett enquired as to whether Ald. Martin's patients were convalescent, so that the nine o'clock bell could safely be rung again. Ald. Martin replied that he was afraid the ringing of the bell might bring on a relapse. The mayor said that some old women who had been down in town visiting, didn't get home until quarter past ten o'clock, owing to the bell not ringing. Another alderman said that since the bell was stopped, many married men had got home at very late hours. [After the adjournment a gentleman suggested that the stopping of the bell is a good thing for the saloons within bell-sound of Market square, for whereas a large proportion of their patrons used to leave before the sound was fairly out of the nine o'clock bell, they now stick in front of the bars till ten or eleven.]

Adjourned.

ENCOURAGE YOUR OWN.

The stock of millinery goods in the store corner of Pleasant and State streets was sold at auction by Col. J. Horace Kent, sheriff, on Thursday last. The price at which it was knocked down was forty per cent of the valuation of $700.51.

A well known milliner present suggested that that if there were many more cheap excursion trains for Boston, more stores would have to be vacated by the sheriff. The lady remarked that it seemed as if some of the Portsmouth business people did not properly sustain each other. "Now," asserted the dealer, "I pay a large rent, but I get no custom whatever from the ladies of my landlord's family. I have paid insurance for many years, but the ladies in the agent's family probably think the Boston hats more becoming than mine. I buy coal, and pay gas bills and like expenses in cash, but very few of my receipts are from the sources to which my expenditures are made."

Of course the ladies in a family will buy where they please, but if we will go to Boston for the same articles we can find in our local stores, and do not with our patronage encourage our dealers to keep good assortments, the result must be that stores will be vacated, rents decline, and business people leave our city.

THE TREASURE SEEKERS.

A steam tug left Newburyport on Wednesday, the 15th inst., with a dredge and a long string of scows in tow, "for Newcastle to explore the treasure grounds," according to the Newburyport *Herald*. The tow arrived in the lower harbor the same evening, and on Thursday proceeded to the "treasure grounds," between the Wentworth house bridge and the point on which the Campbell cottage is situated. The rumors prevalent on the streets, Thursday evening, that two of the scows had been sunk by the quantity of Spanish doubloons dumped into them by the dredge, and that each doubloon was marked "R. K." and had a spot of blood on it, were entirely unfounded.

THE COMET.

The comet seems to be totally ignored by the papers now, but it is still visible, and at a much more rational hour than at first, when a man had to get up at four o'clock in the morning to see it; now it rises before midnight, as we should judge from its position in the south at two or three o'clock. Its trail is about as long as ever, though it is a rather "thin" looking affair now; but in ordinary seasons this comet would yet be regarded as a magnificent one. By the way, we should like to know from the scientists whether this comet is now outward bound through space, never to return, or is likely to take another look at us one of these days; we have never seen any definite statement from them on the subject, though they talked a good deal about it when the erratic stranger first hove in sight.

Whoever enjoys first class music performed by artistes of high merit should visit Music hall this (Friday) evening, when Sig. Farini's company will give their grand concert and operatic selections, advertised in another column. No similar entertainment has ever been offered in this city, so far as we are aware, and there can be no question that all who attend will enjoy it.

A meeting of the Portsmouth Mercantile Library Association will be held this (Friday) evening, to discuss the advisability of presenting the books, etc., owned by the association, to the Public library.

A valuable coach dog belonging to Mr. C. M. Gignoux was run over by a carriage on Thursday morning last, and had one of his paws badly crushed. The animal was kindly removed from the street to a neighboring yard by a bystander; later his paw was examined by a physician, and he was taken home by his owner.

The schooner Paul Seavey, Young master, which arrived at this port on the 12th inst. from Philadelphia with a cargo of coal for E. F. Sise & Co., was loading on the 16th with 2000 barrels of apples for Baltimore, shipped by C. H. Hayes. These apples are of extra quality, and were purchased by Mr. Hayes in the interior towns of the state.

Mr. James W. Coleman, representative-elect from Newington, gave an oyster supper in the town hall on Wednesday evening, the 15th inst., to the townspeople and many persons from other places, about two hundred in all partaking of the good things provided. After the supper there was a dance, the Newington quadrille band furnishing the music. We acknowledge the courtesy of an invitation to be present, which we regret we were unable to accept.

A social entertainment will be held in the Newington town hall this (Friday) evening.

Walter H. Page, Esq., local editor of the *Times*, has resumed his journalistic duties after an absence of several days.

The steamer Sam. Jones, of Gloucester, Mass., came into this port on Wednesday of this week, and sailed again Thursday morning.

To-morrow evening, in Music hall, Hague's British minstrels will give a performance which is claimed to be "an entirely new revelation in minstrelsy," the witticisms being witty, the fun pure, and the singing and specialties far above anything yet offered by a minstrel troupe. The entertainment given by this company is very highly spoken of by the papers of other places, but it is their first appearance here, so we can say nothing about it personally.

The schooner Veto, Trim master, bound from Richmond, Va., for this port, with a cargo of coal, anchored in Vineyard Haven on the 14th inst., and during the night was drifted down upon by the brig Carrie Purinton, and had her stem damaged and one cat-head carried away. The brig's quarter was badly damaged.

A cooper named Frizzell lost half of one of his thumbs by an accident on the 15th inst., while engaged at his usual occupation.

The dry dock was floated out at high water on Thursday. The Plymouth is to be taken out on Saturday morning at high water.

Tickets for "The World" will be on sale at Myers' bookstore on Saturday, at nine o'clock A. M.

It was rumored at the navy yard on Thursday that the caisson of the dry dock at the Charlestown yard is in such condition that the Powhatan cannot be taken into that dock, and that the ship will be towed to this station to be docked.

On the night of the 14th inst. a horse, harness, wagon and two robes, the whole valued at about $250, were stolen from the stable of Henry Dunnell, at Wells. The thief then drove to Kennebunk, where he exchanged the wagon, and then drove to Lyman, took John W. Taylor's horse out of the stable and turned Dunnell's horse loose, proceeded on his way, and had evaded the officers up to the 16th inst.

Ears for the Million
Foo Choo's Balsam of Shark's Oil
Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.
This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON RONDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1410. Its cures were so numerous and **many so seemingly miraculous**, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 300 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.
Hear What the Deaf Say!
It has performed a miracle in my case.
I have no unearthly noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.
"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally** testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street, New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Review.*

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their condition should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Cloth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and Chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 5; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Beyond all comparison the most extraordinary work on Physology ever published. There is something what ever that the married or single can think require or wish to know but what is fully explained.—"London Lancet."

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

A marvel of art and beauty, warranted to be a valuable medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—"Author."

N. B.—YOUNG and MIDDLE AGED MEN can now reach time, suffering and expense by reading THE SCIENCE OF LIFE, or SELF-PRESERVATION, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and suffer for kidney or liver trouble, or dyspepsia, while at the root, lurking, the real cause is at the heart.

The renowned Dr. Clendenning, startlingly says "one third of my patients show signs of heart disease."

The heart quickly feels the effect of poor blood, which is made worse by dyspepsia, and causes intense misery. It may be a remote and scary, resting not day or night! Surely this subject should have careful attention.

Dr. Green, a celebrated physician, has prepared a specific for all heart troubles and kindred ailments. This known as **Dr. Green's Heart Regulator** *and can be obtained of your druggist, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Green's* "Heart Disease." (20)

Naval Affairs.

Assistant Paymaster John O. Lovell has been ordered to duty in the bureau of provisions and clothing.

Lieutenant Commander Charles H. Pendleton has reported his return home, having been detached from the Brooklyn, South Atlantic station, on the 6th of September, and has been placed on waiting orders.

The U. S. S. Juniata left the New York navy yard Nov. 14th, for an anchorage off Ellis island, to take in her powder, etc., preparatory to sailing on her cruise.

The U. S. S. Quinnebaug arrived at Malta November 15th, from Alexandria, Egypt.

First Lieut. Louis J. Gulick, U. S. M. C., is detached from the barracks at the Boston navy yard, and ordered to command the marine guard on board the Alliance.

Lieutenant Commander Charles H. Rockwell has been ordered to the receiving ship Franklin.

The U. S. S. Enterprise will be ordered to the Asiatic station about December 1st.

Lieutenant Arthur P. Nazro is detached from the training ship Minnesota, and ordered to special duty on the board of inspection.

"Ladies' Tonic."

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

Ex Gov. Prescott was moderator at the recent town meeting in Epping.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents.

Near Raub, Benton county, Ind., Nov. 15th, a well-to-do farmer named Jasper Spaulding knocked senseless his little son and wife with a whiffletree, and then cut their throats with a razor, after which he cut his own throat with the same weapon. His mother-in-law on visiting Spaulding's residence discovered the whole family lying dead on the floor of the kitchen. The cause of the act was insanity.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

On Saturday night, the 11th inst., Charles Hewry, Jr., a merchant at Lost Prairie, Tex., after a quarrel with two brothers named Butler, started for home and was pursued, the Butlers following him to a negro cabin where he had taken refuge, and kicking the door down. Hewry had a double-barrelled shot gun, and killed both brothers as they crossed the threshold.

Avoid cheap goods. The *Hop Plaster* cures pains and aches where other plasters simply relieve; 25 cts. at all drug stores.

Judge Hoffman, in the United States district court at San Francisco, Nov. 14th, decided that three Chinese merchants should be allowed to land at that port. The court held that the anti-Chinese law applied only to laborers, other classes not being included in its prohibition. The collector of customs had refused to allow them to land, hence the suit.

All iron preparations blacken the teeth, constipate the bowels, and give headache with one exception, that is Brown's Iron Bitters.

Brave Bear, the Indian chief who in May, 1879, killed a white man named Joseph Johnson near Fort Sully, Dakota territory, was hanged on the 15th inst. at noon, in the jail yard at Yankton.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been very wide enough to cultivate my judgment to some respect."

"Oh, I don't know, respond the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty much the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense! that is the cigarette of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from a cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow; and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and 'in case of need I'll buy Benson's,' said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels synced at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

STRONG FACTS!

A great many people are asking what particular troubles BROWN'S IRON BITTERS is good for.

It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism, Neuralgia, and all similar diseases.

Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and, by building up the system, drives out all disease.

A Lady Cured of Rheumatism.

Baltimore, Md., May 7, 1880.
My health was much shattered by Rheumatism when I commenced taking Brown's Iron Bitters, and I scarcely had strength enough to attend to my daily household duties. I am now using the third bottle and I am regaining strength daily, and I cheerfully recommend it to all.
I cannot say too much in praise of it. MRS. MARY E. BRASHEAR, 173 Prestman st.

Kidney Disease Cured.

Christiansburg, Va., 1881.
Suffering from kidney disease, from which I could get no relief, I tried Brown's Iron Bitters, which cured me completely. A child of mine, recovering from scarlet fever, had no appetite and did not seem to be able to eat at all. I gave him Iron Bitters with the happiest results.
J. KYLE MONTAGUE.

Heart Disease.

Vine St., Harrisburg, Pa. Dec. 2, 1881.
After trying different physicians and many remedies for palpitation of the heart without receiving any benefit, I was advised to try Brown's Iron Bitters. I have used two bottles and never found anything that gave me so much relief.
MRS. JENNIE HESS.

For the peculiar troubles to which ladies are subject, BROWN'S IRON BITTERS is invaluable. Try it.

Be sure and get the Genuine.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with Boils, Blotches, Pimples and Humors of all kinds, when a few days with that terrible Headache will be gone, or that bad cough, which your neighbors say is fast carrying you off, yielding to the healing power of Sulphur Bitters? Do not waste your money on worthless compounds, but buy the best blood purifier and tonic ever made, which will cure you when all else fails. Sulphur Bitters is not a drink, but a medicine, combining all the elements of Sulphur, Iron and Vegetable Tonics, in a form easy of administration, and so combined that it will not blacken the teeth or cause constipation, as do other preparations of Sulphur. Sulphur Bitters is not a cure-all, but will cure Dyspepsia, Liver Complaint, Kidney Complaint, Rheumatism, Nervous Debility, Chronic Diarrhœa, Dysentery, Boils, Blotches, Humors, Pimples, Tetter, Ringworm, Scald Head, Sore Eyes, Sore Ears, Sore Throat, Mercurial Disease, Female Weakness, Diseases of the Blood, Skin and Liver, Jaundice, Dropsy, Fever and Ague, Chronic Constipation, Piles, Female Complaints, Nervous Prostration, Sleeplessness, Loss of Appetite, Consumption, Pain in the Side, Back and Joints, Neuralgia, Tetter, Salt Rheum, Erysipelas, Scrofula, Ulcers

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

"Footlight Fancies," by Mrs. Chas. F. Fernald, contains entertainments for the home and school, comprising school operas, charades, plays, Christmas capers, etc.; paper covers; price thirty cents. Published by Lee & Shepard of Boston, and sold by M. Goodrich.

Side by side with the old family clock on the mantle shelf place a bottle of Adamson's Botanic Cough Balsam. You will need it in the coming months. New trial size 10 cts.

AROUND HOME.

Waldo Messaros, a blind Greek, who formerly did a little preaching and lecturing in Wells and other towns in York county, it is said "has literally set Philadelphia wild with excitement, by assuming the position of acting pastor at the Northwestern Presbyterian church there, and filling the empty pews, and empty treasury as well, by his matchless eloquence. He has mastered eight languages unaided."

At a meeting of the stockholders of the Soapstone Hollow Mining Co., held in this city at the Rockingham house on Oct. 7th, A. P. Lighthill, Dudley Pray, Wm. W. Hadley, C. W. Wellington, C. O. Breed, J. W. Brown, C. H. Hopkins and H. A. Tarlton were elected directors; Dudley Pray of South Boston was chosen president, Wm. W. Hadley of Lynn vice president, C. W. Wellington of Boston treasurer, C. O. Breed of Lynn clerk for directors, and Herman A. Tarlton of Portsmouth secretary.

Keep your feet dry by going to No. 12 Hanover street and purchasing a bottle of J. W. Young's leather preservative and water-proof dressing; satisfaction guaranteed or money refunded. Boots and shoes neatly repaired at low prices by J. W. Young, No. 12 Hanover street.

A paper is being circulated among the stockholders of the Eastern railroad, informing them of the terms upon which it is proposed to lease their road to the Boston & Maine railroad. The subject will probably be acted upon at the annual meeting in December.

John E. Hewes of North Hampton, employed on a milk train of the Eastern railroad, was struck by an eastward bound train at West Lynn, Mass., early in the afternoon on the 17th inst., and suffered a compound fracture of the left leg, was badly bruised on one shoulder, and it was feared received internal injuries.

Since the Maine Central railroad leased the European & North American line, the business on the latter road has increased largely, so that the stockholders of the Maine Central are highly pleased with the investment. Improvements are constantly being made along the line from Bangor to Vanceboro.

The name of the young woman who eloped from Kittery Point with Walter Patch on the 13th inst. was Lizzie Palmer.

Manning is selling a good serviceable Ladies' Boot for winter wear for $2.00. Men's Boots as low as $2.25. No. 5 Market street.

A man named Roberts, of York, went to Boston on Wednesday, the 15th inst., and in the evening made the acquaintance on the street of one Nellie Ring, alias Dora Richardson, with whom he passed the night at the Phœnix house on Green street, where he registered as "H. Herpin and wife." In the morning when he awoke he found his partner had gone, and also $215 in money which he had upon retiring. The case was reported to the police, and on the evening of the 14th two officers on the street were approached by a woman who inquired if they wanted to arrest the woman who robbed a man in the Phœnix house the preceding night, and upon receiving an affirmative answer she informed them where she was. The officers, visiting the place, arrested Nellie Ring on suspicion of having committed the act. From information received from Roberts there is but little doubt but that she is the guilty party.

John A. Hoye's clothing store in Dover was broken into on the night of Nov. 15th, and overcoats to the value of $150 stolen. The thieves got in by prying a window open with a chisel and spike.

The Sullivan Machine company, of Claremont, are getting out $23,000 worth of machinery for the manufacture of asphalt pavement for shipment to Sydney, Australia.

A Swedish girl who came to this country two months ago and has recently been employed in the carding room of the Webster mill at Suncook, lost three fingers of her right hand on the 13th inst. by catching them in the machinery.

Charles F. Hayden of Fitzwilliam, aged about twenty years, left the house of his employer Friday evening, Nov. 10, and on Saturday morning was found, mangled almost beyond recognition, on the track of the Cheshire railroad. He had apparently fallen while walking on the railroad, and been stunned, and run over by two or three trains before his remains were discovered.

Recently Bishop Healey divided the Catholic population of Great Falls into two parishes; the Irish population to worship at St. Mary's church, and the French-Canadian people to hold devotion in the town hall until a suitable church edifice shall be erected. When the decision was announced, the directors of the Great Falls Manufacturing company met and voted to grant the French Catholics a valuable piece of land on which to erect a church and parochial house. The pastor of the society was notified, furthermore, that he was offered the free use of a fine residence until the parsonage was finished. The work of commencing the building of the church is to be begun at once, and the edifice is to be capable of seating 1,500 persons.

A complimentary dinner was given to Harvey D. Parker at the Parker house in Boston on Thursday evening last, congratulatory on his return from a tour in Europe. Hon. Charles Levi Woodbury presided, and among the persons present were Congressman-elect Collins, S. R. Niles, the Egyptian tourist, Leopold Morse, Eben D. Jordan, James R. Osgood and many well known business men of Boston. The exercises are reported to have been—unlike the customary Boston dinner—gustatory rather than eloquent. Mr. Parker began the restaurant business in 1832 in Tudor's building, now demolished. In 1854 he began to build the Parker house, which he has occupied since October, 1855. Mr. Parker having recently returned from Paris the menu was printed in French, upon white satin.

In New York harbor, Nov. 16th, the barge Signal, sugar loaded, was run down and sunk by the steamer City of Worcester, and the captain's mother, wife and three children were drowned, as were also two deck hands; the captain was saved.

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, in a case like the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is fully pure and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *wonderful cures, such cures, labels &, etc.,* and spending nearly a hundred dollars *without benefit,* I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking the three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make me sound. I will gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying,

while it also includes all the minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are usually complete, and mechanism is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volumes of THE COUNTRY GENTLEMAN for 1882 were GREATLY ENLARGED by increasing the size from 16 to 20 pages weekly, but the terms still continue as follows, when paid strictly in advance: ONE COPY, one year, **$2.50;** FOUR COPIES, **$10,** *and an additional copy for the year free to the sender of the Club;* TEN COPIES, **$20,** *and an additional copy for the year free to the sender of the Club.*

Union meeting at Bow Mission Hall in the evening.

THE SEAMAN'S HOME.

The month of November began the eighth year of active usefulness of the Seaman's Home. With the efficient care of Mrs. Wingate and son, it has been able to hold its own during the past year, which, from high prices and scanty crops, has been one of unusual difficulty, bringing heavy demands on the skill and patience of those in charge. The low prices will be continued at the restaurant, making a valuable aid not only to the sailors but also to many residents. We commend it heartily to all who like good fare, thorough neatness and reasonable rates. From the report of the recent meeting of the Seaman's Friend Society we take the following items, which have an interest for all who are concerned in the welfare of the community:

During the past season the reading room has been refitted; a cash donation of $25 was given by two ladies for the library, and upwards of forty books have been added; the editor of the *Journal* has kindly sent that paper, and a friend has sent a Boston daily from the day the house was opened; thanks are due for these, and for a variety of papers, illustrated magazines, and a New York daily, sent from time to time by many friends. A cordial invitation is extended to all who would like an hour's quiet reading by a warm fire.

An earnest Christian worker assisted by members of the Young Men's Christian Association, has visited many of the vessels, distributing packages of papers and suitable reading, which has been very gladly received. Services have been held at the Bethel. The Seaman's Friend Society has furnished bibles and testaments for distribution. There is a growing opportunity for practical Christian service in this direction.

In spite of the dullness of the times 8305 meals have been served at the Home; 613 lodgers and other boarders have staid there; and the usual amount of cooked food has been sold and carried away, thus lightening the labor in many households.

Through the courtesy of the government officials we have the record of the year ending Nov. 1st, of vessels entered at the custom house, 929; tonnage, 193,-557, being 12,260 tons more than the previous year, though the total number of vessels arriving was smaller, since owing to various causes the fishing business was not so active as in the preceding twelve-month,—yet the list includes 148 more vessels than during the first year of the Home.

On the other hand, there were numerous government vessels in the harbor and at the navy yard during the summer, and many of the marines and seamen came day after day to the Home, finding it a safe harbor and cheerful resting place.

THE CONCERT.

The audience at Music hall on Friday evening was not what we had hoped to see, nor nearly what the entertainment presented by Sig. A. Farini's Chamber Opera & Concert Co. merited; a full house was deserved, but the audience was only a small one, the bad weather no doubt keeping away many persons who would have attended had the evening been a pleasant one.

The concert was all that had been promised, every number being worthy of especial mention. Miss Addie C. Reed has a beautiful soprano voice, which has evidently been conscientiously cultivated; and she made a most charming Leonora. Miss Marie C. Strong possesses a rich, musical, powerful contralto voice, and won favor with the audience from the first, as did also Miss Cora E. Wyse.

The gentlemen of the company also gave great satisfaction to the audience. Mr. Steadman's tenor is powerful, and his voice has great compass and purity of tone. Of Signor Farini we will only say that as the Count de Luna we liked him better than any person we have seen in the part, his excellent singing being supplemented by strong and well judged dramatic action and a fine stage presence.

Before the entertainment we suggested that lovers of music who failed to attend it would miss a rich treat. The entertainment has been given, and we now assert that those who failed to be present did miss a rare musical feast.

A HIGH-PRICED COOT.

Residents on the shores of the north mill pond were considerably startled on Wednesday afternoon of this week, to hear first a few stray shots and then a deafening roar of musketry, which according to one old soldier sounded like the heavy skirmish fire which preceded the battle of the Wilderness. The anxious housewives, on proceeding to their doors and windows, discovered a thin line of smoke wreathing up above the shore of the pond, from a point near the Portsmouth shoe factory to far below the Eastern railroad roundhouse on the south side, and from Goose point to Ward's distillery on the north.

The innocent and much disgusted cause of this tremendous fusilade was an aged and attenuated coot, who had remained over for a day on his way to the Potomac, to rest and refresh himself in the limpid waters of the pond. The ancient and infirm bird tried in vain to escape from the crater of fire, and swam wildly to and fro across the pond, each time being driven back under a terrific hail of "B. B." Finally, just as the sunset rays were gilding the chimneys of the almshouse, the coot made a desperate attempt to depart by way of the mill-bridge, and would probably have succeeded had not the whole force from Ward's distillery at this juncture appeared in the line of battle, and gallantly charging far out into the yielding flats, surrounded, seized and strangled the feathered centenarian.

Mr. Will Twombly, the possessor of the bird, having laid in his winter's coal, commenced on Thursday morning to cook the coot; and a careful inspection on Friday afternoon at three o'clock resulted in the examining board deciding that he would be boiled tender enough to eat by Tuesday of the following week, on Wednesday at the farthest. It is to be hoped that if the bird is eaten there will be no deaths from lead poisoning. A careful statistician has calculated that the participants in Wednesday's battle expended $80 worth of ammunition, and filled the pond up three-quarters of an inch.

THE BRITISH MINSTRELS.

This evening, in Music hall, Hague's British Minstrels will make their first appearance in this city. The company has received high commendations from the press. The Baltimore *American* says "the first part is a brilliant concert, the music being of the highest order, and the vocalists having voices which are highly cultivated and exceedingly sweet;" and a Boston paper says "there is more aggregate vocal ability in Hague's company than in all the other minstrel troupes in the country put together," and that "the comedy portion is of a refined character, and the specialties entirely new." It is claimed that "there is an entire absence of all that vulgar singing, acting and stale jokes which offend the educated. All is pure, in good taste, and the most refined lady need not blush at a word uttered during the whole evening."

At a meeting of the Mercantile Library Association on Friday evening last it was voted by a two-thirds majority to indefinitely postpone a proposition to transfer the books owned by the association to the public library.

A brother of Mr. Richard Seeley, who had not met him for forty years, arrived in this city one day this week from New Brunswick, only to find that his Portsmouth relative had left on the previous day for Connecticut.

The customary election dance in Newington, usually held in the town hall on the evening of election day, was this year postponed until Tuesday evening, Nov. 21st, on account of the unfavorable weather on election night.

The fall term of school in Newington begins on Monday, Nov. 20th, with Mr. George W. Libby of Nottingham as teacher. Mr. Libby last year taught the winter term in that town, and won high esteem.

The first snow storm of the season, on Friday, was really a creditable affair for a first attempt. The snow fall extended from Chicago to the Atlantic. It seemed rather early for a fall of snow on the sea coast, but it looked like winter when Master Joe Thompson had gathered a whole barrow of the beautiful snow from the sidewalk in front of the Rockingham before it had been trampled by the pedestrians down State street.

The Sunday evening service at the Universalist church is discontinued, and henceforth until further notice the only service in the church will be held at 10:30 o'clock A. M.

Hon. Jas. W. Emery has been in Washington this week, looking after cases before the court of commissioners of Alabama claims.

The schooner Piscataqua, 64.51 tons register, of Gloucester, Mass., built at this port in 1866, has been sold to parties in East Boston.

Alfred O. Larkin, Esq., and family, started on Friday for Europe to spend the winter.

Mr. Daniel Green, one of the stage drivers of forty years ago, paid a visit to this city this week to call on those of his old companions who still remain.

Mr. Nathan S. Morse of Chester, who had one arm crushed under a car wheel at Newmarket junction some weeks ago, when on his way to Chester from this city, where he had been in attendance on the supreme court, has so far recovered as to be able to stand removal to his home.

Ears for the Million

Foo Choo's Balsam of Shark's Oil

Positively Restores the Hearing, and is the Only Absolute Cure for Deafness Known.

This Oil is abstracted from peculiar species of small **White Shark**, caught in the Yellow Sea, known as CARCHARODON RONDELETII. Every Chinese fisherman knows it. Its virtues as a restorative of hearing was discovered by a Buddhist Priest about the year 1110. Its cures were so numerous and **many so seemingly miraculous**, that the remedy was officially proclaimed over the entire Empire. Its use became so universal that for **over 800 years no Deafness has existed among the Chinese people.** Sent, charges prepaid, to any address at $1.00 per bottle.

Hear What the Deaf Say!

It has performed a miracle in my case.
I have no unearthly noises in my head, and hear much better.
I have been greatly benefited.
My deafness helped a great deal—think another bottle will cure me.

"Its virtues are **unquestionable**, and its **curative character absolute**, as the writer can **personally** testify, both from experience and observation. Write at once to Haylock & Jenney, 7 Dey Street New York, enclosing $1.00, and you will receive by return a remedy that will enable you to hear like anybody else, and whose curative effects will be permanent. You will never regret doing so."—*Editor of Mercantile Rev ew.*

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the sins of youth, or too close application to business, may be restored and manhood regained.

Sixty edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in English French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample, 6c. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing in it that any person of either sex, married or single, can wish or require or wish to know but what is fully explained. Illustrated Lancet.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

N. B.—YOUNG and MIDDLE-AGED MEN can read Book of Life, or conference with the author, without fear of expense, or exposure, as no one can be consulted on all diseases requiring skill and experience. Address

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman, Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Made in the Dawn of History.

It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

Physicians Use It and Prescribe It Freely.

It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will remove every humor, from a pimple to a foul blood, and give tone and strength to the system, of man, woman or child. Sold by all druggists, or sent by mail, in form of pills, or lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

Sold by all Druggists. (1)

HEART DISEASE

IS YOUR HEART SOUND?

Your

Many people think they have a heart disease and care for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is in the heart.

The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and kidney, liver and dyspepsia, or nervous troubles, are but secondary considerations. Dr. Graves, a celebrated physician has prepared a specific for all heart troubles and kindred disorders. This is known as Dr. Graves' Heart Regulator and can be obtained of your druggist, $1 per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

Naval Affairs.

The court martial for the trial of Captain Alfred Hopkins, commandant of the Pensacola navy yard, on a charge of having deserted his post during the yellow fever epidemic, met again at the Washington navy yard on the 15th inst., but made no progress, owing to the non-arrival of two witnesses from Pensacola.

Master Wm. H. Slack and Passed Asst. Engr. A. J. Kenyon have been detached from the Juniata, and placed on waiting orders.

Passed Asst. Engr. Asa M. Mattice has been detached from the ironclad Miantonomoh, and ordered to the Juniata.

The Secretary of the Navy received the following telegram on the 17th inst., from Commodore Semmes at New York: "Steam trial of Juniata developed a leak under counter above water-line just abaft forward sternpost, the water being forced in by action of propeller, necessitating docking."

Rear Admiral Balch, commanding the Pacific station, reports to the navy department that the high-pressure crank of the Essex is cracked, and that it is unsafe to be used. He reports that she is unable to go to China in her present condition, and asks for instructions. He has been instructed to keep the ship at Lima, Peru, until a new crank, which will be sent, has been received.

The monitor Montauk arrived at Cape May on the 16th inst.

Passed Asst. Surgeon George P. Bradley is detached from the naval hospital at Chelsea, and ordered to the Alliance.

Passed Asst. Surgeon C. U. Gavitt is detached from the Kearsarge, and ordered to the Chelsea hospital.

The board appointed to report upon the advisability of selling one or more navy yards left Washington on the 16th inst. for New York, to inspect the navy yard there. The board had intended to leave for California that day, but were prevented by the illness of Chief Engineer Loring, a member of the board.

A man of average weight possesses about twenty-eight pounds of blood. All of this passes through his heart in about a minute and a half. Obviously, therefore, any disease of that organ must impair its functions and retard its pulsations. There is a sterling preparation, Dr. Graves' Heart Regulator, which cures all derangements and diseases of the heart.

Wiley C. Grisson of Fredericktown, Mo., and his two sons, Joseph and John, have been arrested for manufacturing and passing counterfeit fifty cent and $1 coins.

Wm. H. Cameron and Jay Gould have brought suits in the New York courts against the Mutual Union Telegraph Co., to vacate its charter and dissolve the company.

A Wise Woman will often accomplish the best results with least money. This is exemplified by using Electro-Silicon, the noted silver polish. Its cost is trivial. It produces unsurpassed brilliancy. Is perfectly harmless. Druggists. Get the genuine.

The steamship Nereus, of the Boston and New York freight line, ran into the freight steamer Eleanora of the Maine and New York line in New York harbor on the night of the 16th inst., and forced the latter boat ashore on Ward's island, where she was high and dry at low tide.

All iron preparations blacken the teeth, constipate the bowels, and give headache with one exception, that is Brown's Iron Bitters.

In New York, Nov. 16th, a patent water tower for the use of the fire department fell while being tried, killing one man and fatally wounding another.

How I Felt.

Why two years ago I was just about crazy and no wonder that my wife and children were afraid of me. You just want to suffer with neuralgia with no relief as I did until I used Sulphur Bitters. They cured me and now my wife says I am as meek as a lamb.—*Robert Davis, American House, Boston.*

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by them for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give the "LADIES' TONIC" a *single trial*. *It never fails to give relief and permanent relief.*

If you are troubled with any weakness or complaint common to your sex, lay aside the doctor's prescription for once, and try "Ladies' Tonic," which we guarantee will positively carry out. One Bottle is Sufficient.

Women's Medical Institute is an Association of Ladies and Mothers of Experience, who give advice and instruction free to ladies. *Free.*

Instruction given for cure of Female Weakness by Mail, with "Ladies' Tonic" will not cure. This is a *new fact* offer, made by responsible ladies who know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 15, 1880.

Gents:—Upon the recommendation of a friend I tried BROWN'S IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

There was a killing frost at Wilmington, North Carolina, on Tuesday night of last week. The south is not so sunny as it is reported.

A man is wiser for his learning, and the sooner he learns that the only proper way to cure a cough or cold is to use Dr. Bull's Cough Syrup, the better he is off.

Gen. Sherman, at a military reception in Washington last week, in response to the suggestion that Col. Robert Ingersoll had nominated him for the presidency, said: "Oh, yes, Mr. Ingersoll says a great many things that he does not believe. I am perfectly contented with my career, and nothing could induce me to soil my military record by entering into politics at this late day."

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

It is said that there have been 4000 cases of smallpox, 1500 of them fatal, in Cincinnati since Aug. 24th, and that all accounts of the ravages of the disease have been suppressed.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

On the night of Nov. 15th, at Hinckley, Ill., Merrill & Wagner's store, which is also the post office, was entered by masked men, who bound and gagged a clerk named George Kuter, who sleeps in the store, blew open the safe, getting money, postage stamps and jewelry to the amount of $650, stole a horse and buggy, and got away.

Only Two Bottles.

Messrs. Johnson, Holloway & Co., wholesale druggists of Philadelphia, Pa., report that some time ago a gentleman handed them a dollar, with a request to send a good catarrh cure to two army officers in Arizona. Recently the same gentleman told them that both the officers and the wife of Gen. John C. Fremont, Gov. of Arizona, had been cured of catarrh by the two bottles of Ely's Cream Balm.

Messrs. Ely Bros., druggists, Owego, N. Y.—A few days ago I saw a lady who had used your Cream Balm for catarrh, and had found more relief in one bottle than from all other remedies she had tried. I enclose $1 for two bottles. Yours respectfully, JAMES HITCHEN, M. D., Providence, R. I.

Nathaniel F. Damren, aged twenty-one years, employed in the shop of Smith, Pray & Co., in Auburn, Me., was caught by his apron and drawn around the main shaft on the 16th inst. It was several minutes before the machinery, which was driven by a distant engine, could be stopped. Both feet were torn off, and his head crushed so that he lived but a few minutes.

Avoid cheap goods. The *Hop Plaster* cures pains and aches where other plasters simply relieve; 25 cts. at all drug stores.

The recommendations of the conference on submarine cables, recently held at Paris, are published. The principal of them are that wilful damage to cables should be punishable, and damage should be recoverable by civil action; that fishing boats and other vessels should be bound to keep a mile distant from ships laying cables; and that fishing boats loosing gear in endeavoring to avoid cables should be able to recover against cable companies.

Hale's Honey of Horehound and Tar for coughs and colds has reached the pinnacle of fame. Pike's Toothache Drops cure in one minute. For chills, fever, ague and weakness, Colden's Liquid Beef Tonic. Colden's; no other. Of druggists.

A despatch from Raleigh, North Carolina, says that Mr. E. E. S. Hawks, of Ashfield, Mass., a prominent owner of dogs, is at Charlotte, a raving lunatic. He thought that as he was a northern man and a republican, he would be killed. He was to have taken part with his dogs at the eastern field trials of dogs at Raleigh on Friday, the 17th inst.: he will be sent home.

"It is impossible to disguise the fact that the Vegetable Compound, prepared under the personal direction of Mrs. Lydia E. Pinkham, with the superior science and art of modern pharmacy, is the most successful medicine for female debility and sickness hitherto known.

John Dannahy, of Holliston, Mass., got drunk, and made an unprovoked assault on Dennis Hefferan. Hefferan died on the 16th inst., and Dannany is locked up on a charge of murder.

Mrs Cole of Windham, N. H., declares that her life was saved by Hood's Sarsaparilla. She had 37 terrible scrofulous sores.

The owners of three of the principal blocks on Main street, in Worcester, Mass., were arrested last week for renting rooms for gambling purposes, and each was held in $1,000 bonds for trial.

***"Too late to whet the sword when the trumpet sounds to draw it." But never too late to whet your appetite by taking Kidney-Wort, restoring health and making yourself a well, strong, hearty man. It is unequalled as a remedy for all liver, bowels and kidney diseases. All druggists keep and recommend it.

In Lowell, Mass., on the night of the 17th inst., David Jones got drunk, after doing which he had courage to enter a boarding house and push Mrs. Esther L. Roubins, aged seventy-five years, down stairs, inflicting probably fatal injuries. Jones was locked up.

A true iron medicine, beneficial to the young as well as the old who suffer from dyspepsia, etc., is Brown's Iron Bitters.

N. J. Lee, a so-called temperance lecturer, who has been operating in Taunton, Mass., for the past nine months, has brought action against A. L. Bliss, proprietor of the City hotel of that place, claiming $10,000 for defamation of character, and property to that amount has been attached.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary alleviation of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result. "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Testimonials.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—Dear Sir: You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

A sloop boat sprang a leak and sank off Folly point, near Gloucester, Mass., Nov. 17th. Thomas Evans of Bristol, Me., the owner, twenty years old, was drowned. He and the other occupant, Fred A. Partridge, took to a dory, which was caught by the boat when she sank, and went down also. Partridge was saved.

Side by side with the old family clock on the mantle shelf place a bottle of Adamson's Botanic Cough Balsam. You will need it in the coming months. New trial size 10 cts.

News and Notes.

Prof. Alexander Graham Bell, of telephone fame, was naturalized at Washington, D. C., Nov. 17th, as a native of Edinburgh, Scotland, having eight years ago procured his first papers in Essex county, Massachusetts.

Capitalists having money to invest are invited to send for a circular respecting the Topeka, Salina & Western railroad six per cent. gold bonds. C. G. Patterson, 95 Milk street, Boston.

Gen. James D. Fessenden, son of the late William Pitt Fessenden, fell dead on the street in Portland, Me., Saturday, at the age of about fifty years. Gen. Fessenden was associated with his father in the practice of law, but at the breaking out of the war of the rebellion raised a company, with which he joined Colonel Berdan's sharpshooters. He was subsequently promoted to the command of the regiment, and finally to the grade of brigadier-general, for conspicuous gallantry and meritorious conduct. At the death of his distinguished father he assumed the position of the head of the law firm founded by his grandfather, General Samuel Fessenden, of anti-slavery memory.

Martha Robinson, a colored woman of Louisville, Ky., is under arrest for fatally burning her child, aged two years and a half, by stripping it and placing it on a red-hot stove.

There was a $7000 fire in South Boston on Friday forenoon, and owing to a blunder the general fire alarm was given, calling to the spot nearly sixty fire engines and all the police not actually on duty.

The Chicago *Times* regards Henry Ward Beecher as more of a democratic gain than a Congregational loss.

C. J. Patterson and Martin Howley, two carpenters, were instantly killed by the cars at Newton, Mass., Nov. 17th, while attempting to cross the track.

Vennor hit it on the snow of Friday, as near as if he had been an authorized weather prophet.

Gen. Hazen has issued an order complimenting Signal Sergeant McGauran, at Pensacola, for faithfulness to duty during the yellow fever epidemic there.

The *Commercial* of Bangor, Me., says that seldom, at this season, has the port of Bangor witnessed such a large business as is now being transacted in its docks, or such a large fleet of vessels, large and small. The fine weather, of course, has helped, and renders effective work possible. The fleet in port numbers probably 150 sail, and all are loading or otherwise engaged. The output of lumber is very large, and there is also considerable doing in a general way, including ice, lumber and shook shipments to foreign ports and ports in the southern states.

John Hamilton, an elderly negro, who arrived at Montreal some time since from Boston, and married a girl of his own color, only twenty-one years old, was arrested last Thursday on complaint of his first wife, who arrived from Boston that morning, for bigamy. It appears the prisoner and his wife could not agree, and, as he alleges, he was turned out of doors by his better half. He went to Montreal and obtained solace by taking a second wife, who seemed quite satisfied, and is not willing to part with her paramour. The accused has a grown-up family in Boston. He was committed for trial.

AROUND HOME.

The U. S. S. Plymouth was floated out of the dry dock at the navy yard on Saturday, preparatory to being hauled up in ship house No. 5 this week.

There was a brilliant display of the aurora on Thursday and Friday nights, extending all over the Union, and telegraphing was greatly interfered with. The aurora was seen as far south as San Diego, Cal., for the first time on record, Friday night. There was another fine display on Saturday night, and again on Sunday night.

It is reported that the ordnance department of the army bureau has decided to present four of the fifteen-inch guns now at Fort Constitution, and two twenty-four-pound howitzers from Governor's island, New York harbor, to Storer Post, G. A. R., of this city, for a soldiers' monument.

Charles Knowles, alias Charles Norman, was arrested in this city on Saturday on a charge of committing an assault on a man at Exeter with intent to kill him, the latter's name not being given. It is said the two men had a pitched battle, in which Knowles was roughly handled by his antagonist, and at the end he drew a knife, causing the other party to retreat in double quick time.

Among the passengers on the Cunard steamer Cephalonia, which left Boston on Saturday for Liverpool, were Mr. Alfred O. Larkin and wife, Mrs. T. M. Ball and Miss Martha Ball of this city.

The Litta Grand Concert Co. will give an entertainment in Music hall on Saturday evening, Nov. 25th.

Frank R. Drake, Esq., of North Hampton, represented the eastern section of the state at the recent Sunday school convention held at Claremont.

The democrats of Greenland made an excellent selection in nominating John H. Brackett, Esq., as their candidate for representative, at the recent election. Mr. Brackett's nomination was entirely unsolicited on his part. He will make a good member.

Another cottage is being erected on Appledore island.

It is said that Mr. Lewis of Philadelphia is about to erect a cottage at Little Boar's Head, on the road west of the Peabody cottage.

Twenty-seven years ago, a man then well along in years, named Israel Eaton, left a wife dependent on him in South Seabrook, and departed for parts unknown with a young girl, under the assumed names of John and Martha Brown. They were gone twenty-two years, when they returned to Seabrook with eight children, to which family another child was subsequently added. Eaton in his old age quarrelled with his paramour, whose proper name was Marian, on account of their eldest son, and they separated. Some of the town people at last took hold of the matter, and a complaint was issued against the pair for illicit cohabitation, which complaint has just been settled by the marriage of the twain, Eaton's lawful wife being dead. The ceremony was performed on Thursday evening, of last week by Rev. Wm. A. Rand.

The crew of the schooner Mary J. Adams of this port, wrecked at Whalebone inlet, near Portsmouth, N. C., on the 3d inst., while on the passage from Bucksport, S. C., to Bath, Me., arrived home last week. Three of the crew belong in Kittery. The schooner struck a reef, but beat over it and went on the beach, where she was stripped by the Baker Wrecking Co. of Norfolk, Va.

David C. Johnson of Dayton and William S. Haskell of Saco were on the 17th inst. bound over from the municipal court, Saco, to the supreme court, charged with breaking and entering the store of J. G. Harmon of Buxton, and stealing $112 and a quantity of goods.

An exchange says: "A man is employed at the Eastern railroad shops, in Salem, who is in the habit of advancing money to those employed under him, and charging the exorbitant rate of ten per cent. Unless the men pay promptly on their regular pay-day the interest as well as the principal, they lose the whole amount. Yesterday it transpired that the interest he received on a loan more than counter-balanced his own wages, which are large." Just how the borrower loses principal and interest by not paying we cannot understand; we should fancy the other chap would be the loser.

The "Star Routers" Have Another Chance!

If their chance was in the Nov. 30th drawing of the Great Commonwealth Distribution Co., and if they were to win the $30,000 prize (which some lucky person is sure to win,) how different would be the state of their mind. How much better to have a chance for a fortune than a chance to be proven guilty. Send your orders for tickets to R. M. Boardman, Louisville, Ky.

Did Vanderbilt Say the Public Be D——d!

He may or may not have said so, but it is certain that the person who draws the $30,000 prize in the next drawing of the Commonwealth Distribution Co., at Louisville Nov. 30th, will say "The company be blest." It may be you who will say it, providing you send $2 at once for a ticket to R. M. Boardman, Louisville, Ky.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption 'Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and that terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, that strikes at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the wonderful cures, such as, inhalers, etc., and spending nearly a hundred dollars without benefit, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE MINSTREL ENTERTAINMENT.

The customary street parade, the procession of minstrel artists clad in black suits and wearing stove-pipe hats—in this instance of the opera pattern, which of course was quite correct—and those not engaged with the instruments sporting gloves of dainty colors, making a good street show and excellent music, on Saturday at noon heralded the concert to be given that evening in Music hall by Hague's British Minstrels.

Perhaps the audiences at "St. James' hall, Liverpool," enjoy pathetic songs, of a solemn deep bass sort, without the usual accompaniment of a chorus of music and voices. Doubtless the English taste is for the subdued, artistic and sober in concerts of this kind, but we prefer the reproduction of the melody of the plantation, the chorus glees and happy breakdowns of the southern negro, to which since the introduction of minstrelsy and its delineation by Christy, Buckley and numerous other celebrities, we have been accustomed. If the drama seeks to hold, as 't were, the mirror up to nature, and gives us a true representation of life in different eras, so minstrelsy, in its successful presentation, is a copy of the former slave life at the south, when the happy hours of slavery were enjoyed only in the songs of hope and the hymns of expectation. The British lions on the stage at Music hall could have known none of this, save as the American eagle which soared above them could have whispered it, and then we doubt if the B. L.'s would have graciously received the hint.

The second part of the entertainment was good, though we have seen better black prima donnas. The bird imitations and the performance on the bells were unrivalled, and the farce far better and much more respectable in every way than is commonly the concluding nonsense of a minstrel entertainment. The bass voices had deep compass in the solos, but both in voices and instrumental accompaniment the chorus lacked power.

The entertainment was clean, and enjoyed by the audience, but it could not be called a "minstrel" show.

THE GOLD HUNTERS.

The dredging flotilla, consisting of a little steamboat, a big dredge and half a dozen huge scows, manned by about fourteen men, arrived in the little harbor region, above the Wentworth house bridge, the middle of last week, and commenced on Friday to dig for the "treasure trove" concerning the whereabouts of which "an aged citizen of Newcastle," some time ago deceased, left information. About the alleged gold mine at that point there have been some very exciting rumors on the streets. On Friday evening it was positively asserted that the dredge had that day brought up a magnificent "prospect"—eleven doubloons to the tin dish; and Saturday evening it was reported that the dredging gear had that afternoon struck and exploded a submarine mine of unearthly power, and that one of the scows, with four men on board, had been blown so high as to pass beyond the influence of the earth's attraction, one account saying it had been distinctly seen to fall into the comet. Careful enquiry on our part failed to find justification for either of these rumors; and at the railroad stations, late Saturday night, we were informed that up to that time not even a single freight car had been loaded with casks of gold or chests of silver from the little harbor mine. On Sunday it was suggested to us, by a gentleman for whom we had previously had great respect, that the "treasure trove" search was simply a shrewd advertising scheme; but this ruinous insinuation we repelled with the proper amount of indignation. Still we are willing to bet—we are opposed to betting, on principle, except when we have a sure thing—we are willing to bet, even, all the money we won election day by betting against Ben Butler's election in Massachusetts, that the dredgers will lift more clams than dollars from the bottom of the little harbor channel, though they dig till doomsday.

But even though no casks of gold nor chests of silver should be brought up, some good may be done; there is said to be capital and energy back of the movement, and it is not impossible that the treasure-seekers may keep at work until a good channel for a light draught steamer—say a channel giving five or six feet of water at low tide—is cut from the good water off the Campbell cottage to "the pool" below the second Newcastle bridge; the distance from the bridge to a six-feet-deep channel below Clampit island is but three-quarters of a mile, and fully one-third of that distance is deep water now, covered by "the pool" and "Cushing's hole;" and there are no ledges to interfere with the making of such a channel, which would be a very handy thing for a steamboat to run in next summer, from this city to the enlarged and magnificent Wentworth hotel. Let the good work go on, whatever its object.

Quite a number of persons from this city visited the gold mine on Sunday, and were greatly interested in the proceedings of a blindfolded man in a dingey, who was locating the treasure with a divining rod!

"THE WORLD."

The Boston Theatre Co., which some weeks ago gave the great spectacular drama "The World" in Music hall to a large and greatly interested audience, will present it again at the same place on Wednesday evening of this week. The plot of the piece, though somewhat intricate, is easily followed as the play progresses; and at the end the good people all triumph and the bad ones are all punished, just as in real life, where it is well known that wickedness never prospers except temporarily. There is one of the bad men who in spite of his naughtiness becomes a favorite with the audience—Mo Jewell, the shrewdest and most unscrupulous scamp of the lot, who is forgiven by the spectators on account of the fun he makes. The mechanical effects are ahead of anything ever before attempted on the stage in this city, the great card in this line being the raft scene, where the survivors of the blown-up ship are rescued after weeks of starvation and thirst, by a vessel which heaves in sight just as the sun is rising from the ocean. True, the rescuing ship, on discovering the raft, wares 'round at a rate to astonish old sailors, and the voices of the men on the raft, as they hail the passing vessel, ring out much clearer than would be expected considering that the hailing parties are at the point of death from privation; but these are minor matters, and there is no wonder that the play as a whole has proved so popular wherever it has been performed by this company.

Two shares in the Eastern railroad were sold at the brokers' board in Boston on Saturday at $35 each.

Among the freight charters reported last week were a schooner from Hoboken to discharge at Dover, coal at $1.30 per ton, and a schooner from South Amboy for this port, coal at $1.35.

A despatch of the 15th from Philadelphia said: "In consequence of the scarcity of sailing vessels, freights on Eastern coal shipments have advanced about twenty-five cents per ton. The present rate to Boston is $1.85 per ton."

Rev. A. D. Mayo on Sunday evening delivered in the Unitarian church a discourse upon educational matters in the south, and what has been done for the advancement of education in that section during the past few years.

The schooner Hattie Lewis, Capt. Brewster, was lying at the draw pier of Portsmouth bridge on Sunday, brick laden, bound for Boston.

Luella Thompson, the woman who escaped from the custody of an officer who was taking her to Brentwood recently, by darting out of the Concord railroad station while the officer was purchasing tickets, was brought to this city on Saturday from Newburyport, where she had passed the previous night in the police station. She says she only went out to get a drink, and went back to the waiting room and stayed two hours before she found out that the train had gone!

Edgar B. Snow, the grand-nephew of President Harrison, who while serving as a private marine on this yard was some time ago court martialled for being absent from his post while on duty as a sentry, was on the 16th inst. discharged from the service. He had been away from his home for two years, his friends being ignorant of his whereabouts until they saw the item in the papers about his trial and sentence; his people are in comfortable circumstances, but the young fellow thought himself under too much restraint at home, and struck out to see the world for himself, bringing up in a cell. He knows more now than he did two years ago, though probably not half as much as he then thought he knew.

There is considerable doing in the building line at Rye this fall. The new Farragut house is nearly boarded up; Horace Sewyer, Abram Drake and Otis Jenness are erecting buildings in the immediate vicinity, and several large cottages are in course of construction at Little Boar's head.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.
This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.
This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.
The work of construction is progressing rapidly, and it is estimated that by the 1st of december the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.
Subscriptions to these bonds may be made at the office of the contractor on the following terms:
For $880, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*
This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.
Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should procure the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Its 46th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of the experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, gilt embossed, full gilt, Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article a ways makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Boston, Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a kindness, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, leucorrhœa, irregular and painful menstruation, all ovarian troubles, inflammation and ulceration, floodings, all displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures all forms of Kidney Complaints, Bloat, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1 per bottle or six for $5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaints of either sex this compound is unsurpassed.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders." 25 special lines and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a sure cure for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses found by those irregularities which are so common to womankind. This is no *Patent Nostrum*, but is prepared according to rules of experience, and we recommend it knowing that it will give new life to any broken down, worn out and overwrought specimen of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. *It never fails to give quick relief, and in most cases a cure.*

If you are troubled with *any* weakness or complaint common to our sex, you can confidently prescribe "Ladies' Tonic," which we guarantee will generally cure you. One Bottle is Sufficient.

Women of all nations have been Association of Ideas and Medical Institute from Association of Ideas and Medical Institute from Buffalo, who have tried "Ladies' Tonic" and have found it to be a boon to their sex. Ladies who know of other valuable remedies should send them to the Institute.

BEYOND THE RIVER

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of ab ut the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the veto in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumon a, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coa hes—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded acti n of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the trave er, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

57 N. Eutaw St., Baltimore, Md. Feb. 12, 1881.

Gents:—Upon the recommendation of a friend I tried BROWN'S IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

"Her Crime." This is the significant title of the last number of the No Name Series of novels issued by Roberts Brothers of Boston, published at $1.00, and sold by W. G. Myers. In this book the author has attempted to show the evil results of speculation, with fair success; but the endeavor to show that Mrs. Homer could with any degree of success maintain, as alleged, the dual characters we are invited to behold, or could "financier" in the mode pointed out, and cut up in the way indicated, is beyond the probability of the usual novel reader's credulity. The writer essays too much in the portrature of the accomplished southern lady "who could not write her name" even, and sent a power of attorney to her amanuensis, authorizing her to affix a signature to an important legal paper which seems to have required neither attestation or acknowledgment. In framing this part of the plot, the writer should have consulted some one versed in business, though perhaps the idea that Sanford could have been duped in the way indicated might also lead her (we say her, as applied to the author) to presume that a careless public might in like manner be induced to accept the probabilities of the story.

"Curfew must not ring to-night." Lee & Shepard have issued an elegant illustrated copy of this poem by Mrs. Rose Hartwick Thorpe. The poem originally appeared in a local newspaper, but was soon copied all over the English speaking world, and was translated into several foreign languages, and set to music. The artistic embellishments designed by F. T. Morrill and E. H. Garrett, are engraved by Geo. T. Andrew. The book, like the several preceding copies of hymns and poems published by this house, is tastefully attractive, and in its printing, engraving, paper and binding is second to no work of the kind to be found at the book stores. Sold by Mercer Goodrich; price $1.50.

"That Glorious Song of Old," by Edmund Hamilton Sears; illustrated by Alfred Fredericks, with engravings under the direction of Geo. T. Andrew. Boston; Lee & Shepard. The author of this poem was a graduate of Cambridge Divinity school in 1837, and afterward was a minister in Massachusetts. He died in 1876. He was the author of that beautiful Christmas song commencing "Calm on the listening ear of night," which has been so often impressively sung at the Christmas eve services in this city in times past. The beauty of the Song of Old, in its present attractive form, with appropriate illustrations, will be admired all the more as it comes at the approaching season when one seeks to select a becoming tribute for presentation to friend or relative. Sold by M. Goodrich; price $1.25.

"Mother Goose for Grown-Folks," by Mrs. A. D. T. Whitney, author of "Faith Gartney's Girlhood," etc.; new, revised and enlarged edition, illustrated by Augustus Hoppin. Boston; Houghton, Mifflin & Co.

Mors than ten years ago Mrs. Whitney, presuming that a work which had been read and sung so generally and with such an amount of soothing happiness as the original Mother Goose of childhood's happy hour, might be in some mode transformed so that its wit and wisdom could be made available for those who had outgrown the rhymes of the nursery, wrote "Mother Goose for Grown Folks." The work was welcomed and eagerly sought by many in whose memory lingered the rhymes of early years. Mrs. Whitney has, in this new edition, made considerable many additions, while the new illustrations by Mr. Hoppin form an attractive feature. Mrs. Whitney shows us how much of valuable, sage advice there is to be found when we re-read with careful attention what was once but the jingle of pleasing rhythm in our ears.

Your health depends on the purity of your blood. People who realize this are taking Hood's Sarsaparilla with the best results.

Mrs. Jane G. Austin has made a careful study of Nantucket life, staying upon the island in and out of season, and taking observations not granted to the mere summer visitor. Her volume of "Nantucket Scraps" will shortly be published by J. R. Osgood & Co. The same firm have in hand a volume of poems entitled "Poet and Idler," by Mr. Rossiter Johnson.

A man of average weight possesses about twenty-eight pounds of blood. All of this passes through his heart in about a minute and a half. Obviously, therefore, any disease of that organ must impair its functions and retard its pulsations. There is a sterling preparation, Dr. Graves' Heart Regulator, which cures all derangements and diseases of the heart.

Mr. T. B. Aldrich is quoted by the Boston correspondent of the Chicago *Tribune* as saying that "Mr. Howells never succeeds in portraying a villain. Bartley Hubbard is after all the best man in the book. He has kindly impulses; he goes out and buys his wife clothes, which I am sure is more than most men would do; and for my part I think he is far above that priggish lawyer or that morbid Halleck."

A true iron medicine, beneficial to the young as well as the old who suffer from dyspepsia, etc., is Brown's Iron Bitters.

"The Young Silver Seekers; or Hal and Ned in the Marvellous Country;" by Samuel Woodworth Cozzens; illustrated. Lee & Shepard, publishers, Boston; price $1.00; sold by Mercer Goodrich.

The death of the genial Judge Cozzens was a sore loss to juvenile readers, for he had already written several books which possessed sterling interest and worth, and had he lived longer would have probably kept on writing to the delight of his young friends. At the time of his sudden death, he was at work on the last volume of his Young Trail Hunters series, and this volume is just now published. It has been completed from the manuscript and memoranda left by the author, by a competent hand, and admirably matches the two former books in adventure and in knowledge of the marvellous southwest. The pages abound with thrilling incidents, many of which are also very amusing. Not every boy would wish to have such perilous experiences, and such encounters with the Apaches, the most ferocious Indian tribe in the west; but all readers will thank the author for having told them incidentally so many things about the rich mines of that far off region. It is just such a story as this, full of facts and useful purposes, that tends to keep alive a boy's spirit, and fills him with the ambition to succeed in life.

"Became Sound and Well."

Hatcher's Station, Ga., March 27, 1876. R. V. Pierce, M. D.: Dear Sir—My wife, who had been ill for over two years, and had tried many other medicines, became sound and well by using your "Favorite Prescription." My niece was also cured by its use, after several physicians had failed to do her any good.

Yours truly, Thomas J. Methvin.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Acts at the Same Time on the KIDNEY-WORT HAS BEEN PROVED The SUREST CURE for KIDNEY DISEASES. Does a lame back or disordered urine indicate that you are a victim? THEN DO NOT HESITATE, use Kidney-Wort at once, (druggists recommend it) and it will speedily overcome the disease and restore healthy action. Ladies. For complaints peculiar to your sex, such as pain, weakness, Kidney-Wort is unsurpassed, as it will act promptly and safely. Either Sex. Incontinence, retention of urine, brick dust or ropy deposits, and dull dragging pains, all speedily yield to its curative power. $1. SOLD BY ALL DRUGGISTS. Price $1. Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

"A Little Pilgrim:" reprinted from Macmillan's magazine. Boston; Roberts Brothers. This is a story of the unseen world, wherein is portrayed the experience of a woman who dies and enters the realms above. It gives us the author's ideas of heavenly existence, and the happiness beyond the valley of the shadow of death. The narrative has been reprinted in one of the American periodicals, and has attracted no little attention in this country; indeed it is one of those engaging books, which no one who opens its first pages will be willing to lay aside, until it is enjoyed to the full. Sold by Myers.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

News and Notes.

Hon. Lot M. Morrill was on Monday reported to be very ill at his home in Augusta, Me., and his friends had no hope of his recovery.

The democrats of Mississippi have elected another congressman by skillful counting. A Vicksburg dispatch says: Chalmers has been counted out, and the secretary of state has declared Van H. Manning elected. The governor has issued a certificate to him, because the tally sheet of Tate county showed 1,400 votes were cast for "J. R. Chambless," although the ticket read "J. R. Chalmers."

Albert and Thomas Williams were killed and Sylvester Williams fatally injured by the falling of the roof of a coal gallery in Grassy Island colliery, near Scranton, Pa., Friday.

Myles Joyce, who was arraigned for trial at Dublin, Ireland, for the murder of the elder Mrs. Joyce, was convicted on Saturday, and sentenced to death. Myles Joyce was a first cousin of the Mrs. Joyce who was murdered.

A report from Opelika, Ala., says a serious riot occurred there last Thursday night, in which Jim Roberts, Charley Dix and Charley Griggs were wounded. Pistols and shotguns were both used. The row lasted all night, and the destruction of show windows and lamps was considerable. It seems to have grown out of a general dislike for the city government. About 1,000 shots were fired.

William A. Cunningham of Birmingham, Ala., a workman at the Birmingham rolling mills, Saturday morning left his work, walked over to the Alice blast furnace, ascended to the mouth of the stack, and leaped headlong into the furnace. Deceased was forty years old, and leaves a wife and three children. He had been low spirited several days.

Fred Diebolt, a prominent and wealthy saloon keeper of Cleveland, Ohio, has been sentenced to ten days in the workhouse and fined $100 and costs for violating the Sunday-closing law. The case created great excitement, as Diebolt is a leading politician, and many persons had insisted that the law would not stand a test of this sort. The case was tried by a jury.

Matthew Poole of Hillsdale, Mich., en route to visit friends in Bristol, Eng., was robbed in Philadelphia, Saturday, of $1,127, every cent he had in the world, by three-card monte sharps. Joseph Boyd, a confidence man, has been arrested, and identified by Poole as one of the men who fleeced him.

In a quarrel at Lead City, Dakota, Saturday evening, Timothy Coleman struck a boy named D. Hicklin under the ear with his fist, breaking his neck and killing him instantly.

In the supreme judicial court for Penobscot county, Me., Saturday, Judge John A. Peters announced decrees in nineteen divorce cases. This is an unusual number even for a Maine court, but is partly explained by the fact that there was a vacation of six months preceding the present November term. In the nineteen divorces, eleven were granted because of desertion, six for adultery, one for drunkenness, and one for cruelty and drunkenness.

William McHugh was on Saturday sentenced by the court at Cincinnati to be hanged March 2d, 1883, for the murder of his wife. This is the second time he has been sentenced to death.

AROUND HOME.

The Litta Concert company, entirely reorganized and greatly strengthened, will appear in Music hall on Saturday evening next. No lover of the best music should fail to hear Litta and her splendid company.

There was a very high sea running outside the harbor on Sunday, and from the shore at Newcastle it could be seen breaking heavily on what was said by a fisherman to be the "Old Man," a huge ledge, deeply submerged, about half way between Duck and Boon island, on which a break is rarely seen. Two schooners, one of them lumber laden, for some time tried in vain to beat into the lower harbor, the tide being against them; finally the lumberman anchored outside of Whalesback, where she reared and plunged at a tremendous rate, and the other ran for the Shoals.

Mr. J. W. P. Carter has taken a position in the china and glass ware store of Jones, McDuffie & Stratton, Federal street, Boston.

Mr. Richard P. Harvey, who for nearly twenty years has been in the employ of the Portland, Saco & Portsmouth railroad in this city, has bought 3 farm in Bradford, N. H., and will remove there the present month.

Charles Knowles, arrested in this city last week on a charge of assault with intent to kill a man in Exeter, and taken to that town for examination, was discharged by the justice before whom he was brought up.

It is said that the owners of the Kearsarge mill property are about to commence suit against the Concord railroad company, for trespass on their property adjacent to the road.

The Newburyport *Herald* of one day last week said: "We would respectfully suggest that a committee from Texas be invited up here into eastern Massachusetts to right a little matter which now seems to be going wrong. We refer to the proprietorship of horse-flesh. The crime of horse-stealing goes on heretofore to an alarming extent and one scarcely imaginable. So far this month the city marshal of Newburyport has received notices of seven horses stolen from the towns or cities in this neighborhood, with requests to look out for the same. Last month it was six, and since the year came in the office has been notified of forty stolen horses, all in the small territory embraced between Boston and Portsmouth, going west no farther than Lowell. If this record wouldn't do credit—or rather discredit—to Texas, what would?"

Mr. George W. Adams, of Kennebunkport, has a coon which he captured in May last. The animal now weighs over seventeen pounds, and is very tame; he is allowed to wander about at will, and never attempts to run away.

The Laconia company of Biddeford have appealed from the decision of the fish commission, ordering the construction by the company of fish passages in its dams on the Saco river.

Captain John R. Howard, of Newburyport, has obtained a patent for a self-acting car-coupler, both for freight and passenger cars. It is alleged to be the most simple in action and easiest to manage of any yet invented, and is recommended by experts who have examined it. Captain Howard's invention avoids the difficulties which have been brought in objection to most contrivances of the sort, and can be used on a curve, or where there is considerable difference in the elevation of the cars. It works well in practice, and obviates the necessity of going between freight cars to couple them together. Capt. Howard will make a fortune, and deserve it.

Come let the joyous tidings roll
From east to west, from pole to pole,
That woman's teeth, and lips, and breath,
No more shall suffer worse than death.
For SOZODONT with magic sway,
Preserves them now from foul decay.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod4wtuan21

The October number of this valuable New Hampshire magazine contains a fine steel engraving and a three page sketch of our governor-elect, Hon. Samuel W. Hale, the sketch by his firm friend Dr. Gallinger of Concord; a long and valuable article on Col. Tobias Lear, by Hon. T. L. Tullock, compiled mainly from original material collected by the author, and putting it in convenient shape for some future biographer; the first of a series of articles on New Hampshire railroads, this first of the series containing a complete list of railroad charters granted; a biographical notice of Daniel Blaisdell, one of the first settlers of Canaan, a sturdy old-time federalist, farmer, lawyer and politician, who was repeatedly representative, senator and councillor, and served one term in Congress; and an article by Myron Colby on "The House of the Gilmans," with two contributions of poetry. The number is an interesting one, and should be read by New Hampshire men who desire to learn about their own state.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's sarsaparilla and that terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, is effective at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attent on of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the so-called cures, such as cures, lozenges, etc., and spending nearly a hundred dollars with no benefit, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so much improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

Hood's Sarsaparilla

Sold by Druggists. $1; six for $5. Made only by **C. I. HOOD & CO.**, Apothecaries, Lowell, Mass.

CATARRH

HAY-FEVER

A POSITIVE CURE IS **ELY'S CREAM BALM** FOR Catarrh & Hay Fever. **Agreeable to Use** UNEQUALED FOR COLDS IN THE HEAD Headache & Deafness, or any kind of mucus membranal irritations, inflamed and rough surfaces. A preparation of unquestioned merit. Apply by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing less fly secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. Will deliver by mail for a package—postage stamps. Sold by wholesale and retail druggists. LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THE BEST OF THE

AGRICULTURAL WEEKLIES.

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. Its amount and practical value of contents, its extent and ability of correspondence, its quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Farmer's Home, Entomology, Bee-Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are usually complete, and market intelligence is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volumes of THE COUNTRY GENTLEMAN for 1882 was GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, but the terms will continue as follows, when paid strictly in advance: ONE COPY, one year, **$2.50**; FOUR COPIES, **$10**, *and an additional copy for the year free to the order of the Club*; TEN COPIES, **$20**, *and an additional copy for the year free to the sender of the Club.*

All NEW Subscribers for **1883**, *paying in advance now*, WILL RECEIVE THE PAPER WEEKLY, *from receipt of remittance to January 1st*, 1883, WITHOUT CHARGE.

HISTORY SET RIGHT.

The following item of "news," now going the rounds of the press, was copied into this paper:

Ezekiel Peabody put $300 into a Marblehead (Mass.) savings bank when he was twenty-one years of age. He is now aged ninety-five, and has never drawn a cent of principal or interest.

Commenting on this, a subscriber writes: "This would make the date of original deposit 1808; the oldest savings bank in the country is the Boston Provident Institution, chartered in December, 1816; and the only savings bank in Marblehead was chartered in 1871."

BURGLARY.

C. E. Myers & Co.'s store, corner of Market and Bow streets, was broken into some time Sunday night. The thieves got in by breaking a square of glass in a rear window, unfastening and lifting the window, and then cutting a hole in one of the shutters, (which are inside the window,) and reaching through and taking down the bars. The thieves took full suits of clothes, leaving their old underclothing, stockings, etc., behind them, and carried off stock to a considerable amount, estimated at $400 to $500 in value.

HISTORY OF ROCKINGHAM AND STRAFFORD COUNTIES.

History of Rockingham and Strafford counties, New Hampshire, and biographical sketches of many of its pioneers and prominent men, compiled under the supervision of D. Hamilton Hurd, Philadelphia; J. W. Lewis & Co.; (published by subscription.)

This extensive compilation of historical, geographical and biographical interest has appeared from the press of Lippincott of Philadelphia, is printed on an excellent quality of paper, with gilt edges, and is finely and we believe durably bound, so it will serve for many years as a memorial of much careful and painstaking research.

The value of books of this kind of course depends upon their accuracy. In order to be sure that in this respect there should be no fault with this work, the editor early secured the services of very able men to do certain work required for this volume. The full, accurate and interesting historical sketch of the old town of Portsmouth, for example, was written by Rev. James DeNormandie, and every one who knows this excellent man will recall how thoroughly he must have investigated his subject, exhausting all sources of information almost, before he would begin such work, done doubtless from a sense of duty in the belief that if a history of our renowned locality was to be produced it should be at once accurate, and in keeping with our claim to historic importance.

His Excellency Governor Charles H. Bell's extensive notes upon the lawyers of New Hampshire doubtless served to give much information concerning the members of the bar of this county who were famous in their day, and though celebrities at the bar had passed from our recollection, for the most part without biographical sketches.

In Strafford county, history and many personal sketches were written by Rev. Dr. Quint, that celebrity in historical matters, who we opine in everything save the exact date and spot on which the first settlement of New Hampshire occurred, is a model of accuracy. We mention these names to show that the compiler has availed himself of the best local talent, capable of producing local history, that could be found in the two counties; and the labor of compilation has been protracted, and required the most constant and careful expenditure of time and energy.

But to the work. We can hardly do justice, in the brief notice we are able to give to-day, of this book of 890 pages, the result of systematic canvassing of all the towns, and careful study of the histories of two centuries, besides the immense material which required either to be omitted or condensed into a reasonable shape. This it must be remembered is a work issued not simply to give us the portrait of any one man or a sketch of any particular locality, but is a description of a grand whole, and in this respect the task of the editor has been one of anxiety and responsibility.

The work abounds in illustrations, among which we are glad to see are the likenesses of some of Portsmouth's celebrities, such as Gov. John Langdon, and his grandson, John Elwyn. Daniel Webster's likeness appears among the sketches of the famous members of the bar of Portsmouth.

The likeness of Alfred W. Haven, Esq., is excellent, as is that of Ex-Mayor William Simes. The houses and grounds of Hon. Frank Jones and Ezra H. Winchester appear, the latter is especially well done, and is the finest view of the kind in the entire work. We are glad also to see presented in this shape a view of the celebrated Ladd mansion, built by Col. Mason, the ancestor of Alexander H. Ladd, Esq., the present occupant, in 1760, and carefully preserved in its original condition with its noble horse chestnut, planted in 1780 by Gen. Whipple of the Revolutionary army, for a long time a resident of this mansion. The excellent likeness of Mr. Jones, engraved by Stuart, is in the book, as also is a steel plate engraving of Col. J. Horace Kent. The late Commodore John C. Long appears as a former resident of Exeter. Hon. Marcellus Eldredge's portrait is a good likeness.

But we have not space to further particularize. We can only glance at the likenesses of our former neighbors at Dover, and recall the pleasant countenance of the late John P. Hale, that noble specimen of legal ability, Daniel M. Christie, and the lamented John R. Varney; while among the men in full life we see Jona. Sawyer and his son, Col. Chas. H. Sawyer, Drs. Spalding and Quint, Z. S. Wallingford, Cols. Bracewell and Young, of Dover, Messrs. Hiram Barker and John F. Cloutman of Farmington, and others we have not room to mention.

The great feature of the work however is, that here is carefully produced, not only reliable biographical sketches, but accurate town and county histories of this, the oldest section of one of the oldest states in the Union,—regions whose history is worth knowing, localities which have sent from their borders men who have become famous in other states, learned in professions, successful in business, prominent in political and financial affairs, and who have reflected credit upon the state which gave them birth. This has been collected with no small amount of labor, and in this service many have contributed. The history of the press of the towns and cities is given, showing the many changes which have occurred in the publication of newspapers in the two counties.

Of course, in a work of this magnitude, printed in a distant city, there must occur typographical errors, where proof readers were unfamiliar with proper names; and perhaps there may have been instances where personages worthy a place within its covers, have been overlooked; but when we consider the extent of this history and the period of time covered by it, the number of towns embraced with the lines of the two counties, and the patient research absolutely essential to a proper, accurate and readable record of the men and places herein described, we must acknowledge that the work under the persevering and untiring labors of Mr. Hurd has been well and carefully done, and the volume in its details most attractively produced.

The work will result in making the citizens of these two important counties, renowned even from the year 1623, more than two and a half centuries, better known to each other. It will show to the young men for what their native counties have been regarded as famous, and how in the earlier days the men who at the bar, in the pulpit and in the field, were prominent in good deeds, struggled to give us, their descendants, many of the religious, civil and social privileges we now enjoy. All through the work are well executed likenesses of men well known in the various towns of these counties, but had we much larger space to spare we could hardly enumerate the many men of note who in times past were, or at present are, deserving of public mention in this form.

We are informed that the book will be distributed to subscribers during the present week.

Elwyn Carter, son of J. W. P. Carter of this city, is accompanying William B. Strong, Esq., president of the Atchison, Topeka & Santa Fe railroad, on an extended southern and western trip, expecting to be absent several months, during which they will visit the city of Mexico, and San Francisco, Cal.

To-morrow evening, at Music hall, "The World" will be presented by the Boston Theatre Co., with the same strong cast and effective stage accessories as before, when the piece was so greatly enjoyed. Tickets at Myers'.

The buildings of the Portsmouth Brewing Co. have just been painted, and present a very neat appearance.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.
This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.
This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.
The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.
Subscriptions to these bonds may be made at the office of the contractor on the following terms:
For $500, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*
This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.
Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

This celebrated lecture, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 2; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing which concerns either married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

A married or unmarried man, warranted to be a Scientific and Medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or self-preservation with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article a'ways makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is seriously devoted to her work, which is the outcome of a lifestudy, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of sufferings, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Naval Affairs.

The naval advisory board on the construction of steam vessels are holding daily sessions, and while the details of their proceedings are withheld from the public for the present, it is known that the members are assidiouosly investigating the subject, and that the board is making satisfactory progress. Their report will be submitted to the secretary of the navy to enable him to make a special report to Congress early in the forthcoming session. A member of the board is authority for the statement that the plans which are now being matured, if adopted by the secretary and applied, will give to the navy the finest war ships in the world. Lieutenants R. R. Ingersoll and Duncan Kennedy have submitted a joint plan for a steel cruising vessel, and Lieutenant T. B. Mason has submitted a plan for a similar vessel.

After all the arguments about cheapness and quality it appears that Dr. Bull's Cough Syrup is the best remedy for the cure of coughs and colds ever offered to the public. The price is only 25 cents a bottle and every druggist in the land sells and recommends it.

"The Atlantic Monthly" for 1883 will contain, in addition to its usual variety of serial and short stories, essays, sketches, poetry, and criticism, the following specially attractive features:

Oliver Wendell Eolmes, author of "The Autocrat of the Breakfast-Table," etc., whose inimitable series of "Breakfast-Table" papers, poems, and essays has been so conspicuous and delightful a feature of the magazine, will write frequently and exclusively for the Atlantic.

Henry Wadsworth Longfellow left a completed dramatic poem entitled "Michael Angelo," which he was more than ten years in writing. The first installment of the poem, which is in three parts, will appear in the January number.

Nathaniel Hawthorne left among his manuscripts the plan and sketches of a novel, which will appear in the Atlantic under the title, "The Ancestral Footstep: Outlines of an English Romance." The first portion appears in the December number, with an introduction by Mr. George P. Lothrop. It will be continued in the earlier numbers of 1883.

Mr. Henry James, Jr., author of "The Portrait of a Lady," will contribute to the first volume of the year "Daisy Miller: A Comedy,"—a dramatization by Mr. James of his story "Daisy Miller," which has had so great a popularity in England and America. New characters and situations and incidents are introduced; the entire story is re-cast and re-written, so as to render it more dramatic; and yet the features which made the story, as originally told, so attractive are all retained Mr. James will also write for the Atlantic some critical and literary papers, such as the readers of the magazine have heretofore found so admirable.

Mr. W. D. Howells, author of "Their Wedding Journey," etc., whose stories and essays have so often delighted the readers of the Atlantic, will from time to time send to the magazine from Europe sketches of travel, character, and literature.

Mr. Charles Dudley Warner, author of "My Winter on the Nile," "My Summer in a Garden," "Backlog Studies," etc., promises several papers for the coming year.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

BEYOND THE RIVER

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, and never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. These things, as you call them, are just as different as the moon is from green cheese. Now, Buttermilk, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumon a, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coa bes—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded acti n of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the trave er, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 12, 1880.

Gents:—Upon the recommendation of a friend I tried Brown's IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

ADORAM PHELPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

The democrats of Mississippi have succeeded in counting out Gen. Chalmers, the anti-Bourbon candidate for Congress from the "shoestring district" of that state. After throwing out all the ballots and returns they could find any possible pretext for so treating, Chalmers still had over 1200 majority; in this strait the democratic returning officers in one county wrote Chalmers' name "Chambless" on the official returns, though the votes were actually cast for Chalmers; this enabled the counters at head quarters to throw out 1400 votes; and the governor has given a certificate to Manning, the democratic candidate! We are not sorry Chalmers is defeated; he was the tool of the infamous Butcher Forrest in the massacre at Fort Pillow, and deserves hanging; but this does not alter the fact that he was elected, nor excuse the scoundrelism of the reform democracy.

Among the congratulatory messages received by Governor-elect Butler, of Massachusetts, was one from some of his one-time foemen in Memphis, Tenn., worded in this wise: "General B. F. Butler: Glory to God in the highest! We don't believe, now, that you stole any spoons at all! But if you did, keep 'em! We wouldn't have you to trouble yourself about returning them, not for anything in the world."

The man who beat Mr. Robeson in New Jersey in the late run for Congress, is named Ferrell. The officers of the navy ought to present him with a cane.

We heard both democrats and republicans say that there is nothing better for a cough than Dr. Bull's Cough Syrup; this old reliable remedy never fails to cure a cough or cold at once, and may be obtained at any drug store for 25 cents a bottle.

Manager Charles B. Baxter of the opera house at Fall River, Mass., was Saturday afternoon assaulted with a knife by a boy named Cornelius Sullivan, one of a gang of loafers whom he had ordered away from the premises, and received a severe cut on the nose. Sullivan was arrested, and was found to be wearing a pair of shoes which belonged to a lot of stolen property which the police were looking for. The discovery led to the arrest of four other lads, all belonging to a gang of juvenile thieves, who have been concerned in numerous petty larcenies of recent occurrence.

In the *Hop Bitters* are united the virtues of fresh hops and the strengthening and stimulating balsams, and its cures of weak back, pain in the side, rheumatism and neuralgia or pain in the chest are simply marvellous, it being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

Judge Advocate General Swaim has submitted an opinion to the secretary of war that in no case should an officer be brought to trial in a matter of indebtedness, unless the same was incurred through cheating, false pretences, etc. This decides that while an honest man must pay his debts, an army officer is under no obligation to do so.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now add d to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians, but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy, suffering from the torture "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result. "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in a l affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

AN ERRONEOUS BELIEF.

How a Mistaken Theory Nearly Cost a Well-Known Minister His Life.

[Chicago Standard.]

The following remarkable statement, made by a well known Baptist clergyman, besides the unusual matter of value it contains, will be found most readable and interesting:

MESSRS. EDITORS: I have always believed most firmly in the brotherhood of men, and that every human being is in duty bound to assist his fellow man to the fullest extent of his power. The relation, therefore, of my personal experience will, I trust, prove of benefit to many thousands in this land.

My earlier years were full of health and pleasure. After the completion of my educational studies I undertook the profession of teaching, and under the severe strain to which I was subjected I gradually became reduced so that the least exposure or excitement would bring on sick headache, biliousness and general prostration. I gave up teaching and began to prepare for the ministry, and although I studied hard my health seemed to grow no worse. Finally I commenced preaching, and then my old physical troubles returned. The slightest amount of certain kinds of food distressed me and had brought on heavy dullness, dizziness and often great depression of mind. A change of room, atmosphere or clothing was almost certain to cause a cold, accompanied by most painful suffering. I attributed all this to the severe work I was obliged to do in the ministry, and so did not attempt to remove it. I next began to grow nervous and noticed that my feet were cold, while my left side and back frequently pained me. I felt a drowsy or sleepy sensation after eating, while a little excitement caused me to lose my appetite entirely. At times my spirits would be light and I would feel as if I might live to a good old age, when possibly in less than an hour my head would reel, my body ache and I would be overcome with a deathly sickness. After such an attack a cold sweat would break out upon me and this would be followed by complete prostration. It would be impossible to describe the suffering I endured at these times, and yet I attributed it all to overwork and not to any special trouble or disease.

It was more than a year from the time the attacks first began that I consulted a physician. He examined me and declared that my lungs were affected and that I was on the road to consumption. I decided this idea and so called upon another doctor. But he told me the same thing, as did also the other medical men whom I consulted. Indeed, they all informed me that unless I went to Colorado, Dakota or the sea coast there was little hope. However, I did not change climate but tried to continue my work as best I could. A year ago last May and in the November and December following I had three severe attacks of what the doctors said was lung fever or pneumonia. I recovered from these by the most faithful nursing, but I felt all the time as I know now that my troubles did not originate in my lungs, but in some other organs of the body. It is true, I felt severe pains in my lungs and I expectorated a great deal. I was extremely sensitive to cold, and the least draft or change of apparel tended to bring on a cold. My breathing was often most difficult and it frequently seemed that with all my exertions I could not get enough air into my lungs to satisfy them or keep my blood pure. As I am large in stature, weighing over 200 pounds, and being in the prime of my manhood, you can imagine how I shrunk from the inevitable fate which seemed to stare me in the face.

One Sunday evening last February, upon coming down from my pulpit, almost prostrated and feeling that possibly it would be the last time I should ever enter it again, a member of my church approached me and said: "Brother Humphrey, I know just what you need to restore you to health. I have been troubled just as you are and I am perfectly well now." I thanked him for his suggestions, but shook my head sadly, for I felt that there was little hope for me. However, after I returned home I began to reflect upon this subject, and finally sent my son to procure some of the medicine which had been so highly recommended.

If faith were an element necessary to the success of a medicine, it certainly was lacking in this case, for I was really hopeless. Greatly to my surprise, however, I began to feel much better, and the following Sunday I was able to preach with comparative ease. I continued to grow better as I continued to use the medicine, for it seemed to reach my entire system. I was able to preach, sing and work without exhaustion, and to-day I am a well man, sleep soundly, eat heartily, feel no lung troubles, and I believe I owe my life and health wholly to Warner's Safe Kidney and Liver Cure, which I considered a benefaction to suffering humanity.

It is only natural that since my recovery I should feel enthusiastic over the remedy which had restored me and also observe its effects upon others. As a result, I am forced to the conclusion that very much sickness which is supposed to originate in the lungs, arises wholly from disordered kidneys and liver. I believe thousands of people are suffering to-day and looking forward, as I was, to a consumptive's grave, when their lungs are wholly sound and they might be restored to perfect health by the same means that I employed. Believing these truths and realizing their importance to the world, I come out thus openly, and say that I believe, under God, this remedy is a public benefaction, and I would most cordially and earnestly commend it to the world as a blessing to humanity.

ATHOL, Ill., July 24, 1882.

Michael M. Sullivan of Newburyport, Michael Sullivan of Lowell, and Thomas Kendrick of Boston are under $700 bonds each for setting fire to the Westboro' reform school building Oct. 30th. They were inmates of the institution. They were ordered to recognize for appearance at the supreme court, and for want of bail were committed to jail.

The Fish Monopoly.

The Boston Fish Exchange, the combination of fresh-fish dealers formed to control the market and compel the fishermen to accept whatever prices the monopoly might choose to give, is likely to soon go to pieces, and certainly will do so if the fishermen exhibit ordinary sense and independence.

Fifteen schooners, with nearly 500,000 lbs. of cod and haddock, arrived at Boston on Sunday; but no "exchange" buyers appeared on Monday until near noon, when one or two sauntered down on the wharf and offered $1 a hundred weight, which generous offer was indignantly refused by the skippers, who demanded $2 and $3, according to size and quality of the fish. The exchange finally offered $1.25, but the skippers consulted, and held out for $2.50 all round.

At length one skipper declared he would sell his fare at a cent a barrel in Gloucester, rather than "be swindled by a d—d monopoly," and made sail, being soon followed by nine or ten of the other schooners. Arriving at Gloucester, six fares, aggregating 200,000 lbs., were bought by one firm, at $2 for haddock and $3 for cod—a big advance over the "exchange" offer of $1.25 for all. Some of the vessels left in Boston did at last sell to the monopoly, but it is believed the ring will soon be shattered.

President Phillips Likely to Leave.

President E. B. Phillips of the Eastern railroad has announced his conditional acceptance of the offer made him by the Toledo, Cincinnati & St. Louis railroad company. He will accept the presidency of that road provided the fund that it was recently voted to raise can be provided to put the road in good condition in every respect. As Mr. Phillips' term of office in the Eastern expires with its approaching annual meeting, it is probable that his connection with that road will cease at that time.

News and Notes.

Steamship Wearmouth left Quebec for London, Nov. 18th, and was totally wrecked the following night on Magdalen islands, only four men being saved.

Thurlow Weed was reported to be dying on Tuesday afternoon.

Topeka, Salina & Western railroad six per cent. gold bonds are recommended to the careful examination of judicious investors. Mr. C. G. Patterson, 95 Milk street, will give full information.

New Haven, Conn., has another Cramer case. Miss Blanche Cramer, sixteen years old, daughter of Elijah A. Cramer, having left her home on the 17th inst., it is believed in company with Fred Bedford, a married man with one or more children.

A four-story brick building in Providence, R. I., occupied mostly by jewelry shops, was burned Nov. 21st. The people in the upper stories were cut off from the stairway, there was no fire escape, and many persons were injured; two young women were killed, and others will die.

Mrs. Mary E. Strong, widow of Col. Strong, the poet, and who was recently married to Dr. J. H. Furman, a physician practising in the village of Tarrytown, N. Y., was arrested on Friday evening on complaint of Mrs. Hortense H. Furman, former wife of Dr. Furman, who seeks to recover $25,000 from Mrs. Strong, or Furman, for breaking up her home and enticing her husband away from her. Dr. Furman claims to have obtained an absolute divorce from his former wife in one of the western states prior to his marriage with Mrs. Strong.

The mackerel season at Gloucester, Mass., closes with a very light stock on the market. The fleet are all in, thirty-seven vessels having arrived last week with 3472 barrels. Codfish receipts for the week were 205,500 pounds; other fish receipts for the week, 610,000 pounds of pollock, 81,000 pounds of take, 89,500 pounds of cusk and haddock, 31,500 pounds of halibut. The pollock catch off the shore the past six weeks has been the largest known for years, employing a large fleet, including many vessels from eastern ports. Receipts of pollock at Gloucester to Nov. 18th have been 2,294,000 pounds, against about 500,000 pounds at the same period last year, and it is estimated that fully 2,000,000 pounds have been taken eastward by vessels from that section.

Naval Affairs.

Rear-Admiral Nicholson, commanding the European station, reports to the navy department under date of Alexandria, Egypt, October 30th, that the Lancaster had arrived at that port, having touched, after leaving Corfu, at Patras, Athens and Syra. Our consul at Patras informed him that the Lancaster was the first American man-of-war that had visited that port for twenty-five years. At Athens smallpox was epidemic, twenty cases occurring daily, therefore the ship was quarantined except to receive coal and provisions. Admiral Nicholson expected to leave for Tripoli in a few days. The health of officers and men was excellent.

The Juniata has been placed in the dry dock at the Brooklyn navy yard, the efforts made to stop while afloat the leak developed on her steam trial having proved fruitless.

Chaplain T. A. Hill has been detached from the Tennessee, December 1st, and Chaplain R. Randall Hess (newly appointed) has been ordered to relieve him on that day.

The orders of the training ships James town and Portsmouth to proceed to Norfolk for repairs, before going on a winter cruise in the West Indies, have been changed, and the vessels ordered to Boston.

Commander Cooper, commanding the Swatara, reports to the navy department under date of Simonstown, South Africa, October 15th, the arrival of the Swatara at that port on October 14th, forty-four days from Singapore. As soon as the ship could be coaled, he intended leaving for Hampton Roads, in order to arrive there not later than December 15th. The health of officers and men had been excellent.

Although the next Congress will not organize for over a year, unless called in special session by the pre-ident, there is already a bitter fight raging in the democratic camp over the speakership. Sam Randall of Pennsylvania, one of the ablest men in the party and a high protectionist, is opposed for re-election as speaker by Carlisle of Kentucky, who is backed by the free trade democrats; and the things the two factions are now saying about each other give little promise of democratic harmony in the next house. Governor-elect Pattison, the "democratic Moses" of Pennsylvania, is a strong protectionist, and unsparingly denounces any attempt to put the American working man in unprotected competition with the pauperized laborer of Europe.

—Adam Forepaugh wouldn't have Mrs. Langtry on any terms. He had a professional beauty once, and the taffy the press gave her made her so dog-gone proud that she wanted to own the show.

—Peddler to peasant—I have here two different almanacs from which you may choose. One of them contains the most holidays, but the other contains more good weather.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Homer W. Barnes, a prominent and wealthy young man of Brockville, Ohio, placed the muzzle of a gun to his bared bosom on the evening of Nov. 16th, touched the trigger with his toe, and sent a charge of buckshot through his heart. His wife, to whom he was married four years ago, went home to her father a year since, and her refusal to return crazed him.

F. W. Kinsman, Esq.,—Dear Sir: With pleasure we order ten gross Adamson's Botanic Cough Balsam, showing conclusively that merit has won the day, and that your Balsam is taking the lead over the many bottles of trash that now flood the market.—From Smith, Doolittle & Smith, druggists, Boston.

The Tale that Tells. At the 146th Grand Monthly Drawing of The Louisiana State Lottery at New Orleans, Tuesday (always Tuesday,) Oct. 10th, 1882, the wheel was in revolved, and no shadow of suspicion as to fairness rests where Gen'ls G. T. Beauregard of La., and Jubal A. Early of Va., have the sole supervision of the distribution, as they do every month. Names of many winners are withheld from the public at their request. Ticket No. 35,705 drew the first capital prize of $75,000 (a prize, by gift,) sold in fifths at one dollar each, sent to M. A. Dauphin, New Orleans, La. Two-fifths, drawing $30,000, was held by John Chas. Renz, a thirty German farmer of Ascension Parish, La.; Gwynn Harris, No. 637 "F" Street, Health Office Inspector, Washington, D. C.; Washington Ice Co., both of South Washington City, D. C., each held another fifth. The second capital prize of $25,000 was in like manner sold in fifths to ticket No. 49,734, one-fifth held by Sam. Hobson, a travelling salesman of Memphis, Tenn.; another to a party at Crawfordsville, Tenn., and so on. Ticket No. 32,551 drew the third capital ($10,000)—was held in Chicago, Ill. Nos. 14,302 and 66,759 drew the fourth capital prizes, two of $5,000 each—sold in fifths—one to F. Sancan, the proprietor of the Tuileries, (La.) Seminary; one to G. C. Huntington, New York City, etc. Space cannot be given except for a few brilliant examples of those who ventured and won—next!

AROUND HOME.

Complaint is frequently made, of late, that the New York mails which should be delivered in the evening in this city are not distributed till next morning. The fault is not in the postoffice here, nor on the line between Boston and this city; but there is carelessness or mismanagement in the service between New York and Boston. One irate editor in the latter city, probably vexed at the non-arrival of his favorite scissors exchanges at the expected time, a day or two since advised the government to hire a man with a pony to do the work the railroads seem unable to efficiently perform; but possibly it would be cheaper to secure the services of the long-distance go-as-you-please champions, who are now all out of a job, their "profession" having become played out.

Deacon Henry Norwood of York, deacon of the Congregational church there, quite largely interested in the summer hotel business, and a prominent and respected citizen, died suddenly in Boston on Monday. The remains arrived in this city on Tuesday, and were taken to York for burial.

Pearson Bros., who recently removed their provision business to a store on Market street, on Tuesday had for sale a number of coons brought in by a hunter from York.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and the terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are ending in a blood disease. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, thoroughly attacks at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *so-called cures, such as douches, etc.*, and spending nearly a hundred dollars *without benefit*, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking the than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure, and I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

POLICE COURT--BATCHELDER J.

TUESDAY, Nov. 21st.

John Flynn and William Keefe, two fellows who had been hanging around the city for several days, were brought up as vagrants; promising to leave the place if allowed, they were told to go, with the intimation that if they were caught here again they would be prosecuted under the tramp act. They departed for the eastward by the first train.

Wm. Berry, for drunkenness, was fined $3, costs $6.90. Brentwood in default of payment.

PORTSMOUTH BREWING CO.

The annual meeting of the stockholders of the Portsmouth Brewing Co. was held at the office on Bow street, Tuesday of this week, Mr. George A. Mudge presiding in the absence of the president.

The directors chosen were Arthur Harris of New York, George Scott and John Conlon of Portsmouth, Timothy Twigg and Charles Mullen of Portland, and J. F. Callahan of Boston.

Arthur Harris was chosen president, J. F. Callahan vice president, John Conlon treasurer, and Wm. C. Robinson clerk.

"PETERED OUT."

The Little Harbor gold mine has petered out entirely, and the dredging flotilla went up river Tuesday afternoon on the way to Newmarket, where there is a job of government excavating to do in Lamprey river.

It seems really a fact that the work at Little Harbor was actually prosecuted with the idea of finding hidden treasures, as was stated in the first place by the *Traveller's* correspondent; and all the surmising of the persons who endeavored to find a rational excuse for the work, were wrong. Even in the last quarter of the nineteenth century there are still people who place faith in the "divining rod."

PRESIDENT PHILLIPS.

The proposed retirement of E. B. Phillips, Esq., from the presidency of the Eastern Railroad Co., if carried out will be a loss not only to the interests of the railway and its manifold connections, but to the patrons of the line, far and near.

Mr. Phillips, having filled acceptably,—nay, ably, nearly every practical position incident to railway operating, was not long in perceiving the capacities of the Eastern. When it was doubtful whether the road could mount the high grade of interest and like expenditures, after its refunding process had been inaugurated, Mr. Phillips stepped on the train, and by dint of his arduous and untiring energy, the result was achieved. In fine, Mr. Phillips is a practical man, capable of seeing the needs, as well as appreciating the capacities of a railway property; and now that he has become so well acquainted with the Eastern we shall be sorry to see him remove, and again pitch his tent towards the setting sun.

We of course do not believe that the fortunes of a piece of property depend upon the continuance in its direction of any one man, or one set of men. The world moves, and when one man steps down, a successor at once takes up the role and the play goes on. But the patrons of the Eastern had come to respect and appreciate Mr. Phillips. Corporate management becomes popular, and has a hold upon shareholders and the public, when it is stable, reliable, and believed to be used and adapted to the discharge of the duties of its position.

If, however, there is to be a decided change in the management; if the direction is to pass under the control of lessors or other interests then those represented by the present administration,—and of these things we down the line, having no representative in the board of direction, of course can only be informed through the little birds in the air,—then, of course, at the close of this administration is the proper time for Mr. Phillips to retire. He will carry with him, on this his second departure from his New England home, the renewed affection and esteem of hosts of personal and business friends, who will feel that while Boston loses an energetic, honest and able citizen, the great west, in its constant drain upon the east, has again had her draft most generously honored.

THE GONDOLAS.

Peterson's and Philpott's gondolas were on Tuesday loading with soft coal at one of Sise's coal wharves, for South Newmarket. They have each made a number of trips at their present job, and expect to make several more.

The gondola Sturgeon, Capt. Nason, on Tuesday took up the river to Eliot a quantity of corn, flour and lumber for Mrs. M. V. Raitt; lumber for Mr. Rose; and a lot of coal for Mr. John H. Mathes.

The big gondola H. P. Spinney on Monday loaded with coal from J. Albert Walker's coal-pocket, went to Newmarket and discharged, and was back again at the Concord railroad wharf at 3:20 o'clock P. M. on Tuesday, with another cargo on board and ready for another start, having made a round trip inside of twenty-four hours. Lively work that.

CITY OF PORTSMOUTH.

In the year of our Lord one thousand eight hundred and eighty-two.

An Ordinance raising and appropriating certain sums of money for the payment of a judgment against the City and otherwise.

BE IT ORDAINED by the City Councils of the City of Portsmouth as follows:

The Mayor is hereby authorized to negotiate a loan on the credit of the City of Portsmouth, at a rate of interest not exceeding six per cent. and for a period of time not exceeding one year, for the sum of eleven hundred and sixty-seven dollars and thirty nine cents, nine hundred and sixty-seven dollars and thirty-nine cents thereof being for the payment of a judgment obtained against the City of Portsmouth by one Marian E. Odiorne of Rye, N. H., for damages and costs for injuries received in slipping down on the sidewalk in Market street in December, 1880, and two hundred dollars thereof being for a payment in settlement of the several suits arising out of the extension of Vaughan street, the said sums to be included in the next annual appropriation.

Passed November 16, 1882.

ALBERT R. JUNKINS,
President of the Common Council.
JOHN S. TREAT, Mayor.

This evening, at Music hall, the great spectorcular drama "The World" will be presented by the Boston Theatre Co. See advertisement.

Admirers of Longfellow will be interested to know that on Thursday evening, 23d inst., at Franklin theatre, Mr. Graham Messenger will give readings from the great poet's works, the selections including Miles Standish's Courtship, Paul Revere's Ride, and portions of Hiawatha. Tickets at twenty-five cents each will be sold at the door.

Mr. Edgar D. Stoddard, having sold his trotting horse "John W.," has purchased another, "Ned Fowler," which is alleged to have a record of 2:26, and to have cost Mr. Stoddard $600.

Boys were skating on the north millpond, Tuesday forenoon, near the Eastern railroad roundhouse. Some of them reported good skating on shallow ponds in the woods and fields on the previous day. The thermometer at the Eldredge brewery, Tuesday morning, indicated sixteen degrees above zero.

The contents of the Knowlton blacksmith shop, at the foot of Daniel street, have been purchased by Mr. J. L. O. Coleman. The shop has been closed over ten years.

The schooner Louise, Hickey master, after having discharged 126,000 shingles and 25,000 feet of pine and hemlock lumber for A. A. Fernald, was towed to Dover on Tuesday by the tug Ann, the remainder of her cargo being for Converse & Hobbs of that city.

The work of tearing down the old buildings in Fort Constitution, prevent to their falling down, has commenced.

Annie Merrill, aged twenty years, daughter of Jesse Merrill of Stratham, hung herself in her father's barn on the 20th inst. No reason for the suicide is given.

The tug Ann, with the coal laden schooner Wm. A. Morrill in tow, arrived at the Stratham and South Newmarket bridge on Friday of last week, bound up, but owing to the gearing of the draw having given away, were compelled to wait until Monday before they could get through; attempts were made to raise the draw with ropes, to allow the vessels to proceed, but without avail. The Ann on Tuesday towed down from South Newmarket the schooner Fannie Hotchkiss, and towed her to sea, taking out at the same time the schooner Triton, bound for Boston with bricks. The brick schooner Hattie Lewis, Brewster master, also sailed for Boston on Tuesday.

Mr. John H. Mathes, of Eliot, has just finished a barn which for its size is superior to anything of the kind in the town; it is thirty-six feet by twenty-six on the ground, has brick walls to its cellar, and is fitted and finished in a style not ordinarily seen in such buildings.

Mr. Robert Jellison, employed on the navy yard, was considerably hurt on Tuesday afternoon through the falling of an iron bar upon his shoulder, at ship house No. 5.

A horse is to be "given away" in J. H. Robertson's eating house on Pleasant street this evening.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.
This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.
This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.
The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.
Subscriptions to these bonds may be made at the office or the contractor on the following terms:
For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*
This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.
Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jeweled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease. Sense and Simplicity, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single man either requires or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

The marvel of art and beauty, warranted to be a perfect medical book in every sense that can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can ill afford to delay, suffering and expense by reading the Science of Life, or consulting with the author, who may be consulted on all diseases requiring skill and experience. Address,

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Boston, Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a Mother's heart, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing a especial burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1 per bottle or six for $5, and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed, as the testimony shows.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders. Its special line and hide fair to equal the Compound in its popularity.

All most respect her as an Angel of Mercy whose sole ambition is to do good to others.

New Hampshire Items.

Three thieves made a raid on the Greenfield, Hancock Junction and Antrim passenger stations on the Peterboro' & Hillsboro' and Manchester & Keene railroads on the night of Sunday, Nov. 19th. They drove from one town to the other in a team, breaking and entering the depots by the use of a jimmy. They commenced business at Antrim, and stole $15. At Hancock Junction they did not get any money, but the tables, money drawer and floor were covered with blood from an accidental wound received by one of the burglars. At half-past four o'clock Monday morning the three men were seen driving to Greenfield depot. Later, when the depot agent arrived at the station, he found that it had been broken into and about $4 in silver and coppers, a revolver and some express merchandise taken. The thieves were seen on the road driving toward Manchester.

A citizen of the town of Walpole is indignant because a newspaper remarked that Walpole "is a rummy place on election day." The indignant citizen says he was at the polls all day on the 7th of November, and is willing to take oath that there were not over thirty persons drunk! The town cast 500 votes or so.

The Boston & Maine railroad station in New Durham was broken into and robbed, Monday night.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

The republican defeat in California is accounted for. The ticket had the hostility of the railroad interests. The recent republican state convention in its organization, platform and ticket was squarely against the railroad monopolies.

Hale's Honey of Horehound and Tar for coughs and colds has reached the pinnacle of fame. Pike's Toothache Drops cure in one minute. For chills, fever, ague and weakness, Colden's Liquid Beef Tonic. Colden's; no other. Of druggists.

London society has a choice morsel to roll under the tongue of gossip in the disclosure, within a few days, of the fact that Lady Gertrude Douglas, sister of the Marquis of Queensbury, had become the wife of a baker. The lady is no longer young, but has plenty of money, and her husband is but twenty-one years old.

A scientific chemical compound that gives health and strength is Brown's Iron Bitters.

Several of the Westbury (Long Island) dairymen have recently sustained losses by the sudden death of cattle. The cows are sick for a few hours only, and then drop down dead. The cause is unknown, so far.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great semedy.

The schooner E. J. Munsey, Hodgdon master, bound from Gardiner, Me., for Boston, with a load of lumber, was abandoned twenty miles off Thatcher's island at midnight on the 18th inst., the crew landing at Eastern point light on Sunday forenoon, in their own boat. The schooner was uninsured.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used for years by ladies for years. It is a sure cure for all Female Complaints, Internal Prolapsus, Dyspepsia, and all weaknesses caused by those irregularities which are peculiar to womankind. This is no *Patent Medicine,* but is prepared, after years of experience, and recommended knowing that it will give new life to anybody worn down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a single trial. *It never fails to give quick and permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, lay aside the blues, be a woman for a week, and try Ladies' Tonic, which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Women and Workers of years' experience,* who give advice and answer letters from ladies, *free.*

Now will be found, for one case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is *a bold offer,* made by responsible ladies who know from *experience* what "LADIES' TONIC" can do. Send stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of ab ut the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the smug office of Dr. M. P. Brown, one of the leading physi ians of the State, who followed up the veiu in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest HENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of pneumonia, and in all cases relief has followed i from three to forty-eight hours. The old plasters are stage cos hes—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded acti n of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the trave er, pleasantly.

In the center of the genuine is cut the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels posted at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 10, 1880.

Gents:—Upon the recommendation of a friend I tried Brown's IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking Brown's IRON BITTERS, responded "that is a good tonic, take it."

ADORAM PHELPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

Then and Now.

A contemporary thus draws a contrast between the "good old days" of 1816, and the present year:

In 1816 one bushel of corn would buy one pound of nails. In 1882 one bushel of corn would buy fifteen pounds of nails.

In 1816 it took twenty-eight dozen of eggs to buy one bushel of salt. In 1882 one dozen of eggs would do the same thing.

In 1816 it required sixty-four bushels of barley to buy one yard of broadcloth. In 1882 five bushels of barley would do the business.

In 1816 it required one bushel of wheat to purchase one yard of calico. In 1882 one bushel of wheat would buy thirty-five yards, of a better article.

In 1816 a pair of woolen blankets cost as much as a cow. In 1882 the value of a cow would buy twenty pairs of blankets, superior in every way.

—Little Gertie attended church last Sunday, and before leaving the house her mother told her to see if she could remember the text. The text was "piling up wrath against the day of wrath." "I haven't forgotten, mamma," cried Gertie upon reaching home; "it was 'lay up something for a rainy day.'"

—A Georgia opinion of the comet: "Grand in its pyrotechnical display, illimitable in the vastness of its immensity, it reminds us what a great country we live in, that can boast of such products, impossible to the effete despotisms of the east and the cold and barren regions of the bleak and frozen north."

—Thanksgiving stories are now ripe, and they fill a long-felt want. In these stories the long-absent son, who left home a smooth-faced youth of nineteen, and is mourned as dead by his parents, returns home a bearded man of thirty, just as the family are sitting down to their Thanksgiving dinner, and the only member of the household that appears to recognize the wanderer is the old dog, who never saw him before, and there is great joy in the house.

—In Egypt, a month or two ago, Capt. Gill, Lieut. Cherrington and Prof. Palmer put $15,000 in gold in a bag, and, clothed in British uniforms, went forth into the desert near the Red Sea to buy camels for Sir Garnet Wolseley's army. As might have been expected, nothing has ever been seen of them since. The Bedouins, it is believed, robbed and slew them. However, if they had been American bank cashiers, they wouldn't be given up for dead till looked for in Canada.

People who cannot spend the season of winds and cold rains in sunny Florida should keep Dr. Bull's Cough Syrup in the house. It is the best remedy for colds and coughs and will relieve sufferers at once.

The property stolen by five masked men, Aug. 16th, from the residence of Alexander J. and Thomas M. Gilchrist, in Carlton, Saratoga county, N. Y., has been recovered at New York, through negotiation. The property included $125,000 in bonds and mortgages, certificates of deposit aggregating $80,000, and $800 in cash. A ransom of $950 was paid. At the time of the burglary the family were bound and gagged, and the safe opened with the key, which was found.

Hood's Sarsaparilla is made of roots, herbs, and barks. It gives tone to the stomach and makes the weak strong. Sold by druggists.

Gov. Select Begole of Michigan has boxed the political compass in fine style. As a republican, he became a county treasurer, state senator, congressman and delegate to a national convention; as a greenbacker, he ran for congress and was defeated; and, finally, as a democrat, on a fusion ticket, he has become governor of the state.

How I Felt.

Why two years ago I was just about crazy and no wonder that my wife and children were afraid of me. You just want to suffer with neuralgia with no relief as I did until I used Sulphur Bitters. They cured me and now my wife says I am as meek as a lamb.—*Robert Davis, American House, Boston.*

Gen. Alfred Holt was nominated for mayor by the democrats of Dover on the evening of the 21st inst., he having 296 votes in the caucus, to fifty-eight for a Mr. Vittum.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 5," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medical chest. Order it of your druggist. Price $1 a bottle.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Death of Thurlow Weed.

Thurlow Weed died at his home in New York at 8:55 o'clock A. M. on Wednesday, Nov. 22d, in the 86th year of his age. He retained his mental powers almost to the last, and no longer ago than Saturday, Nov. 18th, wrote a vigorous letter to the New York *Tribune* on the results of the late election and the future of the republican party. He had been confined to his bed since the first of October, his physical faculties gradually failing; his mind however remained clear and vigorous, and he had the daily papers regularly read to him until Monday, the 20th inst., in the evening of which day he commenced to talk incoherently; at midnight on Monday he became unconscious, and remained so until he died.

He was born at Cairo, Greene county, New York, Nov. 15th, 1797, and served as a private in the war of 1812. He learned the printer's trade at Catskill, N. Y., and when quite young established the *Agriculturist* at Norwich, N. Y. His first appearance as a figure of national importance, however, grew out of the memorable anti-Masonic agitation, of which young Weed became one of the leaders. He founded the *Anti-Masonic Inquirer* at Rochester, N. Y., and was twice elected as an anti-Masonic member of the state assembly. From that time forward, for thirty years, he was a power in state and national politics; he did more than any other man to elect Wm. H. Seward governor of New York in 1838, and William Henry Harrison president of the United States in 1840; and he was largely instrumental in effecting the nominations of Taylor and Scott. Though having so much to do with the nomination and election of others, Mr. Seward never held any office himself, except that of state printer of New York.

The Fish "Ring" Bursted.

The "Boston Fish Exchange" on the 21st inst. voted, after a stormy session of three hours, to dissolve the combination and allow the trade to be regulated by the law of supply and demand, the vote standing twenty-three to eleven.

News and Notes.

The fire in the Callender building at Providence, R. I., in the forenoon on the 21st inst., was a disastrous affair. There was but one stairway to the building, and no fire escapes; and the extension ladder of the fire department did not work. Two young women and one man died before midnight of that day; three other young women were at the hospital dying, and of sixteen other victims it was thought at least three would die.

By the wreck of the British steamship Wearemouth on Magdalene island, on the night of Nov. 19th, when two days from Quebec, sixteen men lost their lives. The vessel struck shortly after midnight, during a heavy gale and snow, and held together until eleven o'clock the next forenoon, when she broke up; four men were washed ashore on pieces of the wreck.

Good interest and ample security are offered in the six per cent. gold bonds of the Topeka, Salina and Western railroad.

The British steamer Winton, from the Black sea for England with grain, foundered off the coast of France, and thirty persons were drowned.

A murder and suicide took place Nov. 20th near Frostburg, Ky., the parties being a young man named Cook and a Miss Austin. The latter lived in Muhlenburg county. Cook had been paying attention to her. He accompanied her and her friends on her way home till they reached Pond river, where he called Miss Austin aside, as he was about to return, and deliberately shot her through the head. He then shot himself in the region of the heart, fell, sprang up and shot himself twice through the head, and both were dead within five minutes.

Prof. W. L. Sharpe of the female college at Somerville, Tenn., shot his brother-in-law, James Burton, dead, in a billiard saloon, on the night of the 20th inst.

The corner stone of the new post-office building was laid Nov. 21st by the grand lodge of Free Masons of Maryland, in the presence of thousands of spectators.

Mrs. Eliza Columbus of Sunderland, Mass., has been sentenced by the superior court to three years in the house of correction, for trying last August to burn the house in which her husband was confined by a broken leg. She acknowledged the deed, and said she did it because her husband abused her, and because he deeded some of his property to her daughter.

At Richmond, Va., Nov. 21st, the council of foreign holders of Virginia bonds commenced another important suit, for a mandamus to compel the officers of the commonwealth to collect a tax of two cents on the $100 of valuation for a sinking fund to pay the principal of the bonds. The case will be bitterly contested.

The Foster divorce suit at New Haven, Conn., in which Mrs. Foster of Meriden demanded a divorce and alimony, was settled by agreement, Foster consenting to a decree of divorce for adultery, Mrs. Foster to receive $15,000 and have custody of the two minor children. The scandalmongers, who anticipated a rich feast of nastiness, are much disappointed.

Claude Lester, an Englishman aged twenty years, who had been for a year in the United States, returned to Niagara, Ont., Nov. 20th, and went to the house of a former employer named Smith, called his son, aged sixteen, out of doors, shot him, and then shot himself. Both will die. The two had been good friends, and no motive can be assigned for the deed.

Ten men were killed, and many buildings shattered, in Guayaquil, Ecuador, Nov. 20th, by the explosion of a powder magazine.

At the session of the New York state board of health at Albany, Nov. 18th, it was reported that of three kerosene accidents investigated, two resulted in loss of life, and all were caused by oil which was found to be below the legal standard required by the state. Of six samples of oil purchased in Buffalo, four were below the standard; of ten samples purchased in Batavia, none were up to the state test; of six samples purchased in Syracuse, one only was up to the standard; of ten samples purchased in Rome, all were found to be bad; of 145 samples purchased at 123 stores in Brooklyn, only five were up to the required standard. Twenty-two samples emitted combustible vapors at the ordinary temperature.

A Washington despatch says it is reported in society circles that Gen. Toussaint Beauregard of New Orleans is about to marry Mrs Cornelius Vanderbilt of New York, the widow of Commodore Vanderbilt.

There was lately a wedding in an English parish church where the bridegroom was eighty-eight years old and the bride seventy-eight.

The Canadian Pacific railroad company will build five steel vessels for service on Lake Superior. Total cost to be about $700,000.

Col. Ingersoll's Opinion.

Col. Robert G. Ingersoll has given his opinion as to the causes of the republican disaster in the recent elections. The following is his reply to an enquirer, written out by himself:

"First, the extravagant appropriations. Secondly, the refusal to reduce taxation. At least $75,000,000 should have been taken from the burdens borne by the people. Twenty millions should have been taken from sugar, and the entire tax from tobacco. The republican party should have taken such steps that all internal taxation could within one year from now be abolished. People are tired of paying war taxes in time of peace. Thirdly, they want the collectors and treasury agents and gaugers and all sorts of detectives and spies discharged. Fourthly, the republicans should not have postponed the tariff reform. The tariff commission was a mistake. People saw that it was only an affidavit for continuance, a ruse for delay, and that the republican party was not going to act. Fifthly, prominent republicans have been trying to kill each other. The great struggle has been for office. We have too many politicans not enough statesmen. The fight against Cornell was unfortunate. Pennsylvania was tired of the Cameron rule, and everywhere there seems to have been hatred and disgust."

—"I would like to be excused, your honor," said a Chicago man who had been drawn on the jury. "What for?" "I own a man $5, and I want to hunt him up and pay it." "Do you mean to say you would hunt up a man to pay a bill, instead of waiting for him to hunt up you?" "Yes, your honor." "Do you belong in Chicago?" "Yes, sir." "You are excused. I don't want any man on a jury who will lie like that."—*Philadelphia News.*

—Professor (explaining the influence of different densities of air on sound)—"If, now, from here we should hear the steamboat whistle down in the harbor, what should we infer?" Bright junior—"Steamboat coming in."

The democrats propose to have a sufficient working majority in the next Congress for all practical purposes; they have already a majority of seventy or eighty, and there are it is said about fifty contested cases, all of which will of course be decided favorably to the democratic contestants. All the better; the bigger their majority the more like fools they will act, and so disgust the people by their reckless partisanship and lack of statesmanship that their reign will be cut short two years hence; at least, that is the way a big majority in a "democratic house" always has worked, for sixteen years past.

—At the anglers' tournament in New York recently, it was shown that Mr. Pritchard can cast a fly further than any young man in America. If Mr. Pritchard will agree to cast all the flies into the middle of the Atlantic, he can hear something to his advantage by calling around at the beginning of dog-days next summer.

MARRIED.

SMITH—HARROLD. At St. Augustine, Fla., Nov. 9th, Mr. J. S. Smith, Jr., of Jacksonville, Fla., and Miss Charlena Harrold, daughter of Lieut. C. W. Harrold, 3d U. S. Artillery. The *Daily Times* of Jacksonville says: "The bachelor friends of Jerry Smith will read with surprise and grief the marriage notice in another column. Put their grief will be a selfish one, and will be transient, when they reflect that their loss is his eternal gain. We are all opposed to troops at the polls, and he brings his detachment of the Third Artillery over here at a time suspiciously near election, but we accept the assurances of his friends that this armed invasion is only for Jerry's private protection. We extend to this daughter of the regiment our warmest welcome, and to Mr. Smith our cordial congratulations."

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and the terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, that cures at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been suffering from catarrh for six or eight years, and having tried nearly all the so-called *wonderful cures, patent cures, infallible cures*, etc., and spending nearly a hundred dollars seeking health, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking the than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

Circulars, giving full particulars, may be obtained of

THE BEST OF THE
AGRICULTURAL WEEKLIES,

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of editorial management, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,
Horticulture & Fruit-Growing,
Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bee-Keeping, Greenhouse and Conservatory, Veterinary Replies, Farm Questions and Answers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volumes of THE COUNTRY GENTLEMAN for 1882 will CLEARLY ENLARGE the increasing its size from 16 to 20 pages weekly, but the terms still continue as follows, when paid strictly in advance: ONE COPY, one year, **$2.50**; FOUR COPIES, **$10**, *and an additional copy for the year free to the sender of the Club*; TEN COPIES, **$20**, *and an additional copy for the year free to the sender of the Club.*

THE RAILROAD CONSOLIDATION.

The Boston *Transcript* of the 21st inst. said:

The present movement among the stockholders of the Eastern railroad company to secure a continuance of the negotiations for a lease of the Eastern railroad to the Boston & Maine is an honest and legitimate effort to put these two properties together, and save to the stockholders of both at least $320,000 per annum. The talk in some quarters that this movement is an effort to "boom" Eastern stock is as silly as it is disingenuous. Everybody knows, who knows anything about the stock market, that Eastern stock is practically out of the market, and that the aggregate sales will not average one hundred shares per day.

The first movement to put these companies together was made by the officials of the Eastern railroad company, when the act of 1880 was passed allowing a consolidation or lease of these companies. The next movement was an offer from a sub-committee of the Boston & Maine to lease the Eastern railroad upon a guarantee of the Eastern bonds, and an equal division of the net earnings after paying eight per cent upon Boston & Maine stock. The Eastern railroad bondholders favored this, but the stockholders propose that the Boston & Maine be made a nine per cent preference stock, after which the Eastern shall receive six per cent, etc.

There are no great obstacles in the way of such a lease. The Boston & Maine would guarantee all the debt of the Eastern, and would run no great risk in so doing. The saving made by the union of interests would enable the Boston & Maine to pay its own stockholders nine per cent dividends, and also to pay a dividend to the Eastern railroad stockholders; for it is understood that the plans embrace the conversion of the Eastern's debt in excess of ten millions into a guaranteed six per cent stock. There can be but one verdict upon such a union of interests; that it would materially strengthen the position of both corporations, and be beneficial to the bondholders and to both companies.

The *Traveller* of the 22d says "the question as to who will succeed Mr. Phillips as president of the Eastern railroad is already being agitated, but nothing whatever is likely to be done in the case until the future relations of the company with the Boston & Maine people are positively determined. If a union of the two roads is effected and both come under one management, the position will of course be abolished. Mr. Phillips will retire from the road immediately after the annual meeting on December 13th, and then at once assume the duties of his new position."

THE FISH BUYERS.

Commercial wharf is likely to be a lively place for fish-buying operations the coming winter. Lemuel B. Caswell, who is now at the Shoals, clearing up the business he has carried on at Smuttynose island during the summer, and shipping the balance of his fish, oils, etc., to Gloucester, has engaged store No. 13, and will occupy it in about a month. Caswell & Co have moved from their summer quarters near the Spring market, and taken No. 14; Elvin Newton & Co., having closed up the business connected with their summer fishery at Lunging island, will occupy Nos. 15 and 16; and No. 17 will be occupied by Daniel Clark. Besides all these, George Herbert & Co. and Randall & Caswell will buy at their old places of business; and a Mr. Langsford of Lane's Cove, Mass., proposes to locate here for the winter if he can secure suitable premises. William Randall and C. Sullivan & Co., who also have bought quite largely in seasons past, on occasion, it is said will probably do the same this winter. With so many purchasers, and no "Fish Exchange" ring like that of Boston among the possibilities, fishermen bringing their fares to this port this winter will no doubt be able to get the full market rates for their fish.

THE LITTA CONCERT.

Of the entertainment given by the Litta Concert Co., which is to be at Music hall on Saturday evening, the *Reporter* of Woonsocket, R. I., under date of Nov. 8th, says:

The Litta grand concert at the Universalist church, last evening, called out a large and critical audience. The programme was thoroughly classical, each of the twelve numbers was encored, and there was something more than mere artistic admiration for the prima donna and her coadjutors, which seemed to grow into warm personal regard. M'lle Marie Litta is beyond criticism as an artiste, and preferable to Kellogg or Cary with most of her auditors. In arias, a duet and quartette, she sang superbly, her voice showing great tehnique, volume, passion and sympathy. Miss Annie E. Beere showed an unusually fine contralto voice, and won high favor, while Sig. Ernesto Baldanza, who possesses a natural tenor, approached the upper register with a dash that astonished equally with the enchantment of his ringing notes. Julius Beregby, the basso, has a good voice under excellent control. One of the gems of the evening was a violoncello solo by Louis Blumenberg. In a fantasia and a romanza, two movements from Sivori, the latter difficult in the extreme, his execution was sweet and clear, and marked with extraordinary ease and finish. Joseph Harrison, the accompanist, gave two fine solos. The concert as a whole was a brilliant success.

Two pieces of slate fell from the roof of the building in which Butler's hat and fur store is located, Tuesday evening of this week; one piece struck the pavement, and was shattered to fragments; the other struck a man on the shoulder and was not broken, though the man was bruised and greatly surprised.

At the regular meeting of the Woman's Temperance League this (Thursday) afternoon, a full attendance is requested, as business of important will be brought before the League.

Mr. John H. Broughton on Wednesday of this week sent to the navy yard two thousand feet of mahogany, for the department of steam engineering.

The Boston Theatre Co., which played "The World" in Music hall on Wednesday evening of this week, will appear at the same place in "Youth," the latest spectacular success in Boston, on the evening of Saturday, Dec. 23d.

Mr. Daniel Mason has bought the timber on the lot owned by Darius Frink of Newington, in the rear of the DeRochemont place, and is cutting it off. The trees are very tall and straight, and almost wholly free from limbs except near the top. The logs are hauled to the river, and rafted, for transportation to Mr. Mason's steam mill in this city.

Six of the overcoats stolen from the store of C. E, Myers & Co. on the night of the 19th inst. were found on the afternoon of the 22d by four soap peddlers, in the old blacksmith shop of the Kearsarge mills.

The "election dance" in Newington, postponed from the evening of election day, came off in the town hall Tuesday evening of this week according to previous announcement; it was largely attended by residents of the town and visitors from other places, and the occasion was one of much enjoyment for all who participated.

The amusing farcical comedy of "Rooms for Rent" will be played in Music hall on Tuesday evening, Nov. 28th. It was given here last season, and was greatly enjoyed by a large audience. There is a lot of fun in it.

The schooner E. A. Williams, Capt. Orin Caswell, recently went in to Rockport, Mass., with 25,000 lbs. of fish, and sold her fare for $3.50 per hundred weight.

The U. S. S. Plymouth is to be hauled into the ship house at the navy yard today, if all goes well; work will be commenced at 6:00 A. M., and it is expected the proceedings will be at the most interesting stage by nine o'clock or shortly after.

Mr. Lewis Holmes has hauled up for the winter his fleet of letting boats, and the floating stages. He is now building a rowboat on a model differing considerably from any of his others, the materials being also put together on a new plan of his own invention. He will have a number of new boats to set afloat when the season opens next year.

The first basket-picnic sociable and dance for this season, in Newington, takes place in the town hall on Friday evening of this week. These gatherings are kept up at stated intervals through the winter, and are productive of much enjoyment; the ladies bring lunch baskets, and after a period of social chat the always-abundant refreshments are partaken of, and then follows a dance, which is concluded at a reasonable hour.

Mr. James Card, one of the oldest residents of Newcastle, died on the 22d inst. at the age of about eighty-four years.

Mr. Editor: The last issue of the Portsmouth *Journal*, under the control of the Portsmouth custom house, maintains that "the machine" in politics is necessary. The *Journal* has been constant in its praises of Roscoe Conkling, to whom is due the present defeated condition of the republican party. True, there must be "machine" organization, but it must be organized against our political foes, and not against others of our household, whom the machine constantly ostracises. The result in New York will follow in New Hampshire, if more sense is not shown by those claiming to run the politics of this section. The sight of the police officers of Portsmouth running the county convention, the postmaster turning over the chances and deciding to which of two neck-and-neck candidates for governor shall be given the nomination, or the other officials manipulating every convention to which they can gain admittance, has largely tended to cool the zeal of more than one COUNTY REPUBLICAN.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, Nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Such edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Manhood ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

is a marvel of original beauty, warranted to be a better medical book by far, in sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Judge.

N. B.—YOUNG and MIDDLE AGED MEN can depend upon the advice and skill of a physician, in the Science of Life, or conference with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering or joy at relief from Mrs. Pinkham's Vegetable Compound as a Medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will act in all cases, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice, explained as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity."

All send cents for Mrs. Pinkham's Book of Mercy where such addition is to do good to others.

The Silver Lining to the Cloud.

Young Gluckey, of the Union club, had been up in Marin county shooting for a week when he received a dispatch calling him home.

"My dear boy," said his partner, taking him aside, "have you the courage to bear up under the terrible blow?"

"W-w-h-a-t is it?" asked Gluckey.

"Your wife has eloped."

"Great Scott," said the deserted husband; "with whom?"

"With your tailor."

"You don't say so," replied the bereaved man with a beaming smile. "Why, I owed him $600. What'll you take?"

Barnabee's Joke.

Barnabee, the unsurpassed humorist of the Boston ideal company, seems to be particularly favored in his efforts to entertain his friends on all occasions. Saturday evening while he was singing one of Bunthorne's gems, in "Patience," the piping voice of an infant child was heard just about the time when he was reaching the lines of his part—"This is a little thing of my own." The interruption by the child created a little audible ripple of amusement, which rapidly increased to the wildest uproar of merriment when the quick-witted Barnabee skipped the lines before the words mentioned, and with a comical expression and gesture peculiar to himself waved his hand gracefully to the cherub in the gallery and said, "This is a little thing of my own." It was several moments before the audience was quieted, and at intervals ladies and gentlemen burst into a hearty laugh, which became general again as soon as Barnabee added the lines of the part—"but I won't publish it." Nothing funnier has ever occurred in the opera house, and many laughed until they suffered. The father, mother and child looked inquiringly about, not having heard the words of "Bunthorne," and they had no idea of the fact that they had involuntarily assisted in making a very pat hit for Mr. Barnabee.—*Utica Observer.*

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

About one o'clock Tuesday morning, Nov. 21st, William A. Russell of Russell Bros., at Relstertown, in Baltimore county, Md., was shot and instantly killed by a burglar.

How To Read

Your doctor's prescriptions. Send two 3 cent stamps to pay postage and receive Dr. Kaufmann's great treatise on diseases; illustrated in colors; it gives their signs and abbreviations. Address A. P. Ordway & Co., Boston, Mass.

Burglars on the night of the 20th inst. blew open the safe in the Milton (Wis.) postoffice, and secured $2,000 in money, a quantity of jewelry, and other valuables. There is no clue to the burglars.

A man of average weight possesses about twenty-eight pounds of blood. All of this passes through his heart in about a minute and a half. Obviously, therefore, any disease of that organ must impair its functions and retard its pulsations. There is a sterling preparation, Dr. Graves' Heart Regulator, which cures all derangements and diseases of the heart.

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully for years. It is a *rare cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by these irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or nervous female suffering from the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial.* It *never fails* to give good and *permanent relief.*

If you are troubled with *any* weakness or complaint common to your sex, you can rely on "Ladies' Tonic" to cure, and try "Ladies' Tonic," which will guarantee satisfactory results. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Wives and Mothers* of every experience, who give advice and answer letters from ladies, *free.*

You will be given full *cure* of Female Weakness or Debility when "Ladies' Tonic" will not cure. This is a *bold offer*, made by a reliable firm. Ask your druggist *even expensive* what "LADIES' TONIC" can do and stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of ab ut the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—Benson's is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and—"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE PORTSMOUTH DAILY CHRONICLE

(Established August 26, 1862,)

is Published Every Morning, Sundays excepted, at No. 7 Exchange Building, Pleasant street, opposite the Post Office, by the

Chronicle and Gazette Publishing Company.

TERMS $6.00 PER YEAR.

The New Hampshire Gazette

[The Oldest Newspaper in the United States, established Oct. 7th, 1756.]

is published every Thursday at the same office. Terms, $1.50 per year; $2.00 per year, if not paid in advance.

ADVERTISEMENTS inserted on reasonable terms, in either or both papers. The GAZETTE, having a large country (in addition to its local) circulation, is an excellent medium of advertising. A liberal reduction made when advertisements appear in both papers.

☞ Correspondence from neighboring towns containing items of public interest, will be gladly received. All communications should be addressed, and all checks made payable to the

CHRONICLE & GAZETTE PUBLISHING CO.,

PORTSMOUTH, N. H.

The Job Printing Business is conducted in the same office by Mr. Richard L. Walden, who keeps on hand a large and and well-selected stock of all materials required in his line.

Mr. J. H. Bates, Newspaper Advertising Agent, 41 Park Row (*Times* building,) New York, is authorized to contract for advertisements in the CHRONICLE and GAZETTE, at our best rates.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news from our state, domestic, foreign and current topics. New Hampshire items carefully prepared matter news, containing reports of events owned in this port, or collected by gleaning from exchanges or by neighborhood and friend correspondents, is just the paper for residents desiring to be posted on all that takes place at home, while in those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the state, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly insertion to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 19, 1880.

Gents:—Upon the recommendation of a friend I tried Brown's IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

ADDAM PHELPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now add d to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder comp aint for 14 years, and had consulted at different times seven ph. sicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sound ing disclosed the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and in doing nicely now. If you would like to see the stones, I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps.] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Having broken up one monopoly, the Boston Fish Exchange, the Gloucester fishing interests now propose to make war upon another, the New England Halibut Co., which it is claimed controls the halibut trade to the serious detriment of the fishermen.

"Hood's Sarsaparilla is made of roots, herbs, and barks. It gives tone to the stomach and makes the weak strong. Sold by druggists.

Catarrh.

Ely's Cream Balm Co., Owego, N. Y. Gentl:- I have been a severe sufferer from catarrh for 15 years, having distressing pain over my eyes, gradually the disease worked down upon my lungs. About a year and a half ago I commenced using your Cream Balm, with most gratifying results, and am to-day apparently cured. Z. C. Warner, Rutland, Vt, April 31, '82.

Ely's Cream Balm has completely cured me of catarrh, of which I have been afflicted over ten years, after trying almost every remedy recommended, none having proved so effective and thorough. S. J. Aiken, wholesale dealer in Boots and Shoes, 143 Federal St., Boston, Mass. Apply into nostrils with little finger. Price 50 cents.

Ex-Senator Patterson, state superintendent of instruction, recommends the abolition of the district school system and the establishment of town schools, to which children living at a distance shall be transported at the public expense.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

There was a $250 fire in the residence of Mrs. John Brewster at Dover on the 22d inst., caused by the use of kerosene in lighting a fire.

The very best iron preparation, and the one having the largest sale, is Brown's Iron Bitters.

Mr. Frank Trow was run over by a team on the 21st inst. at Mont Vernon, and died on the 22d.

It is impossible to disguise the fact that the Vegetable Compound, prepared under the personal direction of Mrs. Lydia E. Pinkham, with the superior science and art of modern pharmacy, is the most successful medicine for female debility, and diseases hitherto known.

Mrs. Sallie Dow, who died recently at the age of eighty-six years, was the oldest resident of South Seabrook, and left ninety-one living descendants.

"Became Sound and Well."

Hatcher's Station, Ga., March 27, 1876. R. V Pierce, M. D.: Dear Sir—My wife, who had been ill for over two years, and had tried many other medicines, became sound and well by using your "Favorite Prescription." My niece was also cured by its use, after several physicians had failed to do her any good.

Yours truly, Thomas J. Methvin. *b*

Another Telegraph Cable.

The Baltimore & Ohio railroad, having learned from Mr. John Pender, the British ocean-cable king, that no telegram could cross the ocean either way without the scrutiny of the Western Union Telegraph Co., determined to lay a new cable to be worked in connection with the Baltimore & Ohio land system, and leading capitalists in London and New York promptly subscribed all the money required; so a new cable is to be laid at once, and neither Mr. Pender nor the Western Union will be able to swallow it.

AROUND HOME.

The time-honored case of Pickering against DeRochemont was brought to notice on Thursday last, when the plaintiff sought to compel the defendant to accept the hospitalities of Sheriff Kent, on the ground of concealment of property so it could not be reached for the purpose of a levy by the officers. The plaintiff was represented by J. A. Edgerly of Great Falls; the respondent had for counsel Messrs. Rollins and Frink & Batchelder; the justices were George E. Hodgdon and Wm. Russell Foster. The justices discharged the defendant, and the plaintiff will levy upon the real estate claimed to have been improperly conveyed, and test the validity of such conveyance in the courts. The suit Pickering & Nutter vs. DeRochemont was entered in the courts in 1849, the causes on which it was founded dated back to 1828.

Six or seven persons have been taken into custody by the police on suspicion of their having been concerned in the recent burglary at C. E. Myers & Co.'s store, but none have been held, they either being able to explain away any suspicious circumstances against them, or the evidence being too feeble to justify their detention.

A large number of twenty-cent pieces, of Newfoundland and New Brunswick coinage, are just now doing duty as quarter-dollars in this vicinity. Look out for them; they will be passed on you right-along as quarters, and when you come to spend them they will only count for twenty cents.

Gen. Josiah G. Hadley, now eighty-two years of age, was one of the visitors to the navy yard on the 23d inst. to witness the operation of hauling up the U. S. S. Plymouth. When he was ready to return there was no steamer about to start, so he walked around, and stepped off as lively as a boy of fifty when he reached the city.

The schooner Addie & Hattie will go into winter fishing under command of Capt. John Handy Robinson, who has had charge of the Nettie Adams during the summer.

Mr. John Couhig, while at work on Thursday last at C. E. Walker & Co.'s coal-pocket assisting to discharge a schooner, fell from the stage to the vessel's deck, a distance of eight feet, striking on the hatch coamings and receiving some severe bruises; he was attended by Dr. Sherburne, who pronounced his hurts not serious.

A gentleman from North Hampton and another from Meredith, who came into our office on the 23d inst. for the commendable purpose of renewing their subscriptions, informed us that in their respective sections the wells and brooks are very low, and that unless a large amount of rain falls before the ground "shuts up" for the winter, serious annoyance will be experienced in getting water sufficient for cattle and for household purposes. The Meredith gentleman, a Portsmouth man who has lived there for ten years, says he never before saw the lake so low as it is now.

The four alarms given for the fire in South Boston on Friday, the 17th inst., have been accounted for at last. The first alarm was given by William N. Jones, son of Mr. Nathan Jones of Newington, employed in the brewery of Jones, Cook & Co.; the second by Patrick Corbett; the third by Patrolman R. D. Smart, and the fourth by Patrolman Sanborn. District Engineer Abbott intended only two alarms, and the third and general alarms were given without authority and in violation of the rules of the police department of Boston.

The following are among the recent transfers of real estate in York county: Kittery—James Boardman of Kittery to Olive Hanscom of Eliot, lot and buildings for $1700; James Johnson of Lebanon to Albion W. Johnson of Kittery, 1 1-2 acres land for $25; Joel Wilson to Arno L. Wilson, seven acres land for $500. Eliot—Olive Hanscom to Hannah T. Farmer, the Simon Hanscom homestead for $20.0; Benjamin F. Downing to Daniel Odiorne, land and buildings for $1000; Benjamin Kennard to William Hill, ten acres woodland for $800; Catharine Brooks of Somerville, Mass., to George P. Paul of Eliot, land and buildings for $300. York—Edward S. Marshall to Edward E. Young, land and building for $775; Nicholas G. Mead of Concord, N. H., to Charles H. Perrin of Sherman, lot on Union Bluff for $1; Nicholas G. Mead to Charles H. Perrin, lot and buildings on Union Bluff for $600.

The annual convention of the Good Templar lodges of York county was held at Kittery on Wednesday, Nov. 22d, and was attended by about one hundred and fifty delegates. A number of members of the order from this city were present, including Rev. John A. Goss, who was one of the speakers in the evening. Supper was provided for the visiting brethren by Whipple Lodge of the Foreside and Pepperell Lodge of Kittery Point.

"Littell's Living Age for 1883." This standard weekly magazine, now nearly forty years old, continues to afford the most convenient means of keeping informed in the best literature of the day, and abreast with the work of the most eminent writers. It gives an amount of reading unequalled by any other periodical, and is the only satisfactorily complete compilation of a current literature which embraces more and more every year the productions of the ablest writers and thinkers in all departments of literary and scientific work. Hence its importance and value to American readers. It hits the pace of many quarterly, monthly and weekly publications, and the reader is thus enabled, at a small expenditure of time and money, to keep pace with the best thought and literature of the time. The prospectus is worthy the attention of all who are selecting their periodicals for the new year. Reduced clubbing rates with other periodicals are given; and to new subscribers remitting now for the year 1883, the intervening numbers are sent gratis. Littell & Co., Boston, are the publishers.

Harper's Weekly for Nov. 25th has a very fair picture of Hon. Samuel W. Hale, governor-elect of New Hampshire. The likeness is not quite so striking as that of the plumber's "help" on page 751, which will be at once recognized as not of the type of overworked American so feelingly discussed by Mr. Herbert Spencer at his dinner speech in New York.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and the terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, that reaches at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, to what is believed to be a recent or chronic case, to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the so-called cures, as a cure, labels, etc., and spending nearly a hundred dollars with no benefit, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking less than three bottles I found myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. To the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

Circulars, giving full particulars, may be obtained of

THE BEST OF THE

AGRICULTURAL WEEKLIES,

THE COUNTRY GENTLEMAN is the LEADING JOURNAL of American Agriculture. In amount and practical value of contents, in extent and ability of correspondence, in quality of paper and style of publication, it occupies the FIRST RANK. It is believed to have no superior in either of the three chief divisions of

Farm Crops and Processes,

Horticulture & Fruit-Growing,

Live Stock and Dairying,

while it also includes all minor departments of rural interest, such as the Poultry Yard, Entomology, Bees, Keeping, Greenhouse and Grapery, Veterinary Replies, Farm Questions and A swers, Fireside Reading, Domestic Economy, and a summary of the News of the Week. Its MARKET REPORTS are unusually complete, and much attention is paid to the Prospects of the Crops, as throwing light upon one of the most important of all questions—*When to Buy and When to Sell.* It is liberally illustrated, and is intended to supply, in a continually increasing degree, and in the best sense of the term, a

LIVE AGRICULTURAL NEWSPAPER.

The Volume of THE COUNTRY GENTLEMAN for 1882 was GREATLY ENLARGED by increasing its size from 16 to 20 pages weekly, but the terms still continue as follows, when paid strictly in advance: ONE COPY, one year, $2.50; FOUR COPIES, $10, *and an additional copy for the year free to the sender of the Club*; TEN COPIES, $20, *and an additional copy for the year free to the sender of the Club.*

A BIG JOB WELL DONE.

On Thursday, Nov. 23d, the U. S. S. Plymouth, a second rate screw steamer of 1122 tons (displacement 2400 tons when ready for sea) was hauled from the water into the Alabama shiphouse at the navy yard, to undergo extensive repairs.

The preparations made for performing this feat were elaborate, extensive, and as the result shows, ample. Stripped of her guns, machinery and masts, and reduced to a mere shell, the vessel still weighed about 1200 tons; and to draw such a mass of wood and iron from the water it was evident would be no trifling matter. First the dismantled hulk was taken into the floating dock, and a cradle of immense strength fitted to her bottom; and the grade of the ways in the ship house was altered, so that the rise instead of being one inch in twelve was but thirteen-sixteenths of an inch. This done, it was only necessary to provide power enough to haul the cradle, and the ship with it, up the incline.

For this purpose six capstans were provided, four being placed at the upper end of the shiphouse, and two at the waterside end, the latter being located one on each side of the ways, just outside the building. The former were fitted with four-fold tackles, and drew on the forward or bow end of the cradle; the latter were fitted with three-fold tackles, and drew on the after end of the cradle; and each tackle was held at its shoreward end by an anchor hooked under the solid ledge. The falls were nine-inch manila rope of extra fine quality, made at the Boston navy yard expressly for the purpose, and weighing nineteen pounds to the fathom; the four bow-tackle falls were each 3300 feet long, and the breech-tackles each 2800 feet. The capstan bars, eight to a capstan, were seventeen feet long, giving a circle of about 102 feet for the outer ends of the bars to describe while working; a rope was run through the outer end of each bar, passing clear around, and the men, forty to a capstan, hauled on this rope instead of pushing on the bars, each man having a lanyard and wooden toggle for himself.

The gear having been got in readiness, and fifty tons of chain cable placed in the ship's stern to raise her bow, the vessel was on Wednesday pointed for the ways; and on Thursday morning the yard workmen mustered at six o'clock, according to orders. At 7:30 o'clock the word was given to ease away the ropes which held the ship astern, and as she forged ahead the slack of the falls was gathered in; at 7:45 heaving was commenced on the four upper capstans, and the ship started up the ways at the rate of ten inches a minute, which before long dropped to eight inches, an occasional "rally" spurting up to a higher rate for a brief period. At about ten o'clock the breeching-tackles were hooked on, and from that time the work went steadily forward until 1:45 o'clock P. M., when the order was given to "avast heaving," the ship having been hauled a distance of 380 feet, and her stern being about twenty feet inside the lower doors of the ship house; a heavy timber was solidly spiked down across the ways at the rear of the cradle, the tackles were come up with, and the big job was done, successfully and without any hitch or accident worth mentioning.

After the work was over, Naval Constructor Boush briefly addressed the men, paying the highest compliment to Mr. Wm. F. Noyes, foreman shipwright, and to the mechanics and laborers who had aided in the work that day or previously, ending with the announcement that by order of the commandant, all the men who had been engaged in hauling up the ship were dismissed for the rest of the day; and after giving three hearty cheers for Commodore Wells, the hungry workmen made a stampede for home, the steamers Emerald and James Sampson being taxed quite to the point of safety to carry the crowds which swarmed upon them. The number of visitors to the yard during the day was very large, and the expressions of satisfaction at the successful termination of the undertaking were general.

The Plymouth was the second vessel ever attempted to be hauled out in this manner, in this country, the first being the Canandaigua, of 955 tons, (2130 tons displacement,) which was hauled out at the Norfolk navy yard in 1881 on the fourth attempt, she having to be three times launched after being hauled partly on the ways.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Nov. 23d, Mayor Treat in the chair:

Present the full board.

Records of last meeting were read and approved.

Petition of William Shannon, N. D. Miller and others, for the laying out of a road from the North road westerly to land of Frank Jones, was referred.

Mrs. Mary Kane asked for repairs of sidewalk on Deer street, and Mrs. Sewall W Webber for repairs of sidewalk on Vaughan street; referred.

S. S. Whidden presented a bill of $8 for a sheep killed by dogs, and an affidavit as to value of the animal, etc.

Two letters from Ernest W. Bowditch of Boston, an experienced civil engineer, to George W. Haven of this city, relative to the north pond nuisance, were read.

Hon. Frank Jones appeared before the board, and asked leave to lay another track on the street near his brewery; referred to the committee on streets, with power to act.

The committee on bills on their second reading reported in favor of the ordinance concerning the settlement of claims on account of accidents on the streets, and it was passed.

Adjourned for two weeks.

NAVY YARD ITEMS.

First Lieut. Israel H. Washburn, U. S. M. C., has been detached from duty at the marine barracks at this navy yard, and ordered to the Powhatan, now in the dry dock at the Boston yard.

One of the yard workmen being asked the time by a fellow laborer on a recent Saturday afternoon, put his hand up to feel for his watch, but found it not, and declared that he had either lost the watch or been robbed. He spent the rest of the afternoon hunting for it, without success, and at bell-time engaged a few friends to go to the yard with him early Sunday morning, to renew the search. On reaching home the first remark addressed to him was, "Why didn't you take your watch with you this morning? didn't you miss it?"

Capt. A. E. K. Benham, executive officer of this navy yard, will assume command of the school ship St. Mary's on the 1st of January, and Capt. Henry Erben, for several years commander of the ship named, will take Capt. Benham's present position on the yard.

A really "grand" concert will be given in Music hall to-morrow evening, by the Litta Grand Concert Co. This is Mlle. Litta's farewell concert tour in this country, for two years at least, as she will spend the coming two years in Europe.

It is reported that the "Peuhallow will case," so called, has at last been decided in favor of sustaining the will, the question sent from the law court to the trial term, for the ascertaining of certain facts, having been decided in favor of the legatees as against some of the heirs who had appealed.

Capt. Rashe Trefethen, of the steamer Mystic, had confidently counted on a "fat day" for Thursday last, intending to run his popular boat across the river at short intervals to accommodate the numerous spectators whom it was supposed would visit the navy yard to witness the hauling of the U. S S. Plymouth upon the ways in the Alabama ship house; but on the evening previous, at a late hour, he received notice that the inspectors of steamboats would be here on Thursday to inspect his boat, so the Mystic was compelled to haul up for the day. The steamer James Sampson took the Mystic's regular passengers across.

The annual ball of the Portsmouth Cavalry will be given in Franklin hall on the evening of Feb. 22d, 1883.

The horse which was "given away" in Mr. J. H. Robertson's sale on Wednesday evening of this week fell to Mr. Israel Marden, who held ticket No. 51. The horse was formerly owned by Shirley B. Cunningham.

Major William Walker died in Concord on the 22d inst., at the age of seventy-two years. He was born in Chester, and was at one time driver of a stage between Concord and Hanover. He subsequently conceived the plan of navigating Lake Winnipesaukee, and organized a company which built the steamer Lady of the Lake in 1849; for many years he commanded the steamer. He was well known far and wide by White mountain tourists, who in times past visited the mountains by way of the Weirs and Centre Harbor. After retiring from this service he built a large cottage at Straw's point, Rye, where he spent his summers, frequently visiting this city, where he has several relatives living. Major Walker's wife was Mary E. Goss, to whom he had been married fifty-one years at the time of his death; he left no children.

Reserved seat tickets for the comedy "Rooms for Rent" go on sale at Myers' this morning. Performance at Music hall next Tuesday evening. See advertisement.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. fifty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 60 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of note.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in youth, the early, fatal decay in manhood, and premature old age, or vitality impaired by the errors of youth, or too close application to business, may be quickly and manhood restored.

Each edition revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of disease, some and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book, by mail in beautiful French cloth, embossed, full gilt. Price only $1 2., by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures gray-ness, removes dandruff and itching, makes the Hair strong, giving it a curling tend ncy and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Women, Children—

The above is a good Phoenix of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a kindly, and is enlisted to keep six lady assistants, to help her answer the large correspondence each day pours in upon her, each bearing its special burden of suffering, or joy at relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cure, and testimony of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. Pinkham, with stamp for reply at her home in Lynn, Mass.

The Liver Pills of Pills or sent on receipt of price, in pill form, for $1. They are extra, sold by all druggists.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in the special line and bids fair to equal the Compound in its popularity.

All letters addressed to Mrs. Pinkham, Lynn, Mass., receive an Angel of Mercy whose sole address is the disease of which they are sick.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Scanty and Nervous Menstrua, Ovarian Dropsy, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-wrought member of the sex.

If you have tried other remedies at least success, do not be discouraged, but give "LADIES' TONIC" a single trial. *It never fails to give quick and permanent relief.*

If you are troubled with any weakness or complaint common to your sex, by all means try Mrs. Van Buren's Female Tonic, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is sufficient.

Women's Medical Institute is an Association of Fifteen Mothers of years' experience, who give advice and answer letters from ladies, *free*.

You will be given for any case of Female Weakness or irregularity which "Ladies' Tonic" will not cure. This is a bona-fide offer, and we give "LADIES' TONIC" a trial, knowing its merits, and in all cases relief has followed in from three to forty-eight hours. PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 12, 1880.

Gents:—Upon the recommendation of a friend I tried BROWN'S IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

Wholesale Mail Robberies.

A despatch of the 23d inst. from Denver, Col., says: "That the mails between Denver and eastern cities, particularly New York, Cleveland and Buffalo, are being systematicically and successfully robbed there is no doubt. The New York and eastern mail which left Denver Dec. 20th, 1881, never reached its destination, and since that time losses are almost constantly being reported. The postal authorities claim to have been thus far so successful as to locate the trouble east of the Missouri river, but still the robberies go on under the very eyes of the postal authorities. The real losses in valuables and currency can hardly be estimated, but the losses in drafts, bills of exchange and postal money orders will aggregate over $600,000."

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy, sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

A Minister's Escape.

From the Asylum to the Bosom of His Home—How it was Done.

A prominent minister residing at the east has just made the following statement, which is herewith reprinted entire:

To the Editor of the Herald:

I have always shrunk from appearing prominently before the public, but a sense of the duty I owe humanity and the world prompts me to ask this opportunity for making a brief statement in your paper.

Whether it be true with others I cannot say, but during my entire life I have frequently been conscious that something was slowly and silently working to undermine my health and life. What it was I could not tell, but that some enemy of my being was devouring me within I was certain. At times I would seem comparatively well and then I would be attacked with the most distressing symptoms. I would feel peculiar pains in various parts of my body, my head would seem heavy; my respiration labored; my appetite would be ravenous one day and I would loathe food the day following. Then again I would lose all interest in life: would feel weary without exertion; would become sleepy at mid-day and restless at night. Occasionally my breathing would be labored and my heart almost motionless, while at other times it would palpitate violently. I thought these troubles were the result of malaria, and I treated them accordingly, but I got no better. Shortly afterward my stomach became deranged, my food failed to digest, and the fluids I passed were of a peculiar odor and color. And yet I did not realize that these things meant anything serious. Finally I consulted a number of eminent physicians, each one of whom took a different views as to the cause of my troubles. One said I was suffering from brain disease; another spinal difficulty; others heart affection, kidney disease, etc. My symptoms were terrible, and in the hope of relief I was cauterised, cupped, blistered and subjected to almost every known form of treatment. During one of these attacks while at Red Bank, N. J., a physician was called, and left a prescription. After he had gone, I requested a friend to go and ask him what he thought of my trouble. The reply was: "Oh, he will be all right in a few days; it is only an attack of delirium tremens." He was at once informed that this was impossible, as I had never used any kind of intoxicating drinks; whereupon he returned, made inquiries, and changed his prescription. But all the care of my friends and physicians availed nothing. I grew worse constantly, and what is most terrible to think of, I did not know what ailed me, nor could I find any one who did.

During the summer and fall of last year my pulse ranged from 120 to 130 per minute; I had no relish for food and was indeed a most pitiable object. I continued in this state until last December, when I became unconscious and lost my reason, though I had two physicians in whom myself and friends placed implicit confidence. In this condition I was taken to Brattleboro, Vt., for the purpose of being placed in the insane asylum. I remained there until last March, being attended all the while by my faithful wife who never left me and believed that some disease and not insanity was the cause of all my trouble. I regained consciousness in March last and insisted upon being taken home. The physicians advised that I remain, but I insisted upon leaving, and we began the journey, traveling slowly. I was met at the dock by a friend whom I recognized and then I became again unconscious and remained so for over a week. When I once more recognized my friend and new my surroundings I determined to try, as a last resort, a treatment of which I had heard much but knew nothing. Neither myself nor friends had much faith that or anything could help me, but we resolved to try. We accordingly dismissed the physicians, gave up all other remedies, and I rejoice to say that with the blessing of Him who guided us, I am to-day a well man; having not been so vigorous for many years, and I owe it all to the wonderful, almost miraculous power of Warner's Safe Kidney Cure, the remedy which I used.

You can well imagine how grateful I must feel under the circumstances, and, like a new convert, I earnestly desire that all who are suffering should know and avail themselves of this means of recovery. Had it not been for the remedy above named I should doubtless now be within the walls of an asylum or in my grave. The great trouble with my case was that no one seemed to know what I was afflicted with, and I am positive that thousands of people in America to-day are in the same or a similar condition, and do not know its cause. Kidney troubles are the most deceptive of all diseases. They have no symptoms of their own, but often show the symptoms of nearly every known complaint. I know that people are dying every day from supposed consumption, apoplexy, heart disease, spinal complaint, and many other diseases, when, could the real cause be known, it would be found to originate in the kidneys. In their advanced stages kidney troubles are the most terrible of all known maladies, as my own experience can fully verify. That I had Bright's disease of the kidneys there can be no doubt. That the symptoms were those of many other diseases is equally certain, and that I was doomed to a terrible death had I not been saved as I was, I am positive. The following letters just received, confirm this:

VERMONT ASYLUM FOR THE INSANE,
Brattleboro, Vt., Oct. 30, 1882.

Rev. E. D. Hopkins:

DEAR SIR: Yours of the 21st inst. received. We congratulate you not only upon the continuance of your health, but also upon its apparent continual improvement. Few persons, I think, have passed through so exhausting an experience as you and rallied from it. Certainly I cannot recall one who came to us in so critical, and for days and even weeks in so hopeless a state for amendment as you, and who survived and recovered from it; for, I think, you may now consider yourself recovered and no longer on the convalescent list. Hoping for the continuance of your present health, with the best wishes from all here,

I am, yours truly, J. DRAPER.

OCEANIC, N. J., Nov. 2, 1882.

My Dear Friend: Replying to your letter I would say, I have been acquainted with my highly valued friend, the Rev. S. D. Hopkins, about eighteen months, and very intimately acquainted for about six months past. For a little more than five months he was an inmate of my house, and we enjoyed constant intercourse with each other. When he came in April last he was almost a perfect wreck in point of health. I thought he had come to us but to die. Soon afterward he began the use of some of H. H. Warner & Co.'s remedies, namely: the Safe Kidney and Liver Cure, Safe Nervine and Safe Pills. From almost the time he began their use his improvement was very marked and wonderful, and when he left us, after having taken some two dozen bottles, he was like a new man. The change was the most remarkable I ever witnessed.

SAMUEL MILLER,
(Pastor of the Presbyterian Church.)

In view, therefore, of these facts and with a hope that all who read this may take timely warning, I make this open statement freely and for the good of my fellow men.

Sincerely,
(REV.) E. D. HOPKINS.
East Richford, Vt., Nov. 7, 1882.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Political Matters.

It is said that Congress will be recommended by Secretary Folger to repeal all laws fixing duties upon manufactures other than of whiskey and tobacco. Whether the present Congress, which has kept a war tax of two cents on checks while the treasury was overflowing, can show energy enough to accomplish any reduction before the democrats can get the means of making a good argument for use in the next presidential campaign, is what many persons are curious to know.

An investigation by the campaign committee of the independent party of New Orleans proves that hundreds of votes were polled in every ward on dead men's names. This, added to the stuffing of the ballot boxes, leads to the belief that the independent candidates were really elected, and a committee of five was appointed to wait upon all candidates and urge them to serve notices of contest without further delay. Another committee was authorized to employ all clerks necessary for a thorough canvass of every ward in the city for the purpose of ascertaining the names of all those who voted, for whom their ballots were cast, and also to procure a list of those whose names were recorded as having voted, but who had not.

Fifty enterprising gentlemen it is said will go to Washington when the next Congress meets, to deplete the treasury in the capacity of contestants for seats in the house of representatives.

—Albion's Daisy Millers: Two English girls are romping with boisterous laughter in a hotel at Nice. Then comes the shocked matron: "For heaven's sake, Mabel, don't! They'll take you for one of those horrid American girls." One of this sweetly designated class, chancing to overhear, says gently, "I guess not, with those awfully big feet."

—Language of food: "No, we are pretty well satisfied that there is no companion to the language of flowers known as the language of food. If there was such a book it would contain something like this: Hash—innocence; boarding-house steak—tender thoughts; sausage—kiyi; beans—culchah; fishballs—forget-me-not; etc."

—Jones declares that his wife is the most thrifty woman he ever knew. "Why, sir," he recently exclaimed, "she has made ten patchwork quilts during the last two years—made them herself, sir, out of the samples she collected in her shopping tours during that time."

—A New York paper tells of a lady at a wedding reception who put her card on one of the presents exhibited, destroying the card that was on it, and thus got the credit of being generous, whereas she had not given the bride anything.

—Little Bob: "Tom, why do you call mamma mater? What's mater mean?" Tom: "Latin for mother, you know." Little Bob: "Oh! I thought it was because she had to see about getting husbands for Flo and Edie that she was a mater."

—"Oh, yes," said the engineer, "I had a chance to become a hero by sticking to my post when the collision came, but when I reflected that my name would be spelled 500 different ways in the newspapers I changed my mind and jumped."

The Washington (D. C.) *Star* of Nov. 22d says: "The wedding of Mr. Seymour W. Tullock and Miss Jessie S. Hildrup took place at St. James' Episcopal Mission, Ninth street southeast, this morning, the officiating clergyman being Rev. John A. Graves. The groom, who has just recovered from a severe illness, presented as a thank-offering a silver eucharistic service, lined with gold, which after being consecrated was used in the celebration of the communion, which immediately followed the marriage ceremony. Mr. and Mrs. Tullock have taken a house on French street, where they will reside upon their return from their wedding tour to Luray valley."

A new furnace for the Methodist church at Kittery Foreside passed through this city on the Eastern railroad, last Friday, from Boston. In the same train was a car-load of goods for Lewis & Brooks of the same town.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla, that cured him at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *wonderful cures, so-called, tablets*, etc., and spending nearly a hundred dollars *without benefit*, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. LIFE INSURANCE !

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

PLEASANT AFFAIR.

Mr. and Mrs. Albion Littlefield were the recipients of an elegant silver tea service on Friday evening last, at their residence near Christian shore,—a wedding present from the young gentlemen acquaintances of the popular groom. The presentation speech was made by Mr. Joseph Amazeen, and was happily done, his felicitous remarks being loudly applauded by his compadions, who were present to the number of seventy. Mr. Littlefield feelingly responded, though he was evidently much astonished at this evidence of the estimation in which he is held by the young men of the city.

The party had marched to the house to the music of a drum and fife band, and after the presentation and an introduction to the bride, proceeded to Whitcomb's saloon on invitation of Mr. Littlefield, disposed of oysters, lighted cigars, escorted the husband home, played a couple of tunes in front of the house, marched down town, and dispersed.

We join our best wishes for the permanent happiness of the newly-made pair.

POLICE COURT--BATCHELDER J.

FRIDAY, Nov. 24th.

Henry Clark, a desperado aged five years, was before the court for making an aggravated assault on another man of about the same age, but much smaller, named Charles Conlon. The magistrate doubting whether the criminal was fully aware of the heinousness of his conduct, discharged him.

John Conlon, father of Charles Conlon, was brought up on complaint of Henry Clark's mother, for assault on her boy. The assault appearing to consist only in Mr. Conlon's taking hold of the boy's hand and leading him to the police station, the case was dismissed.

Edward Clark, for drunkenness, was ordered to Brentwood for ninety days, costs being taxed at $6.13.

Michael Monday, a bummer who appeared in this city eight or ten years ago, and has passed a large part of the time since at Brentwood, was up for drunkenness, and came down like a man with $16.90, the amount of his fine and costs. Michael when taken was clothed in gorgeous array, and had forty or fifty dollars in his pocket, and as he is not known to have done a day's work in his life, the police suspected that he had made a "mainsail haul" somewhere; but no evidence of wrong doing (other than getting drunk, for which he paid) could be adduced against him, so he was allowed to depart.

GOOD TEMPLARS' GATHERING.

On Thursday evening, Nov. 23d, Rockingham Lodge of this city, of the Independent Order of Good Templars, was visited by Grand Worthy Vice Templar Mason of Biddeford, of the Grand Lodge of Maine, accompanied by Whipple Lodge of Kittery, Strawberry Bank Lodge of this city, Grand Officer Dearborn of the Grand Lodge of Massachusetts, and Grand Worthy Marshal Charles F. Larrabee of the Grand Lodge of New Hampshire. Vice Templar Mason made a pleasing and very effective speech in regard to the work of temperance in Maine, stating that while the order of Good Templarism was steadily increasing, and a better class of citizens were to be found in lodges now than what there were one year ago, there was still a great deal of good work to be done; she reported having visited between seventy and eighty lodges during the past year, and that the lodges in York county were especially prosperous in regard to numbers and attendance. Grand Officer Dearborn also gave a graphic description of the result of the work accomplished in Massachusetts by Good Templars, saying they were steadily increasing and would yet be a power in that state. Other speeches were made by Eaton, Adams, Beatty and other members of Whipple Lodge, and by Goss, Janvrin, Plaisted, White and others of Strawberry Bank Lodge; also by members of Rockingham Lodge. Altogether it was one of the most pleasing and profitable gatherings of Good Templars that have been held in this city for a long time.

WHAT IT COST.

It is stated by a navy yard official who probably knows more on the subject than any other one man, that the cost of hauling the U. S. S. Plymouth into the shiphouse did not exceed $6000; this of course does not include the cost of the huge ropes and immense blocks, or the capstans and other gear prepared expressly for this job, which cannot properly be charged to the expense account of the Plymouth, as the gear is as good as ever, and has been turned into store to be used on any other heavy work for which it may be required.

THE RIVER.

There was quite a lively movement of vessels on the river, Nov. 24th, two steamers and seven schooners arriving, and three schooners sailing. Among the arrivals were the steamer Acushnet, from Boston, and the steamer Harrisburg, from Philadelphia, the latter with coal for J. Albert Walker, who received over 2600 tons all told, by the arrivals that day. The British schooner Harold, Lohnes master, arrived at the Eastern railroad wharf from Bridgewater, Nova Scotia, with ties for the road.

There were twenty-five coasting vessels in the lower harbor on Friday, awaiting suitable weather for proceeding.

The brick schooners D. K. Ham, Emily A. Staples and Hattie Lewis arrived from Boston on the night of the 23d inst., and on the 24th were up the river loading bricks for another trip. The schooner Katie Mitchell, of Bath, Me., Lord master, sailed for Boston on the 24th, having discharged at Dover a load of lumber from Bangor, and loaded with bricks for Boston on her way down the river.

The drill platform, alias "the bandstand," belonging to the contractor for the removal of the ledge off Badger's island, was carried away on Friday by the high tide, and floated up river to a point off the Eastern railroad wharf, where it was made fast to by a boat, and towed back to the island; some portions of the stand were carried off entirely by the tide, and it was stated that the blasting operations would be abandoned for the winter.

THE LITTA CONCERT.

We hazard nothing in saying that the concert to be given at Music hall this evening will be one of very unusual merit. M'lle Litta has a soprano voice of large power and compass, and highly cultivated; Signor Baldanza, the tenor, is an Italian recently arrived in this country, and highly spoken of by the critics; Miss Annie E. Beere, the contralto, won high favor with the Emma Thursby company two years ago; Louis Blumenberg is claimed to be the first violoncellist in the world; and Mr. Bereghy, the basso, and Joseph Harrison, the pianist, are cordially commended by the press. The concert will merit a full house.

REAL ESTATE TRANSFERS.

The following transfers of real estate in this vicinity have been left for record in the office of the register of deeds:

Portsmouth—Sarah A. Spinney to Josiah S. James of Portsmouth, land and buildings, $350; Mary Cunningham of Boston to Edward Jameson of Portsmouth, land and buildings, $3000.

Hampton—Congregational Society of Hampton to Josiah S. James, land, $200; Warren Brown of Hampton Falls to Thos. L. Perkins of Boston, land and buildings, $5000.

Rhode Island geese will be disposed of at M. Garrity's this evening. Clam chowder free.

"Rooms for Rent," a farcical comedy of the lighter sort, will be presented at Music hall on Tuesday evening next. The avowed object of the piece is to amuse, and the false positions and ludicrous scrapes into which the various lodgers are constantly getting are amusing enough. The Boston *Globe* says "The piece is one of the most entertaining ever presented in this city, and the characters are without exception excellently impersonated."

At a special meeting of Storer Post, G. A. R., of this city, held on Thursday evening, the 23d inst., it was voted to confer with the soldiers' monument committee of which Col. William H. Sise is chairman, relative to the disposition of the cannon donated by Congress for monumental purposes. A committee was appointed on the part of the post, to act in conjunction with the citizens' committee in the matter referred to.

A car from the eastward, loaded with potatoes, was set off from a train at the Eastern railroad station on Friday, and the potatoes were rapidly disposed of at retail for eighty-five cents a bushel.

At a town meeting in Newburyport, March 10th, 1789, it was "Voted to accept a fourth fire engine, which was purchased by a number of the inhabitants of this town, and presented to the town by Mr. John Mycall and others, the subscribers,—the said engine being manufactured by Mr. Benjamin A. Dearborn of Portsmouth, in New Hampshire." The selectmen were also ordered to provide two shovels and two axes for each of the fire engines.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $500, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date o sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—Author.

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Mesers. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is constantly devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or at least relief from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of what I say.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal diseases, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, dizziness, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of either sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the Liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

The Alabama Claims Court.

In the court of commissioners of Alabama claims at Washington, Nov. 24th, a decision was rendered in the cases of Swift & Allen v. the United States, and the executors of Edward Mott Robinson of New York v. the United States, involving the questions whether a ship's husband can sue in that court for his co-owners, and whether an agent can sue and recover for his principals. A qualified decision against the plaintiffs was rendered, the court holding that a judgment could only be rendered for the benefit of the beneficiary. No other cases being ready for argument, the court was adjourned until Jan. 7th.

Mrs. Parkhurst's boarding house at Concord was robbed of about $200 worth of property, including watches, chains, clothing and a small sum of money, by a stranger who took a room there, and who left Wednesday night, Nov. 22d. It is supposed to be the same man who has operated in Nashua in a similar way.

Having used Dr. Bull's Cough Syrup in my family for the last three years, I find it is the best preparation I have ever used for coughs and colds, giving almost immediate relief. B. Walker, Gen'l Com. Merchant, 118 Light st., Baltimore, Md.

Luther W. Parmalee of Bristol, Vt., sixty years of age, was found dead, it was supposed, in his bed, on Monday morning, Nov. 20th, and his funeral was to have occurred on Wednesday, but the burial was postponed, a question having arisen as to whether he is really dead. At last accounts the doctors were unable to determine whether it was a case of suspended animation or death.

"Among the ladies who may read this there may be several sickly ones who have made up their minds to act on the old saw which specifies that "What can't be cured, must be endured." While the truth of the old proverb is self-evident it is just possible they may have erred in judgment as to the possibilities of the healing art outside of the medical profession, and before giving up in despair they had better test the efficacy of Mrs. Lydia E. Pinkham's Vegetable Compound, which is now attracting universal attention.

Louis Almon Meaker, the condemned murderer of little Allie Meaker, has been saved from the gallows by the intervention of the Vermont legislature. The theory advanced that Meaker was weak minded and controlled by his mother, seems to have been sustained.

How I Felt.

Why two years ago I was just about crazy and no wonder that my wife and children were afraid of me. You just want to suffer with neuralgia with no relief as I did until I used Sulphur Bitters. They cured me and now my wife says I am as meek as a lamb.—*Robert Davis, American House, Boston.*

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and self-weakness caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, showing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but try "LADIES' TONIC" a *single trial.* It *never fails* to give *quick* and *permanent relief.*

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription (once, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of *Wives* and *Mothers of years' experience,* who give advice and answer letters from ladies, *free.*

Testimony will be given for any case of Female Weakness or Debility which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by ladies who know *from experience* what "LADIES' TONIC" can do and stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know; responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT THE WORD CAPCINE.

Miss Cynthy's New Dress.

BY HATTIE WHITNEY.

"The' ain't no use of your standin" at that winder all day, Cynthy Pinkerton. Solomon Winterbloom won't go by here no more, since the new road's been cut out; and," with rather spiteful emphasis, "I won't do you no good if he does."

Cynthy flushed slightly and bit her lip, but made no reply to the words of her sister, the small, dark, blunt-featured woman who sat darning stockings by the kitchen fireplace. Mrs. Peter Pennigood had a talent for making those about her uncomfortable, and one she cultivated industriously.

"It's quare," she continued, meditatively rocking back and forth with irritating complacence, "how much more attention some folks attracts than others. I refused three good offers before I tuck Pennigood, an' could a had lots more. But you won't never get married, Cynthy, without you take Jack Potter. I reckon you could hev him. He ain't more'n eighteen, and most too lazy to draw his own breath; an' you wouldn't hev nothin' to live on, without you could get along with blackhaws an' persimmons, like the 'possums: but he's your only chance, I reckon. Ef Solomon Winterbloom does want you, he's too big a coward to ever speak, so he might as well not."

Cynthy was certainly not youthful, but her brown eyes were as soft and sweet as any young girl's, and the color had a trick of flushing into her cheeks, till they were like wahoo-berries in autumn. They were at their brightest now as she spoke:

"He asked me to go with him over to the Marsh church festival, anyway. But I can't—unless I could hev a new—"

"For land's sake, don't talk of new dresses!" cried Mrs. Pennigood, her dull smooth voice taking a shrill tone, "jest now when everything's so high, an' the wheat not sold, nor the corn gathered, an all the young ones got to hev school close. You oughtn't to gave so much to them heathen varmints over yander. You never do hev no consideration, Cynthy. New dresses ain't so plenty."

"I don't expect one," said Cynthy, quietly. "But I can't go—that's all."

"Can't you fix up your brown alapacky?"

"I've fixed and fixed it over, till it's beyond fixing any more. If I can't look nice, it's of no use to go."

She turned to the window again calmly, but there was a sorely-disappointed look in her eyes. She knew that if Solomon ever could get up the courage to speak, and wished to do so, the long ride to the Marsh would give him the golden opportunity; and now she saw the chance melting away, and was helpless.

"I can not even tell him why I won't go," she thought, despairingly.

"Hey, Miss Cynthy!" shouted a loud, hearty voice from the lane; and Cynthy, hastily tying a blue veil over her flaxbrown locks, fluttered out as Solomon Winterbloom—the tall, brown-complexioned old bachelor—stopped his team at the bars. "Here's some stuff mammy sent you," he said, handing her a bundle, and then growing red and awkward as her gentle fingers touched his brown ones in taking it, and looking everywhere but at her.

And she blushed and grew quite as embarrassed as he was, and neither could think of the most commonplace remark to make.

So Solomon drove off, clutching the reins nervously, and calling himself a fool; and Cynthy entered the kitchen, wondering what he would think of her ridiculous embarassment.

"What's that truck he give you?" asked Mrs. Pennigood, who had been watching the proceeding sharply from the window.

"I reckon it's Mrs. Winterbloom's contribution for the South Sea Islanders," Cynthy answered, beginning rather dejectedly to untie the parcel. "She promised to send it to me, so I could take it over to the committee along with mine."

"South Sea fiddle-foddles!" said Mrs. Pennigood, scornfully. "She'd better send you a dress, seein' you was smart enough to give all your 'arnins to 'em!"

* * * * * * *

"I declar' to goodness, Solomon Winterbloom, you ain't got a grain of sense. You've done fetched back all this truck I tole ye to give to Cynthy Pinkerton for them South Sea critters the preacher was tellin' about a Sunday. Reckon ye plum lost your head when ye seen Cynthy."

Solomon dropped the big gourd he had just taken from the cedar water-bucket, so suddenly that a shower of drops flew all around the kitchen, and turned to his mother in blank consternation.

"Then do you know what I must have did, mammy?" he asked, solemnly. "I've gave the dress I bought for you to Miss Cynthy. I didn't stop there till I was coming home. Oh, Jimmeny!"

The Widow Winterbloom was one of those who contrive to see a ludicrous side to almost every circumstance, and at these words and the rueful look of her son, she dropped into a chair, threw her head back, and laughed until the old wooden chair creaked and groaned and threatened to break down under the combined mirth and weight of the widow.

"What kinder stuff was it?" she asked at last, wiping the tears from her eyes with her checked apron.

"Red—awful red," said Solomon, with much depression; "kinder like a Ben Davis apple—ye could see it a mile off."

"Well, men ain't got no sense," said the window, emphatically, "especially about buyin' dresses. Did you think I'd be any sich an old lunatic as to be awearin' of scarlet at my time?"

"I don't know why one woman shouldn't wear red things as well as another," said Solomon, "if she looks nice in 'em. Miss Cynthy 'd look good enough to swaller in that. But, oh, land, she'll be mad—she'll be hoppin'! What shall I do?"

"Quit a-worritin," said his mother. "She can't hev you arrested an' hung for it. What'll she be at? 'Taint no killin' matter."

"But, mammy, how it looks fer me to be givin' her a dress, like as if she didn't hev bushels of 'em, as, of course, she hes. An' me never hardly darin' to speak to her—not but what I wanted to. She's the proud kind; she'll be mad, I know she'll be mad. Everything's knocked over."

"Can't you go an' tell her the mistake, you big piece of foolishness?"

"Like as not she won't listen to no explanation. She'll be too mad."

"She'll be madder if you don't let her keep the dress," said the matter-of-fact widow. "But go ahead. Men is men."

Solomon, with despair in his heart, and his straw hat over his eyes, was bolting down the path, when he became conscious of a pink calico dress and a gray tie-down hat entering the gate, and to his infinite surprise he beheld Cynthy, who gave him a shy nod, and looked inclined to run away.

"I wanted to thank your mother, and to tell her how pleased I was—that is, if it was really for me and not the heathen," she said.

"The second fool I've made of myself to-day," thought Solomon, "to forget to tell her I sent it."

Cynthy tried to slip past him, but his late excitement had inspired him with an unwonted courage, and he stopped her.

"Cynthy—Oh, wait, Cynthy," he said. "I—am a fool, but I will say I'd be the happiest fool in the world if you'd let me buy your dresses always; if—Shucks! I'll have to get mammy to ask you for me, if you won't run me ravin' distracted by sayin' I shan't."

Cynthy broke into a clear ripple of laughter, and for the first time in his presence her confusion disappeared.

"How funny you are, Solomon!" she said; "but I think it's a heap nicer to have you ask me your own way than for your mother to."

When the widow looked out and saw Solomon and Cynthy under the pear tree, she remarked:

"I reckon Sol made a lucky mistake, somehow. She's welcome to the dress for all me, an' of Sol ain't been green to let out about it, I shan't."

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary alleviation of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents. BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1846, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER. BOSTON, January 1, 1882. 3mwfjans

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Naval Affairs.

Commodore Jeffers has been ordered to hold himself in readiness to command the Asiatic station.

Secretary Chandler has rejected all the proposals made for launching the unfinished monitors, on the ground that the proposals are not explicit enough in details.

The training ship Jamestown sailed from Newport, R. I., on the 23d, for Boston, for repairs.

The crew of the Powhatan, in the dry dock at the Boston navy yard, were last week engaged in stripping the vessel. She is to be calked, have a new foremast, new blocks and bolts, mainmast and other spars repaired, and repairs made on the shoe. The work will take ten weeks, but the ship will not go out of commission.

The American Newspaper Annual.

N. W. Ayer & Sons, Philadelphia, have issued the "American Newspaper Annual" for 1882, and a most valuable book of reference it is for information concerning the various newspapers of the United States and the Dominion of Canada. It contains lists of all newspapers in the countries named, arranged by states, and by towns in alphabetical order, giving size of sheet, circulation, etc.; lists of all newspapers inserting advertisements, arranged by counties; and lists of religious, agricultural, and trade journals, arranged under their respective heads, with much other information of value. Besides all this, it gives the population of the United States, and of each state, territory, county and county-seat, of the chief cities and towns, and of nearly every place in which a paper is published; similar information is given concerning the Dominion of Canada; in the United States the populations are from the census of 1880, and in Canada from that of 1881. It also gives the political majorities and the greenback vote of states and counties at the presidential election of 1880, and much other information of a general character. It is a model work of its kind. Price $3, carriage paid.

The Topeka, Salina & Western Railroad has secured and paid for thirty miles of right of way west of Topeka, and the earth work on this section is nearly completed. From Council Grove, west, the right of way for fifte-n miles has already been purchased, and here also the earth work is far advanced. During the latter part of this month track laying will begin, and it is stated that by Feb. 1st not less than thirty miles will be completed. The large crops on the line of this projected road are being held, and will go out over the Kansas & Texas from Council Grove, thus saving an average haul of from fifteen to twenty-five miles for the farmers. The bonds are selling well on a depressed market, and no trouble is found in getting funds to build as rapidly as is prudent. The enterprise has a prosperous and vigorous look.

The schooner Storm King, with about 5000 lbs. of cod, the E. A. Williams with 5000 lbs., and the Sarah C. Pyle with 6000 lbs., arrived on Friday: George Herbert bought the Storm King's fare, Daniel Clark the E. A. Williams', and Randall & Caswell the Sarah C. Pyle's.

The trustees of the Public library have recently purchased from Houghton, Mifflin & Co., of Boston, a set of "Knight's Dictionary of Mechanics," and from Chas. Scribner's Sons, of New York, the "Encyclopædia Brittanica."

The fishing schooners Anna M. Nash, Daniel Marcy, Gov. Goodwin and Mayor Jones, belonging to Valentine Doane and for a number of years (until the past season) engaged in fishing out of this port, are hauled up for the winter in the harbor of Gloucester, Mass., from which port they will hereafter carry on their business.

Alderman deRochement of Newburyport last week lost a valuable dog, for which he paid $125 and which he would not have parted with for a much larger sum; the animal was shot on Thursday to put it out of misery, some devil in the shape of a human being having burned the poor creature's eyes out with acid. It is to be hoped the wretch will be discovered, and punished to the full extent of the law.

N. P. Holmes of Provincetown, Mass., had part of one hand blown off last week by the accidental discharge of a gun.

Michael Sullivan was killed on the railroad near Warehouse, Point, Conn., Nov. 22d, while drunk.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

Gen. Thomas Osborne, United States minister to the Argentine Republic, home on a leave of absence, expresses the opinion that the troubles between the Argentine Republic and Brazil will end in war. The Argentine Republic, he says, has purchased three monitors and two torpedo boats, and has recently built one of the finest ironclads afloat. The Argentine Republic has a regular army of 16,000 men, and a volunteer force of 100,000. The men are armed with Remington rifles, and the navy with Krupp guns.

The Age of Miracles

is past, and Dr. Pierce's "Golden Medical Discovery" will not raise the dead, will not cure you if your lungs are almost wasted by consumption. It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe diseases of the throat and lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, cures pimples, blotches, and eruptions, and causes even great eating ulcers to heal.

At Wadesboro', N. C., on the night of Nov. 23d, a gang of prisoners under the lead of a murderer named Daniel Gould, broke jail. As they ran through the town the citizens opened fire on them with rifles, fatally wounding Gould and a man named Lenman.

Catarrh.

Ely's Cream Balm Co., Owego, N. Y. Gents: I have been a severe sufferer from catarrh for 15 years, having distressing pain over my eyes, gradually the disease worked down upon my lungs. About a year and a half ago I commenced using your Cream Balm, with most gratifying results, and am to-day apparently cured. Z. C. Warner, Rutland, Vt., April 31, '82.

Ely's Cream Balm has completely cured me of catarrh, of which I have been afflicted over ten years, after trying almost every remedy recommended, none having proved so effective and thorough. S. J. Aiken, wholesale dealer in Boots and Shoes, 143 Federal St., Boston, Mass. Apply into nostrils with little finger. Price 50 cents.

A tremendous storm of wind, accompanied by lightning and thunder, swept over the great lakes on the 24th inst., and much damage was done to shipping.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great semedy.

William Richards, who was to have been hanged at Sweetsburg, Province of Quebec, Nov. 24th, for the murder of Joseph Jackson in July, 1881, cut his throat on the night of the 23d. He was an English desperado, and acknowledged the killing of Jackson, but said he did it in self defence. Jackson's body was found hidden in the woods in April last, by some children playing, and the murderer was arrested in Waterbury, Conn., some months later.

"Among the ladies who may read this there may be several sickly ones who have made up their minds to act on the old saw which specifies that "What can't be cured, must be endured." While the truth of the old proverb is self-evident it is just possible they may have erred in judgment as to the possibilities of the healing art outside of the medical profession, and before giving up in despair they had better test the efficacy of Mrs. Lydia E. Pinkham's Vegetable Compound, which is now attracting universal attention.

A thunder shower passed over Skowhegan, Me., Nov. 24th; several barns in the vicinity were burned by lightning, and telegraph poles destroyed.

☞Diamond Dyes are so perfect and so beautiful that it is a pleasure to use them. Equally good for dark or light colors. 10 cts.

RAILROAD NOTES.

George Knight, aged thirteen years, of South Berwick, Me., jumped from an Eastern railroad freight train near the Salmon Falls station at noon on Saturday, and fell under the wheels, sustaining injuries from which he soon died.

The persons injured by the collision of trains about three weeks ago on the Maine Central railroad, at Lincoln, having already been sought out by Mr. John S. Heald, on behalf of that corporation, are having their cases adjusted. Dr. Pendleton, on behalf of the road, is visiting places in Nova Scotia, where many of the injured live, and is to see that none lack for attention.

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in a y ear by so many men and women.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest to the humankind; the loves, the deeds and misdeeds, the wisdom, the philosophy, the notable folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of disease as plainly as in the face of health, as supported by general approval. THE SUN has absolutely no purposes to serve, save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no assemblage of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because its efforts it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robeonism and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the peo le against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—55 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and the terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, that relieves at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *wonderful cures, so called*, I was, of course, not expending nearly a hundred dollars *without benefit*, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

Hood's Sarsaparilla

Sold by Druggists. $1; six for $5. Made only by **C. I. HOOD & CO.**, Apothecaries, Lowell, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

POLICE COURT--BATCHELDER J.

SATURDAY, Nov. 25th.

The court was more extensively patronized on Saturday than for a long time previous. The first sinner to come up was George Tighe, who for one drunk was charged $10, with $6.90 costs; Brentwood in default of payment. Tighe is an old customer.

Thomas Marshall, drunk, $9.90, fine and costs; Brentwood.

John Reardon, drunk, $9.90; paid.

Another bibulous offender was allowed to go on probation, on signing the pledge.

Adolph Coche, for an assault on Fred Forsaith, was fined $8, costs $6.90; paid. A complaint against Coche for being drunk was placed on file.

THE LITTA CONCERT.

The Litta concert on Saturday evening was a splendid entertainment, and deserved a larger attendance than was seen on that occasion; but the audience, if small numerically, was large in the quantity of applause, being appreciative and demonstrative.

M'lle. Litta sang sweetly, her voice showing wide compass, great volume and richness of tone, wonderful flexibility, and skillful professional training; in short, she charmed her listeners.

Signor Ernesto Baldanza, the tenor, was admirable. He is a stoutly-built, portly little man, and there is something almost defiant in his quick, firm tread; he won favor from the audience with his first notes, for he can *sing*. In the duet from "Il Trovatore" with M'lle Litta, his voice was indescribably rich and mellifluous, and that selection alone was worth far more than the price of a ticket, to any person of musical tastes; we never heard it more pleasingly rendered.

The basso, Mr. Julius Bereghy, in spite of a severe cold filled most acceptably his allotted parts, and deserved the liberal applause awarded him.

Mr. Joseph Harrison, the pianist of the company, gave two very pleasing solos, and accompanied with taste and judgment; and Louis Blumenberg's solos on the violoncello were as pleasing from the purity and volume of tone produced as they were remarkable for artistic execution.

Miss Annie E. Beere, the contralto of the company, was unable to appear on account of severe illness, but even with this drawback the concert was a remarkable success in everything except its patronage by the public. The smallness of the audience did not make the artistes churlish, and the persistent encores were generously responded to; and besides the numerous instances in which the audience demanded "more," the performers were repeatedly obliged to come on the stage and bow their acknowledgements.

It was a magnificent affair throughout. Our feelings were nicely balanced between pity for those who were so unfortunate as to lose this rare visit of such eminent vocalists, and indignation at the deplorable fact that a concert like Litta's Saturday evening entertainment should be so indifferently encouraged in a city where so many can appreciate a high order of musical excellence; and we sadly admit that the Litta concert company gives a far better programme than we deserve. Those present seemed to be aware that there was due to the artistes a generous manifestation of appreciation, and we think that the applause *per capita* was more liberal than ever before bestowed in Music hall.

THE NINE O'CLOCK BELL.

The board of mayor and aldermen are to be congratulated on having discovered a method by which they can accomplish something beside the expenditure of more money than the councils have appropriated. The nine o'clock bell, after having rung out the hour for centuries, has permanently ceased to sound, against the wishes of a large majority of the citizens, who desire the old custom to be kept up; and this result has been attained without any fuss or expense, by a little shrewd trickery on the part of the board.

The order to discontinue the ringing of the bell, as introduced by Ald. Martin and passed by the board, was that the discontinuance should be "until further orders, on account of sickness," the palpable intention being to give the public the impression that the cessation of the ringing was intended to be only temporary, and that it was done from motives of humanity; yet within a few minutes of the passage of the order a prominent member of the city government confessed that nothing was known about any sick person being annoyed by the bell, and that the aldermen did not intend to ever again have the bell rung; in other words, the resolution as introduced and passed was a lie, and one of the meanest and most contemptible variety—a lie by implication, which is as much meaner than a square out-and-out lie as a door-mat thief is meaner than a highwayman. But it answered its purpose, and the people may just as well settle down to a knowledge of the fact that the nine o'clock bell will never sound again.

THE SOLDIERS' MONUMENT.

The committee appointed by Storer Post, G. A. R., last Thursday evening, to act in conjunction with the citizens' committee on the erection of a soldiers' monument, was as follows: Marcus M. Collis, John H. Locke, Adolph Nelson and George E. Hodgdon. Commander Collis on Friday evening received from Major Gen. W. S. Hancock, U. S. A., an order directing Adolph Franz, ordnance sergeant in charge of Fort Constitution, to deliver to Storer Post four ten-inch guns (Columbiads) now at the fort, they being of obsolete pattern, and condemned for purposes of war; besides these guns, the post will have choice of two twenty-four pound howitzers or two eight-inch guns, whichever they may elect to take, from Governor's island, New York harbor. It really looks as though at last this city might have a soldiers' monument. Where will it be placed?

FREIGHT CHARTERS.

Among the engagements for coal freights reported last week were a schooner from Elizabethport to this port at $1.65 per ton; a schooner from Perth Amboy at $1.60, and one for same voyage at $1.50; and a schooner from Rondout at $1.60.

THE YORK BEACH RAILROAD.

The Concord *Monitor* of Nov. 24th had the following to say concerning the long mooted Portsmouth & York Beach railroad:

Messrs. McClintock and Foss have been engaged, this week, in examining the proposed routes for a narrow guage railroad between Portsmouth and York beach. The projectors of the enterprise include several gentlemen in this city, and also well known property owners of York. The road has been talked of more or less for a year, but no very definite steps towards its construction have been taken until within a short time. The results of the examinations by Engineers Foss and McClintock are such as to greatly encourage all interested in the matter, and it looks at the present time as if the speedy construction of the road was highly probable. Two routes are talked of. One runs close to York harbor, while the other goes by York Corner. The road will begin on the Eastern railroad, just across the river from Portsmouth, and will run to the Hotel Bartlett, and end at Union Bluffs. The entire distance is only ten miles, and the routes are both highly feasible. The largest item of expense would be the bridging of York river, but the road could be built at a comparatively small cost. Neither route would afford a very extensive ocean view, but the ride to and from York would be a pleasant one. For support of the road, in addition to large passenger traffic considerable freight business is relied on. As the stages carried 10,000 passengers last season, it seems as if the road would be a good investment. The value of such a road to the property holders and regular patrons of York would be almost incalculable, and to all such the success of the project will be looked for with interest.

There was a conference (according to the Portland *Argus*) of a committee of citizens of York with the Eastern railroad officials, at the office of President Phillips in Boston last week, the committee consisting of Messrs. John E. Staples, Edward S. Marshall, Henry E. Evans, W. M. Walker and Dr. J. C. Stewart. The committee showed a passenger traffic of some 30,000 passengers and a freight business of over 600 cars, for the past year. The railroad officials fully recognized the importance of the line, but gave no encouragement to the scheme of a standard gauge road; a narrow gauge is the only one which offers a prospect of immediate completion. There is a good prospect of the formation of a company in the near future for the building of such a line from Portsmouth to Cape Neddick, and it is hoped that eventually it will extend as far as the Boston & Maine railroad at Cole's Corner, in Wells.

William H. Hackett of this city has been appointed a commissioner to take testimony in cases to be presented to the Court of Commissioners of Alabama Claims.

The tides on Saturday were the lowest for a year.

Capt. Robert J. Davis, who has been in command of the fishing schooner Addie & Hattie during the past summer, and made a very successful season of it, is going to Eastport, Me., for the winter, to buy frozen herring. It is said there are seventy-five fishing vessels now in Eastport harbor, waiting for bait.

The department of construction and repair at the navy yard shut down on Friday evening of last week, until December; about three hundred men were suspended. A large number of men in the department of steam engineering were suspended on Saturday evening.

Capt. Haven Fernald, of the schooner Julia A., is to have charge of the schooner W. B. Keen, winter fishing; Capt. Becker, who has been in charge of the W. B. Keen ever since she was built, is to have a new vessel.

Mr. William T. Frye last week sent to Boston, per steamer Acushnet, between 200 and 300 barrels of alewives, the last of his stock of that kind of fish. Mr. Frye will spend the winter in Boston.

The lobster smack Addie & Hattie is being fitted for winter fishing out of this port, under command of Capt. John Handy Robinson; her rigging was being set up on Saturday, and she will be painted by Josiah Grover. Mr. Grover has already given the schooner Albert Woodbury a coat, and she looks first-rate.

The schooner Sylph has been bought by Capt. Samuel Hiliz and others, and will fish out of this port this winter under command of Capt. Simeon Hubley.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad convenience, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or wishful impairment of the errors of youth, or too close application to business, may be restored and manhood regained.

52nd edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASES

IS YOUR HEART SOUND?

Many people think themselves sick and call for Liver or Nerve troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheshunes, startlingly says "one-third of my subjects show signs of heart disease." The heart recipes about one ounce, and circulates twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves' celebrated prescription, which has proved a specific for all heart troubles and kindred disorders, is known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1. per bottle, six bottles for the price of five. Address for Dr. Graves' thorough and exhaustive treatise. (1)

Patent Suit.

In the United States Circuit court in Boston, last week, was tried the action of Isaac Hayden against the Great Falls Man'g Co., brought to recover damages for alleged infringement of the plaintiff's improvement in long trunks for cleansing cotton. The company defended on the grounds that the claim had been once settled by Mr. Burleigh, a former agent, and that until recently the plff. had a suit in equity before the Circuit court for the New Hampshire district for the same cause of action, which had been dismissed, and that this dismissal was a bar to the present suit. The trial resulted in a verdict for the defendant. John L. S. Roberts was for the plaintiff; W. J. Copeland for the defendant.

B. W. Smith, grocer of East Northwood, has gone under, with liabilities of $1500, and nominal assets.

The Continental Construction company, started at Concord about a year ago, has voted to wind up affairs, and the property is advertised for sale. It has been a losing enterprise from the first, and it is said the loss will aggregate a very large amount.

Thursday afternoon, the 23d inst., Mr. John Leighton, a farmer living in the neighborhood of Farmington, observed a large deer browsing among a drove of his cattle in a field adjoining the house. He opened the barn door, and with three other persons quietly surrounded the cattle and drove them into the barn, the deer accompanying them, and thus its capture was effected.

One of the drawbacks of married life is sickness of the little ones. For a cold or cough you cannot find a better remedy than Dr. Bull's Cough Syrup. Nearly all physicians prescribe it, and no family should be without it.

The shipbuilding firm of Goss, Sawyer & Packard, of Bath, Me., has averaged a launch of a vessel every two weeks during the present year. Shipbuilding is about all the enterprise Bath can successfully conduct; several others have been started, but they have usually languished for a while and then been suspended.

"Men condemn in others what they practice themselves." Those who practice the use of Kidney-Wort never condemn its use by others, but commend it to all affected with piles, dyspepsia, constipation and all other diseases resulting from a disordered state of kidneys, liver or bowels.

A man named Wilmot was killed in a mill where he was employed, in Sharon, Mass., Nov. 24th, by getting his clothes caught on a shaft.

In the *Hop Plaster* are united the virtues of fresh hops and the strengthening and stimulating balsams, and its cures of weak back, pain in the side, rheumatism and neuralgia or pain in the chest are simply marvellous, it being more efficacious and thorough than any liniment or liquid remedies. You'll say so after using.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The man of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the smug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1869, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

BOSTON, January 1, 1882. 3tawtjan6

Perhaps no medicine is so universally required as a good cathartic. Swayne' Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin, or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. oedtjan19

Portsmouth Chronicle.

TUESDAY, NOV. 28, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Right Man in the Right Place.

The President will be sustained by the whole country in his summary removal of officers upon whose garments is found the smell of fire in the star route iniquity. He has shown good judgment in his appointment of Mr. Tullock as postmaster of Washington. At the time Mr. Ainger was designated for this position Mr. Tullock was strongly backed for the same place, but his competitor had the Ohio influence, then potent at Washington, in his favor.

Mr. Tullock, besides being a man of character, prominent in good works and having the confidence of every one in his wide acquaintance, possesses in a remarkable degree an adaptability for the discharge of the duties of this position, having been familiar with the details of postoffice administration from his boyhood. His qualifications for the discharge of the duties of the office are second to no man's in the land. The appointment is an excellent one, and creditable to the President's sagacity.

A Thunderbolt.

D. B. Ainger, postmaster, and M. M. Packer, deputy postmaster of Washington, D. C.; Charles E. Henry, marshal of the District of Columbia; Ex-Senator Spencer, goverment director of the Union Pacific railroad; and M. D. Helm, foreman on the *Congressional Record*, were removed from office on Saturday, Nov. 25th, by President Arthur, on the recommendation of Attorney-General Brewster. All the removals were peremptory except in the case of Henry, who will serve till his successor is appointed. Henry and Spencer were appointed by President Garfield, Ainger by President Hayes, and Helem by the government printer, Mr. Rounds. The reason for these removals is the connection of the late officials with the star-route ring.

More Trouble in Ireland.

In Dublin, on Saturday evening last, two officers named Eastwood and Cox were shot at by a party of ten men, and Cox was instantly killed. Eastwood put several bullets into the man who shot Cox, and he was captured by the aid of a soldier who drew his sword bayonet. The prisoner is named Dolan or Dowling. Patrick Ryan, a tailor, and one Devine, a thief and brothel bully, were also arrested. An organ builder named Woodward was seized in his bed some hours later, charged with complicity in the crime.

News and Notes.

A despatch from Cairo, Egypt, says: "A recent telegram from the governor of Soudan announces that the rebels have been defeated at Derweer with great loss. Much plunder was taken. Unconfirmed advices from Kordofan state that the false prophet has been defeated and captured."

The steamer Algiers has been seized at Philadelphia, on a suit to recover $70,000 as damages for sinking the schooner Wm. L. White off the capes of Delaware on Nov. 19th. The schooner went down in a few minutes, with 1450 tons of coal on board.

Rev. J. G. Wharton, alias D. J. Hill, of Carthage, Mo., has been arrested in Kentucky, charged with embezzlement. He had in his company Mrs. Maggie Magill, a woman who left a husband and three children in Carthage, where also Wharton left fifteen children of his own.

Mrs. Jemima Bradeen, of Limington, will be one hundred years old on the 11th of December, and it is proposed to hold a reception at Mrs. Nancy C. Strout's, with whom she resides, on that date.

There was a lively rumpus in a Maine Central train running from Bangor to Oldtown last Saturday evening. Two drunken roughs refused to pay their fare, but one of them was soon quelled; the other, Will Smith of Veazie, showed fight, but the passengers aided the conductor, and gave the fellow a rough handling, and he finally paid his fare to Veazie, where he was put off. Before the train started again he boarded it and attacked the conductor with a club, and then drew a knife; and being again put off, smashed in the doors of the railroad station.

AROUND HOME.

Two schooners of about 1000 tons capacity each, and two of 900 tons each, have been engaged to load at Newport News and Baltimore for this port, with bituminous coal to J. Albert Walker. One of the vessels referred to is the Spartan, Hodgdon master, which has made a number of trips to this port.

The steamer Mystic is to have a new boiler, and Capt. Trefethen went to Boston on Monday to select one or order one constructed.

The Katahdin Iron Co., working the mine at Mt. Katahdin, Me., suspended payment last week, with liabilities stated at $90,000. A large part of this mine was once owned by Portsmouth parties, who failed to make mining a success at this place.

At Milford, on the 14th inst., three young men who were painting a house were thrown to the ground by the giving away of the staging, striking on a stone embankment wall. Thomas May, of this city, was badly hurt about the back, but no permanent injuries are anticipated in consequence; another man had a wrist broken, and one shoulder torn by a staging hook; the third man escaped harm.

Wentworth Lodge, Knights of Pythias, of Newcastle, hold their annual fair in the town hall this week, commencing Wednesday evening, and continuing through Thursday and Friday evenings. The usual attractions of such gatherings will be provided,—vocal and instrumental music, dialogues and recitations, refreshments, guess cakes and guess pole, valuable gifts to be distributed by lot, and other means of amusement.

George W. Marston, Esq., has sent us a copy of the daily *Tribune* of Lead City, Dakota, dated Nov. 7th, containing a sharply-written open letter addressed to Porter Warner, editor of the Lead City *Times*, the letter bearing the signature of J. Albert Sanborn. The *Tribune* editorially says: "The open letter to Porter Warner is from the pen of one of our intelligent practical miners, who has always been a democrat, * * * and thus the democracy has lost this leading light, who draws many others unto him." Capt. Sanborn was not "always a democrat," having been an ardent republican from the time he arrived at voting age, and years before, up to the time of the Greeley campaign; he is an earnest worker at anything he undertakes, whether it be politics or anything else, and many persons in this city will be pleased to learn his whereabouts.

A schooner bound from Salem, Mass., for Castine, Me., sprang a leak off Boon island last Saturday morning, and it was with great difficulty that she was kept afloat until the entrance to Cape Porpoise harbor was reached; the wind was blowing heavily and the schooner's signal of distress was not noticed, and both anchors were let go, the schooner shortly rolling over on her beam ends, full of water. The crew reached the shore in safety, leaving the waterlogged vessel in a very dangerous position for other craft endeavoring to make Cape Porpoise harbor. Her name was not given in the first reports.

Mr. Calvin Remick was found dead on Sunday morning in the road near Liebman's store in Eliot. He, in company with several others, had been serenading a newly married couple Saturday evening, and several of the number were under the influence of liquor. It is not known whether he died from the effects of drink, or was foully dealt with.—*Times.*

Lieut. George A. Norris is detached from the school ship St. Mary's, and ordered to the Enterprise.

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in a year by so many men and women.

We have endeavored to merit that popularity, and, like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and sufferings, the wisdom, the folly, the notable folly, the solid sense, the improving moves—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning public affairs THE SUN makes a practic of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, that its conduct is dictated by no hatreds or whims as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general clamor, and that THE SUN has absolutely no purposes to serve save the information of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because it alone it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robeonism and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the people against the ambition of leaders, the extravagants of politicians, and the dishonest schemes of public robbers.

All this is what we have told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper print d, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in exist nce, because its readers take nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of human sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—55 cents a month, $6.50 a year; with Sunday edition, $8.20.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

Address, I. W. ENGLAND, Publisher,
THE SUN, N. Y. City.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and the' terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy, like Hood's Sarsaparilla, that gives at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *wonderful cures, so called*, which I see, etc., and spending nearly a hundred dollars *without benefit*, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

Hood's Sarsaparilla

Sold by Druggists. $1; six for $5. Made only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

LIFE INSURANCE !

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THANKSGIVING SERVICES.

Services in the North church, Thanksgiving day, will be held at the usual hour in the forenoon, when Rev. Mr. McGinley will deliver a sermon on "The Christian Home." All are invited.

The Thanksgiving service at the South Parish on Thursday will be somewhat novel in its character. In addition to the usual sermon there will be a beautiful service of Thanksgiving for the harvest, with carols, hymns and responses by the congregation and Sunday school. All are invited. Members of the parish are requested to send offerings of the fruits of the earth to the church on Wednesday afternoon and evening, or early Thursday morning, for distribution to the sick or needy.

GOING INTO WINTER QUARTERS.

The near approach of cold weather (some of it seems to have got here already) has caused many of the small crafts to go into their berths for the winter. The westerly side of Peirce's island is dotted with boats and landing stages, hauled out there to await the advent of spring; and several of the large whaleboats have had their sails unbent. The schooner boat Helen Mar, Russell master, has hauled up at the foot of Atkinson street, and the White Wave, Killenbeck master, at Shea's wharf; and the Dauntless, Gray master, Flying Dart, Robinson master, and Cora, Randall master, all hauled off from fall fishing last week, and selected berths at the south end. The Lizzie L. Mills, a coasting schooner, is lying stripped at one of the north end wharves.

The schooner Chilion, Call mastef, arrived on the 26th, light, and on Monday was being stripped for the winter at Call's wharf. During the season she has made thirteen trips,—eleven from Bangor with lumber, one from the upper Piscataqua, and one from Wells, Me., all to Hingham, Mass; and she has stocked $2700.

The schooners Mystery, Seaward; H. Prescott, Dorr; and Le nora, Hurst, all arrived in the lower harbor on the 26th, to go into winter quarters at Kittery Point. The Mystery made thirteen trips during the season now ended, but our informant forgot to tell us what trade she was in.

THE NINE O'CLOCK BELL.

A prominent merchant and influential politician of this city on Monday evening informed us that he should at once put into circulation a petition to the board of aldermen, asking the revival of the ancient custom of ringing the nine o'clock bell; and another gentleman, a republican in one of the republican wards, whose political influence has more than once been felt in municipal affairs, said that if the action of the board in this matter was not rescinded he would do all in his power to make it an issue at the polls at the next election, with the sole view of putting in men who would heed the wishes of the people.

PORTSMOUTH, Nov. 27th.

Editor Chronicle: I notice that at the late meeting of the board of aldermen no action was taken in regard to the ringing of the nine o'clock bell. Does this really mean that such ringing is permanently *discontinued? As one of the many who desire to have the time-honored custom continued, I wish to know, so that if need be I can enter my public protest. This week is the old-fashioned Thanksgiving time, and hundreds of our sons and daughters will return home; how sadly they will miss the cheerful warning of the nine o'clock bell! Let the mayor call a special meeting of the board for this (Tuesday) evening, and have some action taken at once to continue the ringing. Who opposes it? Does any one, other than your previous correspondent "Progress," who scolded because he did not wish to be disturbed when in Music hall? No grander sight was ever witnessed in that hall than when a fair and gifted daughter of Portsmouth once stood on the stage there, and waited for the dear old time-honored sound of the bell to cease before she uttered those notes that charmed us all. Let the old bell ring; so say we all of us.

SON OF PORTSMOUTH.

*That is just what it does mean—unless the citizens give the board unmistakable evidence of their feelings in the matter. The majority of the aldermen probably care little about it either way, and voted for the cessation in the honest belief that such cessation was intended to be but temporary, and that it was a move in the interests of humanity, as the resolution implied; but the engineers of the scheme intended never to have the bell rung again, and so declared afterward. If the people demand that the bell be rung, it will be; not otherwise.—*Ed.*

The *Times* of Monday evening, in answer to our suggestion that "the people may just as well settle down to a knowledge of the fact that the nine o'clock bell will never sound again," intimates the possibility that we were "just a little too fast. The citizens can remonstrate against the action of the board, and demand that orders be given for the ringing of the bell again. And this we think they will do. Public sentiment is overwhelmingly in favor of the ringing of the bell, and it must be rung, if all the present officials have to be rung out." Our neighbor is undoubtedly right in saying the bell will be rung if the citizens demand it, and that public sentiment is overwhelmingly in favor of the ringing; but the bell had been silent for weeks at the time we wrote, and though private grumbling had been general, no effective measures seemed likely to be taken. It remains to be seen whether any will be.

FIRE.

At half-past one o'clock, Tuesday morning, the North church bell sounded an alarm of fire, a blaze having been discovered in the store of Dennis J. Lynch on Market street. In about twelve minutes from the first stroke of the bell, Kearsarge engine had a stream going on the fire; the rest of the department quickly arrived, and what at first threatened to be a big fire was soon under control. Officers Shannon and Parsons, who discovered the fire, were in the yard of the store only twenty minutes previous, and all seemed right at that time; and the bank watch left the Mechanics & Traders' bank, in Commercial alley, only two minutes before the alarm was given, and saw nothing wrong. During the fire there were two explosions in the store, supposed to be caused by kerosene. The building was gutted, and it was reported that $800 in bonds, $400 belonging to Mr. Lynch and $400 to a Mr. Spinney of Eliot were burned. We were unable to learn the insurance, if any, on stock or building. The second floor of the building was occupied by the saloon and billiard room of James E Morrison, all whose property was destroyed.

A BAD DOG.

Mr. John W. Johnson, living on the Rye road, about three weeks ago called at the house of Mrs. Coffin, on the Little Harbor road, to enquire after one of his cattle which had strayed, and while standing at the door was bitten by a large coach-dog, the vicious animal's teeth making some ugly holes in one of his legs, above the knee. Mr. Johnson came to this city and had the wounds dressed by a physician, and the holes made by the dog's smaller teeth healed up in a few days; but the rents made by the fangs are still open, incapacitating Mr. Johnson from any labor. It is said the dog has an established reputation as a treacherous brute, and that he has bitten nearly every person who has been employed about the place for two or three years past; pity he wouldn't bite his owner five or six times.

A CARD.

Kearsarge Engine Co., No. 3, hereby tender their thanks to John E. Harmon and wife for generous refreshments furnished them on the occasion of the fire Tuesday morning.

PER ORDER OF THE COMMITTEE.

"ROOMS FOR RENT."

The above piece was presented in this city last evening at the Windsor, which was packed with a thoroughly delighted audience. Three acts are filled with the most ludicrous incidents and accidents, quarrels and reconciliations, predicaments and "scrapes," into which the lodgers fall by reason of their dispositions, loves and hates; and to tell about them all would require more space than we can spare. In the fourth act all the tangled threads are straightened and everybody is made happy. The fun "grows fast and furious," and the auditor becomes infected with its rollicking spirit, so that one does not stop to seek for the plot, but wonders when the hilarity will cease.—*Boston Herald.*

"Rooms for Rent" will be at Music hall to-morrow evening; tickets now on sale at Myers' bookstore.

On Saturday afternoon last the employes at the Concord railroad wharf assembled to the number of about forty, and Mr. Arthur W. Walker, on behalf of the workmen, presented Mr. Charles A. Watkins, one of the engine drivers on the wharf, with a large and elegant family bible. This was a wedding present, Mr. Watkins having recently taken to himself a wife.

"Duprez & Benedict's Gigantic Minstrels," re-organized on a grand scale, will give an entertainment in Music hall on Monday evening next, Dec. 4th.

The sloop yacht Wanderer has been replanked, remasted and put in thorough repair every way, by Mr. Daniel Littlefield. Messrs. Bailey and Adams commenced calking her last week, and after she receives a coat of paint she will look better and be better than she was at the time she went ashore on Gerrish's island.

On Tuesday evening, Dec. 5th, Mr. George S. Knight, the greatest German dialect and character comedian on the modern stage, will with Mrs. Knight appear in Music hall under the auspices and for the benefit of Storer Post, G. A. R. We have never seen the Knights, but have long been familiar with their names through the invariably complimentary notices concerning them in our exchanges.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Fifth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 350 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

HEART DISEASE

Now IS YOUR HEART SOUND?

Many people think themselves sick and look for kidney or liver troubles, or dyspepsia, while of the truth very lastly, the real cause is not the heart. The famous Dr. Cardwalader, Philadelphia, says "one-third of my subjects show signs of heart disease." The heart weighs about nine ounces, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, every not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a specific for all heart troubles and kindred disorders. He is known as Dr. Graves' Heart Regulator and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise. (1)

A Gloucester despatch says the mackerel fleet is all in, the season closing with a smaller catch than was anticipated earlier in the year, but with a somewhat larger amount than last year. The Gloucester mackerel fleet numbered 157 vessels, most of which followed this business the greater part of the season, and some twenty-five vessels belonging elsewhere landed one or more fares at that port. The earlier catch was disposed of in New York and Boston as usual, and while the mackerel were plenty off this shore considerable quantities were disposed of fresh in the Boston market. The receipts of mackerel at Gloucester for the season have been 170,000 scaled barrels, against 163,851 last year, and 129,620 in 1880. The market has been active, and the stock has been taken almost as fast as received, so that there is none of consequence on hand.

At Newcastle, Del., Nov. 25th, three thieves were flogged at the whipping post, receiving ten lashes each, and two highwaymen received forty lashes each.

Two men were arrested in Lawrence, Mass., early Sunday morning, while they were stealing a barrel of flour from a car on the Boston & Maine railroad; seven other barrels of flour were found hidden in their houses, and also two tons of stolen coal.

How I Felt.

Why two years ago I was just about crazy and no wonder that my wife and children were afraid of me. You just want to suffer with neuralgia with no relief as I did until I used Sulphur Bitters. They cured me and now my wife says I am as meek as a lamb.—*Robert Davis, American House, Boston.*

In North Leominster, Mass., Wednesday of last week, a boy named Fuller, eight years old, was decoyed into the woods and horribly beaten with a raw hide by three older boys, because he refused to steal fifty cents for them from his home. These young ruffians it is said are the same three who were with a lad drowned last spring, and who did not report the drowning until questioned as to where the other boy was.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

The convicts in the shoeshops of the house of correction at Pittsfield, Mass., revolted on the evening of the 24th inst., but the revolt was quelled by the officials, none of the convicts escaping.

A scientific chemical compound that gives health and strength is Brown's Iron Bitters.

It is intimated that the convicts in the Massachusetts state prison at Concord contemplate riotous proceedings unless they are allowed the liberty of the yard on Thanksgiving day.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. These things, as you call them, are just as different as the moons from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACK.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

The remains of Dr. L. Earhardt of Allegheny City were cremated at Washington, Pa., Nov. 27th; incineration was pronounced completed in two hours.

"Among the ladies who may read this there may be several sickly ones who have made up their minds to act on the old saw which specifies that "What can't be cured, must be endured." While the truth of the old proverb is self-evident it is just possible they may have erred in judgment as to the possibilities of the healing art outside of the medical profession, and before giving up in despair they had better test the efficacy of Mrs. Lydia E. Pinkham's Vegetable Compound, which is now attracting universal attention.

The French steamer Cambonne was sunk in the Bristol channel on the 27th inst., by collision, and fourteen persons were drowned.

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole rystem, nothing surpasses that great semedy.

—"Little girl, do you know whose house this is?" asked a solemn-looking old man of a bright child seated on the church steps. "Yes, sir it's God's, but he ain't in," she added as the old gentleman was about to walk up the steps, "and his agent's gone to Europe."

Catarrh.

Ely's Cream Balm Co., Owego, N. Y. Gents: I have been a severe sufferer from catarrh for 15 years, having distressing pain over my eyes, gradually the disease worked down upon my lungs. About a year and a half ago I commenced using your Cream Balm, with most gratifying results, and am to-day apparently cured. Z. C. Warner, Rutland, Vt., April 31, '82.

Ely's Cream Balm has completely cured me of catarrh, of which I have been afflicted over ten years, after trying almost every remedy recommended, none having proved so effective and thorough. S. J. Happening to remark a few days ago in hearing of several fishing skippers that it was strange no wrecks were known to have ever occurred on Anderson's rock, a dangerous detached ledge some two miles outside of the Shoals, several of them said that about twelve years ago a small coasting schooner named the Pilot, belonging to Mt. Desert, Me., and bound there with a general cargo, hit the rock and went to the bottom in a few minutes, the crew having barely time to get into the yawl boat, with which they landed. We never before heard of any such wreck, that we remember of.

A Philadelphia despatch says that counsel for Mrs. Melville have been instructed to commence proceedings against Chief Engineer Melville for maltreatment and desertion, also for an increase of the $90 per month allowance he now makes her. She will also commence criminal and civil suits against the physicians who signed the lunacy certificates. The writ of habeas corpus commanding Melville to produce the child Maud in court on Nov. 24th was withdrawn on the 27th, the mother having regained possession of the child.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment, but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking one is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

Boston, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills, with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

In Philadelphia, Nov. 27th, at the meeting of poor guardians, Guardian Hoffman stated that the almshouse apothecacy had been obliged during the past year to detain 100 prescriptions that had been carelessly written by the resident physicians. Twenty-five of these doses would have proved fatal had they been administered.

It gives me pleasure to say that Adamson's Botanic Balsam cured me of a severe cold to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefitted by its use. We think it has no equal as a cough mixture. U. L. Pettengill, No. 10 State St., Boston.

WEDNESDAY, NOV. 29, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Ireland's Woes.

In Dublin, on Nov. 27th, as Dennis Field, one of the jurors in the case of Hynes, hanged for the murder of Dolcoughty, was going to dinner, he was met by two men in a carriage, one of whom jumped out and fatally stabbed him with a sword, inflicting six wounds.

On the night of that day a mob attacked the hospital where Dolan, the wounded murderer of Officer Cox, was lying, with the supposed intention of releasing him, but were driven off by the police.

A bailiff named Thomas Malone was fatally stabbed in the head while serving a writ in Dublin on the night of the 27th; three arrests were made.

On Sunday evening, Nov. 26th, a party of "moonlighters" attacked a farm house near Cashel, County Tipperary. The occupants of the house beat them off, and then pursued and captured the whole gang.

SAVED THEIR AMMUNITION.

On Saturday, the 18th inst., the day before the "cold snap" set in, several gentlemen connected with the Portsmouth Shoe factory went on a gunning expedition to Gerrish's island, intent on bagging a portion of the large quantities of game alleged to haunt the swamps and inlets of the much-written isle, and on otherwise enjoying themselves on a three-days' vacation.

The industrial establishment near the Creek is proverbial for its skillful (!) huntsmen, and the composition of this party seemed to fully justify its reputation on that score. The leader of the expedition, a stalwart heel-shaver, had just returned from the wilds of the upper Penobscot, fresh from a score of hair-breadth escapes and victories over huge cinnamons and sinewy catamounts, and from slaughtering whole droves of the meek-eyed gazelle and muscular caribou; and it was of course conceded that when, three days later, the inventory of that black-painted gamebag should be taken, the result would be startling to the doubting Thomases who had put their tongues in their cheeks when the expedition was first being discussed.

The end of the first day saw the party snugly housed on Pocahontas point, having been conveyed thither in the yacht Redwing; and although a short hunt in the woods had not yielded any game, no sign of discouragement was seen, the leader assuring the party that ere the morrow's sun was an hour high a fine string of game would be hanging from the piazza front.

The morning came, and with it a piping nor' wester that sent the mercury well down in the twenties, but nothing daunted, our friend from sixty miles north of Bangor started out several hours before day, in slater and fur mittens, and by the light of the aurora picked his way over snow and rocks and stumps to the pond north of the fort, where ensconced in a thick growth of alders he awaited the advent of dawn, to commence the work of slaughter among the feathered creatures sporting on the limpid waters. What cared he though the biting frost drove the blood from his fingers and toes, and chilled his marrow? his reward would come later.

In due time the daylight came—he thought at one time it never would arrive—and he peered out through the bushes, holding his gun in readiness to burl destruction across the pond; then he let down the hammer, stepped out of the thicket, and alleged: "Gracious me! the pond's frozen over!"

When he arrived at the lodge, several hours later, there was a wish I hadn't come expression on his face which produced a panicky feeling at the breakfast table, and which no quantity of coffee could dispel. Confidence gone, the guns were put into their covers, and the party returned to the city on Monday.

That Aroostook hunting story was not alluded to all last week, by its hero.

A house in Limerick belonging to Amos Felch, and occupied by W. Fowler and wife, was broken into recently, and an organ costing $175 destroyed. Sheets and bedding were torn to strips, and a number of large family bibles mutilated, Mr. Fowler being agent for the sale of the book.

Marcus Watson, Esq., on the 24th inst. severed his connection with the *Eastern Star* of Kennebunk, and started a printing office at Saccarappa, Me., where he will shortly commence the publication of a weekly paper to be called the *Westbrook Chronicle*.

In Biddeford, Nov. 27th, fire broke out in the livery stable occupied by Joseph O. Lord, and the building, several sleighs, a small quantity of hay, and three hogs, were burned. A building near by, occupied by Michael O'Connor as a saloon, was also burned. The loss upon the stable and contents was $1,500; upon O'Connor's saloon $600.

The Kennebunk & Kennebunkport railroad will put in a petition to the next legislature of Maine asking that it may be permitted "to lease or grant the use and control of its road to the Boston & Maine railroad."

Mrs. Warren Brooks of Ogunquit, who some weeks ago eloped with a young man named Leonard Perkins, returned to her husband on Monday of last week, but he would not allow her to enter his house, and she was compelled to go to the residence of her mother, where she passed the night, leaving the town again next morning.

Samuel Towne of Kennebunk is eighty-seven years old, and has never yet been in a railroad car, nor has even ridden in a coach outside of the town. He has passed nearly all his days in Kennebunk, and has never been outside of York county but once. He has aided in building thirty-two wharves, and in building or moving sixty houses.

Andrew Sackett and W. H. Rugg of Waterbury, Conn., were arraigned before the district court in Great Barrington, Mass., Nov. 28th, for alleged complicity in tarring and assaulting Mrs. Sullivan in Sandisfield, Mass., in 1881. It is claimed that they drove to Sandisfield from Winsted, Conn., and were of the party who so shockingly ill-treated her, both having formerly lived there and having a grudge against her. other arrests in Connecticut of men implicated are to follow, an officer there having received requisitions.

Ladies should wear a *Hop Plaster* over the small of the back, as it cures all pains and aches; 25 cts., at any drug store. All ready to apply.

—"Father," said an inquisitive boy, "what is meant by close relations?" "Close relations, my son," replied the father, "are relations who never give you a cent." The boy said the old man, then, was the "closest" relation he'd got.

—Jokes about the poverty of newspaper men have been laid on the shelf. They are not funny any more, because people have found out that they are not true. Look at James Gordon Bennett and Jay Gould and Robert Bonner and—and the rest.

—Sir Garnet Wolseley and Sir Beauchamp Seymour have accepted $250,000 each from the English government for their Egyptian services. They are a little more expensive than our Garfield doctors.

—At a recent trial in France the foreman of the jury, placing his hand on his heart, and with a voice choked with emotion, gave the following verdict, "The accused is guilty, but we have our doubts as to his identity."

—It was in a Stumptown Sunday school that a visitor, who was interrogating the children, asked the question: "Why was Lot's wife turned into a pillar of salt?" There was a pause, and then a small boy, with a preternatural growth of head, piped out, "I'spose it was because she was too fresh."

—A good old Quaker lady, after listening to the extravagant yarn of a person as long as her patience would allow, said to him: "Friend, what a pity it is a sin to lie, when it seems so necessary to your happiness!"

—"A female, young or old, who does a man's work, ought to get a man's pay." True: and if you will look at the new fall styles, you will perceive that many a woman who don't do a man's work is getting a pretty good share of a man's pay.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited fame, among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan22

What's the Use of Talking?

There is no denying that SOZODONT is the best preparation for the mouth and teeth. Preparations of a very dozen or more years, have appeared, but the public taste is still strong in the virtues of SOZODONT. Its use grows yearly.

"The Live Oak Boys; or the adventures of Richard Constable afloat and ashore:" by Elijah Kellogg, author of "Elm Island Stories," etc. Boston; Lee and Shepard. Portsmouth, for sale by M. Goodrich; price $1.25. This story, while full of interest to boys, has its moral lesson, and demonstrates that a boy possessed of a store of energy and ability, which for a while may go at random, should not be given over, as these elements quite often, when properly directed, or perchance, drawn from a wrong course, produce a happy result, where the opposite might have been feared.

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the notable folly, the odd sense, the improving nonsense—all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the candidates, in the face of dissent as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purpose to save the souls of the humiliation of its readers and the furtherance of the common good.

Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Kelloggism and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper print A, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a bulwark for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—55 cents a month, $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with $10, an extra copy free.

Address, I. W. ENGLAND, Publisher, THE SUN, N. Y. City.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and that terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, that reaches at the root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *wonderful cures, salves, inhalers*, etc., and spending nearly a hundred dollars *without benefit*, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly increased, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

Hood's Sarsaparilla

Sold by Druggists. $1; six for $5. Made only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CATARRH A POSITIVE CURE IS

ELY'S CREAM BALM FOR Catarrh & Hay Fever. Agreeable to Use UNEQUALED FOR COLDS IN THE HEAD Headache & Deafness, or any kind of mucus membranal irritations, inflamed and rough surfaces. A preparation of unprobled merit. Apply by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. Will deliver by mail 50c a package—postage stamps. Sold by wholesale and retail druggists. LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

CIRCUIT COURT OF THE UNITED STATES.

TUESDAY, Nov. 28th; *Lowell J.*

Marcus P. Norton and others vs. city of Dover, and cities of Portsmouth, Manchester and Nashua.

A hearing was had upon a motion by the plaintiff to have each of these cases placed on the trial list, and an early day in December fixed for trial by the jury. The cases were heard on a motion to quash for a defect in the writs, and were continued at the October term. Judge Lowell decided that plaintiff might amend on terms. The deft. objected that the cases had been continued and the jurors dismissed, and it was not, in cases of this important character, necessary to hasten the time of trial, especially after a continuance had been ordered. The case vs. city of Boston was continued, plff. says, to oblige Gen'l Butler, who had political engagements and could not be present at the term in Massachusetts, now in session, and he (Norton) was anxious for a trial in order that he might bring other suits. Motion denied.

THE MARKET STREET FIRE.

Mr. Dennis J. Lynch places the loss on his stock and fixtures by the fire of Tuesday morning at $13,000, on which there was insurance of $11,000. The bonds reported lost were stock certificates in the Burton Stock-car Co., and amounted to $550, of which a Mr. Staples, of Eliot, Me., owned $100 worth, Mr. Lynch owning the rest. Mr. Lynch had intended to go to Boston on Tuesday, to sell the stock and buy goods, provided the stock could be disposed of to advantage; otherwise he would hold the certificates, to provide against which contingency he had drawn $300 from the bank, and this money was burned with the certificates, being in the same envelope.

James E. Morrison's insurance on the stock and fixtures of his billiard saloon was $1000.

The building is owned by Mr. John W. Stavers of Taunton, Mass., and was insured $4500.

MORE.

Now, isn't some one "sick and tired" of hearing the town clock strike? If so, just mention it to the aldermen, and the matter shall be attended to at once. We are all growing old, and we wish to be tranquil; we don't care to be reminded of the flight of time; we do not want our nerves disturbed by sudden noises; and that nine o'clock bell is,—I mean *was*,—sometimes surprising to even happy people.

It is of no consequence if five or six thousand people enjoy the evening bell; it is no matter if another thousand are quite indifferent to it, or have so much inherent mental composure that they can at least endure it, even during the pathetic parts of a high-toned tragedy, which always are reached just at nine; still, if there is one citizen whose ganglionic system is so delicately organized that for five minutes of every twenty-four hours he is agonized, why, by no means ring it again! The many can submit to the *good* of the few.

Then there are those dreadful fire alarm whistles, *they* are disturbing; why not abolish them, and simply send a quiet telephonic message to notify the engine horses and the few interested individuals,—and let the rest of the community sleep on, undisturbed?

Let us by all means avoid everything that tends to disturb the tranquility of our good city; we want no causes of excitement or alarm, we want no noise. Why, once a man (I forget his name) died just as the nine o'clock bell rang!

But, speaking of noises, there is that foghorn, and the irrepressible—what is *it? — down in the waves? How can they be disposed of? ATORAC.

*The automatic buoy, alias the "Jersey Bull."—*Ed.*

THANKSGIVING SERVICES.

Thanksgiving services will be held at the Middle street Baptist church, in the forenoon; sermon by Rev. Dr. Alden, on "Our Home and Its Institutions."

The contractor's sloop has been removed from her position over the Badger's island ledge, and placed in winter quarters between the island and the main land at Kittery.

The schooner Mary Willey, Williams master, arrived at this port on the 28th inst. from Bangor, Me., on her 11th and last trip for this season, the skating at Bangor being much better than the navigation just now. She will put out 40,000 feet of lumber at Broughton's wharf, and then proceed to Newcastle with 65,000 feet for the Hotel Wentworth, after discharging which she will go into winter quarters.

A petition which was being circulated on Tuesday, asking the board of mayor and aldermen to rescind their action in regard to the ringing of the North church bell at nine o'clock in the evening, was signed by every person to whom it was presented. Copies of the petition can be found in the stores of Messrs. Myers, Goodrich, Buzzell and Moses, for signatures, and all persons—and the ladies especially—who object to the abolition (by an underhanded trick) of the ancient custom are earnestly requested to call at one of the stores mentioned and affix their autographs.

Getting water on a fire in less than fifteen minutes from the time the alarm is given, when that alarm is given at half-past one o'clock in the morning, just when men are sleeping the soundest, is not bad work for the fire department of a little city like ours. The first stream was put on the Market street fire, Tuesday morning, in twelve minutes after the first stroke of the North church bell, by steamer three.

C. Sullivan & Co. on Tuesday received from Major Dixon of Eliot, Me., ninety extra fine native turkeys—a rare fowl in these parts during the past three or four years; also three hundred turkeys from Boynton & Mosely of Northfield, Vt., and a large lot of ducks and geese from the towns in this vicinity. At the same place can be found canned tomatoes and all other vegetables of this year's production, fresh cranberries, and whatever else is required for a Thanksgiving dinner.

About half-past nine o'clock Monday evening, a team belonging to Mr. Adams of Newington turned suddenly into Dearborn street from North street, throwing the driver out; the horse kept on until he ran the wagon against a pile of timber blocking, which turned both horse and wagon upside down, without seriously injuring the horse, though the vehicle was considerably demoralized.

B. F. Mugridge has received three-quarters of a ton of turkeys, besides geese, ducks and chickens in large amount, for the Thanksgiving trade.

One or the crew of the steam collier Harrisburg, discharging cargo at the Concord railroad wharf, in attempting to go aboard the vessel while drunk on Monday of this week fell from the gangway ladder, and went down between the steamer and the wharf, but did not reach the water, there not being room for him to pass; he was wedged in pretty tightly, but was pulled out without serious hurt by Mr. Andrew Welch, one of the engineers on the wharf.

The schooner E. A. Williams, Capt. Oren W. Caswell, while fishing off the Shoals one day last week hauled up on her trawls a stone weighing seventy-two pounds and thickly encrusted with shells, it having got twisted up in the lines; it was brought ashore, and placed in Daniel Clark's fish store on Commercial wharf. As the schooner Cora, Capt. William M. Randall, was fishing on Wednesday of last week about 1 1-2 miles from Anderson's rock, off the Shoals, one of the men brought up on one of his hooks a bit of human scalp as big as a dollar, with long hair attached, evidently a woman's. It was supposed there was a corpse on the bottom.

The examining surgeon of the life-saving service was at Rye beach recently, and made the regulation inspection of the physical condition of the men attached to the station there. The examination was entirely satisfactory, to both surgeon and surfmen.

The new cottage at Appledore island is finished, and painted olive green, with a dull red roof; it looks very neat and pretty, if it *is* esthetic. Mr. William E. Jones, of Somerville, Mass., was the builder.

6 per Cent. Gold Bonds.
TOPEKA, SALINA & WESTERN
RAILROAD CO., OF KANSAS.
This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.
This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.
The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.
Subscriptions to these bonds may be made at the office of the contractor on the following terms:
For $500, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*
This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.
Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion, in early life may be alleviated and cured. These who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE OR, SELF-PRESERVATION.** A thousand vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 50; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE: OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE: OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

"The Art Amateur" for December contains a vigorous article on Hubert Herkomer, with numerous illustrations of his chief paintings. The exhibition of the Pennsylvania Academy of the Fine Arts is illustrated and reviewed at length; there are also illustrated articles on "Fans and Fan Painting," "Haviland Faience," "Art in Common Things," and "Curious Bonnets." Miss Louise McLaughlin of Cincinnati begins a series of practical papers on china decoration, and there are fifteen pages devoted to designs for china painting, South Kensington needlework, ecclesiastical embroidery, furniture, and color-sketching on linen. "My Notebook" bristles with points about art and artists, and this number fully justifies the Art Amateur's claim to be "the best practical art magazine" of the day. Price, $4 per year; single copies, thirty-five cents. Montague Marks, publisher, No. 23 Union square, New York.

"Ring Out, Wild Bells," by Alfred Tennyson; illustrated by Miss L. R. Humphrey,—is one of a series of eight volumes published by Lee & Shepard, in what they term the "Golden Floral" style, —a style which is not only entirely novel in character, but very captivating to the eye, combining as it does the attractions of a favorite illustrated poem with the popular charms of a Christmas card. Each volume has a cover upon which are wrought the most exquisite floral designs upon a gold ground, chosen so as to be in perfect harmony and symbolism with the spirit of the poem. The edges of the cover are ornamented with heavy silk fringe, thus enhancing the beauty and finish of the book. As a souvenir for holidays, birthdays, Easter, or weddings, a single volume, or better, a full set, of the Golden Floral series, is certainly chaste, elegant and unique.

—A young lady wrote to the Philadelphia *News*, inquiring: "How can I avoid being addressed if I walk out at night without a protector?" The experienced editor of that paper tartly replied, "Wear an old shawl and carry a clothes basket."

Decided steps ought to be taken to cure a cold or cough at once. We should recommend Dr. Bull's Cough Syrup. This valuable medicine is indorsed by the physicians, and you can rely on its doing the work everytime.

A train despatcher of the Union Pacific railroad at Lawrence, Kansas, named Bailey, was shot Nov. 26th by W. D. Hoyt, a telegraph operator at Leavenworth, in consequence of some words applied by Bailey to Hoyt over the wires. Bailey will die. Hoyt claims to have acted in self-defence, Bailey having come from Lawrence to Leavenworth to wreak vengeance on him.

A GOOD INVESTMENT.—One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

***"Men condemn in others what they practice themselves." Those who practice the use of Kidney-Wort never condemn its use by others, but commend it to all affected with piles, dyspepsia, constipation and all other diseases resulting from a disordered state of kidneys, liver or bowels.

Mrs. Scoville appeared in court at Chicago, Nov. 25th, and was granted a new trial on the ground that, though possibly insane, she was neither of homicidal nor suicidal tendencies, nor dangerous to her friends, hence not a subject for an asylum.

MRS. VAN BUREN'S

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is no *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn out or over-worked member of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial*. It *cannot fail* to give *rapid and permanent relief*.

If you are troubled with *any* weakness or complaint common to our sex, lay aside the doctor's prescription for one week, and try "Ladies' Tonic," which we guarantee will positively cure you. **One Bottle is Sufficient.**

Women's Medical Institute is an Association of Wives and *Mothers* of years' experience, who give advice and answer letters from ladies *free*.

Eyes will be given for any case of Female Weakness or Inability which "Ladies' Tonic" will not cure. This is a *bona fide* offer, made by responsible parties who know from *experience* what "LADIES' TONIC" can do. Send stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. These things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACK.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

The Life-Saving Service.

The report of the general superintendent of the life-saving service for the past year shows that although there were forty-four more disasters than during any previous year since the general extension of the service, the loss of life was smaller, with one exception, than that of any year preceding.

The assistance rendered in saving vessels and cargoes was very great this year, 298 vessels having been worked off when stranded, piloted out of dangerous places, repaired when damaged, or assisted in similar ways by the station crews. There were besides, seventy-six instances when vessels running into danger of stranding were warned off by the night signals of the patrols, thus probably saving most of them from partial loss or total destruction.

Not much has been done toward the establishment of the new stations authorized by congress, owing to the late date at which the appropriations were made. A station, however, has been built at Peaked Hill bar, Cape Cod, and another at Muskeget island, coast of Massachusetts. Three others are also under construction on the coast of North Carolina.

Since the general extension of the life-saving service to all portions of the coast in 1876, the loss of life from marine disaster has been reduced nearly seventy-five per cent; that is to say that, while in 1876 and prior to that time one person was lost out of every twenty-nine on board vessels suffering disaster, there has been a constant decrease, until now there is but one person lost out of every 113, and this result is shown to be almost entirely due to the agency of the life-saving stations.

The condition of the service is pronounced to be better than ever before.

It is, however, unsurpassed both as a pectoral and alterative, and will cure obstinate and severe diseases of the throat and lungs, coughs, and bronchial affections. By virtue of its wonderful alterative properties it cleanses and enriches the blood, cures pimples, blotches, and eruptions, and causes even great eating ulcers to heal.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary alleviation of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy, sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I shall give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

The Latter Day Saints have secured a footing in Wrentham, Mass., at Plainville, in the south part of the town, and begun the erection of a chapel. Charles Coombs, elder in the church, has administered the rite of baptism in a few cases, one woman being confirmed in the faith on Nov. 19th.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. eodtjan19

"Rolles of Ossipee."

Who is there who has been a visitor to our halls of legislation that does not recall the rapid utterances of the gentleman from Ossipee, Mr. Rolles, who for so many sessions has held a seat in the House as one of the representatives from the shire town of Carroll county? It had come to pass that Mr. Rolles rather considered that he had a pre-emption of the right to represent Ossippee in the legislature; and as far as the rest of the state was concerned, no one objected to Rolles, who, taken all in all, is regarded as a pretty good fellow. But of late years there have been unmistakable signs of rebellion in the democratic camp at Ossipee, and some have opposed Joseph in the caucus and at the polls, who ought to have staid in line. At the late election Rolles was reported chosen as usual, but we now find that at the town meeting it was determined that the office of representative was "not for Joseph." It is stated that his seat will be contested on the ground of irregularity in the proceedings; this is something, when the democrats have a family quarrel, they like to have the republicans aid them in correcting. It will be shown that on the first ballot Mr. Rolles lacked seventeen votes of an election; on the second ballot, three votes were wanting; and it is claimed that the third ballot was taken after the meeting had voted by a large majority to postpone further action upon that article in the warrant, and many voters had left for their homes and were not present when the ballot was had. Mr. Rolles has had an experience in the matter of a contested seat, and at the last session he was sent home upon the ground that he had not been legally elected.

Cotton Manufactures of the United States.

Census Bulletin No. 300 consists of a statement and tables relating to this great industry, prepared by Edward Atkinson.

The total number of bales of cotton used in the United States is set down at 1,760,000, the quantity used in the manufacture of pure cotton goods being 1,570,344 bales, the balance being combined with woolen in the process of manufacture.

The number of establishments for the manufacture of cotton goods was 756, of which 439 were in New England, and thirty-six in New Hampshire. This state, notwithstanding the small number of establishments, ranks third in the amount of raw material used and goods manufactured, and fourth in the capital invested.

The whole number of persons employed in cotton manufactories during the census year, not including treasurers, agents, clerks, or paymasters, and not including persons employed in print works, dye works, bleacheries and in the manufacture of mixed goods, was 172,544, consisting of 59,685 men, 15,107 boys, 84,529 women, and 13,213 girls. The average of earnings of all those persons for the year was $244, being a daily average of about eighty-one cents. The sum of the wages paid to these persons was $42,040,510.

At the Atlanta (Ga.) Cotton Exposition there were at work, from the mountain section of the south, five women—two carders, two spinners and one weaver—using the hand-card, the spinning-wheel and the hand-loom. These five women could produce eight yards of coarse cotton cloth in a day of ten hours. The same number of persons employed in a cotton factory can by the aid of machinery produce eight hundred yards of the same cloth—one hundred times as much—and with far less arduous labor.

Mr. Atkinson finds by comparison of the actual accounts of leading factories which have been submitted to him, that "in the period which has elapsed since 1840, when nearly all the operatives in the factories of New England were of American birth, mostly daughters of farmers, the following changes have occurred:

Most of the operatives are now of foreign origin, notably French Canadians, who form a thrifty and progressive element of our population as the children become educated in the schools.

The hours of work, which were then thirteen to fourteen per day, are now ten to eleven.

The earnings are now more than double per hour—nearly double per day—what they were in 1840, while the number of persons employed in ratio to the machinery is less than one-half; therefore, the cost of labor in the cloth is less than it was then."

The *Journal* states that "those who profess to know estimate the cost of Mr. Robeson's canvass for nomination and election at $70,000, and that the ex-secretary was mercilessly bled." We think the long bow is drawn here. The candidate remarked, just before he left Little Boar's Head late in the season, that he did not expect a re-election. The fact was that Mr. Robeson had either initiated or given aid to some congressional action which was intended to make the Baltimore & Potomac railway company remove its station back from the central position it occupied at Washington. This, as far as his re-election was concerned, was a blunder, as the Pennsylvania railroad controlled the line of railway extending through the District from Camden to Cape May, and with their employes and patrons, the administration of the corporation had only to wink to its henchmen, and any man who was found opposed to the great monopoly, and ran for office, simply courted political slaughter. The unreliable statement of the large sum expended by Mr. Robeson to change what he long before the election saw would be the inevitable result, is simply a piece of gossip by which some enthusiastic democrat sold our credulous neighbor.

AROUND HOME.

Senator Rollins was in town on Wednesday of this week; he leaves for Washington on Friday.

A number of persons went from this city to Dover, Thanksgiving eve, to attend a masquerade ball.

Mrs. Leavitt of Stratham, a favorite soprano, will sing at the Unitarian church on Sunday next.

E. W. Bowditch, a civil engineer of Boston, in company with the mayor and Aldermen Sampson and Martin, this week looked over the north millpond and its surroundings, and the engineer it is said alleges that the nuisance can be easily remedied. The people will be glad to see it remedied in some way, whether it is easily done or not.

The law term of the Supreme court will begin at Concord on Tuesday, Dec. 5th. There are upon the Rockingham docket fourteen cases, of which six are appeals from the decision of the Probate court. Among the latter is the appeal of the heirs of Charles W. Berry from the decree accepting the report of a committee to make partition of certain land near Straw's point in Rye, which was decided in the life time of Mr. Charles W. Berry, who has since deceased.

The U. S. S. Marion, which sailed from Monterideo for this port on the 30th of September, should now be not far away, the distance between the two places being not much over 5000 miles.

The unknown schooner previously reported as lying at anchor in the entrance to Cape Porpoise harbor, waterlogged and on her beam ends, was the Brilliant, Snow master, a small vessel belonging to Castine, Me., and bound home in ballast. She sprang a leak in her wood ends, and soon filled. The tag Magnet went from Portland and towed her into Cape Porpoise harbor, where she was beached on the flats for repairs. She is an old vessel, and of little value.

DUPREZ & BENEDICT'S MINSTRELS.

This company, which is to appear at Music hall on Monday evening next, with membership re-organized and programme renewed, played in Manchester a few evenings since, and the *Union* next day said:

The entertainment was an enjoyable one and was well received—full of variety, and was carried through with commendable promptness. The singing by both soloists and chorus was excellent, many of the songs were new, the jokes fresh, and the costumes were novel, bright and taking. Tom Warfield and Archie White were alike good as end men and amusing as character negroes. The burlesque opera "Sarah Burnt Heart" was well done and amusing, and there was lots of fun in the farce of The Polar Bears. The specialties in the way of wholesale banjo playing and song and dance men gave much satisfaction. The company is large, rich in resources, and, with excellent vocalisms and taking specialties, is a deserved candidate for public favor.

Tickets for reserved seats are now on sale at Myers' bookstore.

THANKSGIVING SERVICES.

Services in the North church, Thanksgiving day, will be held at the usual hour in the forenoon, when Rev. Mr. McGinley will deliver a sermon on "The Christian Home." All are invited.

The Thanksgiving service at the South Parish on Thursday will be somewhat novel in its character. In addition to the usual sermon there will be a beautiful service of Thanksgiving for the harvest, with carols, hymns and responses by the congregation and Sunday school. All are invited. Members of the parish are requested to send offerings of the fruits of the earth to the church on Wednesday afternoon and evening, or early Thursday morning, for distribution to the sick or needy.

Thanksgiving services will be held at the Middle street Baptist church, in the forenoon; sermon by Rev. Dr. Alden, on "Our Home and Its Institutions."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan82

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and that terrible discharge has stopped."

CURED BY

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, that [illegible] at the very root of this disease, will cure a large portion of all cases.

HOOD'S

On the strength of the cures effected we feel justified in calling the attention of all who suffer from Catarrh, (whether it be a recent or chronic case), to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years and having tried nearly all the *wonderful cures, so e cures, tabalets*, etc., and spending nearly a hundred dollars *without benefit*, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly increased, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so greatly improved that I write to let you know the facts. I think one or two bottles more will complete a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

THANKSGIVING.

We submit our Thankgiving discourse to-day, not wholly for the benefit of the great majority of our patrons, who with due recognition of their duty in that respect promptly and cheerfully pay their subscriptions, and in consequence have good digestion and enjoy Thanksgiving festivities to the last dainty. We have in mind the doorstep peruser, the man who haunts the lunch counter and calls for the paper, the morning borrower, the head of the family who "sees it down town," in the reading room or at his friend's place of business. We feel, to-day, generous towards all of these; we forget their niggardly selfishness, and only recall their unbounded generosity in giving us their daily approbation, by honoring us with a glance at the good things we serve so regularly that they never can forego their enjoyment. But to our subject:

Again our fall festival has come. While some of us, in spite of our patriotic sentiments, often protest that the anniversary of Independence, with its noise, heat and protracted disturbance, is a bore, all in this region believe in Thanksgiving, and this seems one of our time-honored observances which is not impaired by the change of time.

Many of the states formerly regarded New England's Thanksgiving with feelings akin to those which moved the stiff Highlander to sniff at "the little government Sunday that they call the Fast." But time and the appropriateness of the custom have worked the day into general observance, so that now in almost all the states the day is not only observed, but the preceding week bristles with preparations to honor the Nation's Harvest Home.

"Thanksgiving" originated in the pious sentiment that to the Lord of the Harvest were due the public thanks of the harvesters. The Pilgrims of Plymouth began it. Prompted by their sympathy with the Jewish "Feast of Harvest," and by the fitness of things, they set apart a day on which to rejoice together, "before the Lord," for the yield of "twenty acres of Indian corn" and "six acres of barley and pease." In the spring of 1621, "when the leaves of the white oak were as big as the ear of a mouse",—that being the Indian season for planting—they "set" the corn and sowed the barley and peas. Squanto, the friendly Indian who had been kidnapped by lawless Englishmen, showed them "how to set, fish-dress and tend" the corn. So thoroughly did they manure the ground with herrings, that their old chronicler writes:

"God be praised, we had a good increase of Indian corn, and our barley indifferent good; but our peas not worth gathering, for we feared they were too late sown."

It was one year after the Pilgrims had sighted from the deck of the Mayflower the sands of Cape Cod. "Our harvest being gotten in," writes the chronicler, "the Governor [Bradford] sent four men out fowling, that so we might, after a special manner, rejoice together after we had gathered the fruit of our labors."

Thus began New England's Thanksgiving — a Harvest Home, celebrated when seven log huts housed its founders. Nine years after, the Puritans of the Massachusetts colony observed their first Thanksgiving. It commemorated the arrival of the provision ship which saved the people from starvation. Governor Winthrop, seeing that the supply of food was likely to run short, had sent the ship Lyon to England for a load of provisions. Storms and contrary winds detained the ship so long that the people of Boston were forced to live on clams, muscles, ground nuts and acorns. They became discontented, and murmured. A day of fasting and prayer was appointed. Winthrop had put his last batch of bread in the oven, and was distributing his last handful of meal to a poor man. Suddenly some one saw a ship at the mouth of the harbor. The half-starved people flocked to the beach. The good ship Lyon dropped her anchor, and her cargo of provisions was distributed according to each man's necessities. The day of fasting was changed into a day of thanksgiving.

The festival met the social wants of our pious, but precise, ancestors. They had but little time for merry-making, and they rejected Christmas because to them it was associated with superstitious notions and unseemly practices. But some festival was needed to interrupt the monotonous toil of the year, and give expression to their social and pious feelings. Thanksgiving struck its roots deeply in New England's soil, because it symbolized both the Godward and the manward side of the people's life. It expressed thankfulness to the Bountiful Giver; it extended hospitality and charity to man.

Let us then cherish this festival, and transmit to posterity the evidence of our appreciation of its significance, not only as a holiday season, when family and friendly gatherings everywhere abound, but an era as well when with grateful hearts we individually as well as a people return our thanks with grateful recognition to the Giver of All Good, for His wonderful works unto the children of men.

DECLINED WITH THANKS.

A correspondent who lives almost within a stone's throw of the North church, and who consequently would stand as good a chance as anybody to be disturbed by the ringing of the nine o'clock bell, is so indignant at the bell being silenced that he would have the board of mayor and alderman rebuked for their action in the matter, and *ordered* rather than petitioned to have the ringing resumed. He suggests that the "petition" for the resumption of the ringing should read as follows:

To the "Honorable" Board of Mayor and Aldermen: We, the undersigned citizens of Portsmouth, deem it a piece of impertinence in you, clothed in a little brief authority, to order the suspension of the ringing of the bell at nine o'clock P. M. without first learning if such action was desired by even a small percentage of the people; and we hereby order you to resume the ringing of the bell at that hour, P. D. Q.

As the board was tricked into ordering the suspension in the first place, and will unquestionably rescind the order when requested so to do by any respectable number of citizens, we feel compelled to decline the communication. Besides the fact that to "order" the board is unnecessary, would be disrespectful, and might be harmful to the cause, we do not know what the cabalistic letters "P. D. Q." mean, and must refuse to publish what might get us into a wholesale libel suit, with the whole city government as complainant.

PORT OF PORTSMOUTH.

The arrivals at this port for the month of November, as reported at the custom house up to the close of business on the 29th, were seventy, of which sixty were sailing and ten steam vessels; there was but one foreign arrival. Twenty-five vessels brought coal, to the amount of 11,899 tons, against 23,882 tons landed in October; there were six arrivals with lumber, five with lime, two with cement and one with railroad ties.

POLICE COURT--BATCHELDER J.

WEDNESDAY, Nov. 29th.

John Hunter, drunk, was let off on his promise to leave town.

"RING OUT, WILD BELLS!"

Aldermen Martin's patients had a terrible set-back on Wednesday evening of this week, when one of the wardens of the North Parish, determined that the "sons and daughters" who had come home to spend Thanksgiving should once more have the pleasure of hearing the nine o'clock bell, ordered it to be rung —for that occasion only. This is probably the last time the bell will ever be sounded at that hour, as we understand the humane alderman declares that the action of the board shall not be reconsidered, no matter what the people may say or do about it.

DEATH OF REV. DR. LAMSON.

Rev. William Lamson, D. D., formerly pastor of the Middle street Baptist church in this city, died in Gloucester, Mass., quite suddenly, at half-past four o'clock in the morning on Wednesday, Nov. 29th. Some years ago he had a shock of paralysis, which caused a slight lameness, but he retained his mental faculties unimpaired, and prepared the historical address delivered at the semi-centennial celebration of the First Baptist church in Gloucester last year. He was in comfortable health to the hour of his death, attending divine service on the Sunday previous, and being about town on Tuesday.

Dr. Lamson was a native of Danvers, Mass., and graduated at Waterville college, Me., in 1835; for a short time after graduating he was a tutor in the college, and then went to Gloucester, where he was ordained pastor of the Baptist church in June, 1837, resigning two years later to enter Newton Theological seminary. In 1841 he was again settled in Gloucester, and remained until 1848, when he came to this city and assumed the pastorate of the Middle street church, remaining about twelve years, when he removed to Brookline, Mass., and for about sixteen years was pastor of the Baptist church in that town, finally resigning on account of failing health. He has spent a portion of the summer in Portsmouth for several years past, and occupied his former pulpit at the Middle street church one Sabbath not many months ago.

He married Miss Eliza Giles of Gloucester, who survives; one son, the only offspring of their union, died many years ago.

NO CHRONICLE to-morrow.

The annual reunion and dance of the High School alumni will take place this evening, at Franklin hall. Promenade concert at 7:45 o'clock; dancing at 8:30.

The number of teams on Market square, Wednesday of this week, was less than for many years on the day before Thanksgiving. During the forenoon, when the trade in poultry was at its height, the lead in prices was taken by ducks,—a very unusual occurrence,—they bringing twenty-eight cents per lb., while nice turkeys were sold at twenty-four cents, geese at twenty cents, chickens at eighteen and twenty-two cents, and fowls at fourteen and sixteen cents. Toward evening chickens were sold as low as fourteen cents a pound, and very good turkeys, of small size, at twenty cents a pound.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

HEART DISEASE

IS YOUR HEART SOUND?

Now

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while of the truth were sent to some heart specialist.

The renowned Dr. Clendinning, startlingly says "one third of my subjects show signs of heart disease."

The heart stands about the center, and first man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves a celebrated physician has prepared a work, fully well worth the price of a heart, treating on this subject. It is known as Dr. Graves' Heart Regulator *and can be obtained at your druggists, $1. per bottle, six bottles for $5 by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

A New Nuisance.

A new pest for the farmers is reported to have appeared in eastern Maine. At last accounts it had been found only in the town of Cherryfield and its immediate vicinity. It is said to crawl at a snail's pace, but to multiply rapidly. It is described by a rural editor as resembling a snail, having the power of elongation, and being when at full length three or four inches long. The pest is supposed to have been brought from Europe in some imported shrubbery. Some of the residents of Cherryfield say they have seen great numbers of the species in Ireland, where it is considered one of the filthiest of crawling creatures, and very destructive to nearly every kind of growing vegetable. If this new pest and the potato bug would only come in collision, it would be a good thing.

Dora Richardson and Dennis Ring were before the municipal court in Boston recently, the woman charged with stealing $125 from George W. Walker, of York, and the latter with receiving the same, knowing it to have been stolen. Both were discharged, as Walker, the main government witness, did not show up to sustain the charge.

Now they speak of Crude Petroleum as a remedy for consumption; better not try it, but take Dr. Bull's Cough Syrup, —the standard cough remedy of our age. It is agreeable to the taste, never fails to cure, and costs only 25 cents a bottle.

Deputy Sheriff Twitchell of Norfolk county, Mass., has received several complaints from several parties who claim to have been swindled by a so-called "Atlantic Printing company," established in Boston. Representations have been made, it is said, on a circular, that for the sum of sixty cents the "company" would send a paper with advertisements therein, also an "Essex time-keeper." The time-keeper is a small clock, sold in stores at $1. The parties claim that they have sent the money, but have not received either paper or clock.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

The sum of $1,649 has been received by Thomas Hart of Claremont, as back pension, and $8 per month hereafter.

What A Pity

that so many otherwise attractive, polite and particular people afflict their friends by the foul and disagreeable odor of their breath, it is mainly caused by disordered digestion and can be corrected by removing the cause, by using that pure medicine Sulphur Bitters.—*Health Magazine.*

At the municipal election in Dover, Nov. 28th, Dr. James E. Lothrop, the republican candidate for mayor, was elected by 1060 votes to 948 for Gen. Alfred Holtt, the democratic candidate, a political fossil and dyed-in-the-wool copperhead.

Good health, rosy cheeks and beautiful skin, ladies can get by using Brown's Iron Bitters.

"Ladies' Tonic,"

The Great Female Remedy is prepared by the Women's Medical Institute of Buffalo, N. Y., and is their favorite prescription for ladies who are suffering from any weakness or complaints common to the sex. It is sold by druggists at $1.00 per bottle. Ladies can obtain advice free. Send stamp for names of those who have been cured.

—An Illinois livery stable man who bought a horse of a stranger for $2 did not dream that it was stolen. He simply supposed that horseflesh had cheapened all of a sudden.

—"You are such a strange girl?" said Charley, "really, I don't know how to make of you." "Well, then, I'll tell you, Charley," replied Araminta; "make a wife of me." Charley did so at the earliest opportunity.

—"Little girl, do you know whose house this is?" asked a solemn-looking old man of a bright child seated on the church steps. "Yes, sir it's God's, but he ain't in," she added as the old gentleman was about to walk up the steps, "and his agent's gone to Europe."

LADIES' TONIC.

A Positive Cure for all Female Complaints.

Ladies' Tonic is prepared by the Women's Medical Institute of Buffalo, N. Y., and has been used successfully by ladies for years. It is a *sure cure* for all Female Complaints, Sick and Nervous Headache, Dyspepsia, and all weaknesses caused by those irregularities which are so common to womankind. This is not *Patent Medicine*, but is prepared, after years of experience, and recommended, knowing that it will give new life to any broken-down, worn-out or nervous sufferer of the sex.

If you have tried other remedies without success, do not be discouraged, but give "LADIES' TONIC" a *single trial. It never fails* to give quick and *permanent relief.*

If you are troubled with any weakness or complaint common to our sex, by mails the doctor's prescription (course, and try "Ladies' Tonic," which we guarantee will positively cure you. One Bottle is Sufficient.

Women's Medical Institute is an Association of Ladies and Doctors of Medicine, who give advice and answer letters from ladies *free.*

You will be cured for any case of Female Weakness or inability which "Ladies' Tonic" will cure. This is a *bona fide* offer, made by responsible ladies who know *from experience* what "LADIES' TONIC" can do. Send stamp for circular.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the vein in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. These things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted.

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything—"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest SENECA NATURE'S POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll buy Benson's," said the traveler, pleasantly.

In the center of the genuine is CUT the word CAPCINE.

The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

"PLEASE RING THE BELL."

Of all ill-advised doings of our City Fathers since the incorporation of Portsmouth, none have met with such an outpouring of indignation from the citizens as that of discontinuing the Curfew at nine o'clock. The outcry is unanimous with the home guard, and universal with the Portsmouth boys spread over the wide world. Why any alderman was ever led to undertake the innovation is a puzzle to the average Portsmouth mind. It indicates a degree of "progress" which, for hidden wisdom, beats us all out and out. It is doubtless a wise and benevolent measure, intended to elevate and benefit us all to an extent which can only be comprehended in the unfolding of experience. We stand uncovered before the assembled wisdom of our city, and humbly ask, "Wherefore?" In their supreme dignity they only reply, that an invalid required it. Pardon us, gentlemen, but the answer is too thin. Invalids have endured it for two and a half centuries, and enjoyed it too. If that was the reason, why didn't you stop the noon bell also? Why don't you stop the infinitely worse annoyance of car whistles at night, as well as at all times of day? Why don't you order Mr. Entwistle to go about the city and hush the noise of business, the pounding of the smith's hammer, the shouts and laughter of the children, the jingle of the bakers' bells—in short, why don't you cast a pall over us that will stop all attempts at enterprise or signs of life that remain for us? Why not insist that every citizen shall wear sombre mourning and thus complete the picture of quietude that is essential to the "invalid's" comfort?

But we are short sighted mortals,—we Portsmouth people,—and we are groping in the dark for enlightenment as to the philanthropic design of your wise course in this matter. Can it be that Music Hall is that "invalid?" Some one tells us that the bell annoys the performers and the audience. Perhaps so, one time in fifty. This cannot really be your reason!—it is too paltry for consideration.

Why, Aldermen, the nine o'clock bell is one of the institutions of Portsmouth. Blotting it out is like destroying a beloved member of a household, and creates a degree of mourning that passes understanding. None of the denizens of our old town can forget how it used to be the signal that our mothers gave us to come home by, from our juvenile evening sports—a habit that has clung to many a boy of older growth. It, even in this age of progress, divides day from night, and makes the man of business turn homeward; is in many homes the signal (as was the curfew of old) for preparation for putting out the lights and arranging for retiring; and many a hard working laborer or mechanic hails it as the harbinger of rest, in anticipation of an early rising to the coming day's labor. In how many houses as we go through the streets of Portsmouth do we find all dark by half past nine. Peace follows the time-honored evening bell and we hope it may soon again begin its peaceful signals. A petition to that effect is being signed by many of our citizens.—*Journal.*

What is needed is pure blood, as the influence of its purity upon the health cannot be overestimated. When it becomes impure, it gives rise to a large number of diseases, such as biliousness, sick headache, dyspepsia, loss of appetite, low spirits, nervousness, female complaints, etc. The success which has attended the use of Swedish Botanic Compound warrants us to say that for purifying and enriching the blood, creating an appetite, strengthening and renovating the whole system, nothing surpasses that great remedy.

At North Newport, Me., Nov. 29th, Charles Crowell, aged twenty-six years, while driving Miss Nellie Prilay to her home in North Newport from St. Albans, where she taught a school, shot her through the head and then shot himself, both dying in a few minutes. Miss Prilay was eighteen years old, and Crowell had been paying her attention for two years. No cause is known for the tragedy.

Sick and bilious headache, and all derangements of stomach and bowels, cured by Dr. Pierce's "Pellets"—or anti-bilious granules. 25 cents a vial. No cheap boxes to allow waste of virtues. By druggists. c

In St. Louis, Mo., on the night of Nov. 29th, Rush H. Tevis, a prominent merchant, was seen by Frank T. Inglehart leaving a house of assignation in company with Tevis' wife, and was shot but not killed by the injured husband. All the parties have moved in the best society, Mrs. Tevis being a daughter of Col. Reese, U. S. A., and a niece of Gen. Sherman; she is young, accomplished and beautiful. After the shooting she supported her paramour until the arrival of a carriage, and then went to her father's house, not daring to go to her husband.

Catarrh.

Ely's Cream Balm Co., Owego, N. Y. Gents: I have been a severe sufferer from catarrh for 15 years, having distressing pain over my eyes, gradually the disease worked down upon my lungs. About a year and a half ago I commenced using your Cream Balm, with most gratifying results, and am to-day apparently cured. Z. C. Warner, Rutland, Vt., April 31, '82.

Ely's Cream Balm has completely cured me of catarrh, of which I have been afflicted over ten years, after trying almost every remedy recommended, none having proved so effective and thorough. S. J. Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good catharic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and effectual. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

At the Coliseum theatre in Cincinnati, Thanksgiving afternoon, as Frank Frayne was attempting the idiotic feat of shooting an apple off the head of Annie Von Behren, aiming backward over his shoulder, owing to an imperfection in the rifle the bullet went through the girl's head, killing her in a few minutes. Frayne, who it is said was engaged to marry the young woman, was made nearly insane. The audience, numbering 2800, were gotten out of the building without their knowing that a fatal accident had happened.

It gives me pleasure to say that Adamson's Botanic Balsam cured me of a severe cold to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefited by its use. We think it has no equal as a cough mixture. U. L. Pettengill, No. 10 State St., Boston.

Dr. Wm. D. Corkin is under arrest in Lynn, Mass., for criminal malpractice on a Miss Cain; also for having in his possession a quantity of obscene literature. He was formerly pastor of a church at Amesbury Ferry, Mass., but resigned under a cloud.

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

Major Wm. Walker left in his will $1000 to the Unitarian society in Concord, and $3000 to the Unitarian Female Benevolent society, on the death of his widow.

"Among the ladies who may read this there may be several sickly ones who have made up their minds to act on the old saw which specifies that "What can't be cured, must be endured." While the truth of the old proverb is self-evident it is just possible they may have erred in judgment as to the possibilities of the healing art outside of the medical profession, and before giving up in despair they had better test the efficacy of Mrs. Lydia E. Pinkham's Vegetable Compound, which is now attracting universal attention.

It is stated that Hon. Ossian Ray of Lancaster will open a law office in Concord shortly.

A Wonderful Showing.

The Mutual Life Ins. Co., of New York, has published a statement of the results of 100 of the earlier policies (held by survivors of the first thousand members) issued by the company, showing the enormous increase from $311,850 insured, to $685,256 due the policy holders the present year, or more than double the sum of original insurance. This is explained by the fact that this company has no stockholders to claim any of the profits, but all the increase and gains of the vast capital which the company has gathered, amounting on New Year's, 1883, to nearly one hundred millions of dollars, belongs to the insured, in proportion to the amount and date of their policies.

The largest institution of the kind in the world, as well as the oldest in this country, its financial growth is a marvel of good management, keen foresight and conservative progression, unparalleled in the history of any similar undertaking.

Wrecks.

The British steamship Cedar Grove, of 2181 tons, launched in September last, was totally wrecked on Walker reef, off Cape Canso, in a gale on Nov. 30th, on the passage from London for Halifax. The mate, chief engineer and twelve men landed at Canso in one of the steamer's boats; but nineteen persons, including the captain, his wife and a lady passenger, a Miss Fairlee or Farrell, were missing up to the evening of the 30th, and were supposed to be lost. The vessel was valued at $150,000, and was insured $130,000.

The schooner Parole, coal laden, was run into off Cape Canso Nov. 30th by the steamer Liddesdale, and abandoned. The Parole had previously picked up a boat containing the mate and ten men of the wrecked steamer Cedar Grove, all of whom, with the schooner's crew, were landed at North Sydney, C. B., by the Liddesdale. The schooner was picked up and towed into Halifax. The captain, second and third engineers and steward of the Cedar Grove, and Miss Farrell, were still to be accounted for.

News and Notes.

Rear Admiral Robert H. Wyman, chairman of the lighthouse board, was stricken with paralysis in Washington on the 1st inst., and was reported to be dying.

At Marlboro', Mass., Nov. 30th, Joseph Moriarty, aged fifteen years, fatally shot his sister Minnie, aged eight, with an old gun. Didn't know it was loaded. The girl died during the night, and the boy was arrested next day.

At the Magnolia cemetery, Charleston, S. C., Nov. 30th, a monument to the confederate dead was unveiled in presence of 15,000 spectators. Senator Massacre C. Butler made the oration.

A carriage containing Hugh Rickert, his wife and two sons, was struck by a train at Garfield, Ill., Nov. 30th; the woman and one son were killed, the man fatally hurt, and the other son had an arm broken.

Dr. Oliver Wendell Holmes on Nov. 28th delivered his last lecture before the Harvard Medical school.

The schooner Annie F. Conlon has been chartered to bring 850 tons of coal to this port, and the schooner Brigadier to bring 900 tons, to J. Albert Walker.

The schooner Gold Hunter, Capt. Hartley Weare, in leaving York harbor one day this week ran on the rocks, and was considerably damaged, her wood ends being started, transoms broken, and forward house displaced.

The schooner Water Lily, of Eliot, is being fitted with new spars by Theodore Fernald of that town.

Boat Rambler of Kittery, fifteen tons, Achorn master, has arrived home from shore fishing, and is laid up for the winter at Kittery.

At Sanford, Thanksgiving day, Justus Bennett was accidentally shot while gunning, the charge shattering his left leg. The limb was cut off above the knee, but the man died in the afternoon.

The schooner Virginia, Abbott master, from Boston bound to Sullivan, Me., sprang a leak Nov. 27th, when fifteen miles northeast of Cape Ann, and made for Wood island harbor, in trying to enter which she struck on a ledge, where she remained until assisted off by the crew of the life-saving station.

Albert Cameron, one of the crew of the fishing schooner John H. Kennedy, of Portland, Me., while out in a dory taking in trawls, Nov. 28th, was capsized, and supposed by his mates to have been lost, but was picked up by the schooner Henry Johnson and carried into Eastport.

The fishing schooner Miantonomah, of Newburyport, 77.45 tons register, was recently sold to Capt. John Staples of Swan's island, Me., and while on her way to her new hailing port struck a ledge in "The Thoroughfare," near Green's Landing, Me., bilged, and will probably prove a total loss. Capt. Staples paid $4500 for the schooner, the savings of his fishing trips for the past half-dozen years, and the insurance was less than half the vessel's value.

CATARRH

A mother says: "My boy had catarrh so badly that I could hardly keep him in clean handkerchiefs; he has taken one bottle of Hood's Sarsaparilla and the terrible discharge has stopped."

CURED BY HOOD'S

We believe that nine-tenths of all cases of catarrh are constitutional. We also believe that a reliable constitutional remedy like Hood's Sarsaparilla, to Hood's Sarsaparilla, and suggest that they give it a trial. It is only fair and reasonable to expect that it will do again what it has already done.

SARSAPARILLA.

"I am under great obligations to you for the benefit I have received by taking only three bottles of your valuable Sarsaparilla. Having been a sufferer from catarrh for six or eight years, and having tried nearly all the *wonderful cures, as a curse, saved* a great deal of money by spending nearly a hundred dollars *without benefit*, I accidentally tried Hood's Sarsaparilla; the discharge from my nose was greatly lessened, the first bottle I took, then it gradually became less, and in taking less than three bottles I find myself so great y improved that I write to let you know the facts. I think one or two bottles more will make a cure that I would gladly have given a hundred dollars for. Let the sufferers of New England know that Hood's Sarsaparilla will cure catarrh." M. A. Abbey, Worcester, Mass.

Hood's Sarsaparilla

Sold by Druggists. $1; six for $5. Made only by **C. I. HOOD & CO.,** Apothecaries, Lowell, Mass.

CATARRH

HAY-FEVER

A POSITIVE CURE IS ELY'S CREAM BALM FOR Catarrh & Hay Fever. Agreeable to Use UNEQUALED FOR COLDS IN THE HEAD Headache & Deafness, or any kind of mucous membranal irritations, inflamed and rough surfaces. A preparation of undoubted merit. Apply by the little finger into the nostrils. It will be absorbed, effectually cleansing the nasal passages of catarrhal virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. Will deliver by mail for a package—postage stamps. Sold by wholesale and retail druggists. LIFE INSURANCE!

The Semi-Endowment Policy of the Mutual Life Insurance Company of New York is believed to be the most desirable plan of insurance ever offered.

Among its advantages are: A definitely guaranteed cash value at a specified time. A paid-up policy for full value in case of discontinuance. Its period (20 years) covers the productive years of life, when insurance is mostly needed. It provides for old age. Above the age of 40 the rates are less than for life policies in other companies, while below 40 they are but little in excess of ordinary life premiums.

Parties insured in Co-operative Societies are requested to compare the net cost of these policies with that of assessment insurance.

A CAPITAL JOKE.

One of the best practical jokes we have heard of lately was the one played on the citizens of Portsmouth by our genial and dignified friend, Hon. M. Bufford, with the North church bell, on Thanksgiving eve. Ordinarily the practical joke depends for its "fun" on the annoyance, inconvenience, embarrassment or terror which it occasions its victims; but this one was a source of pleasure even to those who were "sold" by it, as all who heard the cheerful tones of the bell were delighted at the presumed return of the board of mayor and aldermen to common sense, it being very naturally supposed that that at present highly unpopular body had ordered the resumption of the ringing. When it was learned next morning that the ringing was "for one night only," they were still pleased that the bell had sounded, so that the natives of Portsmouth now dwelling in other places who had returned to spend our great New England festival at their former home, might not think they had stopped in the wrong city.

Though the North church was silent on the evening of Thanksgiving day, we still had the nine o'clock bell, the heavy metal in the tower of the Unitarian church being set in motion at the proper time through the instrumentality of Col. Sise, who has shown active interest in securing a practical expression by the people of their sentiments concerning the attempted abolition of the ancient custom by the board of aldermen.

On Friday evening the bell of the Universalist church sounded the nine o'clock notice, by order of the wardens,—and it was sounded liberally, too.

The annual meeting of the New Hampshire Society for the Prevention of Cruelty to Animals will be held at the office of the society on Monday, December 4th, at 7:30 o'clock P. M. J. R. MAY, Sec'y.

AN "ILLEGAL" EXPENDITURE.

Editor Chronicle: I understand that the board of aldermen have a doubt as to whether they can *legally* appropriate money for the purpose of ringing the nine o'clock bell; if this is the case the board should be credited with a desire to do what is right, rather than censured for an alleged wrong. I think that it is the wish of our people, both at home and abroad, that the time-honored custom should prevail,—and as an earnest of my views (in the event that the city cannot legally appropriate the necessary funds for the purpose) I will be one of thirty who will pay five dollars each to a proper party to ring the bell for one year.

J. HORACE KENT.

[*Note.* Our liberally-disposed fellow citizen is never backward in generous acts, but we have never until within a few days heard that there was any "Constitutional" objection to the appropriation of money for the purpose referred to. The aldermen did not order the ringing to be stopped on the ground that the city could not legally pay for having it continued, but "on account of sickness;" and an attempt to make out that the action of the board was due to any legal scruples would be a subterfuge as cowardly and contemptible as was the original order to stop the bell.

It has been suggested by another of our valued subscribers that the bell could be rung by the police officers on duty at the station house, as is done in case of fire alarms, and thereby the expense of employing a man especially to ring the bell be saved—*Ed.*]

MASONIC ELECTION.

The annual election of officers of St. Andrew's lodge, No. 56, A. F. & A. M., occurred at a special communication on Nov. 30th, with the following result:

Wallace Hackett, W. M.;
James H. Broughton, S. W.;
Lemuel T. Davis, J. W.;
Wingate N. Ilsley, Treasurer;
Samuel M. Joy, Secretary;
John Pender, representative to Grand Lodge;
Wm. P. Walker and Wm. F. Batten, standing committee.

District Deputy Grand Master William O. Junkins will install the officers at the next regular communication, December 11th, when other officers of the Grand Lodge, and visitors, are expected to be present.

The snow which fell on the night of the 29th ult. made the travelling about town on Thanksgiving day better for runners than for wheels.

The seventh annual reunion of the High School Association was held in Franklin hall on Thanksgiving evening, the exercises consisting of a concert of three-quarters of an hour by Harlow's orchestra, followed by a dance. The attendance was large enough to fill the floor with dancers and the galleries with spectators, and a very pleasant time was had until shortly after midnight, when the gathering dispersed.

The new Catholic church at South Newmarket was dedicated on Thanksgiving day, Bishop Healy officiating, assisted by twelve priests. The choir of the Catholic church in this city supplied the singing.

Capt. R. F. Bradford, of the flagship Tennessee, and Commander Wadleigh, of the Alliance, were able to enjoy their Thanksgiving dinners with their respective families in this city on Thursday.

Duprez & Benedict's Minstrels played in Lowell on the night of Sept. 2d, and the *Courier* said: "It was throughout a minstrel performance of the best order. The singing, both by the soloists and chorus, was excellent, the songs and jokes were as new and taking as the costumes of the performers were fresh and brilliant, and the entertainment left nothing to be desired. The specialties in the way of wholesale banjo players and end men gave much satisfaction; and the burlesque opera, "Sarah Burnt Heart," and "The Polar Bears," were capital acts which were heartily enjoyed."

At Music hall Monday evening; tickets at Myers'.

At a meeting of St. John's Parish, held in the chapel on Friday evening, an invitation was extended to Rev. Henry E. Hovey of Brooklyn, N. Y., to become their rector.

Four young men belonging to Eliot neck left this city for home on the afternoon of Thanksgiving day, in a small boat not capable of carrying them, and were capsized in the tide off Freeman's point; two of them hung to the boat, and the other two swam ashore, one of the latter carrying a line with which the boat was hauled to the river bank. A warm fire felt good to them when they reached home.

Tickets for Mr. and Mrs. George S. Knight in "Baron Rudolph," at Music hall next Tuesday evening, may be had of members of the Grand Army post and Myers' bookstore. The Buffalo *Courier* says of the comedy that "The plot is an excellent one, the dialogue is pointed and pithy, the characters are admirably individualized, the humor and sentiment are fine, and the 'business' is all good. Indeed Baron Rudolph is an admirable play, and we are indebted to it and to Mr. Knight for a character such as has not been created since 'Rip Van Winkle' first saw the light."

The schooner G. W. Raitt, Coleman master, bound for Cohasset, and the Hattie Lewis, Brewster master, and the Emily A. Staples, Coleman master, for Boston, all brick laden, were at the draw of Portsmouth bridge on Friday.

The city clerk issued marriage licenses to seventeen couples during the month of November, of which in nine cases either one or both of the high contracting parties were residents of this city.

Having recovered from a severe attack of illness, Mr. Richard H. Paine has assumed the duties of clerk to Paymaster Macmahon, paymaster at this navy yard, which position has been temporarily filled by Mr. Armes, late pay clerk on the Boston yard, during Mr. Paine's enforced vacation.

A dance was given in the town hall at Newington on the night of Thanksgiving day, with music by James Drew's quadrille band.

Surveys are being made for a spur track from the main line of the Portsmouth & Dover railroad to Ira Pinkham's brick-yard at Dover point.

A great many of us sympathize with the jolly parson (and we do not intend to abuse his hospitality by mentioning his name) who, as he sat back in his chair from a bountiful evening feast, holding his cigar in his fingers while he struck his match, said in his best ministerial manner to his neighbor: "My dear sir, there are two virtues which lead to self-righteousness. One is early rising, and the other is abstinence from the use of tobacco." That very parson, eloquent and able beyond the mass of his profession, has been and is one of the healthiest and strongest agencies for good in this country. He believes in good living and healthy thinking, and that it is a man's duty to take care of his body as well as his soul.

6 per Cent. Gold Bonds.

TOPEKA, SALINA & WESTERN

RAILROAD CO., OF KANSAS.

This Company was organized for the purpose of giving railroad facilities to the people of Shawnee, Wabunsee, Morris, Dickinson, Saline, Lincoln and Osborne counties, and is to run from Topeka southwesterly and westerly, as above indicated, to Delhi, near the eastern line of Osborne county, a distance of 181 miles, passing through that remarkable territory known as the "Great Wheat Belt of Kansas." This particular territory has been, and now is, without adequate railroad conveniences, there being from 15 to 30 miles on each side of this proposed line unincumbered by any railroad, notwithstanding the population of the eight counties through which the road passes numbered in 1881 one hundred and twenty-five thousand souls, and every acre of land susceptible of the highest cultivation.

This Company will issue six per cent. forty-year bonds, **principal and interest payable in gold**, in the city of Boston, at the rate of $20,000 per mile, and will issue its stock at the rate of $25,000 per mile; these said securities to be delivered to the contractor on the completion of the road in sections of ten miles each; said completion, according to specified requirements, to be certified to by the Chief Engineer of the Company before the delivery of the bonds and stock for such ten miles.

The work of construction is progressing rapidly, and it is estimated that by the 1st of December the road beds will be completed 40 miles west of the city of Topeka, to the town of Alma.

Subscriptions to these bonds may be made at the office of the contractor on the following terms:

For $800, twelve shares of stock (par value $50 each) and a $1000 bond will be given, the latter bearing interest at six per cent. *from the date of sale.*

This price will be advanced from time to time as the building of the road progresses, or within the discretion of the contractor.

Full particulars will be cheerfully given to those who may call at the office, or any inquiry by mail will be promptly answered.

KNOWLEDGE IS POWER.

READ!

KNOW THYSELF.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who desire a clear, concise, practical work should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the follies of youth, or too close application to business, may be restored and manhood regained.

This edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing what ever that the married or single man either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded to every instance.—[Author.

S. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

HEART DISEASE

IS YOUR HEART SOUND?

Many people think themselves sick and doctor for kidney or liver troubles, or dyspepsia, while if the truth were known, the real cause is at the heart.

The renowned Dr. Cheesbrough, startlingly says "one-third of all subjects show signs of heart disease." The heart weighs about one ounce, and yet man's twenty-eight pounds of blood passes through it once in a minute and a-half, resting not day or night! Surely this subject should have careful attention.

Dr. Graves's celebrated Heart Regulator is a specific for all heart troubles and kindred disorders. It is known as **Dr. Graves' Heart Regulator** *and can be obtained at your druggists, $1. per bottle, six bottles for $5. by express. Send stamp for Dr. Graves' thorough and exhaustive treatise.* (1)

[From the Portsmouth Journal.]

—Within the past eight weeks the bodies of two infants have been found on the Bay-side shore in Greenland, one apparently about seven months and the other a few weeks old. Both were tied up in cloth, and it is supposed floated down from Newmarket.

—Moses Souther of Seabrook, who was recently confined in Portsmouth jail, awaiting trial for an assault on his father with intent to kill, was released on bail one day last week. The next day he committed an assault on his mother, and he is now recommitted.

—Mr. Frank Scammon of Stratham sailed from Boston last week for Savannah, Ga., thence to Florida, New Orleans and Texas, the trip combining pleasure with business. Three gentlemen from Exeter go as far as Florida, including Geo. W. Wiggin, Esq., the insurance agent.

—In less than a week after the fire which destroyed the property of Col. Jerome C. Butler on Lafayette road, some one visited his well stocked vegetable garden adjoining and stole and carried away everything therefrom. About fifty pounds of old iron had also been gathered from the ruins of the buildings and carefully secreted under a wall, with the evident intent of being carried away and sold.

—A new engine and machinery of increased power has been put into Berry's steam saw mill at Hampton, and the town votes overtures of exemption from taxation of his mill property on condition that he will add power for crushing and grinding corn on the cob, an improvement very much needed, since the blind folly of the town in destroying the "Old Tide Mill." It is thought that with an added "grinder" farmers would largely patronize this mill, instead of buying their corn meal.

—About January 15, 1883, the Ehrlich invention, adopted by the government, consisting of a combination letter sheet and envelop and stamp all for three cents, and a circular letter and envelope and stamp for one cent, are to be placed on sale at the principal post offices of the country. The single letter sheet is manufactured with gummed flaps which when the sheet is folded, lap over two open edges and secure the missive. The government stamp is to be embossed on one of the flaps, which comes over like the flap of an envelop. This brings the stamp where the old wafer and seal used to be, instead of being on the upper right-hand corner, as at present. The postmaster will not be compelled to apply cancellation stamp. A letter cannot be opened nor the endorsed stamp removed without destroying the stamp.

—Step into the telephone apartment and note how quickly you will find out that of all the dreary monotonies, that of the telephone operators in the central offices is the worst. It is "hello" day in and day out. That is the burden of their life. They put the receivers mechanically to their ears when annunciators drop, call out the numbers, and repeat the movement over and over again. Young women are employed almost entirely in the exchanges. Men could not be induced to sit 10 hours a day in a chair and respond to the call of "hello." When boys start in to learn to be operators they tire before they attain proficiency. Women are the only ones who will stick to the work. But why the word "hello" is the invariable telephone salutation remains a great mystery. "You wouldn't exclaim 'hey there?' or 'say you?' would you?" asked the superintendent of the telephone company. "I'd like to know what else you'd say but 'hello.'"

By the vote of the City Government of Boston, a mural tablet is shortly to be placed upon the restored old State House, with the following inscription graven upon it:

On this spot stood until by burning, Oct. 2, 1711,
Was the Town House of Boston.
Founded in 1657, by the liberality of Capt. Robert Keayne.
Here in 1713 was erected the second town house,
Whence walls endure to this day, as do the floors
And vault, constructed when "the city's second fire
Had devoured its chambers.
Here the loyal assemblies obeyed the crown;
Here the spirit of liberty was nursed and guided
By the eloquent appeals of James Otis, counsels
Of Otis, Adams, Quincy, Warren, Cushing and Hancock.
"Where the child Independence was born."
Here Washington received the thanks of a liberated people.
Here was installed the government of a new state.
Here for ten years our Civic Rulers assembled.
And here,
By the vote of the City Council of 1881,
Have been reconstructed in their original form,
The Council Chamber and Representatives' Hall—
Hallowed by memories of Revolutionary heroism.
May our children preserve the sacred trust.

BEYOND THE RIVER.

Away Across the Mississippi is Held a Convincing Conversation.

"I tell you sir, that they are one of the nearest combinations ever produced, and my experience of that sort of thing has been wide enough to entitle my judgment to some respect."

"Oh, I don't know, responded the first speaker's friend, with a little yawn, as though he didn't take much interest in the subject, "I have never been able to see much difference in those things. They are all pretty nearly the same size, and made of about the same stuff."

The talk, of which the foregoing is a fragment, took place in Gallatin, Missouri, not long ago, in the snug office of Dr. M. P. Flowers, one of the leading physicians of the State, who followed up the train in which he had introduced it substantially in these words:

"Nonsense, that is the rigmarole of a boy, or rather of a man who either doesn't know or doesn't care what he says. Those things, as you call them, are just as different as the moon is from green cheese. Now, liniments, lotions and ointments are very good in most cases for the relief of pain or inflammation. But, in the first place they are unclean. They soil the hands and the linen, besides being always out of reach when they are most wanted."

"Well, my dear Doctor," sighed the traveler from the North, "what would you have? This is a wretched world anyhow, and nothing is ever at hand when it is wanted. "You can't suggest anything——"

"Yes, I can," broke in the Doctor, thumping the table with his fist, "I can suggest BENSON'S CAPCINE POROUS PLASTER. I have tried it on my patients, and I have tried it on myself for an attack of Pneumonia, and in all cases relief has followed in from three to forty-eight hours. The old plasters are stage coaches—the Capcine is a telegraphic dispatch. For instance, in cases of Neuralgia, Muscular Rheumatism, Lumbago, retarded action of the Kidney's, and——"

"I give it up, Doctor, and in case of need I'll try Benson's," said the traveler, pleasantly.

In the center of the genuine is cut the word CAPCINE.

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week's invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN' IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.

Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the *King of medicines*.

JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with boils? Why pay with the terrible Headache? Why lay and toss on that bed of pain, with rheumatism? What makes you tremble so? Your nerves are all unstrung, and need a good soothing tonic to assist nature to repair the damage which your excesses have caused. *Rum or poor whisky Bitters to be taken by the glass, like other preparations which stimulate only.* TO DESTROY, it is composed of the choicest Roots, Barks and Herbs, combined with the EXTRACT OF SULPHUR in such proportions as to make it NATURE'S GREAT NERVINE.

SULPHUR Bitters

The Dose is small—only a Teaspoonful. It is the *best and cheapest* medicine. Try it, and you will be satisfied. Get it of your druggist.

An Indispensable Contrivance.

The value of an article is almost always indicated by its price, and for years the people were content to pay $3.00 for a genuine Livermore Stylographic Pen, and the same pens are yet doing good service. The success of these pens led unscrupulous persons to get up inferior imitations, which they offered at such low prices that many persons not understanding the difference, were induced to buy them. The Livermore company then cut down the price of their short, plain pens to $2.00, and short gold-mounted to $2.50 each, to give everybody a chance to have the best article of the kind. They can be bought for that money by remitting the amount to Louis E. Dunlap, Manager Stylographic Pen Co., 290 Washington street, Boston; the pen, together with a package of superior ink, will be sent by return mail, and the money will be at once refunded if they do not prove to be perfect and satisfactory in every respect. There is nothing more appropriate than a stylograph, as a gift to a lady or gentlemen. The Stylographic Pen Co., who manufacture the Livermore pen, is the largest concern of the kind in the world, with branches at New York, Chicago, and London, Eng. The Livermore Stylographic pen is a pencil which writes ink, never needs sharpening and never wears out, and has been adopted by over 500,000 knights of the quill in this country and abroad. Any one who has learned to use a Livermore pen will not be persuaded to do without it, and any one who has not learned to use one should get one at once.

A doctor at Richmond says that if people will take a bath in hot whiskey and rock salt twice a year they will never catch a cold. Until somebody has tried this new remedy we would say:—stick to the old and reliable Dr. Bull's Cough Syrup.

The schooner H. Folger, bound from Cleveland for Brockville with coal, was wrecked on Salmon Point reef last Thursday night, and all hands, nine in number, were lost.

What A Pity

that so many otherwise attractive, polite and particular people afflict their friends by the foul and disagreeable odor of their breath, it is mainly caused by disordered digestion and can be corrected by removing the cause, by using that pure medicine Sulphur Bitters.—*Health Magazine.*

Columbia, Conn., has a fresh instance of the remarkable capabilities of somnambulists. Sophia Thompson, a "stocky" girl, rose from her bed the other night, crowded herself through a hole in the floor of her room, a foot square and made for heating purposes, and dropped nine feet to the floor of her mother's room below—still sound asleep. Her mother shook her awake, and people are now wondering how she got through that little hole with only a bruised foot.

Hale's Honey of Horehound and Tar has a larger sale than any other cough medicine. Pike's Toothache Drop cure in one minutes. The nutritive properties of Colden's Liquid Beef Tonic sustain the body without solid food. Colden's; no other.

The steamer Gellert, which recently arrived at New York from Europe, had thirteen children die on the passage.

***Wise men say nothing in dangerous times. Wise men use nothing in dangerous diseases but the best and most approved remedies. Thus Kidney-Wort is employed universally in cases of diseased liver, kidney and bowels. It will cost you but a trifle to try it, and the result will be most delightful.

Three noted burglars were captured in a beer saloon in New York on the 1st inst., while they were wrangling over $2000 worth of silk which they had stolen.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

Marvelous Cure of Stone in the Bladder—Large Stones Removed by "Kennedy's Favorite Remedy."

From the Pittsfield, (Mass.,) Eagle.

Stone in the Bladder is at once a most annoying and very dangerous ailment; but many most remarkable cures have of late been wrought by "Kennedy's Favorite Remedy"—the invention of Dr. Kennedy, of Rondout, N. Y. Another striking case is now added to the list. Mr. Peter Lawler, of Dalton, Mass., states in a letter to Dr. Kennedy that he had been troubled with bladder complaint for 14 years, and had consulted at different times seven physicians; but nothing beyond temporary allayment of the pain had been worked for him. Towards the end of last January Mr. Lawler called on Dr. Kennedy. Sounding him the doctor "struck stone." He decided that Mr. Lawler should first try the "Favorite Remedy," so as, if possible, to avoid an operation. And here is the remarkable result: "Dear Dr. Kennedy—The day after I came home I passed two gravel stones, and am doing nicely now. If you would like to see the stones I will send them to you." This letter bears date "Dalton, Mass., Feb. 6," and is signed "Peter Lawler." The stones, which are so large as to warrant for "Kennedy's Favorite Remedy" the claim that it is the most successful specific for stone yet discovered, are now in Dr. Kennedy's possession. Incidentally Mr. Lawler also states that the "Favorite Remedy" at the same time cured him of a stubborn case of rheumatism; and it is a fact that in all affections arising out of disorders of the liver or urinary organs it is a searching remedy and works marvelous benefits. It is in itself almost a medicine chest. Order it of your druggist. Price $1 a bottle.

PATENTS!

R. H. EDDY,

No. 76 State St., Opposite Kilby, Boston,

SECURES PATENTS in the United States; also in Great Britain, France and other foreign countries. Copies of the claims of any Patent furnished by remitting one dollar. Assignments recorded at Washington. *No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.*

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

Perhaps no medicine is so universally required as a good cathartic. Swayne's Pills are prepared expressly to meet this necessity, being composed of purely vegetable ingredients, of which Podophyllin or Mandrake, Sarsaparilla, Yellow Dock and other concentrated juices enter largely into their composition; the whole strength of which is extracted on an entirely new principle. They are mild in their operation, and are truly a valuable aperient and anti-bilious medicine. They stimulate the liver to healthy action, cleanse the stomach and bowels of all impurities. Curing sick and nervous headache, dyspepsia or indigestion, biliousness, fevers, drowsiness, colds, aching pains, slight chills with flashes of heat, and female irregularities. For a bilious and costive habit, no medicine is so prompt and efficacious. Mailed on receipt of price [in postage stamps,] 25 cents, or five boxes for $1. Address Dr. Swayne & Son, Philadelphia, Pa. Ask your Druggist for them.

Frank Frayne was dismissed by the police court in Cincinnati on the 2d inst., on a charge of manslaughter in shooting Annie Von Behren to death in a theatre.

It gives me pleasure to say that Adamson's Botanic Balsam cured me of a severe cold to which I have been subject, especially during the winter months, and I have in many instances recommended it to my friends, and all have been benefitted by its use. We think it has no equal as a cough mixture. U. L. Pettengill, No. 10 State St., Boston.

Wm. F. Beals, eighteen years old, broke through the ice at East Stoughton, Mass., last Friday night, and was drowned.

Mr. Lewis E. Staples has secured the agency for the Dorcas, Saxony, Knitting Worsted and Germantown yarns, which have become so popular throughout the east. The shades and colors are just what are wanted. octfjan19

Portsmouth Chronicle.

MONDAY, DEC. 4, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Official List of Patents

Granted to citizens of New Hampshire, for the week ending Nov. 28th.

[Compiled weekly expressly for this paper.]

John W. Merrill, Jr., assignor to J. W. Merrill, Concord; sheathed bladder-forceps. No. 268,039; application filed May 11th, 1882.

Joseph D. Westgate, Manchester, assignor of one-half to G. H. Allen of Lynn, Mass.; apparatus for turning off water in pipes in buildings.

The Nipsic Ashore.

A despatch from Lisbon, Portugal, to London, on the 1st inst., reported a United States vessel ashore at the entrance to the river Tagus. A despatch of the 29th ult. to the navy department at Washington, from Gibraltar, said the U. S. S. Nipsic would sail from the latter place that day for the United States, by way of Lisbon.

A despatch of Dec. 2d from Lisbon says the Nipsic got aground while entering the river, but floated in a short time, and proceeded to Lisbon; the grounding merely amounted to touching the sand.

Some Democratic "Reform."

A despatch of Nov. 29th from New Orleans gave the rather astonishing information that the governor of Louisiana, McEnery, had refused to issue a certificate of election to Congressman-elect Kellogg (who had a majority of some thousands) on the ground that Kellogg is not a resident of his congressional district, nor of Louisiana!

In answer to the ridiculous pretences of the "reform" democracy, as promulgated through their mouthpiece McEnery, Senator Kellogg has prepared a statement showing that he went to the state in the spring of 1865; that he was the sixth man registered under military reconstruction in 1867, in the parish of Orleans; that he has since constantly registered and voted in the state, bought and sold property, and sued and been sued in the state courts as a citizen of the state; has been, during his residence, four years governor of the state, and ten years United States senator, and is still senator; has been recognized repeatedly as governor and senator by both national and state governments; has large planting interests in Iberia parish, in the 3d district; when he ceased to be governor his household goods were removed from New Orleans, then the state capital, to the parish of Iberia, in his district, where he has since resided and now resides, and where he is now a registered voter.

Notwithstanding all this, he is refused a certificate on the ground that he is not a resident of Louisiana, the supposition being that "the democratic reform House" will promptly seat his competitor, who was seven or eight thousand votes behind at the polls.

It is said that the democratic leaders at Washington are seriously troubled over the actions of their southern brethren. The villainous outrage by which Fort Pillow Chalmers, the pal of Butcher Forrest in the wholesale murder of unarmed prisoners, was swindled out of an election through the purposed "mistake" of a democratic official who returned 1400 votes cast for Chalmers as having been cast for some other person, was bad enough; but this Louisiana infamy is still worse. The level-headed ones among the democratic leaders fear that the democratic party will again, as so often before, make little use of their late victories other than to demonstrate the utter unfitness of the party to control the affairs of the Nation; and really it does look as though their fears were well grounded.

News and Notes.

The ninth number of the *Tomahawk*, published at Washington, D. C., under the editorship of Mrs. Braendle (Pips.) contains an excellent sketch of Hon. William E. Chandler, Secretary of the Navy, accompanied by one of the very best likenesses we have ever seen of the man of whom the *Tomahawk* maintains that "the President has shown a keen knowledge of men when he selected him to accept the portfolio of the United States navy."

The *Mercury* of Newport, R. I., says: "Most of our citizens fail to see where the profits of the training fleet to Newport, is to be derived. The fleet, from the present outlooks proposes to stop in winter in southern waters and to summer on foreign cruises. What time is left for Newport does not yet appear; in short, the general opinion is that we have been sold and the goods delivered without any compensation. It remains now to be seen how much the state is willing to do toward paying for the site which it tendered the general government."

Henry N. Sawyer, a professor of music, residing in New York, cut his throat with a case-knife at Green's Farms in Bridgeport, Conn., Nov. 30th, and then jumped into the river close by. He died almost instantly, the throat being cut from ear to ear. He was about thirty years of age.

Defaulter Albee of Winchester, who was committed to the penitentiary recently, after having through feigned illness and other means delayed his fate for a year and a half, passes his time entirely upon the bed in his cell. His physical prostration is now unquestionably complete.

Fire was discovered, Saturday morning, at the Concord railroad station in Nashua, in a freight car loaded with sixty bales of cloth belonging to the Stark mills of Manchester, en route to the selling agent. Considerable damage was done by fire and water.

The *Times* remarks that this paper "suggests that the policemen ring the [curfew] bell as they do the fire bell. Let us suggest that, as nine o'clock is about the time the genial editor of the CHRONICLE commences his labors, *he* ring the bell." We didn't suggest that the policemen ring the bell; we said another person suggested it; and we don't believe in it, for a policeman is as liable to be otherwise engaged at nine o'clock as at any hour of the night, and we want the bell rung regularly. As to our ringing the bell, the city is now paying one man for doing that work, and we don't want to hoist any man out of a job.

Rear Admiral Robert H. Wyman, U. S. N., chairman of the lighthouse board, died in Washington at about three o'clock last Saturday morning, having been stricken with paralysis the day before. He was born in this city, and entered the navy as midshipman in 1837. He was actively employed during the war, and commanded on her first cruise the steamer Sonoma, built at this navy yard. He was commissioned a rear admiral in 1878.

The United States revenue steamer Albert Gallatin, Capt. D. B. Hodgsdon, sailed from Boston on Saturday on her winter cruise for the relief of distressed vessels; her orders are to cruise until the 1st of April between Edgartown, Mass., and this port, keeping as close to the land as the safety of the vessel will permit, and keeping a sharp lookout for vessels in distress.

Hon. Wm. G. Perry has purchased the Ballard place at Hampton. It is situated opposite the Union house, and is regarded as one of the most desirable residences in the town.

The schooner Gulnare, Goodwin master, was lying in York harbor on Friday, cleared for the "isles of the sea."

How Children had "Fun."

On a summer day, they went to play,
Down the road to Deacon Jones' pasture;
Dick climbed the tree, Victo led so gay;
The hours were spent in fun and laughter.
That night, those youngsters pulled with pain,
Yes, the funny Dick and Victoria;
The gripes were of the green apple kind,
But quickly cured by **Castoria.**

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere Twenty-five cents a bottle. eod&wtjan22

Amos L. Allen, of Alfred for several years past clerk of courts for York county, has been appointed clerk to the judiciary committee at Washington, D. C.

The fish receipts at Gloucester, Mass., last week, were unusually light, comprising 69,000 lbs. codfish, 42,000 lbs. halibut, 29,000 lbs. of hake, 28,000 lbs. of cusk, 3000 lbs. of haddock, and 755 quintals of cured mixed fish. Only one arrival was reported there on Saturday, viz., the schooner Ellen Law, from Georges with 12,000 lbs. of cod and 200 lbs. of halibut.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "it's the best dollar I ever invested."

LEBANON, N. H., Feb. 19, 1879.

MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.

Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

☞ A gentleman who has been suffering from the *Debility* and *Languor* peculiar to this season, says: "HOOD'S SARSAPARILLA is putting new life right into me. I have gained ten pounds since I began to take it." Has taken two bottles.
